PROJECT: DAPL/Dakota Access Pipeline 30"

TRACT NUMBER: ND-MT-029.000

PARCEL ID: 19-0015000

COUNTY: Mountrail

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated January 30, 2015, is between Stanley Community Hospital Board of Directors, as Trustees for Stanley Community Hospital Association, whose mailing address P.O. Box 399 Stanley, ND 58784 (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 151.55 acres more or less, being situated in the Northwest Quarter (NW1/4), less Highway Right of Way in Section Thirty-one (31), Township One Hundred Fifty-six (156) North, Range Ninety-two (92) West of the 5th P.M. more particularly described in Deed of Personal Representative dated January 16th, 1980 from Morris T. Nelson Personal Representative of the Estate of T. H. Reierson, a/k/a Thorstein H. Reierson, deceased to Stanley Community Hospital Board of Directors, as Trustees for Stanley Community Hospital Association, recorded as Document #239229, office of County Recorder, of Mountrail County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as

determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the

Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 30 day of January, 2015.

**STATE OF NORTH DAKOTA
BOARD OF UNIVERSITY AND SCHOOL LANDS**

The State of North Dakota acting by and through the Board of University and School Lands and its agent, the Commissioner of University and School Lands (GRANTOR), in consideration of \$273,236.75, which has been received, conveys to DAKOTA ACCESS LLC, 1300 MAIN ST, HOUSTON, TX 77002 (GRANTEE), an easement to construct, operate, maintain and remove one 12-inch diameter steel oil transmission pipeline with the right of ingress and egress, over certain land hereafter referred to as the "easement area", which is a strip of land 33.0 feet wide, 16.5 feet on each side of the following described centerline:

N2 of Section 36, T156N, R93W, Mountrail County

Commencing at a 2-inch aluminum cap stamped "LS 6948" found for the northeast corner of said Section 36; thence South 01 degrees 42 minutes 32 seconds East along the east line of said Section 36, a distance of 390.74 feet to the Point of Beginning; thence South 88 degrees 18 minutes 50 seconds West, a distance of 152.27 feet; thence South 85 degrees 24 minutes 34 seconds West, a distance of 544.17 feet; thence South 85 degrees 05 minutes 27 seconds West, a distance of 285.73 feet; thence South 84 degrees 23 minutes 28 seconds West, a distance of 1013.05 feet; thence South 84 degrees 29 minutes 58 seconds West, a distance of 1073.31 feet; thence South 86 degrees 02 minutes 15 seconds West, a distance of 327.98 feet; thence South 85 degrees 55 minutes 10 seconds West, a distance of 358.81 feet; thence South 85 degrees 01 minutes 14 seconds West, a distance of 534.65 feet; thence South 85 degrees 18 minutes 11 seconds West, a distance of 231.11 feet; thence South 84 degrees 53 minutes 45 seconds West, a distance of 459.75 feet; thence South 84 degrees 57 minutes 10 seconds West, a distance of 289.06 feet; thence South 84 degrees 04 minutes 36 seconds West, a distance of 19.55 feet to the west line of said Section 36 and thus terminating, said ending point being located South 01 degrees 37 minutes 31 seconds East along the west line of said Section 36. The centerline is 5,289.43 feet or 320.57 rods long, and the easement area contains 4.01 acres, more or less. The easement area is further described and illustrated in Exhibits "A1-A2" which are attached to and are a part of this easement.

N2 of Section 36, T156N, R94W, Mountrail County

Commencing at a 2-inch aluminum cap stamped "HORGAN SURVEYING" found for the northeast corner of said Section 36; thence South 01 degrees 43 minutes 44 seconds East along the east line of said Section 36, a distance of 1,849.39 feet to the Point of Beginning; thence South 81 degrees 06 minutes 46 seconds West, a distance of 392.91 feet; thence South 80 degrees 31 minutes 45 seconds West, a distance of 609.48 feet; thence South 81 degrees 10 minutes 35 seconds West, a distance of 1214.27; thence South 80 degrees 39 minutes 21 seconds West, a distance of 959.87 feet; thence South 81 degrees 10 minutes 56 seconds West, a distance of 1470.72 feet; thence South 80 degrees 58 minutes 29 seconds West, a distance of 671.43 feet to the west line of said Section 36 and thus terminating, said ending point being located South 01 degrees 45 minutes 05 seconds East along the west line of said Section 36. The centerline is 5,318.68 feet or 322.34 rods long, and the easement area contains 4.03 acres, more or less. The easement area is further described and illustrated in Exhibits "A3-A4" which are attached to and are a part of this easement.

1. The Oil Transmission Pipeline shall be built only on the centerline(s) as described above. GRANTEE may also use temporary work space, additional temporary work space, and temporary access road as depicted on Exhibits "A1-A4" as part of a construction right of way. This construction right of way shall be subject to the topsoil reservation and reclamation provisions of this easement and must be abandoned upon the completion of construction and reclamation.
2. GRANTEE agrees that there will be no surface disturbance or surface occupancy of the five (5) segment(s) of the easement area that are designated for Oil Transmission Pipeline installation by horizontal boring as specifically shown on Exhibits "A1-A4" without written permission from GRANTOR.
3. The top of the Oil Transmission Pipeline must be buried at least 48 inches below the ground's surface.

4. GRANTEE may install the following described appurtenance(s) upon the surface or at a depth less than 36 inches: N/A. For this/these additional appurtenance(s), GRANTEE has paid N/A as further consideration. GRANTEE shall, when necessary, protect all above ground appurtenances with a fence adequate to prevent livestock access and shall paint all above ground structures; except wire fences, anchors, guy wires, steel towers, and wood poles; with earth tone colors.
5. If construction of the Oil Transmission Pipeline is not completed within two (2) years after GRANTOR signs this easement, this easement automatically terminates. GRANTOR, at GRANTOR's sole discretion, can extend the construction deadline upon request for amendment from GRANTEE, however, GRANTEE's request must be submitted prior to the construction deadline expiration date.
6. GRANTEE shall make a satisfactory settlement with the surface tenant for damage to seeded annual crops, fences or other improvements owned by the tenant, caused by construction, operation, maintenance or removal of the Oil Transmission Pipeline and shall notify the surface tenant of the construction schedule at least one week before construction.
7. GRANTEE, or its agent, shall have a legible copy of this easement with them on site for reference during construction, operation, maintenance or reclamation and shall present the copy upon GRANTOR's request.
8. This easement is subject to all of the GRANTOR's existing rights and privileges.
9. If, prior to or during construction, archeological or paleontological items are discovered or such items are disturbed, GRANTEE shall cease construction activities immediately. GRANTEE shall then promptly notify GRANTOR and must not resume construction until written approval is given by GRANTOR.
10. GRANTEE shall, prior to construction, maintenance or removal, reserve the top 12 inches of soil from areas subject to topsoil and subsoil mixing. The reserved soil must be stockpiled to minimize wind and water erosion. Upon completion of construction, and maintenance or removal, GRANTEE shall promptly reclaim the disturbed area. It must be recontoured to conform to the adjacent natural topography, rocks exposed by excavation must be hauled off or reburied on the property, the reserved soil must be evenly respread over the disturbed area, and the entire disturbed area must be revegetated with a mixture of native perennial grasses as shown in Exhibit "B". Reclamation is not complete until rocks are removed from the surface, erosion is controlled and the surface is revegetated with a mixture of native perennial grasses.
11. GRANTEE shall implement reasonable measures to prevent accelerated erosion. If an erosion problem develops, GRANTEE shall promptly take the necessary actions to correct it and shall repair any erosion damage.
12. GRANTEE shall not discharge oil, gas liquids, salt water, or any other hazardous liquids or toxic substances onto the right-of-way or land adjacent to the right-of-way. All discharges of oil, gas liquids, salt water, or other hazardous liquids or toxic substances shall be stopped as soon as possible after discovery and acted upon immediately to halt movement of such discharges. Any such discharges shall be reported immediately to the GRANTOR. The GRANTEE shall then restore the affected area as closely as possible to its original condition.
13. GRANTEE shall control all noxious weeds in the easement area.
14. GRANTEE may cut or trim trees and shrubs, but only to the extent they interfere with or endanger the operation or maintenance of the Oil Transmission Pipeline.
15. GRANTEE shall maintain the natural water flow and drainage.
16. GRANTEE shall take necessary precautions to prevent fires. In the event of a fire caused by the GRANTEE or its agent, GRANTEE shall compensate the GRANTOR's surface lessee(s) for their losses including forage, crop and any other losses; and shall compensate GRANTOR for any loss it suffers due to the fire.

EASEMENT: Oil Transmission Pipeline

ROW #7677 (Pg 3)

17. GRANTEE shall conduct all activities associated with the Oil Transmission Pipeline in a manner that avoids the degradation of air, land, and water quality and that protects the area's visual resources.
18. GRANTOR reserves the right to use the easement area and to allow others to use the easement area for purposes compatible with GRANTEE's use. If someone other than GRANTOR uses the easement area in a manner inconsistent with GRANTEE's use, GRANTOR is not liable or responsible.
19. Through this easement, GRANTEE is not acquiring any subsurface interest. Subsurface interests include, but are not limited to oil, gas, coal, cement materials, sodium sulfate, sand and gravel, scoria, road material, building stone, chemical substances, metallic ores, uranium ores, or colloidal or other clays. If any subsurface interest is or will likely be excluded from mining or development because of the presence of this easement or the Oil Transmission Pipeline allowed by this easement, or if the location of the Oil Transmission Pipeline interferes or will likely interfere with the mining or development of subsurface interests outside of the easement area, GRANTOR may take one of the following actions upon sixty (60) days written notice to GRANTEE.
1. Require GRANTEE to compensate GRANTOR, at an amount mutually agreed to by GRANTOR and GRANTEE, for the loss of royalties GRANTOR incurs because of the easement's presence; or
 2. Require GRANTEE, at GRANTEE's expense, to move the Oil Transmission Pipeline to another location within the affected tract, if it is determined by the GRANTOR that a suitable location exists within the tract. GRANTEE has three hundred sixty-five (365) days to move the Oil Transmission Pipeline upon receiving written notice. GRANTOR agrees to grant a new easement for such relocated Oil Transmission Pipeline without additional compensation.

Failure to agree upon compensation or an alternative location that accommodates subsurface mineral development is grounds for GRANTOR to terminate the easement.

20. If GRANTOR determines at any time during the existence of the easement, that the easement negatively interferes with or in any manner and to any extent affects the marketability, market value, development, or the value for development of the state-owned land specifically described below, GRANTOR may take any one of the following actions upon sixty (60) days written notice to the GRANTEE.
1. Require GRANTEE to compensate GRANTOR, at an amount mutually agreed to by GRANTOR and GRANTEE, for the loss of value GRANTOR incurs because of the easement's presence; or
 2. Require GRANTEE, at GRANTEE's expense, to move the Oil Transmission Pipeline to another location within the affected tract, if it is determined by the GRANTOR that a suitable location exists within the tract. GRANTEE has three hundred sixty-five (365) days to move the Oil Transmission Pipeline upon receiving written notice. GRANTOR agrees to grant a new easement for such relocated Oil Transmission Pipeline without additional compensation.

Failure to agree upon compensation or an alternative location is grounds for GRANTOR to terminate the easement.

21. GRANTEE agrees to defend, indemnify and hold harmless GRANTOR from any claims by any person that are in any way related to GRANTEE's acts or omissions in its use of the easement area, including all costs, expenses, and reasonable attorney fees that in any manner result from or arise out of this agreement. It is GRANTEE's exclusive right and responsibility to construct, maintain, and remove the Oil Transmission Pipeline. GRANTEE further accepts liability and indemnifies GRANTOR, and its officers and employees, from all costs, expenses and reasonable attorney fees incurred in establishing and litigating the indemnification coverage provided above. The legal defense provided by GRANTEE to the GRANTOR under this paragraph must be free

EASEMENT: Oil Transmission Pipeline

ROW #7677 (Pg 4)

of any conflicts of interest, even if this requires GRANTEE to retain separate legal counsel for GRANTOR. The obligations of this paragraph shall continue after this agreement terminates.

22. Any fixtures, structures, installations or facilities constructed or installed by GRANTEE, are the property of GRANTEE and may be removed by GRANTEE at any time.
23. GRANTEE shall remove all improvements, both above ground and underground, from the easement area when the easement is abandoned or in any other way terminated, unless authorized to do otherwise in writing by GRANTOR.
24. This easement shall be a covenant running with the land and shall be binding on the heirs, successors, and assigns of the parties hereto.
25. This easement is subject to all existing easements that are currently of record in the office of the county clerk of the county where such land is located and nothing in this easement supersedes any rights previously granted that are currently existing and of record.
26. GRANTOR neither warrants nor agrees to defend title to the easement area.
27. This easement is also subject to the conditions in Exhibits "A1-A4" and "B" which are attached and made a part of this easement.

Dated this 31st day of March, 2016, at Bismarck, North Dakota.

GRANTOR:

STATE OF NORTH DAKOTA
BOARD OF UNIVERSITY & SCHOOL LANDS

Lance D. Gaebe, Commissioner

SURVEYOR'S CERTIFICATE

I, Calvin Heinly, a Licensed Land Surveyor in and for the State of North Dakota, do hereby certify that at the request of the North Dakota Department of University and School Lands, did complete a survey for the purpose of establishing the permanent pipeline easement located in the North Half (N1/2) of Section 36, Township 156 North, Range 93 West of the 5th P.M., Mountrail County, North Dakota, said easement being comprised of a strip of land 33 feet in width lying 16.5 feet on each side of the following described centerline:

LEGAL DESCRIPTION OF PERMANENT EASEMENT: Commencing at a 2-inch aluminum cap stamped "LS 6948" found for the northeast corner of said Section 36; thence South 01 degrees 42 minutes 32 seconds East along the east line of said Section 36, a distance of 390.74 feet to the Point of Beginning; thence South 88 degrees 18 minutes 50 seconds West, a distance of 152.27 feet; thence South 85 degrees 24 minutes 34 seconds West, a distance of 544.17 feet; thence South 85 degrees 05 minutes 27 seconds West, a distance of 285.73 feet; thence South 84 degrees 23 minutes 28 seconds West, a distance of 1013.05 feet; thence South 84 degrees 29 minutes 58 seconds West, a distance of 1073.31 feet; thence South 86 degrees 02 minutes 15 seconds West, a distance of 327.98 feet; thence South 85 degrees 55 minutes 10 seconds West, a distance of 358.81 feet; thence South 85 degrees 01 minutes 14 seconds West, a distance of 534.65 feet; thence South 85 degrees 18 minutes 11 seconds West, a distance of 231.11 feet; thence South 84 degrees 53 minutes 45 seconds West, a distance of 459.75 feet; thence South 84 degrees 57 minutes 10 seconds West, a distance of 289.06 feet; thence South 84 degrees 04 minutes 36 seconds West, a distance of 19.55 feet to the west line of said Section 36 and thus terminating, said ending point being located South 01 degrees 37 minutes 31 seconds East along the west line of said Section 36, a distance of 682.38 feet from the northwest corner of said Section 36 and containing 4.01 acres.

This Certificate is to the best of my knowledge and belief a true description of said survey. I hereby certify that I have executed this document this 12 day of October, 2015.

SURVEYOR'S CERTIFICATE

I, Calvin Heinly, a Licensed Land Surveyor in and for the State of North Dakota, do hereby certify that at the request of the North Dakota Department of University and School Lands, did complete a survey for the purpose of establishing the permanent pipeline easement located in the North Half (N1/2) of Section 36, Township 156 North, Range 94 West of the 5th P.M., Mountrail County, North Dakota, said easement being comprised of a strip of land 33 feet in width lying 16.5 feet on each side of the following described centerline:

LEGAL DESCRIPTION OF PERMANENT EASEMENT: Commencing at a 2-inch aluminum cap stamped "HORGAN SURVEYING" found for the northeast corner of said Section 36; thence South 01 degrees 43 minutes 44 seconds East along the east line of said Section 36, a distance of 1,849.39 feet to the Point of Beginning; thence South 81 degrees 06 minutes 46 seconds West, a distance of 392.91 feet; thence South 80 degrees 31 minutes 45 seconds West, a distance of 609.48 feet; thence South 81 degrees 10 minutes 35 seconds West, a distance of 1214.27; thence South 80 degrees 39 minutes 21 seconds West, a distance of 959.87 feet; thence South 81 degrees 10 minutes 56 seconds West, a distance of 1470.72 feet; thence South 80 degrees 58 minutes 29 seconds West, a distance of 671.43 feet to the west line of said Section 36 and thus terminating, said ending point being located South 01 degrees 45 minutes 05 seconds East along the west line of said Section 36, a distance of 2,538.69 feet from the northwest corner of said Section 36 and containing 4.03 acres.

This Certificate is to the best of my knowledge and belief a true description of said survey. I hereby certify that I have executed this document this 12 day of October, 2015.

Calvin Heinly, RLS, No. LS-2618

Native Grass Seeding Specifications

<u>Species</u>	<u>lbs.</u> <u>PLS*/acre</u>
Western wheatgrass	8
Slender wheatgrass	5
Green needlegrass	4
Side-oats grama	<u>2</u>
	19

*PLS - Pure Live Seed (based on 50 PLS/sq. feet)

1. The seed bed should be firmly packed (footprints left in the soil should be less than 1/2 inch deep).
2. An early spring seeding (before May 24th) is preferred. A dormant fall seeding (after October 20th) is acceptable.
3. A cover crop of oats at 10 lbs. PLS/acre must be seeded on the disturbed area.
4. A drill designed specifically for native grass seeding will give the best seeding results. The seed should be planted at a depth of 1/2 to 1 inch. Precaution must be taken not to plant the seed too deeply in the soil or poor germination will result.
5. On areas where equipment cannot be used, broadcast seed and rake or drag to cover seed. Where seed is broadcast, double the seeding rate.
6. Use only North Dakota certified seed.

Caution: Be sure to clean out the drill before seeding to avoid any contamination with smooth brome grass or crested wheatgrass that may remain in the drill from previous use on private land. These are invasive grasses in native prairie and are not allowed on school trust lands. Contamination with or use of crested wheatgrass or smooth brome will result in the applicant being required to spray out the grass and reseed with the above native grass seed mixture. Sweet clover and alfalfa are also not allowed – only the above native grass seed mixture may be used for revegetation on school trust land.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated March 14th, 2015, is between Rodney W. Barstad and Patricia M. Barstad, husband and wife, as joint tenants, whose mailing address is 9151 62nd Street Northwest, Ross, ND 58776 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 240 acres of land, more or less, situated in the N 1/2 of the SE1/4 and the NE1/4 of Section 35, Township 156 North, Range 93 West, more particularly described in Contract for Deed dated March 9, 2009 from Julia Barstad, a widow, Seller to Rodney W. Barstad and Patricia M. Barstad, husband and wife as joint tenants, Buyers, recorded under Document No. 352976, Office of the County Recorder, Mountrail County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline

as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the

Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 14th day of March, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated February 3, 2016, is between Michael J. Sorenson and Kimberly D. Sorenson, husband and wife, as joint tenants whose mailing address is 9039 9th Street Northwest, Ross, ND 58776 (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will (all in connection with construction, maintenance or repair) one pipeline not to exceed thirty inches (**30"**) in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 230 acres of land, more or less, situated in the NW¼, N½SW¼ less the S½S½S½N½SW¼ of Section 35, Township 156 North, Range 93 West, County of Mountrail, State of North Dakota, more particularly described in that Warranty Deed dated February 24, 2015 from Redland, LLC to Michael J. Sorenson and Kimberly D. Sorenson, husband and wife, as joint tenants, recorded as Document Number 417195 in the office of the County Recorder, Mountrail County, North Dakota, less and except any conveyance heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

1P.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.
 - a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.
 - b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.
2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.
3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.
4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Any payment tendered by Grantee to Grantor as consideration for this agreement does not cover any actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

6. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

7. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

8. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

9. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

10. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

11. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

16. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 3rd day of February, 2016.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated FEBRUARY 25, 2015, is between Redland LLC, a limited liability company (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1505 North Miller Street Suite 260, Wenatchee WA 98801-1597 and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 230.00 acres more or less, being situated in N½SW¼ less the S½S½S½ and the NW¼ of Section 35, Township 156 North, Range 93 West, more particularly described in that Warranty Deed dated 5-15-2012 from Gregory T. Johnson to Redland LLC, recorded as Document Number 390279 in the office of the Mountrail County, North Dakota Recorder, less and except any conveyance heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this

28

Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as

good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding

use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, which have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

AMENDMENT TO EASEMENT AGREEMENT

THE STATE OF NORTH DAKOTA)

COUNTY OF MOUNTRAIL)

THIS AGREEMENT, made and entered into as of this 19th day of February 2016, by and between DAKOTA ACCESS, LLC, (hereinafter referred to as "Grantee"), and Clayton M. Howell, hereinafter referred to as "Grantor" whether one or more.

WITNESSETH:

WHEREAS, by instrument dated January 9th, 2015 recorded under document number 419895 of the County Recorder Records of Mountrail County, North Dakota, Grantor granted to Grantee, an easement (the "Easement") on, over and across certain lands in Mountrail County, North Dakota for the right to lay, maintain, operate, replace, repair and remove one pipeline only within a fifty foot easement for the transportation of oil and natural gas and/or liquid hydrocarbons, and substances produced therefrom; and

WHEREAS, Grantor and Grantee have agreed to a change in the location of the pipeline and desire to amend language in the Easement pertaining to such change.

NOW, THEREFORE, for and in consideration of \$10.00 and other good and valuable consideration, Grantor and Grantee hereby agree to amend the Easement by deleting therefrom the Exhibit A attached thereto and substituting therefor the Exhibit A attached hereto which shows the relocated location of the pipeline easement. The parties further agree that within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, or to amend this Agreement to include such new Exhibit A-1, and to record or re-record such affidavit, or amendment with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, or recorded amendment.

Except as amended herein, the Agreements shall remain in full force and effect as written.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated July 14, 2015, is between Jean Marie Tykeson, whose mailing address 404 East Cherry Avenue, Lompoc, CA 93436, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 136 acres of land, more or less, situated in the Northwest Quarter (NW1/4), less Outlot 1 and Outlot 1A of Section Thirty-four (34), Township One Hundred Fifty-six (156) North, Range Ninety-three (93) West of the 5th P.M., more particularly described in Warranty Deed dated September 21st, 2010 from Raymond O. Anderson, Trustee of the Oscar Anderson Trust U/A dated February 11, 1987 unto Jean Marie Tykeson, Eileen A. Cvancara, Beverly May Fretheim, Constance Rosencrans, Florence Rae Sinkler and Raymond O. Anderson, as tenants in common, recorded as Document #371960, Office of County Recorder, of Mountrail County, North Dakota, less and except any conveyances heretofore for made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 19, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Mountrail County, North Dakota, such Prior Easement being filed of record as file number 419039, of the Deed Records of Mountrail County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so

chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.
10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.
11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.
12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.
13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.
14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.
15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.
16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.
17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.
18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated MARCH 14, 2015, is between **Rodney W. Barstad and Patricia M. Barstad, as joint tenants**, whose mailing **9151 62nd Street Northwest Ross, ND 58776-9044** (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (**30"**) in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 160.00 acres more or less, being situated in the Northeast Quarter (NE1/4) of Section Thirty-three (33), Township One Hundred Fifty-six (156) North, Range Ninety-three (93) West, more particularly described in Warranty Deed dated July 30th, 2002 from Bernice M. Hanson, a single person and Barbara J. Ward, a single person unto Rodney W. Barstad and Patricia M. Barstad, as joint tenants, recorded as Document #307581, office of County Recorder, of Mountrail County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline

Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 14th day of March, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated JUNE 23, 2015, is between Duane R. Liffriq and Doris E. Liffriq, husband and wife, whose mailing address is Box 991, Williston, ND 58802-0991, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 320 acres of land, more or less, situated in the NE ¼ of Section 32 and the NW ¼ of Section 33, Township 156 N, Range 93 W, more particularly described in that Warranty Deed dated December 15, 1987 from Duane R. Liffriq to Duane R. Liffriq and Doris E. Liffriq, husband and wife, recorded as Document Number 267856 in Book 552 at Page 306 in the office of the Mountrail County, North Dakota Recorder, less and except any conveyance heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as

determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key, Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated February 20th, 2015, is between Shawn Iwen, whose mailing address is P.O. Box 212, Stanley, ND 58784, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the Northwest Quarter (NW1/4) of Section Thirty-two (32), Township One Hundred Fifty-six (156) North, Range Ninety-three (93) West of the 5th P.M., more particularly described in Warranty Deed dated December 13th, 2010 from Doris Quigley unto Shawn Iwen, recorded as Document #374708, office of County Recorder, of Mountrail County, North Dakota, less and except any conveyances heretofore for made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

^

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees to commence construction of its pipeline no later than five (5) years from the date of this Easement Agreement is executed; failure to so commence construction of the pipeline will result in easement termination unless the parties renegotiate the terms prior to the date of termination.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the

Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

EXECUTED this 20th day of February, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated December 03, 2015, is between Gene E. Brown also known as Gene Brown and Patricia K. Brown, individually and as husband and wife, as joint tenants and not as tenants in common whose mailing address is 9561 61st Street Northwest, Ross, ND 58776 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), (iii) access easements not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement and not to exceed fifty feet (50') in width for access to and from the below described surface site ("Access Easement"), and (iv) a fifty foot by seventy five foot (50' x 75') surface site, such surface site to be used for valves, risers, meters, pumps, electric facilities and lines, and associated pipeline facilities and the Access Easement(s) to be for ingress and egress, power lines and electric transmission or generation lines as may be needed to supply power to the facilities located on the surface site. The Pipeline Easement, the Temporary Construction Easement, and the Access Easement and the surface site (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 314.02 acres of land, more or less, situated in Lots 01 and 02, the E½NW¼ and the NE¼ of Section 31, Township 156 North, Range 93 West, Mountrail County, North Dakota, more particularly described in that Warranty Deed dated April 13, 2005 from Ralph W. Brown to Gene E. Brown and Patricia K. Brown, as joint tenants, recorded as Document Number 315746 in Book 702 Page 704, Register of Deeds, Mountrail County, North Dakota, less and except any conveyance heretofore made.

Exhibit A attached hereto is a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement and the surface site. The precise location of the Temporary Construction Easement or "workspace" will be in an area

LEB

832

immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee may supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement and the surface site. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement and the surface site shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances and above or below ground powerlines (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement, and the surface site and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees to commence construction of its pipeline no later than five (5) years from the date of this Easement Agreement is executed; failure to so commence construction of the pipeline will result in easement termination unless the parties renegotiate the terms prior to the date of termination.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. Grantee shall have the right to install gates and fencing around the surface site.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses,

provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement and the surface site. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 3rd day of December, 2015.

GRANTOR:

Gene E. Brown
Gene E. Brown, a/k/a Gene Brown

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated Aug 6th, 2015, 2015, is between Francis Gerald Zurich and Carol Faye Zurich, as joint tenants, whose mailing address is 1221 Park Place, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in connection with repair, improving, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the South Half of the Northeast Quarter (S1/2NE1/4) and the North Half of the Southeast Quarter (N1/2SE1/4) of Section Thirty-three (33), Township One Hundred Fifty-six (156) North, Range Ninety-four (94) West of the 5th P.M., more particularly described in Quit Claim Deed dated December 6, 2012 from Vernon O. Zurich and Ardis H. Zurich, as Trustees of the Vern and Ardis Zurich Trust U/A Dated September 27, 2010 to Francis Gerald Zurich and Carol Faye Zurich, as joint tenants, recorded as Document No. 396344, Office of County Recorder, Mountrail County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. For the same consideration, Grantor does also hereby GRANT, BARGAIN, SELL and CONVEY unto Grantee a temporary road access on, over, through, across and along the property, being twenty five feet (25') in width, twelve and one half feet (12.5') on each side of the centerline of said road access, as more particularly depicted in Exhibit "A", for Grantee and its employees, designees, contractors, successors and assigns, and all those acting by or on behalf of it, the right of ingress, egress, entry and access in, to, through, on, over, and across the road for the purposes of establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, adding, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting and repairing the pipeline (the "Road Access Easement").

7. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

8. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

9. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

10. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

11. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be ninety nine years (99), and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. In accordance with the provisions of Section 47-05-02.1 of the North Dakota Century Code, the duration of the easement granted herein is limited to ninety nine (99) years.

16. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

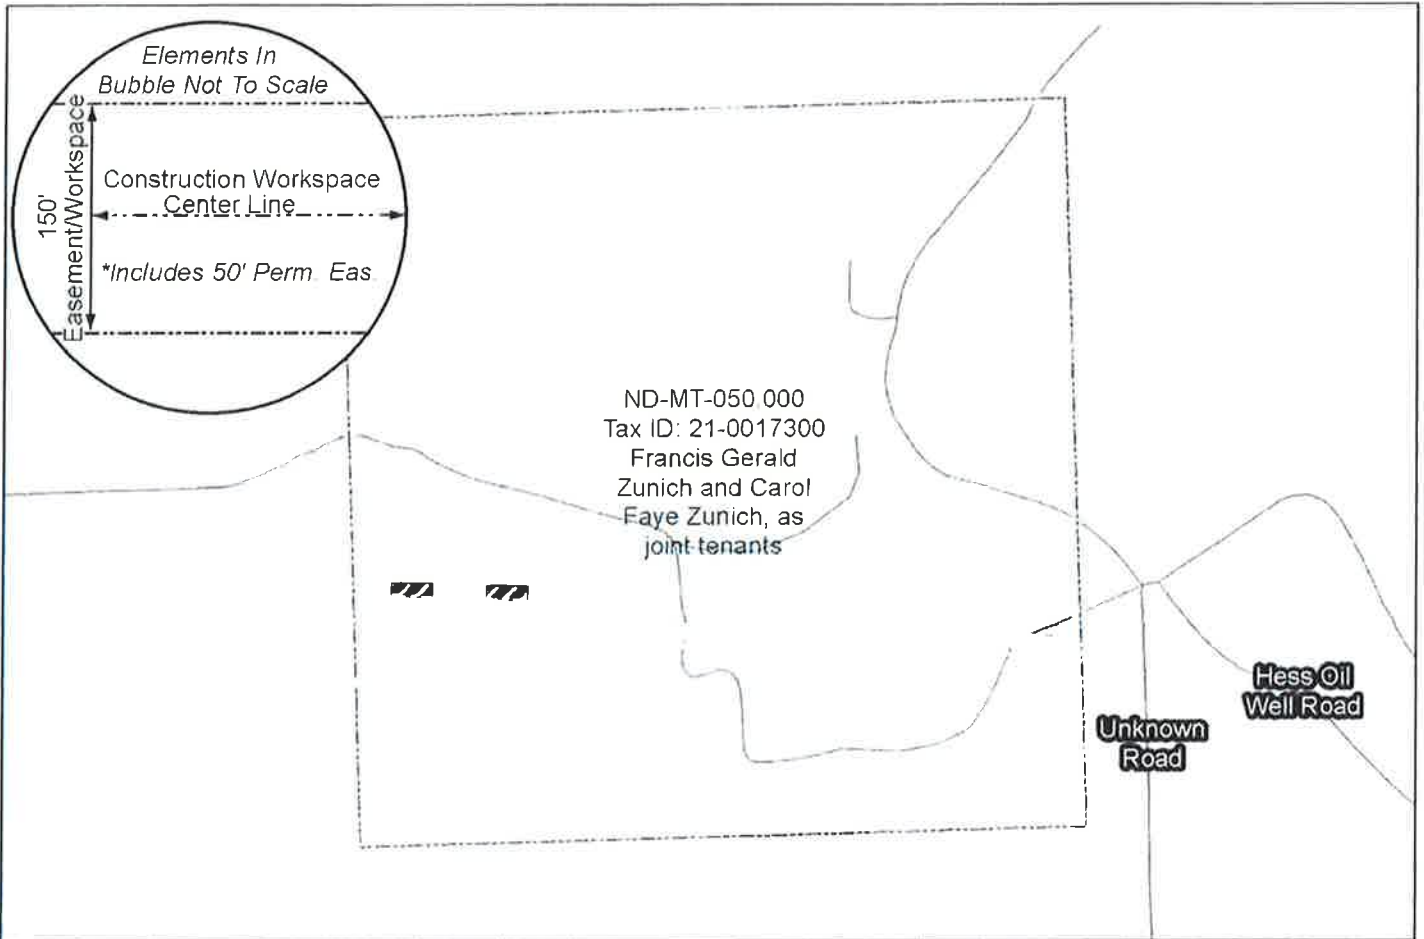

17. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

18. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

19. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated Aug 6 2015, 2015, is between **Francis Gerald Zurich and Carol Faye Zurich, as joint tenants**, whose mailing address is **1221 Park Place, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in connection with repair, improving, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed **thirty** inches (**30"**) in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the Southwest Quarter (SW1/4) of Section Thirty-three (33), Township One Hundred Fifty-six (156) North, Range Ninety-four (94) West of the 5th P.M., more particularly described in Quit Claim Deed dated December 6, 2012 from Vernon O. Zurich and Ardis H. Zurich, as Trustees of the Vern and Ardis Zurich Trust U/A Dated September 27, 2010 to Francis Gerald Zurich and Carol Faye Zurich, as joint tenants, recorded as Document #396344, Office of County Recorder, Mountrail County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements.

Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. For the same consideration, Grantor does also hereby GRANT, BARGAIN, SELL and CONVEY unto Grantee a temporary road access on, over, through, across and along the property, being twenty five feet (25') in width, twelve and one half feet (12.5') on each side of the centerline of said road access, as more particularly depicted in Exhibit "A", for Grantee and its employees, designees, contractors, successors and assigns, and all those acting by or on behalf of it, the right of ingress, egress, entry and access in, to, through, on, over, and across the road for the purposes of establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, adding, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting and repairing the pipeline (the "Road Access Easement").

7. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

8. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

9. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or

prevent the construction of any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

10. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

11. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be ninety nine years (99), and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. In accordance with the provisions of Section 47-05-02.1 of the North Dakota Century Code, the duration of the easement granted herein is limited to ninety nine (99) years.

16. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

17. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

18. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

19. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

20. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this

Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 6th day of August, 2015.

GRANTOR:

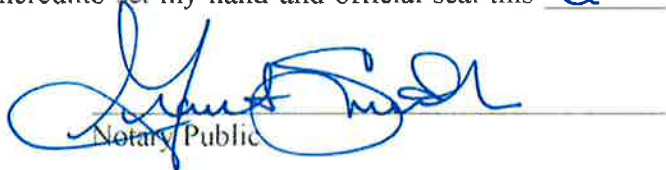

Francis Gerald Zurich

ACKNOWLEDGMENT

State of North Dakota
County of Williams)ss

BEFORE ME, the undersigned authority, on this day personally appeared Francis Gerald Zurich known to me to be the person(s) whose name is subscribed to the foregoing instrument and acknowledged to me that he/she/they executed the same for the purposes and consideration therein expressed.

IN TESTIMONY WHEREOF, I have hereunto set my hand and official seal this 6th day of August, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated August 5, 2015, is between Omar J. Hanson and Janice L. Hanson, husband and wife, as joint tenants, whose mailing address is P.O. Box 11, McGregor, ND 58755, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 147.95 acres of land, more or less, situated in the SE¼, Section 32, Township 156 North, Range 94 West of the 5th P.M., Mountrail County, North Dakota, more particularly described in Quit Deed dated December 12, 2002 from Omar J. Hanson and Janice L. Hanson, husband and wife, to Omar J. Hanson and Janice L. Hanson, husband and wife, as joint tenants recorded as Document Number 308079, office of County Recorder, Mountrail County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as

determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

COUNTY: Mountrail

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated August 17, 2015, is between Charles Ramberg and Roberta Ramberg, as joint tenants, whose mailing address is 5960 101st Avenue Northwest, White Earth, ND 58794, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the SW $\frac{1}{4}$ of Section 32, Township 156 North, Range 94 West., County of Mountrail, State of North Dakota, more particularly described in Warranty Deed dated July 08, 1997 from Maynard Nesvik, single unto Charles Ramberg and Roberta Ramberg, as joint tenants, and not as tenants in common, recorded as Document Number 297724, office of County Recorder, of Mountrail County, North Dakota, less and except any conveyances heretofore for made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements.

Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September, 23rd, 2015, is between Benjamyn L. Miller, whose mailing address is 16033 1st Street Southeast, Hillsboro, ND 58045, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of (within the boundaries of the Pipeline Easement), abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 309.94 acres of land, more or less, situated in the E1/2SE1/4; W1/2SE1/4; E1/2SW1/4; Lot 3 and Lot 4, Section 31, Township 156 North, Range 94 West, more particularly described in Trustee's Deed dated January 23, 2007 from Rodney H. Miller, as Successor Trustee of the Agnes J. Hanson Irrevocable Adverse Claims Trust dated June 15, 1993 and as Successor Trustee to "Agnes J. Hanson Trustee, UDT dated June 15, 1993," aka "Agnes J. Hanson, Trustee of the Agnes J. Hanson Trust, dated June 15, 1993," to Benjamyn L. Miller, recorded under Document No. 328631, Office of the Recorder, Mountrail County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area

BM

immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

BM

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement occurring during the original construction of the pipeline. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

EXHIBIT "B"
TO
EASEMENT AGREEMENT

This Agreement is attached to and by reference made a part of the Easement Agreement dated September 23rd, 2015, by and between BENJAMYN L. MILLER., Grantor, and DAKOTA ACCESS, LLC, Grantee, covering the following described tract of land situated in Mountrail County, North Dakota, to-wit:

All that certain lot, tract or parcel of land, containing 309.94 acres of land, more or less, situated in the E $\frac{1}{2}$ SE $\frac{1}{4}$; W $\frac{1}{2}$ SE $\frac{1}{4}$; E $\frac{1}{2}$ SW $\frac{1}{4}$; Lot 3 and Lot 4, Section 31, Township 156 North, Range 94 West, more particularly described in Trustee's Deed dated January 23, 2007 from Rodney H. Miller, as Successor Trustee of the Agnes J. Hanson Irrevocable Adverse Claims Trust dated June 15, 1993 and as Successor Trustee to "Agnes J. Hanson Trustee, UDT dated June 15, 1993," aka "Agnes J. Hanson, Trustee of the Agnes J. Hanson Trust, dated June 15, 1993," to Benjamyn L. Miller, recorded under Document No. 328631, Office of the Recorder, Mountrail County, North Dakota, less and except any conveyances heretofore made.

Notwithstanding any provisions of the attached and foregoing Easement Agreement to the contrary, the said Easement Agreement shall be subject to the following conditions:

1. Grantee shall allow no surface equipment or apparatus associated with the pipelines to be installed on Grantor's land with the exception of cathodic test leads and pipeline markers as outlined in Paragraph 1 of the Easement Agreement, without separate written consent from Grantor.
2. Grantee agrees that its right of ingress and egress after the initial construction of the pipeline shall be limited to the width of the conveyed right-of-way, except as to access the right-of-way in the most practical and least burdensome manner to Grantor and Grantor's tenant(s).
3. Grantee shall be liable for any damages (both ordinary damages or damages in excess of ordinary damages) to the land of Grantor, property of Grantor or tenant(s), damages or injury to Grantor, tenant(s), their families, guests and invites, caused by the negligent operations of Grantee, its agents, employees, contractors, and subcontracts on said property. Grantee agrees to indemnify, defend and hold the undersigned harmless from the claims and demands of all parties arising out of Grantee's negligent activities hereunder. The Grantee undertakes to and does hereby agree to defend, hold harmless and indemnify Grantor, its successors, heirs, or assigns, from any and all liability, costs, or judgments against Grantor arising out of any environmental damage caused by the Grantee on the premises or Grantee's noncompliance with any environmental law, order, administrative law or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either, having jurisdiction.

County Recorder
Mountrail County

DW BM

4. Upon final abandonment of said pipeline, Grantee shall comply with any rule or regulation concerning the condition the pipeline must be left in if it is abandoned and shall remain responsible for any hazardous or dangerous condition resulting from the pipeline if it is abandoned in the ground and left in place.

5. All disturbed surfaces which are not tilled crop land will be re-seeded with the same native grass or foliage as was present immediately prior to the pipeline installation, unless Grantor requests to leave the same "as is". Topsoil shall be set aside and replaced on the top of any disturbed land during restoration or covering of trenches dug for installation, repair, maintenance, replacement or removal of any pipeline. All tracks, ruts and equipment surface disturbances shall be removed by grading or filling in such tracks or ruts with topsoil after construction, maintenance or inspection.

6. Grantee will restore the surface to its original contour as nearly as practicable, the disturbance to which shall be occasioned by the construction, maintenance or operation of said pipeline under and through the above described land. as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full. Grantee shall remove all debris, pick rocks over three inches (3") in diameter brought to the surface, replace topsoil to as near preconstruction condition as possible, compact trench and cultivate the disturbed area. One year after construction is completed, Grantee shall also inspect, at Grantor's request, the pipeline easement and any ground which has sunk or "caved in" shall be restored to the contour as close to the original slope and contour as is reasonably practical.

7. Grantee agrees to bury all pipe at or below forty-eight inch (48") depth and to pay for any physical damage to crops, livestock, timber, fences, or other structural improvements located outside the above-described right-of-way and easement which are caused by construction, maintenance, operation, repairing, alteration, replacement or removal of said pipeline and appurtenant facilities. Furthermore, Grantee shall compensate Grantor or Grantor's tenant(s) for damages to crops, livestock, timber, and fences which may be occasioned upon said right-of-way during the maintenance of said pipeline after construction is completed. The said Grantor has a right to fully use and enjoy said premises, except as same may be necessary for the purposes herein conveyed to said Grantee.

8. Grantor, its successors and assigns, reserves all oil, gas and minerals on and under said lands and the right to farm, graze and otherwise fully use and enjoy said lands, provided Grantor agrees not to construct or create any obstruction, structure, or engineering work on the herein-conveyed right-of-way that will interfere with the rights and interests of Grantee herein-conveyed, and provided further that Grantee shall have the right hereafter to keep clear obstructions from the herein-conveyed right-of-way and ingress/egress easement. Grantee agrees to pay Grantor or any tenant, as their interests may appear, for actual damages to crops, pasture, timber, livestock, fences and other improvements on said premises which may arise from exercise of the rights herein-conveyed, including further maintenance of said pipeline.

9. Grantee agrees that it is its duty to inspect and maintain the pipeline on a regular basis to ensure the pipeline's integrity and safety.

10. Grantee will not allow salt water (other than incidental quantities) to pass through the pipeline.

11. Any easement or rights in favor of the Grantee created by the attached and foregoing Easement Agreement shall terminate and Grantee shall provide Grantor a termination statement if the pipeline referred to in the said Easement Agreement are not installed within 24 months after the Grantor executes the said Easement Agreement.

12. The Grantee shall have the right to assign this grant in whole or in part, but may not assign or grant others the right to install additional pipelines or utilities in the fifty foot (50') Pipeline Easement. Grantor is not prevented from conveying other easements that cross this easement provided that such easements or use by others does not damage or interfere with Grantee's use. To that extent, this is a non-exclusive easement.

13. The Grantee shall immediately notify the Grantor upon learning of any spill, leak, failure or threatened failure from or affecting any pipeline or surface facility located on the above-described right-of-way. Grantee shall provide Grantor and their tenant(s) with an emergency telephone number.

14. TO HAVE AND TO HOLD unto Grantee, its successors and assigns, subject to the pipeline installation requirement at paragraph 13 above, the easement, rights and privileges herein conveyed for so long as said easement is useful to Grantee for the purpose stated above, with no cessation of use for more than two (2) years.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated December 3, 2015, is between **Deon M. Iverson and Shana R. Iverson** whose mailing address is **5869 106th Avenue Northwest, Tioga, ND 58852** (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty inches (30")** in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160.24 acres of land, more or less, situated in the S1/2NE1/4, Lots 1 and 2 of Section 2, Township 155 North, Range 96 West, Williams County, North Dakota, as described in that certain Personal Representative's Deed dated June 07, 2010, from Brian L. Hove and Leon Iverson, as Co-Personal Representatives of the Estate of Marvin Iverson, deceased, Grantor, to Deon M. Iverson, also known as Deon Iverson and Shana R. Iverson, also known as Shana Iverson, husband and wife as joint tenants and not as tenants in common, recorded as Document No. 690478, Register of Deeds, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 20th, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 808100, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

SI
ML

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline. Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees to commence construction of its pipeline no later than five (5) years from the date of this Easement Agreement is executed; failure to so commence construction of the pipeline will result in easement termination unless the parties renegotiate the terms prior to the date of termination.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked,

SI
DJ

Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

SI
DI

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated FEBRUARY 20, 2015, is between Deon M. Iverson and Shana Ray Iverson, as joint tenants and not as tenants in common, whose mailing address is 5689 106th Avenue Northwest, Tioga, ND 58852-9253, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 80.4 acres of land, more or less, situated in Lot 3 and Lot 4 of Section 2, Township 155 North, Range 96 West, Williams County, North Dakota, as described in that certain Warranty Deed dated April 19, 2001 from Donald V. Hanson and Evelyn A. Hanson, husband and wife, to Deon M. Iverson and Shana Ray Iverson, as joint tenants and not as tenants in common, recorded under Instrument Number 595747, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

OT SI

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the

OT SI

Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

OF SI

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated November 19th, 2015, is between Richard L. Nelson, as Trustee of the Richard L. Nelson Revocable Living Trust under agreement dated February 14, 2012, whose mailing address is 10683 67th Street Northwest, Tioga, ND 58852-9008 (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160.22 acres of land, more or less, situated in Lot 1, SE1/4NE1/4 and E1/2SE1/4, in Section 3, Township 155 North, Range 96 West, Williams County, North Dakota, as described in that certain Quit Claim Deed dated March 13, 2012 from Richard L. Nelson and Sandra M. Nelson, husband and wife, Grantors, to Richard L. Nelson, as Trustee of the Richard L. Nelson Revocable Living Trust under agreement dated February 14, 2012, Grantee, recorded as Instrument Number 729991, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

R.L.N

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

AMENDMENT TO EASEMENT AGREEMENT

THE STATE OF NORTH DAKOTA)

COUNTY OF WILLIAMS)

THIS AGREEMENT, made and entered into as of this 3rd day of February, 2016, by and between DAKOTA ACCESS, LLC, (hereinafter referred to as "Grantee"), and First National Bank and Trust Company of Williston, North Dakota, Trustee of the Leslie R. Davidson Family Trust created under the Last Will and Testament of Leslie R. Davidson, dated September 18, 1981, hereinafter referred to as "Grantor" whether one or more.

WITNESSETH:

WHEREAS, by instrument dated December 15th, 2015 recorded under document number 817346 of the County Recorder Records of Williams County, North Dakota, Grantor granted to Grantee, an easement (the "Easement") on, over and across certain lands in Williams County, North Dakota for the right to lay, maintain, operate, replace, repair and remove one pipeline only within a fifty foot easement for the transportation of oil and natural gas and/or liquid hydrocarbons, and substances produced therefrom; and

WHEREAS, Grantor and Grantee have agreed to a change in the location of the pipeline and desire to amend language in the Easement pertaining to such change.

NOW, THEREFORE, for and in consideration of \$10.00 and other good and valuable consideration, Grantor and Grantee hereby agree to amend the Easement by deleting therefrom the Exhibit A attached thereto and substituting therefor the Exhibit A attached hereto which shows the relocated location of the pipeline easement. The parties further agree that within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, or to amend this Agreement to include such new Exhibit A-1, and to record or re-record such affidavit, or amendment with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, or recorded amendment.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated December 3, 2015, is between Deon M. Iverson and Shana R. Iverson whose mailing address is 5869 106th Avenue Northwest, Tioga, ND 58852 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty** inches (**30"**) in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 120 acres of land, more or less, situated in the S1/2NW1/4 and the NE1/4SW1/4 of Section 2, Township 155 North, Range 96 West, Williams County, North Dakota, more specifically described in Personal Representative's Deed dated June 7, 2010 from Brian L. Hove and Leon Iverson, Co-Personal Representatives of the Estate of Marvin Iverson, deceased to Deon M. Iverson, also known as Deon Iverson and Shana R. Iverson, also known as Shana Iverson, recorded under Instrument No. 690478, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 20th, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 808102, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

ST
01

WILLIAMS COUNTY, ND

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees to commence construction of its pipeline no later than five (5) years from the date of this Easement Agreement is executed; failure to so commence construction of the pipeline will result in easement termination unless the parties renegotiate the terms prior to the date of termination.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses,

SI
PI

provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

SF
DT

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated December 15, 2015, is between **First National Bank & Trust Company of Williston, North Dakota, Trustee of the Leslie R. Davidson Family Trust created under the Last Will and Testament of Leslie R. Davidson, dated September 18, 1981**, whose mailing address is PO Box 1827, Williston, ND 58802-1827, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC**, whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of Ten and No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in conjunction with repair, improving, operating, maintaining, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereinafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 320.42 acres of land, more or less, being Lots 2, 3, and 4, SW¼NE¼, W½SE¼, S½NW¼ of Section Three (3), Township One Hundred Fifty-five (155) North, Range Ninety-Six (96) West, Williams County, North Dakota, as described in that Personal Representative's Deed of Distribution dated October 23, 1984, from Doris Davidson, Personal Representative of the Estate of Leslie R. Davidson, to First National Bank & Trust Company of Williston, North Dakota, Trustee of the Leslie R. Davidson Family Trust created under the Last Will and Testament of Leslie R. Davidson, dated September 18, 1981, recorded under Document Number 469146, Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in conjunction with repair, improving, operating, maintaining, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's property.
 - a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.
 - b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.
2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.
3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, must be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.
4. The consideration paid by Grantee in this agreement includes the market value of the Easement, both permanent and temporary, conveyed by Grantor and ordinary damages to the Grantor's property, excluding the Easements, resulting from the initial construction of the pipeline, Grantor has been paid (or, if leased, Grantor's tenant has been paid) for ordinary damages caused to crops on the Pipeline Easement, Temporary Construction Easement, and

Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences to as good, or better condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle or not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities, Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for customary damages for removal of such improvements.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas and other minerals in, on an under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

817346

Page: 4 of 11

EAS \$40.00

WILLIAMS COUNTY, ND

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) represents that it/he/she/they is /are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor.

13. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

14. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

15. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representative, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, shall be recorded in the real estate records of the county or counties where Grantor's Property lies.

16. This Agreement, with the referenced Exhibits, contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

17. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

18. This Agreement is subject to the terms and conditions of Exhibit B, attached hereto.

Executed this 15th day of December, 2015.

GRANTOR:

First National Bank & Trust Company of Williston, North Dakota, Trustee of the Leslie R. Davidson Family Trust created under the Last Will and Testament of Leslie R. Davidson, dated September 18, 1981

By: Amy Wells
Its: Senior Vice-President/Trust Officer

WILLIAMS COUNTY, ND

EXHIBIT B
TO
PIPELINE RIGHT OF WAY GRANT

THIS EXHIBIT is attached to and by reference made a part of the Easement Agreement dated December 15, 2015, by and between **First National Bank & Trust Company of Williston, North Dakota, Trustee of the Leslie R. Davidson Family Trust created under the Last Will and Testament of Leslie R. Davidson, dated September 18, 1981, Grantor, and Dakota Access, LLC, Grantee, and covering the following land in WILLIAMS County, NORTH DAKOTA, to-wit:**

All that certain lot, tract or parcel of land, containing 320.42 acres of land, more or less, being Lots 2, 3, and 4, SW $\frac{1}{4}$ NE $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$ of Section Three (3), Township One Hundred Fifty-five (155) North, Range Ninety-Six (96) West, Williams County, North Dakota, as described in that Personal Representative's Deed of Distribution dated October 23, 1984, from Doris Davidson, Personal Representative of the Estate of Leslie R. Davidson, to First National Bank & Trust Company of Williston, North Dakota, Trustee of the Leslie R. Davidson Family Trust created under the Last Will and Testament of Leslie R. Davidson, dated September 18, 1981, recorded under Document Number 469146, Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Notwithstanding the provisions of this Agreement to the contrary:

1. Wherever the term "Right of Way Agreement", "Agreement" or "Easement" is mentioned herein, it is intended to be one and the same as the Easement Agreement to which this Exhibit is attached.
2. In addition to the agreed upon consideration, Grantee shall pay for future damages to land, crops, grass or plants intended for hay, grass and any other damages which may occur after the initial installation of the Pipeline as a result of entry upon the property and/or exercise of any rights granted in the Right of Way Agreement.
3. Grantee shall indemnify and hold Grantor harmless from any claims made by any persons or entities for damages to persons or property or violation of any laws or regulations, including environmental, as a result of Grantee's activities on the land or the exercise by Grantee of any of the rights granted herein. Grantee's indemnification of Grantor shall include reimbursement of court costs and reasonable attorney fees which may arise and for which Grantor is obligated to pay as a result of any claims, demands, causes of action, or liability for damages, loss or injuries that arise out of Grantee's indemnity obligations relating from Grantee's operations on the land.
4. Grantee agrees that any consideration paid for this Right of Way Agreement does not compensate Grantor for any damages Grantor might suffer as a result of the negligence of Grantee resulting from Grantee's operations on the subject land, including entry upon the land and exercising any of the rights granted pursuant to this Right of Way Agreement.
5. All topsoil will be scraped and set to one side. Topsoil will be replaced after easement work has been completed. If the topsoil is not scraped to one side, topsoil will be hauled onto the easement to restore it to the original depth of topsoil. Sub soil will be scraped and set to opposite side. Soil layers will be replaced and compacted separately in order to limit excessive settling of soil; top soil shall remain on top. All rocks 4 inches or larger will be buried or disposed of following dirt work. Cropland will be cultivated if such is to be cultivated land following work and rocks re-packed by Grantee. The subject land will be restored by Grantee to as near original productivity and condition as reasonably possible after completion of work. Grantee agrees to replace or repair all fences, terraces, contours and drainage ditches, and to pay any damages which may arise from the construction, maintenance and operation of said lines. All pipelines will be buried no less than 48 inches below the surface, from the top of the pipe.
6. Grantor agrees that the consideration paid by Grantee in this agreement includes any and all costs incurred by Grantor for installing fencing, whether temporary or permanent, along and outside the boundaries of the Easements so as to prevent Grantor's livestock from entering the Easements during the initial construction of the pipeline. Grantee is not responsible for the removal or disposal of such fencing.
7. Grantee shall close all fences and gates used by Grantee after passing through them and shall not permit any cattle or other livestock to get into or to escape from lands owned by Grantor. Grantee shall promptly repair, at Grantee's sole expense, any fences or gates damaged by Grantee to the original or better condition of the fence or

WILLIAMS COUNTY, ND

gate. Grantee shall restore all fences and gates that are damaged by Grantee no later than thirty (30) days after reclamation of the surface of the Easement. If Grantee must install new gates or fences, Grantee shall notify Grantor of such locations during construction, operation, or maintenance of the pipeline.

8. Grantee shall perform any work reasonably requested by Grantor for the maintenance of the easement to ensure its condition does not adversely impact Grantor's use of the land and to ensure that the terms of this easement are met. This work includes, but is not limited to, filling pipeline trenches that have settled below original grade and contour or grass seeding that did not grow.

9. Grass land seeding at the easement area, if not cultivated as cropland, will be monitored yearly by landowner until grass has been established to the same as its original state. At Grantee's expense, re-seeding will be completed yearly by Grantee for a period of two (2) growing seasons following completion of pipeline construction. Crop damage payment will be paid for up to two (2) growing seasons by Grantee until a satisfactory stand has been accomplished.

10. Weeds on the easement will be controlled by Grantee through two (2) growing seasons following construction. Weeds will be monitored in grass land seeding until a grass stand has been established and crop land easement will be attended to by Grantee until a crop has been planted the following year. At no time will weeds overrun the easement and go to seed.

11. Seeding of grassland in the easement area will be seeded to a suitable grass mixture reasonably agreeable to the Grantor at a suitable planting rate.

12. Grantee's access to and from the easement is limited to traveling over the width of the right of way, except as otherwise provided in the Easement.

13. The length of this easement shall be for 99 years from the date of this Agreement unless terminated before such time. If the pipeline is still being utilized at the end of the Initial ROW Period, the Grantor and Grantee or their heirs or assigns shall negotiate in good faith for a new Easement.

14. Grantee agrees that it will not put any above-ground facilities on the Easement except for any above ground installments as required by law which will be placed in locations so as to cause the least inconvenience to Grantor where possible. Grantee shall give Grantor prior written notice of any installation.

15. Should Grantee strike ground water during initial construction, or subsequent maintenance of the pipeline, Grantee shall have a certified test of the ground water for hydrocarbons performed prior to installation of any pipelines and that information will be shared with Grantor.

16. Any confidentiality agreed to by Grantor does not limit Grantor from discussing those provisions with attorneys, accountants, bankers, financial advisors or other professionals hired by Grantor to advise him on issues that may arise from the Grantee's use of the land or payment of the money.

17. This easement is intended for one (1) pipeline in one (1) trench. Grantee shall not allow salt water to pass through the pipeline.

18. If, after two (2) years from the date of receipt of all necessary permits Grantee has not commenced the installation of the pipeline, or no pipeline has been installed within five (5) years after the date of this Agreement, this entire Agreement shall be terminated. This Easement shall terminate if for a period of twenty-four (24) consecutive months after the installation of the Pipeline, the pipeline is not used to transport any product allowed by this Easement. In the event the Easement is terminated, Grantee shall file a release of record and the pipeline shall be cleaned and rendered safe for future dormancy within twelve (12) months of the termination. Grantor may elect to keep the pipeline at which time Grantee would have no further interest or liability therein. Once the pipelines have been permanently abandoned by Grantee, Grantee may, in its discretion, permanently remove the pipeline at Grantee's sole cost and responsibility. Upon removal, the surface of the land shall be restored to conform to contour and grade with the land as it existed before the land was dug for initial placement of the pipeline.

19. Grantee shall take all practicable steps to control and eliminate erosion and washouts caused by its operations upon the land. If significant erosion or washouts occur, Grantee agrees to mitigate the affected area within thirty (30) days of the occurrence, weather conditions permitting, to the reasonable satisfaction of Grantor. This requirement is not intended to alleviate Grantee from any more stringent requirements set by law and/or governmental agencies.

20. The easement shall in no event be located on any lands belonging to Grantor other than those which are described herein. The Easement shall not be recorded prior to the determination of the actual route of the Easement. The plat or map shall be recorded with the easement. The map or plat may not alter the terms of the easement other than to provide the exact legal description of the easement. The route may not be altered or changed without the express written consent of Grantor. If the actual location of the easement is changed by Grantee prior to the installation of the Pipeline, the changed location of the easement shall be placed on the property so as to cause the

WILLIAMS COUNTY, ND

least interference with the land taking into consideration the possibility of future development after consultation with the Grantor. While Grantor shall not unreasonably withhold consent to the changed location of the pipeline, Grantee shall locate the easement in accordance with Grantor's desires to the extent reasonably possible.

21. Grantee shall provide to Grantor an as-built survey upon completion of the construction of the pipeline. This will be provided to Grantor within one hundred sixty (160) days of completion of construction.

22. Grantor reserves all rights to quiet enjoyment of the land and to use said land for any purpose that does not unreasonably interfere with the easement granted herein. Grantor's reserved rights include, but are not limited to, usage of the surface for farming, recreation and development along with the rights to sell said land or parts thereof and the rights to grant other easements over and under said land that do not interfere with Grantee's pipeline or easement.

23. During construction of the pipeline or any subsequent work on the pipeline, Grantee shall ensure that Grantor is not prevented from access across the easement area to ensure that Grantor, its licensees and/or invitees, has/have access to and through Grantor's land for agricultural, recreational, or any other reason. Grantee agrees to work with Grantor to ensure that points are left along the route of the easement during construction or during subsequent work where Grantor will be able to cross the easement area without unreasonable difficulty. Such access will contemplate the need for farm implements, livestock, people and vehicles crossing the easement area. In no event will any portion of the trench be left open for more than seven (7) consecutive days, weather conditions permitting for quality trench fill, without the written consent of the Grantor.

24. Upon completion of construction, Grantee shall keep the easement area free of garbage and debris and shall promptly remove any unnecessary and/or unused construction materials and equipment, including all pin flags.

25. Grantee shall reimburse Grantor for Grantor's reasonable attorneys' fees relating to the negotiation and execution of this Agreement and the successful enforcement of any provision contained herein.

26. Grantee is aware that there are or are potentially easements located on the property wherein Grantor previously entered into an easement agreement (or agreements) covering a portion or all of the land covered herein. The exact location(s) of the easement(s) is not expressed by Grantor nor is Grantee relying on any statements or claims by Grantor in this regard. It is incumbent upon Grantee to determine the location of the existing easement(s) to ensure it does not infringe upon or in any way interfere with the existing easement(s). The variables and potential competing interests of Grantee and the Grantee(s) (or any successor assigns) of any prior easements cannot be reasonably anticipated by Grantor. As such, Grantee hereby agrees that it will communicate with the Grantee(s) (or any successors or assigns) of any prior easements (or its successors or assigns) to ensure that the locations and uses of each of their respective easements will not conflict. Grantee hereby relieves and forever holds Grantor, and Grantor's successors and assigns, free from any and all claims, lawsuits or disputes of any kind that may arise out of competing interests or conflicts as a result of various preexisting recorded easements being located on the subject property. Grantor shall not be included by Grantee in any dispute arising out of the easement in any way, regardless of whether Grantor was consulted by either Grantee or the Grantee(s) (or any successors or assigns) of any prior easements, as to location of their respective easements.

27. Grantee's subsidiary, or other affiliated companies, their agents, employees, contractors, subcontractors and others as may be authorized by Grantee, shall be governed by the terms and conditions of this Agreement when said subsidiary, or other affiliated company, agent, employee, contractor, subcontractor, or other as authorized by Grantee, is/are upon the above-described land for the purpose of exercising any right granted herein.

Dated this 15th day of December, 2015.

PARCEL ID: 17155960004010, 17155960004020, 17155960004030, 17155960004040
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated January 8th, 2016, is between Emery Boe, whose mailing address is 5896 109th Avenue Northwest, Tioga, ND 58852 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), (iii) access easements not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement and not to exceed fifty feet (50') in width for access to and from the below described surface site ("Access Easement"), and (iv) a fifty foot by seventy five foot (50' x 75') surface site, such surface site to be used for valves, risers, meters, electric facilities and lines, and associated pipeline facilities and the Access Easement(s) to be for ingress and egress, power lines and electric transmission or generation lines as may be needed to supply power to the facilities located on the surface site. The Pipeline Easement, the Temporary Construction Easement, and the Access Easement and the surface site (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed twenty inches (20") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, situated in, SW $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, of Section 4, Township 155 North, Range 96 West, Williams County, North Dakota, as described in that Quit Claim Deed dated March 11, 2014, from Carrie Mae Boe, a single person, to Emery Boe, a single person, recorded under Document Number 783010, Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement and the surface site. The precise location of the Temporary Construction Easement or "workspace" will be in an area

EB SM CA

immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee may supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement and the surface site. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement and the surface site shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances and above or below ground powerlines (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement, and the surface site and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. This grant is for one (1) pipeline only. Any other pipelines Grantee desires to place within the Pipeline Easement shall be the subject of a subsequent written agreement between Grantor and Grantee with negotiated consideration payable to Grantor.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so

chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Grantee shall plant a mixture of grass seeds in the area between the Surface Site and the nearest tree line. Additionally, Grantee agrees that surface restoration of the Easements shall not be deemed completed until approved by Grantor, which approval will not be unreasonably withheld, conditioned or delayed. Furthermore, any tillage acreage calculation as to the crop land areas damaged by the construction operations that are to be reclaimed shall be subject to Grantor's reasonable approval.

5. Grantee acknowledges that Grantor intends to conduct gravel mining activities adjacent to the Pipeline Easement. Grantee agrees that Grantor may commence its mining activities at and from the boundaries of the Pipeline Easement; provided, however, in connection with mining activities on lands adjacent to the Pipeline Easement, Grantor shall maintain a 3:1 slope for thirty-five feet (35') from the boundary lines of the Pipeline Easement, as measured horizontally from the boundary lines of the Pipeline Easement. Upon the commencement of gravel mining up to the thirty-five foot (35') setback from the boundary lines of the Pipeline Easement, Grantee shall pay Grantor for the reasonable prevailing value of the gravel reserves minus the cost of mining the gravel. Grantor shall have no liability to Grantee for damage to or interference with the pipeline and other facilities of Grantee within the Pipeline Easement, or for disruption of services provided by Grantee with respect to loss of lateral support for the pipeline, if Grantor excavates to and maintains a 3:1 slope over the thirty-five (35) foot area adjacent to the boundaries of the Pipeline Easement. If, prior to commencing mining activities in an area or areas adjacent to the Pipeline Easement, Grantor and Grantee, determine, due to soil stability or otherwise, that it may be desirable to maintain a sloped buffer zone greater than thirty-five feet (35') from the boundary lines of the Pipeline Easement, Grantor shall provide Grantee with written evidence of Grantor's calculation of the amount of recoverable reserves. Within thirty (30) days of receipt of such written evidence, Grantee shall pay to Grantor an additional amount for the minable reserves over the thirty-five (35') mining set back equal to the reasonable prevailing value of the gravel reserves less the costs of mining the reserves that will be rendered un-minable as a result of the expanded, sloped buffer zone, and in that event, Grantor shall maintain an expanded sloped buffer zone for such distance and at such slope as Grantor and Grantee may agree. If Grantee elects not to pay Grantor for the additional value of the gravel reserves that would be rendered un-minable as a result of the expanded, sloped buffer zone, then Grantor shall be obligated to maintain only a 3:1 sloped buffer zone over the thirty-five (35) foot area adjacent to the boundary lines of the Pipeline Easement and Grantor shall have no liability to Grantee for damage to or interference with the pipeline and other facilities of Grantee within the Pipeline Easement, or for disruption of services provided by Grantee with respect to loss of lateral support for the facilities, if Grantor excavates to and maintains a 3:1 slope over the thirty-five (35) foot area adjacent to the boundaries of the Pipeline Easement. In the alternative, Grantor can request that Grantee remove and relocate the pipeline at Grantor's sole cost and expense, to a location on the lands that has been mined and reclaimed. If Grantee elects to remove and relocate the pipeline, Grantee shall not be required to do so until Grantee has received permission and all consents and permissions to abandon the old pipeline and construct the new pipeline. Grantor shall grant Grantee a new easement and shall pay the entire actual cost and expense of the removal and relocation, including but not limited to the cost Grantee of permits, materials, installation, surveying, inspection, x-ray, environmental studies, regulatory filings, attorneys' fees, and other expenses or overhead that may be required."

6. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

EB SMF 

7. In the event of any excavation within the Easements, including, but not limited to installation and construction of the pipeline herein, the topsoil will be removed and stored separately from the subsoil. As the pipeline trench is backfilled, the subsoil will be replaced over the pipe and pipe bedding and all topsoil will be placed on top of the subsoil, commonly referred to as the double-ditch method. Such methods will be utilized in both cultivated and non-cultivated areas and solely over the ditch line.

8. Grantee agrees to utilize a chisel plow during reclamation of all disturbed areas within the Pipeline Easement and Temporary Construction Easement while in effect. Prior to construction and for fire control purposes, grass in the Easements will be mowed, not bladed; however, if grading is required to level the Easements area, such grading is allowed but only to the extent reasonably required.

9. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

10. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

11. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

12. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

EAS \$34.00

WILLIAMS COUNTY, ND

13. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

14. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

15. Grantee agrees that it will remove any and all rocks greater than three inches (3") in diameter uncovered or encountered during the digging process from the surface of the excavated easement to preexisting rock piles currently located on Grantor's property. These shall, upon completion of the construction process, be removed from the premises.

16. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

17. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselvcs/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

18. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

19. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

20. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-huil survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

21. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

22. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated November 18, 2015, is Robert J. Sheldon and Ida Ann Sheldon, Grantees, as joint tenants, whose mailing address is 10971 60th Street Northwest, Tioga, ND 58852 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows

All that certain lot, tract or parcel of land, containing 160.160 acres more or less, being situated in the Lots 1 and 2, and the S/2NE1/4 in Section 5, Township 155 North, Range 96 West, Williams County, North Dakota, as described in that certain Quit Claim Deed dated March 26, 1993, from George Sheldon a/k/a George J. Sheldon and Viona Sheldon a/k/a Viona C. Sheldon, husband and wife; Robert Sheldon a/k/a Robert J. Sheldon and Ida Sheldon a/k/a Ida Ann Sheldon, husband and wife; William Sheldon a/k/a William G. Sheldon and Jean Sheldon a/k/a Jean R. Sheldon, husband and wife, Grantors to Robert J. Sheldon and Ida Ann Sheldon, Grantees, as joint tenants and not as tenants in common, recorded as Instrument Number 548893 Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated March 19, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 805698, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the

recording of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses,

provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated March 19th, 2015, is Robert J. Sheldon and Ida Ann Sheldon, Grantees, as joint tenants, whose mailing address is 10971 60th Street Northwest, Tioga, ND 58852 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 160.000 acres more or less, being situated in the SW/4 in Section 32, Township 156 North, Range 96 West, Williams County, North Dakota, as described in that certain Quit Claim Deed dated March 26, 1993, from George Sheldon a/k/a George J. Sheldon and Viona Sheldon a/k/a Viona C. Sheldon, husband and wife; Robert Sheldon a/k/a Robert J. Sheldon and Ida Sheldon a/k/a Ida Ann Sheldon, husband and wife; William Sheldon a/k/a William G. Sheldon and Jean Sheldon a/k/a Jean R. Sheldon, husband and wife, Grantors to Robert J. Sheldon and Ida Ann Sheldon, Grantees, as joint tenants and not as tenants in common, recorded as Instrument Number 548893, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

EAS \$31.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the

Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantcc.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated MARCH 19TH, 2015, is Robert J. Sheldon and Ida Ann Sheldon, Grantees, as joint tenants, whose mailing address is 10971 60th Street Northwest, Tioga, ND 58852 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 160.000 acres more or less, being situated in the SW/4 in Section 32, Township 156 North, Range 96 West, Williams County, North Dakota, as described in that certain Quit Claim Deed dated March 26, 1993, from George Sheldon a/k/a George J. Sheldon and Viona Sheldon a/k/a Viona C. Sheldon, husband and wife; Robert Sheldon a/k/a Robert J. Sheldon and Ida Sheldon a/k/a Ida Ann Sheldon, husband and wife; William Sheldon a/k/a William G. Sheldon and Jean Sheldon a/k/a Jean R. Sheldon, husband and wife, Grantors to Robert J. Sheldon and Ida Ann Sheldon, Grantees, as joint tenants and not as tenants in common, recorded as Instrument Number 548893, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

803968

Page: 2 of 8

4/1/2015 10:18 AM

EAS \$31.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the

Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantor.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated _____, 2015, is between the **Charles J. Sjostrom and Kathleen Marie Olson a/k/a Kathleen Marie Olson Sjostrom husband and wife, as joint tenants**, whose mailing address is **22904 North Puma Court, Suncity West, Arizona 85375** (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (**30**) in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 479.080 acres more or less, being situated in the Northeast Quarter (NE1/4), Southeast Quarter (SE1/4), the East Half of the Southwest Quarter (E1/2SW1/4) and Lots Three (3) and Four (4) all in Section Thirty-one (31), Township One Hundred Fifty-six (156) North, Range Ninety-six (96) West, Williams County, North Dakota, as described in a Final Decree of Distribution, dated August 12, 1955, from H. Morris Borstad, Administrator of the Estate of Floyd V. Olson, deceased, Grantor, to Kathleen Marie Olson, Grantee, recorded as Instrument Number 274800, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 4th, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 802103, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

KSI EW

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so

chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated _____, 2015, is between the Charles J. Sjostrom and Kathleen Marie Olson a/k/a Kathleen Marie Olson Sjostrom husband and wife, as joint tenants, whose mailing address is 22904 North Puma Court, Suncity West, Arizona 85375 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 479.080 acres more or less, being situated in the Northeast Quarter (NE1/4), Southeast Quarter (SE1/4), the East Half of the Southwest Quarter (E1/2SW1/4) and Lots Three (3) and Four (4) all in Section Thirty-one (31), Township One Hundred Fifty-six (156) North, Range Ninety-six (96) West, Williams County, North Dakota, as described in a Final Decree of Distribution, dated August 12, 1955, from H. Morris Borstad, Administrator of the Estate of Floyd V. Olson, deceased, Grantor, to Kathleen Marie Olson, Grantee, recorded as Instrument Number 274800, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 4th, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 802103, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so

chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated _____, 2015, is between the **Charles J. Sjostrom and Kathleen Marie Olson a/k/a Kathleen Marie Olson Sjostrom husband and wife, as joint tenants**, whose mailing address is **22904 North Puma Court, Suncity West, Arizona 85375** (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty** inches (**30**") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 479.080 acres more or less, being situated in the Northeast Quarter (NE1/4), Southeast Quarter (SE1/4), the East Half of the Southwest Quarter (E1/2SW1/4) and Lots Three (3) and Four (4) all in Section Thirty-one (31), Township One Hundred Fifty-six (156) North, Range Ninety-six (96) West, Williams County, North Dakota, as described in a Final Decree of Distribution, dated August 12, 1955, from H. Morris Borstad, Administrator of the Estate of Floyd V. Olson, deceased, Grantor, to Kathleen Marie Olson, Grantee, recorded as Instrument Number 274800, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 4th, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 802103, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so

chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT: Oil Transmission Pipeline

ROW #7678 (Pg 1)

**STATE OF NORTH DAKOTA
BOARD OF UNIVERSITY AND SCHOOL LANDS**

The State of North Dakota acting by and through the Board of University and School Lands and its agent, the Commissioner of University and School Lands (GRANTOR), in consideration of \$271,740.75, which has been received, conveys to DAKOTA ACCESS LLC, 1300 MAIN ST, HOUSTON, TX 77002 (GRANTEE), an easement to construct, operate, maintain and remove one 12-inch diameter steel oil transmission pipeline and one 20-inch diameter steel oil transmission pipeline with the right of ingress and egress, over certain land hereafter referred to as the "easement area", which is a strip of land 33.0 feet wide, 16.5 feet on each side of the following described centerline:

One 12-inch Diameter Steel Oil Transmission Pipeline - S2 of Section 36, T156N, R95W, Williams County

Commencing at a 1/2-inch iron rod with a cap found for the southwest corner of said Section 36; thence North 88 degrees 16 minutes 35 seconds East along the south line of said Section 36, a distance of 5,275.48 feet to the southeast corner of said Section 36, thence North 01 degrees 42 minutes 34 seconds West along the east line of said Section 36, a distance of 1,851.24 feet to the Point of Beginning; thence South 86 degrees 25 minutes 53 seconds West, a distance of 202.46 feet; thence South 86 degrees 41 minutes 17 seconds West, a distance of 489.42 feet; thence South 86 degrees 31 minutes 18 seconds West, a distance of 341.66 feet; thence South 86 degrees 39 minutes 15 seconds West, a distance of 740.51 feet; thence South 86 degrees 42 minutes 05 seconds West, a distance of 564.99 feet; thence South 86 degrees 27 minutes 45 seconds West, a distance of 719.35 feet; thence South 86 degrees 35 minutes 54 seconds West, a distance of 1,052.90 feet; thence South 86 degrees 28 minutes 17 seconds West, a distance of 209.12 feet; thence South 86 degrees 35 minutes 21 seconds West, a distance of 151.69 feet; thence South 86 degrees 31 minutes 08 seconds West, a distance of 259.56 feet; thence South 83 degrees 19 minutes 52 seconds West, a distance of 548.61 feet; to the west line of said Section 36 and thus terminating, said ending point being located North 01 degrees 43 minutes 50 seconds West along the west line of said Section 36. The centerline is 5,280.25 feet or 320.02 rods long, and the easement area contains 4.00 acres, more or less. The easement area is further described and illustrated in Exhibits "A1-A2" which are attached to and are a part of this easement.

One 20-inch Diameter Steel Oil Transmission Pipeline - S2 of Section 36, T156N, R97W, Williams County

Commencing at a 1/2-inch iron rod found for the southeast corner of said Section 36; thence North 01 degrees 31 minutes 08 seconds West along the east line of said Section 36, a distance of 1,027.88 feet to the Point of Beginning; thence South 88 degrees 40 minutes 16 seconds West, a distance of 487.98 feet; thence South 89 degrees 11 minutes 37 seconds West, a distance of 1,018.17 feet; thence South 89 degrees 11 minutes 01 seconds West, a distance of 399.34 feet; thence South 89 degrees 29 minutes 36 seconds West, a distance of 200.23 feet; thence South 88 degrees 35 minutes 43 seconds West, a distance of 199.99 feet; thence South 88 degrees 55 minutes 52 seconds West, a distance of 199.77 feet; thence South 89 degrees 25 minutes 58 seconds West, a distance of 299.86 feet; thence South 89 degrees 18 minutes 29 seconds West, a distance of 400.05 feet; thence South 88 degrees 50 minutes 53 seconds West, a distance of 599.90 feet; thence South 89 degrees 07 minutes 10 seconds West, a distance of 400.05 feet; thence South 89 degrees 02 minutes 10 seconds West, a distance of 599.70 feet; thence South 89 degrees 23 minutes 18 seconds West, a distance of 464.58 feet to the west line of said Section 36 and thus terminating, said ending point being located North 01 degrees 37 minutes 25 seconds West along the west line of said Section 36. The centerline is 5,269.63 feet or 319.37 rods long, and the easement area contains 3.99 acres, more or less. The easement area is further described and illustrated in Exhibits "A3-A4" which are attached to and are a part of this easement.

1. The Oil Transmission Pipeline shall be built only on the centerline(s) as described above. GRANTEE may also use temporary work space, additional temporary work space, and temporary access road as depicted on Exhibits "A1-A4" as part of a construction right of way. This construction right of way shall be subject to the topsoil reservation and reclamation provisions of this easement and must be abandoned upon the completion of construction and reclamation.

EAS \$50.00

WILLIAMS COUNTY, ND

EASEMENT: Oil Transmission Pipeline

ROW #7678 (Pg 2)

2. GRANTEE agrees that there will be no surface disturbance or surface occupancy of the one (1) segment of the easement area that is designated for Oil Transmission Pipeline installation by horizontal boring as specifically shown on Exhibits "A1-A4" without written permission from GRANTOR.
3. The top of the Oil Transmission Pipeline must be buried at least 48 inches below the ground's surface.
4. GRANTEE may install the following described appurtenance(s) upon the surface or at a depth less than 36 inches: N/A. For this/these additional appurtenance(s), GRANTEE has paid N/A as further consideration. GRANTEE shall, when necessary, protect all above ground appurtenances with a fence adequate to prevent livestock access and shall paint all above ground structures; except wire fences, anchors, guy wires, steel towers, and wood poles; with earth tone colors.
5. If construction of the Oil Transmission Pipeline is not completed within two (2) years after GRANTOR signs this easement, this easement automatically terminates. GRANTOR, at GRANTOR's sole discretion, can extend the construction deadline upon request for amendment from GRANTEE, however, GRANTEE's request must be submitted prior to the construction deadline expiration date.
6. GRANTEE shall make a satisfactory settlement with the surface tenant for damage to seeded annual crops, fences or other improvements owned by the tenant, caused by construction, operation, maintenance or removal of the Oil Transmission Pipeline and shall notify the surface tenant of the construction schedule at least one week before construction.
7. GRANTEE, or its agent, shall have a legible copy of this easement with them on site for reference during construction, operation, maintenance or reclamation and shall present the copy upon GRANTOR's request.
8. This easement is subject to all of the GRANTOR's existing rights and privileges.
9. If, prior to or during construction, archeological or paleontological items are discovered or such items are disturbed, GRANTEE shall cease construction activities immediately. GRANTEE shall then promptly notify GRANTOR and must not resume construction until written approval is given by GRANTOR.
10. GRANTEE shall, prior to construction, maintenance or removal, reserve the top 12 inches of soil from areas subject to topsoil and subsoil mixing. The reserved soil must be stockpiled to minimize wind and water erosion. Upon completion of construction, and maintenance or removal, GRANTEE shall promptly reclaim the disturbed area. It must be recontoured to conform to the adjacent natural topography, rocks exposed by excavation must be hauled off or reburied on the property, the reserved soil must be evenly respread over the disturbed area, and the entire disturbed area must be revegetated with a mixture of native perennial grasses as shown in Exhibit "B". Reclamation is not complete until rocks are removed from the surface, erosion is controlled and the surface is revegetated with a mixture of native perennial grasses.
11. GRANTEE shall implement reasonable measures to prevent accelerated erosion. If an erosion problem develops, GRANTEE shall promptly take the necessary actions to correct it and shall repair any erosion damage.
12. GRANTEE shall not discharge oil, gas liquids, salt water, or any other hazardous liquids or toxic substances onto the right-of-way or land adjacent to the right-of-way. All discharges of oil, gas liquids, salt water, or other hazardous liquids or toxic substances shall be stopped as soon as possible after discovery and acted upon immediately to halt movement of such discharges. Any such discharges shall be reported immediately to the GRANTOR. The GRANTEE shall then restore the affected area as closely as possible to its original condition.
13. GRANTEE shall control all noxious weeds in the easement area.
14. GRANTEE may cut or trim trees and shrubs, but only to the extent they interfere with or endanger the operation or maintenance of the Oil Transmission Pipeline.

EAS \$50.00

WILLIAMS COUNTY, ND

EASEMENT: Oil Transmission Pipeline

ROW #7678 (Pg 3)

- 15. GRANTEE shall maintain the natural water flow and drainage.
- 16. GRANTEE shall take necessary precautions to prevent fires. In the event of a fire caused by the GRANTEE or its agent, GRANTEE shall compensate the GRANTOR's surface lessee(s) for their losses including forage, crop and any other losses; and shall compensate GRANTOR for any loss it suffers due to the fire.
- 17. GRANTEE shall conduct all activities associated with the Oil Transmission Pipeline in a manner that avoids the degradation of air, land, and water quality and that protects the area's visual resources.
- 18. GRANTOR reserves the right to use the easement area and to allow others to use the easement area for purposes compatible with GRANTEE's use. If someone other than GRANTOR uses the easement area in a manner inconsistent with GRANTEE's use, GRANTOR is not liable or responsible.
- 19. Through this easement, GRANTEE is not acquiring any subsurface interest. Subsurface interests include, but are not limited to oil, gas, coal, cement materials, sodium sulfate, sand and gravel, scoria, road material, building stone, chemical substances, metallic ores, uranium ores, or colloidal or other clays. If any subsurface interest is or will likely be excluded from mining or development because of the presence of this easement or the Oil Transmission Pipeline allowed by this easement, or if the location of the Oil Transmission Pipeline interferes or will likely interfere with the mining or development of subsurface interests outside of the easement area, GRANTOR may take one of the following actions upon sixty (60) days written notice to GRANTEE:
 - 1. Require GRANTEE to compensate GRANTOR, at an amount mutually agreed to by GRANTOR and GRANTEE, for the loss of royalties GRANTOR incurs because of the easement's presence; or
 - 2. Require GRANTEE, at GRANTEE's expense, to move the Oil Transmission Pipeline to another location within the affected tract, if it is determined by the GRANTOR that a suitable location exists within the tract. GRANTEE has three hundred sixty-five (365) days to move the Oil Transmission Pipeline upon receiving written notice. GRANTOR agrees to grant a new easement for such relocated Oil Transmission Pipeline without additional compensation.

Failure to agree upon compensation or an alternative location that accommodates subsurface mineral development is grounds for GRANTOR to terminate the easement.

- 20. If GRANTOR determines at any time during the existence of the easement, that the easement negatively interferes with or in any manner and to any extent affects the marketability, market value, development, or the value for development of the state-owned land specifically described below, GRANTOR may take any one of the following actions upon sixty (60) days written notice to the GRANTEE:
 - 1. Require GRANTEE to compensate GRANTOR, at an amount mutually agreed to by GRANTOR and GRANTEE, for the loss of value GRANTOR incurs because of the easement's presence; or
 - 2. Require GRANTEE, at GRANTEE's expense, to move the Oil Transmission Pipeline to another location within the affected tract, if it is determined by the GRANTOR that a suitable location exists within the tract. GRANTEE has three hundred sixty-five (365) days to move the Oil Transmission Pipeline upon receiving written notice. GRANTOR agrees to grant a new easement for such relocated Oil Transmission Pipeline without additional compensation.

Failure to agree upon compensation or an alternative location is grounds for GRANTOR to terminate the easement.

EASEMENT: Oil Transmission Pipeline

ROW #7678 (Pg 4)

21. GRANTEE agrees to defend, indemnify and hold harmless GRANTOR from any claims by any person that are in any way related to GRANTEE's acts or omissions in its use of the easement area, including all costs, expenses, and reasonable attorney fees that in any manner result from or arise out of this agreement. It is GRANTEE's exclusive right and responsibility to construct, maintain, and remove the Oil Transmission Pipeline. GRANTEE further accepts liability and indemnifies GRANTOR, and its officers and employees, from all costs, expenses and reasonable attorney fees incurred in establishing and litigating the indemnification coverage provided above. The legal defense provided by GRANTEE to the GRANTOR under this paragraph must be free of any conflicts of interest, even if this requires GRANTEE to retain separate legal counsel for GRANTOR. The obligations of this paragraph shall continue after this agreement terminates.
22. Any fixtures, structures, installations or facilities constructed or installed by GRANTEE, are the property of GRANTEE and may be removed by GRANTEE at any time.
23. GRANTEE shall remove all improvements, both above ground and underground, from the easement area when the easement is abandoned or in any other way terminated, unless authorized to do otherwise in writing by GRANTOR.
24. This easement shall be a covenant running with the land and shall be binding on the heirs, successors, and assigns of the parties hereto.
25. This easement is subject to all existing easements that are currently of record in the office of the county clerk of the county where such land is located and nothing in this easement supersedes any rights previously granted that are currently existing and of record.
26. GRANTOR neither warrants nor agrees to defend title to the easement area.
27. This easement is also subject to the conditions in Exhibits "A1-A4" and "B" which are attached and made a part of this easement.

SURVEYOR'S CERTIFICATE

I, Calvin Heinly, a Licensed Land Surveyor in and for the State of North Dakota, do hereby certify that at the request of the North Dakota Department of University and School Lands, did complete a survey for the purpose of establishing the permanent pipeline easement located in the South Half (S1/2) of Section 36, Township 156 North, Range 95 West of the 5th P.M., Williams County, North Dakota, said easement being comprised of a strip of land 33 feet in width lying 16.5 feet on each side of the following described centerline:

LEGAL DESCRIPTION OF PERMANENT EASEMENT: Commencing at a 1/2-inch iron rod with a cap found for the southwest corner of said Section 36; thence North 88 degrees 16 minutes 35 seconds East along the south line of said Section 36, a distance of 5,275.48 feet to the southeast corner of said Section 36, thence North 01 degrees 42 minutes 34 seconds West along the east line of said Section 36, a distance of 1,851.24 feet to the Point of Beginning; thence South 86 degrees 25 minutes 53 seconds West, a distance of 202.46 feet; thence South 86 degrees 41 minutes 17 seconds West, a distance of 489.42 feet; thence South 86 degrees 31 minutes 18 seconds West, a distance of 341.66 feet; thence South 86 degrees 39 minutes 15 seconds West, a distance of 740.51 feet; thence South 86 degrees 42 minutes 05 seconds West, a distance of 564.99 feet; thence South 86 degrees 27 minutes 45 seconds West, a distance of 719.35 feet; thence South 86 degrees 35 minutes 54 seconds West, a distance of 1,052.90 feet; thence South 86 degrees 28 minutes 17 seconds West, a distance of 209.12 feet; thence South 86 degrees 35 minutes 21 seconds West, a distance of 151.69 feet; thence South 86 degrees 31 minutes 08 seconds West, a distance of 259.56 feet; thence South 83 degrees 19 minutes 52 seconds West, a distance of 548.61 feet; to the west line of said Section 36 and thus terminating, said ending point being located North 01 degrees 43 minutes 50 seconds West along the west line of said Section 36, a distance of 1,664.30 feet from the southwest corner of said Section 36 and containing 4.00 acres.

This Certificate is to the best of my knowledge and belief a true description of said survey. I hereby certify that I have executed this document this 12 day of October 2015.

EASEMENT: Oil Transmission Pipeline

ROW #7678
Exhibit "B"

**NORTH DAKOTA
BOARD OF UNIVERSITY & SCHOOL LANDS
(ND Department of Trust Lands)**

Native Grass Seeding Specifications

<u>Species</u>	<u>lbs. PLS*/acre</u>
Western wheatgrass	8
Slender wheatgrass	5
Green needlegrass	4
Side-oats grama	<u>2</u>
	19

*PLS - Pure Live Seed (based on 50 PLS/sq. feet)

1. The seed bed should be firmly packed (footprints left in the soil should be less than 1/2 inch deep).
2. An early spring seeding (before May 24th) is preferred. A dormant fall seeding (after October 20th) is acceptable.
3. A cover crop of oats at 10 lbs. PLS/acre must be seeded on the disturbed area.
4. A drill designed specifically for native grass seeding will give the best seeding results. The seed should be planted at a depth of 1/2 to 1 inch. Precaution must be taken not to plant the seed too deeply in the soil or poor germination will result.
5. On areas where equipment cannot be used, broadcast seed and rake or drag to cover seed. Where seed is broadcast, double the seeding rate.
6. Use only North Dakota certified seed.

Caution: Be sure to clean out the drill before seeding to avoid any contamination with smooth brome grass or crested wheatgrass that may remain in the drill from previous use on private land. These are invasive grasses in native prairie and are not allowed on school trust lands. Contamination with or use of crested wheatgrass or smooth brome will result in the applicant being required to spray out the grass and reseed with the above native grass seed mixture. Sweet clover and alfalfa are also not allowed – only the above native grass seed mixture may be used for revegetation on school trust land.

TRACT NUMBER: ND-WI-034.000
PARCEL ID: 23-156-97-00-35-030
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated June 11, 2015, is between Donna Arlene Pederson, Trustee of the Bennie and Evelyn Foss Family Trust Under Will, whose mailing address is 6721 115th Avenue Northwest, Ray, ND 58847, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160.00 acres of land, more or less, situated in the SE $\frac{1}{4}$ of Section 35, Township 156 North, Range 97 West, Williams County, North Dakota, as described in that certain Quit Claim Deed dated September 14, 2004, from Evelyn Foss, a widow, Grantor, to David Alan Foss, Trustee of the Bennie and Evelyn Foss Family Trust Under Will, Grantee, recorded as Instrument Number 616319, Official Public Records, William County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

810100

Page: 2 of 12
7/22/2015 8:52 AM
EAS \$43.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement, and (c) be recorded by Grantee in the Williams County Recorder's Office. Grantee shall provide Grantor with a copy of the recorded **Exhibit A-1** which shall constitute the actual Easement granted.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of (up to 30' diameter), relocating and changing the route or routes of within the boundaries of the Easement, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. However, Grantee shall not change the contour of the land in any manner which might inhibit or redirect the natural flow of water. Grantee agrees to fill and refill, as may be necessary in the option of Grantor, any subsidence along the Pipeline Easement with additional hauled in topsoil so the original contours of the land are maintained as near the recent natural surface level as possible.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and shall be definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops by the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Notwithstanding the foregoing, this Agreement is a general

WILLIAMS COUNTY, ND

release as defined by Section 9-13-02 NDCC and does not release Grantee from future actual, extraordinary, unforeseen, indirect, special or consequential damages.

5. Unless more specifically agreed upon by the parties, Grantee shall restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder, as provided in the North Dakota Environmental Construction Plan attached hereto and incorporated by reference herein. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or interfere with Grantee's rights under this Agreement. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee no less than seventy two (72) hours before streets, roadways, utilities, or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. Grantor agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Grantee agrees the Pipeline will be constructed in a manner to allow the crossing of agricultural equipment of normal weight and livestock. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Unless more specifically stated in the terms of this Agreement, Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be

permanently modified in accordance with the rights granted under this Agreement, as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim, costs (including reasonable attorneys' fees and court costs) or liability or loss from personal injury, including death, or property damage to the extent caused by Grantee, its servants, agents or invitees, and to the extent caused by Grantee during the installation, use, maintenance, repair or removal of the pipeline by Grantee and such persons acting on its behalf, excepting, however, such claims, costs, liabilities or damages as may be due to or caused by the negligence of Grantor, or its servants, agents or invitees. Furthermore, Grantee hereby agrees to indemnify and hold Grantor harmless for any environmental damage caused by Grantee on this Easement, or for any damages caused by Grantees' noncompliance with any applicable and enforceable environmental law, order, administrative law, regulation or rule adopted or promulgated by the State of North Dakota or the United States of America, or any Board, Agency or Commission of either having jurisdiction over the operations of Grantee. Notwithstanding anything to the contrary contained in this Agreement, it is expressly understood and agreed between Grantor and Grantee that: (a) Grantee shall not be responsible for the existence, assessment, remediation, excavation, removal, relocation or disposal of any petroleum, hazardous or toxic substances or solid wastes which are present on the Pipeline Easement or the Temporary Construction Easement as of the date of this Agreement or which migrate from no fault or control of Grantee to the Pipeline Easement, Temporary Construction Easement or Access Easement after the date of this Agreement.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be for a term of ninety nine (99) years in accordance with North Dakota law, and provisions of this Agreement, including all benefits and burdens, shall run with the land.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contain the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit "B" attached hereto.

EXHIBIT "B"

This Addendum is attached to and made a part of that certain Easement Agreement dated June 11, 2015, by and between Donna Arlene Pederson, Trustee of the Bennie and Evelyn Foss Family Trust Under Will, as Grantor, and Dakota Access, LLC, of 1300 Main Street, Houston, Texas 77002, as Grantee. If any of the following provisions conflict with or are inconsistent with any of the printed provisions or terms of the Easement Agreement, the following provisions shall control:

1. Grantee may sell or assign in whole or in part its rights to this easement, however, such sale or assignment shall not be effective until Grantor has been delivered notice of the name, address, and phone number of the proposed assignee.
2. Grantor is not prevented from granting other easements that cross this easement provided that such easements or use by others does not damage or interfere with Grantee's use. To that extent, this is a non-exclusive easement. Grantee hereby grants permission to Grantor and the surface occupants to cross the Pipeline Easement at any time with agricultural equipment of normal weight as necessary to carry out normal and customary farming and ranching on the Property.
3. This Agreement is for the installation of one 30-inch steel crude oil pipeline and related equipment for the transportation of crude oil and associated by-products and may not be used for any other purpose. Grantee will allow no surface equipment or apparatus associated with the pipeline to be installed on Grantor's land without separate consent from Grantor, except for pipeline markers and cathodic protection test leads as may be required.
4. Grantee agrees to bury the pipeline a minimum of forty-eight inches (48") from the top on cultivated lands and rangelands and no less than twenty four inches (24") through rock.
5. The Easement consideration compensates Grantor for Any existing structures and improvements located on the Property as of the Effective Date of this Agreement.
6. This pipeline easement shall not be effective, and the Grantee shall have no rights to enter upon the property, until all payments for this easement or for property damage have been paid to Grantor.
7. This pipeline may not be moved, and it may not be replaced by a larger pipeline than originally installed without the written permission of Grantor and additional consideration. If Grantee desires to dig up any part or portion of the pipeline during the term of this easement for any reason, it shall pay damages to Grantor for soil disturbance and actual damages at the then-current fair market value of such damages.
8. Grantee undertakes to and does hereby agree to defend, hold harmless, and indemnify Grantor, his successors, heirs, or assigns, from any and all liability, costs, and attorney's

fees Grantor may suffer arising out of any operation, work, procedure, accident or otherwise involving the use by the Grantee of any portion of the lands described in this easement, or for any environmental damage caused or permitted by Grantee on this easement, or for any damage caused by Grantee's noncompliance with any environmental law, order, administrative law, or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either, having jurisdiction. The term "Grantee" as used in this paragraph includes Grantee's agents, servants, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or in behalf of Grantee for the purposes of accessing, laying, constructing, maintaining, operating, repairing, replacing, inspecting and removing the pipeline. This provision shall continue to apply to any such damage, loss or violation caused by Grantee regardless of any assignment or release of this easement by Grantee.

9. Grantor does not warrant or agree to defend title to the lands covered by this easement. Grantee has assumed the risk of title lien, cloud or claim. Grantee agrees to pay Grantor and/or his tenant(s) for damage to growing crops, livestock, timber, fences or other structural improvements which are caused by construction, maintenance, operation, repairing, alteration, replacement or removal of the pipeline and appurtenant facilities. Grantee shall reasonably compensate Grantor or the surface occupants for loss or damage to crops, pastures, fences, structures, improvements, waterlines, diversions, irrigation ditches, terraces, tile lines, tanks, timber, pipelines or any other damages to the Property, improvements, personal property or livestock caused by or resulting from Grantee's use or occupancy of the Property, including damages due to operation, location, use, testing, repair, maintenance, removal or abandonment of the Pipeline.

- a. Should either (i) a growing crop, hay, grass, forage, rangeland or any cropland be damaged or destroyed, or (ii) the agricultural capability of the lands encompassing the Pipeline Easement or the Temporary Construction Easement be reduced or eliminated by Grantee during the use, operation, maintenance or replacement of the Pipeline, Grantor or the surface occupant shall be reasonably compensated for the loss thereof by multiplying the current market price for the crop by the reduced production as evidenced by comparing yields with adjacent lands within the same growing season or most recent full production from the impacted lands.
- b. Grantee shall compensate Grantor or the surface occupant for any injury or loss to Grantor's or the surface occupant's livestock resulting from construction or Grantee's operations or activities on the Property, at the then current replacement price plus reasonable transaction costs for such livestock to make the individual whole.
- c. In the event Grantee's activities or omissions cause fire on the Property or adjacent lands owned by Grantor, and the property or adjacent lands are used for grazing,

WILLIAMS COUNTY, ND

Grantee shall promptly pay (i) the reasonable costs of all fire suppression incurred by Grantor or the surface occupant, (ii) One Hundred Twenty Dollars (\$120.00) per acre for all rangeland burned for immediate lost grazing as full and complete satisfaction for said lost grazing for a period of two (2) growing seasons, (iii) replacement costs for fences and any other improvements, including structures, destroyed or damaged by fire, and (iv) all other actual damages, including all costs associated with the prevention and control of cheat grass and cactus, to Grantor or the surface occupant as a result of such fire. Damages for immediate lost grazing shall be paid within one week of establishing the acres burned, and the amount per acre shall be adjusted annually by reference to the "CPI-U" published U.S. Department of Labor Bureau of Labor Statistics, or if such index is no longer published, a comparable replacement index. Compensation for other damages must be paid within a reasonable time after notification to Grantee of the fire damage in writing, which notice shall include itemization and evidence of the cost associated with the damages.

- d. To the extent Grantee's construction of the Pipeline requires the removal of any of the Property from participation in the Conservation Reserve Program or any substantially similar government program in which it was enrolled and qualified on the Effective Date, Grantee shall reimburse Grantor for any penalties and reimbursement obligations levied against Grantor by the agency administering the program as a consequence of the property's removal.
- 10. As set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, the following mitigative measures shall be implemented during topsoil removal and storage. In cultivated lands and rangeland, the actual depth of the topsoil will be stripped from any area excavated. All subsoil material removed from the trench will be placed in a second stockpile that is separate from the topsoil stockpile (that is, double ditched.) The contractor shall perform work in a manner to minimize the potential for subsoil and topsoil to be mixed. In backfilling the trench, the stockpiled subsoil material will be placed back into the trench before replacing the topsoil. All tracks, ruts and equipment surface disturbance shall be removed by grading or filling in such tracks or ruts with topsoil after construction, maintenance or inspection. Two years after the construction is completed, Grantee shall also inspect the pipeline easement, and any ground which has sunk or caved in shall be restored to the contour as close to the original slope and contour as is reasonably possible.
- 11. Grantee shall control by appropriate spraying, or clipping prior to going to seed, all noxious weeds that grow within the pipeline right of way lands disturbed for construction or maintenance as set forth in the abovementioned ECP.

WILLIAMS COUNTY, ND

810100
Page: 8 of 12
7/22/2015 8:52 AM
EAS \$43.00

12. Grantee agrees to consult with Grantor and the surface occupants to take such precautions as necessary to protect new vegetation upon reseeding as set forth in the abovementioned ECP.
13. If the pipeline installed upon this easement is not used for a consecutive period of two (2) years, then within one (1) year following that date, the Grantee shall remove this pipeline and restore the surface to the affected areas as otherwise described in this Agreement. Within that same one year period, the Grantee shall also prepare and record a release of all of Grantee's rights, titles, and interests in this pipeline agreement. The requirement to remove the abandoned pipeline may be waived only with a separate agreement signed in advance by the Grantor.
14. Firearms shall not be brought on to the property, and there shall be no hunting allowed on the property covered by this easement by Grantee and its "agents" as defined in Paragraph

This Easement shall run with the land and shall bind the parties, their heirs, successors and assigns. TO HAVE AND TO HOLD unto Grantee, its successors and assigns, the easement rights and privileges herein granted for so long as said easement is useful to Grantee for the purposes stated above, with no cessation of use for more than two (2) years.

EXECUTED this 11th day of June, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 7-21, 2015, is between Wayne Hauge, whose mailing address is 6080 113th Avenue Northwest, Ray, ND 58849, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160.00 acres of land, more or less, situated in the SW1/4 of Section 35, Township 156 North, Range 97 West, Williams County, North Dakota, as described in that certain Personal Representative's Deed of Distribution, dated May 27, 2008, from Wayne Hauge, Personal Representative of the Estate of Roger D. Hauge, deceased to Wayne Hauge, recorded as Instrument Number 655738, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

WH

810639

Page: 2 of 11
7/31/2015 8:07 AM
EAS \$40.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement, and (c) be recorded by Grantee in the Williams County Recorder's Office. Grantee shall provide Grantor with a copy of the recorded Exhibit A-1 which shall constitute the actual Easement granted.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of (up to 30' diameter), relocating and changing the route or routes of within the boundaries of the Easement, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. However, Grantee shall not change the contour of the land in any manner which might inhibit or redirect the natural flow of water. Grantee agrees to fill and refill, as may be necessary in the option of Grantor, any subsidence along the Pipeline Easement with additional hauled in topsoil so the original contours of the land are maintained as near the recent natural surface level as possible.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and shall be definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops by the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Notwithstanding the foregoing, this Agreement is a general

WH

release as defined by Section 9-13-02 NDCC and does not release Grantee from future actual, extraordinary, unforeseen, indirect, special or consequential damages.

5. Unless more specifically agreed upon by the parties, Grantee shall restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder, as provided in the North Dakota Environmental Construction Plan attached hereto and incorporated by reference herein. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or interfere with Grantee's rights under this Agreement. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee no less than seventy two (72) hours before streets, roadways, utilities, or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. Grantor agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Grantee agrees the Pipeline will be constructed in a manner to allow the crossing of agricultural equipment of normal weight and livestock. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Unless more specifically stated in the terms of this Agreement, Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be

WILLIAMS COUNTY, ND

permanently modified in accordance with the rights granted under this Agreement, as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim, costs (including reasonable attorneys' fees and court costs) or liability or loss from personal injury, including death, or property damage to the extent caused by Grantee, its servants, agents or invitees, and to the extent caused by Grantee during the installation, use, maintenance, repair or removal of the pipeline by Grantee and such persons acting on its behalf, excepting, however, such claims, costs, liabilities or damages as may be due to or caused by the negligence of Grantor, or its servants, agents or invitees. Furthermore, Grantee hereby agrees to indemnify and hold Grantor harmless for any environmental damage caused by Grantee on this Easement, or for any damages caused by Grantees' noncompliance with any applicable and enforceable environmental law, order, administrative law, regulation or rule adopted or promulgated by the State of North Dakota or the United States of America, or any Board, Agency or Commission of either having jurisdiction over the operations of Grantee. Notwithstanding anything to the contrary contained in this Agreement, it is expressly understood and agreed between Grantor and Grantee that: (a) Grantee shall not be responsible for the existence, assessment, remediation, excavation, removal, relocation or disposal of any petroleum, hazardous or toxic substances or solid wastes which are present on the Pipeline Easement or the Temporary Construction Easement as of the date of this Agreement or which migrate from no fault or control of Grantee to the Pipeline Easement, Temporary Construction Easement or Access Easement after the date of this Agreement.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be for a term of ninety nine (99) years in accordance with North Dakota law, and provisions of this Agreement, including all benefits and burdens, shall run with the land.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contain the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit "B" attached hereto.

Wayne Hauge

ACKNOWLEDGMENT

State of North Dakota
County of Williams)ss

BEFORE ME, the undersigned authority, on this day personally appeared Wayne Hauge, known to me to be the person whose name is subscribed to the foregoing instrument and acknowledged to me that he executed the same for the purposes and consideration therein expressed.

IN TESTIMONY WHEREOF, I have hereunto set my hand and official seal this 21st day of July, 2015.

Christopher Smith
Notary Public

My Commission Expires: 9-17-20

EXHIBIT "B"

This Addendum is attached to and made a part of that certain Easement Agreement dated JULY 21, 2015, by and between Wayne Hauge, as Grantor, and Dakota Access, LLC, of 1300 Main Street, Houston, Texas 77002, as Grantee. If any of the following provisions conflict with or are inconsistent with any of the printed provisions or terms of the Easement Agreement, the following provisions shall control:

1. Grantee may sell or assign in whole or in part its rights to this easement, however, such sale or assignment shall not be effective until Grantor has been delivered notice of the name, address, and phone number of the proposed assignee.
2. Grantor is not prevented from granting other easements that cross this easement provided that such easements or use by others does not damage or interfere with Grantee's use. To that extent, this is a non-exclusive easement. Grantee hereby grants permission to Grantor and the surface occupants to cross the Pipeline Easement at any time with agricultural equipment of normal weight as necessary to carry out normal and customary farming and ranching on the Property.
3. This Agreement is for the installation of one 30-inch steel crude oil pipeline and related equipment for the transportation of crude oil and associated by-products and may not be used for any other purpose. Grantee will allow no surface equipment or apparatus associated with the pipeline to be installed on Grantor's land without separate consent from Grantor, except for pipeline markers and cathodic protection test leads as may be required.
4. Grantee agrees to bury the pipeline a minimum of forty-eight inches (48") from the top on cultivated lands and rangelands and no less than twenty four inches (24") through rock.
5. The Easement consideration compensates Grantor for Any existing structures and improvements located on the Property as of the Effective Date of this Agreement.
6. This pipeline easement shall not be effective, and the Grantee shall have no rights to enter upon the property, until all payments for this easement or for property damage have been paid to Grantor.
7. This pipeline may not be moved, and it may not be replaced by a larger pipeline than originally installed without the written permission of Grantor and additional consideration. If Grantee desires to dig up any part or portion of the pipeline during the term of this easement for any reason, it shall pay damages to Grantor for soil disturbance and actual damages at the then-current fair market value of such damages.
8. Grantee undertakes to and does hereby agree to defend, hold harmless, and indemnify Grantor, his successors, heirs, or assigns, from any and all liability, costs, and attorney's fees Grantor may suffer arising out of any operation, work, procedure, accident or

WH

EAS \$40.00

WILLIAMS COUNTY, ND

otherwise involving the use by the Grantee of any portion of the lands described in this easement, or for any environmental damage caused or permitted by Grantee on this easement, or for any damage caused by Grantee's noncompliance with any environmental law, order, administrative law, or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either, having jurisdiction. The term "Grantee" as used in this paragraph includes Grantee's agents, servants, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or in behalf of Grantee for the purposes of accessing, laying, constructing, maintaining, operating, repairing, replacing, inspecting and removing the pipeline. This provision shall continue to apply to any such damage, loss or violation caused by Grantee regardless of any assignment or release of this easement by Grantee.

9. Grantor does not warrant or agree to defend title to the lands covered by this easement. Grantee has assumed the risk of title lien, cloud or claim. Grantee agrees to pay Grantor and/or his tenant(s) for damage to growing crops, livestock, timber, fences or other structural improvements which are caused by construction, maintenance, operation, repairing, alteration, replacement or removal of the pipeline and appurtenant facilities. Grantee shall reasonably compensate Grantor or the surface occupants for loss or damage to crops, pastures, fences, structures, improvements, waterlines, diversions, irrigation ditches, terraces, tile lines, tanks, timber, pipelines or any other damages to the Property, improvements, personal property or livestock caused by or resulting from Grantee's use or occupancy of the Property, including damages due to operation, location, use, testing, repair, maintenance, removal or abandonment of the Pipeline.
 - a. Should either (i) a growing crop, hay, grass, forage, rangeland or any cropland be damaged or destroyed, or (ii) the agricultural capability of the lands encompassing the Pipeline Easement or the Temporary Construction Easement be reduced or eliminated by Grantee during the use, operation, maintenance or replacement of the Pipeline, Grantor or the surface occupant shall be reasonably compensated for the loss thereof by multiplying the current market price for the crop by the reduced production as evidenced by comparing yields with adjacent lands within the same growing season or most recent full production from the impacted lands.
 - b. Grantee shall compensate Grantor or the surface occupant for any injury or loss to Grantor's or the surface occupant's livestock resulting from construction or Grantee's operations or activities on the Property, at the then current replacement price plus reasonable transaction costs for such livestock to make the individual whole.
 - c. In the event Grantee's activities or omissions cause fire on the Property or adjacent lands owned by Grantor, and the property or adjacent lands are used for grazing, Grantee shall promptly pay (i) the reasonable costs of all fire suppression incurred

WH

by Grantor or the surface occupant, (ii) One Hundred Twenty Dollars (\$120.00) per acre for all rangeland burned for immediate lost grazing as full and complete satisfaction for said lost grazing for a period of two (2) growing seasons, (iii) replacement costs for fences and any other improvements, including structures, destroyed or damaged by fire, and (iv) all other actual damages, including all costs associated with the prevention and control of cheat grass and cactus, to Grantor or the surface occupant as a result of such fire. Damages for immediate lost grazing shall be paid within one week of establishing the acres burned, and the amount per acre shall be adjusted annually by reference to the "CPI-U" published U.S. Department of Labor Bureau of Labor Statistics, or if such index is no longer published, a comparable replacement index. Compensation for other damages must be paid within a reasonable time after notification to Grantee of the fire damage in writing, which notice shall include itemization and evidence of the cost associated with the damages.

d. To the extent Grantee's construction of the Pipeline requires the removal of any of the Property from participation in the Conservation Reserve Program or any substantially similar government program in which it was enrolled and qualified on the Effective Date, Grantee shall reimburse Grantor for any penalties and reimbursement obligations levied against Grantor by the agency administering the program as a consequence of the property's removal.

10. As set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, the following mitigative measures shall be implemented during topsoil removal and storage. In cultivated lands and rangeland, the actual depth of the topsoil will be stripped from any area excavated. All subsoil material removed from the trench will be placed in a second stockpile that is separate from the topsoil stockpile (that is, double ditched.) The contractor shall perform work in a manner to minimize the potential for subsoil and topsoil to be mixed. In backfilling the trench, the stockpiled subsoil material will be placed back into the trench before replacing the topsoil. All tracks, ruts and equipment surface disturbance shall be removed by grading or filling in such tracks or ruts with topsoil after construction, maintenance or inspection. Two years after the construction is completed, Grantee shall also inspect the pipeline easement, and any ground which has sunk or caved in shall be restored to the contour as close to the original slope and contour as is reasonably possible by hauling in black topsoil from surrounding land adjacent to the reclaimed trench area to fill a sunken or caved in area so as to restore contour in the easement area.

WH

EAS \$40.00

WILLIAMS COUNTY, ND

- 11. Grantee shall control by appropriate spraying, or clipping prior to going to seed, all noxious weeds that grow within the pipeline right of way lands disturbed for construction or maintenance as set forth in the abovementioned ECP.
- 12. Grantee agrees to consult with Grantor and the surface occupants to take such precautions as necessary to protect new vegetation upon reseeding as set forth in the abovementioned ECP.
- 13. If the pipeline installed upon this easement is not used for a consecutive period of two (2) years, then within one (1) year following that date, the Grantee shall remove this pipeline and restore the surface to the affected areas as otherwise described in this Agreement. Within that same one year period, the Grantee shall also prepare and record a release of all of Grantee's rights, titles, and interests in this pipeline agreement. The requirement to remove the abandoned pipeline may be waived only with a separate agreement signed in advance by the Grantor.
- 14. Firearms shall not be brought on to the property, and there shall be no hunting allowed on the property covered by this easement by Grantee and its "agents" as defined in Paragraph

This Easement shall run with the land and shall bind the parties, their heirs, successors and assigns. TO HAVE AND TO HOLD unto Grantee, its successors and assigns, the easement rights and privileges herein granted for so long as said easement is useful to Grantee for the purposes stated above, with no cessation of use for more than two (2) years.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September, 29th, 2015, is between Royce S. Aslakson and Joyce Aslakson, his wife, as joint tenants and not as tenants in common, whose mailing address is P.O. Box 338, Parshall, ND 58770-0338, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160.00 acres of land, more or less, being the S1/2SW1/4 and the S1/2SE1/4, all in Section 34, Township 156 North, Range 97 West, Williams County, North Dakota as described in that certain Warranty Deed dated January 2, 2001 from Richard H. Aslakson and Geraldine I. Aslakson, his wife and Royce S. Aslakson, Grantors, to Royce S. Aslakson and Joyce Aslakson, his wife, Grantees, as joint tenants and not as tenants in common, recorded as Instrument Number 595987, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated January 28, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 803265, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

EAS \$31.00

WILLIAMS COUNTY, ND

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses,

provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

WILLIAMS COUNTY, ND

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September 9, 2015, is between Constance "Connie" Bergstrom and Constance "Connie" Bergstrom as Trustee of the Family Share Trust under Will of Donald D. Bergstrom, Contract Seller; and David G. Bergstrom and Colleen K. Bergstrom, husband and wife, as tenants in common, Contract Buyer, whose mailing address is P.O. Box 507, Ray, ND 58849, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160.96 acres of land, more or less, situated in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Lot 01, and 02 of Section 03 Township One 155 North, Range 97 West, Williams County, North Dakota, more particularly described in Quit Claim Deed dated November 02, 2010 from Donald D. Bergstrom and Connie Bergstrom a/k/a Constance H. Bergstrom, husband and wife, to Donald D. Bergstrom and Connie Bergstrom, a/k/a Constance H. Bergstrom, husband and wife, as tenants in common, recorded as Document Number 699645, office of County Recorder, of Williams County, North Dakota, less and except any conveyances heretofore made.

All that certain lot, tract or parcel of land, containing 121.12 acres of land, more or less, situated in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Lot 03, and Lot 04 of Section 03, Township 155 North, Range 97 West, Williams County, North Dakota, more particularly described in Quit Claim Deed dated November 02, 2010 from Donald D. Bergstrom and Connie Bergstrom a/k/a Constance H. Bergstrom, husband and wife, to Donald D. Bergstrom and Connie Bergstrom, a/k/a

EAS \$40.00

WILLIAMS COUNTY, ND

Constance H. Bergstrom, husband and wife, as tenants in common, recorded as Document Number 699645, office of County Recorder, of Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement, and (c) be recorded by Grantee in the Williams County Recorder's Office. Grantee shall provide Grantor with a copy of the recorded **Exhibit A-1** which shall constitute the actual Easement granted.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of (up to 30' diameter), relocating and changing the route or routes of within the boundaries of the Easement, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. However, Grantee shall not change the contour of the land in any manner which might inhibit or redirect the natural flow of water. Grantee agrees to fill and refill, as may be necessary in the option of Grantor, any subsidence along the Pipeline Easement with additional hauled in topsoil so the original contours of the land are maintained as near the recent natural surface level as possible.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and shall be definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in

814433

Page: 3 of 11

10/23/2015 1:31 PM

EAS \$40.00

WILLIAMS COUNTY, ND

accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops by the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Notwithstanding the foregoing, this Agreement is a general release as defined by Section 9-13-02 NDCC and does not release Grantee from future actual, extraordinary, unforeseen, indirect, special or consequential damages.

5. Unless more specifically agreed upon by the parties, Grantee shall restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder, as provided in the North Dakota Environmental Construction Plan attached hereto and incorporated by reference herein. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or interfere with Grantee's rights under this Agreement. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee no less than seventy two (72) hours before streets, roadways, utilities, or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. Grantor agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Grantee agrees the Pipeline will be constructed in a manner to allow the crossing of agricultural equipment of normal weight and livestock. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the

814433

WILLIAMS COUNTY, ND

Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Unless more specifically stated in the terms of this Agreement, Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement, as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim, costs (including reasonable attorneys' fees and court costs) or liability or loss from personal injury, including death, or property damage to the extent caused by Grantee, its servants, agents or invitees, and to the extent caused by Grantee during the installation, use, maintenance, repair or removal of the pipeline by Grantee and such persons acting on its behalf, excepting, however, such claims, costs, liabilities or damages as may be due to or caused by the negligence of Grantor, or its servants, agents or invitees. Furthermore, Grantee hereby agrees to indemnify and hold Grantor harmless for any environmental damage caused by Grantee on this Easement, or for any damages caused by Grantee's noncompliance with any applicable and enforceable environmental law, order, administrative law, regulation or rule adopted or promulgated by the State of North Dakota or the United States of America, or any Board, Agency or Commission of either having jurisdiction over the operations of Grantee. Notwithstanding anything to the contrary contained in this Agreement, it is expressly understood and agreed between Grantor and Grantee that: (a) Grantee shall not be responsible for the existence, assessment, remediation, excavation, removal, relocation or disposal of any petroleum, hazardous or toxic substances or solid wastes which are present on the Pipeline Easement or the Temporary Construction Easement as of the date of this Agreement or which migrate from no fault or control of Grantee to the Pipeline Easement, Temporary Construction Easement or Access Easement after the date of this Agreement.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be for a term of ninety nine (99) years in accordance with North Dakota law, and provisions of this Agreement, including all benefits and burdens, shall run with the land.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contain the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit "B" attached hereto.

EXHIBIT "B"

This Addendum is attached to and made a part of that certain Easement Agreement dated September 9, 2015, by and between Constance "Connie" Bergstrom and Constance "Connie" Bergstrom as Trustee of the Family Share Trust under Will of Donald D. Bergstrom, Contract Seller; and David G. Bergstrom and Colleen K. Bergstrom, husband and wife, as tenants in common, Contract Buyer, as Grantor, and Dakota Access, LLC, of 1300 Main Street, Houston, Texas 77002, as Grantee. If any of the following provisions conflict with or are inconsistent with any of the printed provisions or terms of the Easement Agreement, the following provisions shall control:

1. Grantee may sell or assign in whole or in part its rights to this easement, however, such sale or assignment shall not be effective until Grantor has been delivered notice of the name, address, and phone number of the proposed assignee.
2. Grantor is not prevented from granting other easements that cross this easement provided that such easements or use by others does not damage or interfere with Grantee's use. To that extent, this is a non-exclusive easement. Grantee hereby grants permission to Grantor and the surface occupants to cross the Pipeline Easement at any time with agricultural equipment of normal weight as necessary to carry out normal and customary farming and ranching on the Property.
3. This Agreement is for the installation of one 30-inch steel crude oil pipeline and related equipment for the transportation of crude oil and associated by-products and may not be used for any other purpose. Grantee will allow no surface equipment or apparatus associated with the pipeline to be installed on Grantor's land without separate consent from Grantor, except for pipeline markers and cathodic protection test leads as may be required.
4. Grantee agrees to bury the pipeline a minimum of forty-eight inches (48") from the top on cultivated lands and rangelands and no less than twenty four inches (24") through rock.
5. The Easement consideration compensates Grantor for any existing structures and improvements located on the Property as of the Effective Date of this Agreement.
6. This pipeline easement shall not be effective, and the Grantee shall have no rights to enter upon the property, until all payments for this easement or for property damage have been paid to Grantor.
7. This pipeline may not be moved, and it may not be replaced by a larger pipeline than originally installed without the written permission of Grantor and additional consideration. If Grantee desires to dig up any part or portion of the pipeline during the term of this easement for any reason, it shall pay damages to Grantor for soil disturbance and actual damages at the then-current fair market value of such damages.

814433

Page: 8 of 11

10/23/2015 1:31 PM

EAS \$40.00

WILLIAMS COUNTY, ND

8. Grantee undertakes to and does hereby agree to defend, hold harmless, and indemnify Grantor, his successors, heirs, or assigns, from any and all liability, costs, and attorney's fees Grantor may suffer arising out of any operation, work, procedure, accident or otherwise involving the use by the Grantee of any portion of the lands described in this easement, or for any environmental damage caused or permitted by Grantee on this easement, or for any damage caused by Grantee's noncompliance with any environmental law, order, administrative law, or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either, having jurisdiction. The term "Grantee" as used in this paragraph includes Grantee's agents, servants, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or in behalf of Grantee for the purposes of accessing, laying, constructing, maintaining, operating, repairing, replacing, inspecting and removing the pipeline. This provision shall continue to apply to any such damage, loss or violation caused by Grantee regardless of any assignment or release of this easement by Grantee.
9. Grantor does not warrant or agree to defend title to the lands covered by this easement. Grantee has assumed the risk of title lien, cloud or claim. Grantee agrees to pay Grantor and/or his tenant(s) for damage to growing crops, livestock, timber, fences or other structural improvements which are caused by construction, maintenance, operation, repairing, alteration, replacement or removal of the pipeline and appurtenant facilities. Grantee shall reasonably compensate Grantor or the surface occupants for loss or damage to crops, pastures, fences, structures, improvements, waterlines, diversions, irrigation ditches, terraces, tile lines, tanks, timber, pipelines or any other damages to the Property, improvements, personal property or livestock caused by or resulting from Grantee's use or occupancy of the Property, including damages due to operation, location, use, testing, repair, maintenance, removal or abandonment of the Pipeline.
 - a. Should either (i) a growing crop, hay, grass, forage, rangeland or any cropland be damaged or destroyed, or (ii) the agricultural capability of the lands encompassing the Pipeline Easement or the Temporary Construction Easement be reduced or eliminated by Grantee during the use, operation, maintenance or replacement of the Pipeline, Grantor or the surface occupant shall be reasonably compensated for the loss thereof by multiplying the current market price for the crop by the reduced production as evidenced by comparing yields with adjacent lands within the same growing season or most recent full production from the impacted lands.
 - b. Grantee shall compensate Grantor or the surface occupant for any injury or loss to Grantor's or the surface occupant's livestock resulting from construction or Grantee's operations or activities on the Property, at the then current replacement price plus reasonable transaction costs for such livestock to make the individual whole.

- c. In the event Grantee's activities or omissions cause fire on the Property or adjacent lands owned by Grantor, and the property or adjacent lands are used for grazing, Grantee shall promptly pay (i) the reasonable costs of all fire suppression incurred by Grantor or the surface occupant, (ii) One Hundred Twenty Dollars (\$120.00) per acre for all rangeland burned for immediate lost grazing as full and complete satisfaction for said lost grazing for a period of two (2) growing seasons, (iii) replacement costs for fences and any other improvements, including structures, destroyed or damaged by fire, and (iv) all other actual damages, including all costs associated with the prevention and control of cheat grass and cactus, to Grantor or the surface occupant as a result of such fire. Damages for immediate lost grazing shall be paid within one week of establishing the acres burned, and the amount per acre shall be adjusted annually by reference to the "CPI-U" published U.S. Department of Labor Bureau of Labor Statistics, or if such index is no longer published, a comparable replacement index. Compensation for other damages must be paid within a reasonable time after notification to Grantee of the fire damage in writing, which notice shall include itemization and evidence of the cost associated with the damages.
 - d. To the extent Grantee's construction of the Pipeline requires the removal of any of the Property from participation in the Conservation Reserve Program or any substantially similar government program in which it was enrolled and qualified on the Effective Date, Grantee shall reimburse Grantor for any penalties and reimbursement obligations levied against Grantor by the agency administering the program as a consequence of the property's removal.
10. As set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, the following mitigative measures shall be implemented during topsoil removal and storage. In cultivated lands and rangeland, the actual depth of the topsoil will be stripped from any area excavated. All subsoil material removed from the trench will be placed in a second stockpile that is separate from the topsoil stockpile (that is, double ditched.) The contractor shall perform work in a manner to minimize the potential for subsoil and topsoil to be mixed. In backfilling the trench, the stockpiled subsoil material will be placed back into the trench before replacing the topsoil. All tracks, ruts and equipment surface disturbance shall be removed by grading or filling in such tracks or ruts with topsoil after construction, maintenance or inspection. Two years after the construction is completed, Grantee shall also inspect the pipeline easement, and any ground which has sunk or caved in shall be restored to the contour as close to the original slope and contour as is reasonably possible.

814433

Page: 10 of 11

EAS \$40.00

WILLIAMS COUNTY, ND

11. Grantee shall control by appropriate spraying, or clipping prior to going to seed, all noxious weeds that grow within the pipeline right of way lands disturbed for construction or maintenance as set forth in the abovementioned ECP.
12. Grantee agrees to consult with Grantor and the surface occupants to take such precautions as necessary to protect new vegetation upon reseeding as set forth in the abovementioned ECP.
13. If the pipeline installed upon this easement is not used for a consecutive period of two (2) years, then within one (1) year following that date, the Grantee shall remove this pipeline and restore the surface to the affected areas as otherwise described in this Agreement. Within that same one year period, the Grantee shall also prepare and record a release of all of Grantee's rights, titles, and interests in this pipeline agreement. The requirement to remove the abandoned pipeline may be waived only with a separate agreement signed in advance by the Grantor.
14. Firearms shall not be brought on to the property, and there shall be no hunting allowed on the property covered by this easement by Grantee and its "agents" as defined in Paragraph 8 of this Exhibit.
15. Grantee agrees to keep the Property free and clear of all claims or liens for labor and services performed, and materials, supplies or equipment furnished in connection with Grantee's use of the Property; provided, however, if such a lien is filed against the Property, Grantee shall indemnify and hold Grantor and the surface occupants harmless against the consequences thereof.

This Easement shall run with the land and shall bind the parties, their heirs, successors and assigns. TO HAVE AND TO HOLD unto Grantee, its successors and assigns, the easement rights and privileges herein granted for so long as said easement is useful to Grantee for the purposes stated above, with no cessation of use for more than two (2) years.

EXECUTED this 9 day of September, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September 9, 2015, is between Constance "Connie" Bergstrom and Constance "Connie" Bergstrom as Trustee of the Family Share Trust under Will of Donald D. Bergstrom, Contract Seller; and David G. Bergstrom and Colleen K. Bergstrom, husband and wife, as tenants in common, Contract Buyer, whose mailing address is P.O. Box 507, Ray, ND 58849, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160.96 acres of land, more or less, situated in the SW¼NE¼, the SE¼NW¼, Lot 01, and 02 of Section 03 Township One 155 North, Range 97 West, Williams County, North Dakota, more particularly described in Quit Claim Deed dated November 02, 2010 from Donald D. Bergstrom and Connie Bergstrom a/k/a Constance H. Bergstrom, husband and wife, to Donald D. Bergstrom and Connie Bergstrom, a/k/a Constance H. Bergstrom, husband and wife, as tenants in common, recorded as Document Number 699645, office of County Recorder, of Williams County, North Dakota, less and except any conveyances heretofore made.

All that certain lot, tract or parcel of land, containing 121.12 acres of land, more or less, situated in the SW¼NW¼, Lot 03, and Lot 04 of Section 03, Township 155 North, Range 97 West, Williams County, North Dakota, more particularly described in Quit Claim Deed dated November 02, 2010 from Donald D. Bergstrom and Connie Bergstrom a/k/a Constance H. Bergstrom, husband and wife, to Donald D. Bergstrom and Connie Bergstrom, a/k/a

EAS \$40.00

WILLIAMS COUNTY, ND

Constance H. Bergstrom, husband and wife, as tenants in common, recorded as Document Number 699645, office of County Recorder, of Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement, and (c) be recorded by Grantee in the Williams County Recorder's Office. Grantee shall provide Grantor with a copy of the recorded **Exhibit A-1** which shall constitute the actual Easement granted.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of (up to 30' diameter), relocating and changing the route or routes of within the boundaries of the Easement, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. However, Grantee shall not change the contour of the land in any manner which might inhibit or redirect the natural flow of water. Grantee agrees to fill and refill, as may be necessary in the option of Grantor, any subsidence along the Pipeline Easement with additional hauled in topsoil so the original contours of the land are maintained as near the recent natural surface level as possible.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and shall be definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in

814433

Page: 3 of 11

10/23/2015 1:31 PM

EAS \$40.00

WILLIAMS COUNTY, ND

accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops by the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Notwithstanding the foregoing, this Agreement is a general release as defined by Section 9-13-02 NDCC and does not release Grantee from future actual, extraordinary, unforeseen, indirect, special or consequential damages.

5. Unless more specifically agreed upon by the parties, Grantee shall restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder, as provided in the North Dakota Environmental Construction Plan attached hereto and incorporated by reference herein. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or interfere with Grantee's rights under this Agreement. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee no less than seventy two (72) hours before streets, roadways, utilities, or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. Grantor agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Grantee agrees the Pipeline will be constructed in a manner to allow the crossing of agricultural equipment of normal weight and livestock. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the

814433

EAS \$40.00

WILLIAMS COUNTY, ND

Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Unless more specifically stated in the terms of this Agreement, Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement, as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim, costs (including reasonable attorneys' fees and court costs) or liability or loss from personal injury, including death, or property damage to the extent caused by Grantee, its servants, agents or invitees, and to the extent caused by Grantee during the installation, use, maintenance, repair or removal of the pipeline by Grantee and such persons acting on its behalf, excepting, however, such claims, costs, liabilities or damages as may be due to or caused by the negligence of Grantor, or its servants, agents or invitees. Furthermore, Grantee hereby agrees to indemnify and hold Grantor harmless for any environmental damage caused by Grantee on this Easement, or for any damages caused by Grantee's noncompliance with any applicable and enforceable environmental law, order, administrative law, regulation or rule adopted or promulgated by the State of North Dakota or the United States of America, or any Board, Agency or Commission of either having jurisdiction over the operations of Grantee. Notwithstanding anything to the contrary contained in this Agreement, it is expressly understood and agreed between Grantor and Grantee that: (a) Grantee shall not be responsible for the existence, remediation, assessment, remediation, excavation, removal, relocation or disposal of any petroleum, hazardous or toxic substances or solid wastes which are present on the Pipeline Easement or the Temporary Construction Easement as of the date of this Agreement or which migrate from no fault or control of Grantee to the Pipeline Easement, Temporary Construction Easement or Access Easement after the date of this Agreement.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be for a term of ninety nine (99) years in accordance with North Dakota law, and provisions of this Agreement, including all benefits and burdens, shall run with the land.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contain the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

814433

EAS \$40.00

WILLIAMS COUNTY, ND

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit "B" attached hereto.

EXECUTED this 23 day of Sept., 2015.

EXHIBIT "B"

This Addendum is attached to and made a part of that certain Easement Agreement dated September 9, 2015, by and between Constance "Connie" Bergstrom and Constance "Connie" Bergstrom as Trustee of the Family Share Trust under Will of Donald D. Bergstrom, Contract Seller; and David G. Bergstrom and Colleen K. Bergstrom, husband and wife, as tenants in common, Contract Buyer, as Grantor, and Dakota Access, LLC, of 1300 Main Street, Houston, Texas 77002, as Grantee. If any of the following provisions conflict with or are inconsistent with any of the printed provisions or terms of the Easement Agreement, the following provisions shall control:

1. Grantee may sell or assign in whole or in part its rights to this easement, however, such sale or assignment shall not be effective until Grantor has been delivered notice of the name, address, and phone number of the proposed assignee.
2. Grantor is not prevented from granting other easements that cross this easement provided that such easements or use by others does not damage or interfere with Grantee's use. To that extent, this is a non-exclusive easement. Grantee hereby grants permission to Grantor and the surface occupants to cross the Pipeline Easement at any time with agricultural equipment of normal weight as necessary to carry out normal and customary farming and ranching on the Property.
3. This Agreement is for the installation of one 30-inch steel crude oil pipeline and related equipment for the transportation of crude oil and associated by-products and may not be used for any other purpose. Grantee will allow no surface equipment or apparatus associated with the pipeline to be installed on Grantor's land without separate consent from Grantor, except for pipeline markers and cathodic protection test leads as may be required.
4. Grantee agrees to bury the pipeline a minimum of forty-eight inches (48") from the top on cultivated lands and rangelands and no less than twenty four inches (24") through rock.
5. The Easement consideration compensates Grantor for any existing structures and improvements located on the Property as of the Effective Date of this Agreement.
6. This pipeline easement shall not be effective, and the Grantee shall have no rights to enter upon the property, until all payments for this easement or for property damage have been paid to Grantor.
7. This pipeline may not be moved, and it may not be replaced by a larger pipeline than originally installed without the written permission of Grantor and additional consideration. If Grantee desires to dig up any part or portion of the pipeline during the term of this easement for any reason, it shall pay damages to Grantor for soil disturbance and actual damages at the then-current fair market value of such damages.

814433

Page: 8 of 11
10/23/2015 1:31 PM
EAS \$40.00

WILLIAMS COUNTY, ND

8. Grantee undertakes to and does hereby agree to defend, hold harmless, and indemnify Grantor, his successors, heirs, or assigns, from any and all liability, costs, and attorney's fees Grantor may suffer arising out of any operation, work, procedure, accident or otherwise involving the use by the Grantee of any portion of the lands described in this easement, or for any environmental damage caused or permitted by Grantee on this easement, or for any damage caused by Grantee's noncompliance with any environmental law, order, administrative law, or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either, having jurisdiction. The term "Grantee" as used in this paragraph includes Grantee's agents, servants, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or in behalf of Grantee for the purposes of accessing, laying, constructing, maintaining, operating, repairing, replacing, inspecting and removing the pipeline. This provision shall continue to apply to any such damage, loss or violation caused by Grantee regardless of any assignment or release of this easement by Grantee.
9. Grantor does not warrant or agree to defend title to the lands covered by this easement. Grantee has assumed the risk of title lien, cloud or claim. Grantee agrees to pay Grantor and/or his tenant(s) for damage to growing crops, livestock, timber, fences or other structural improvements which are caused by construction, maintenance, operation, repairing, alteration, replacement or removal of the pipeline and appurtenant facilities. Grantee shall reasonably compensate Grantor or the surface occupants for loss or damage to crops, pastures, fences, structures, improvements, waterlines, diversions, irrigation ditches, terraces, tile lines, tanks, timber, pipelines or any other damages to the Property, improvements, personal property or livestock caused by or resulting from Grantee's use or occupancy of the Property, including damages due to operation, location, use, testing, repair, maintenance, removal or abandonment of the Pipeline.
 - a. Should either (i) a growing crop, hay, grass, forage, rangeland or any cropland be damaged or destroyed, or (ii) the agricultural capability of the lands encompassing the Pipeline Easement or the Temporary Construction Easement be reduced or eliminated by Grantee during the use, operation, maintenance or replacement of the Pipeline, Grantor or the surface occupant shall be reasonably compensated for the loss thereof by multiplying the current market price for the crop by the reduced production as evidenced by comparing yields with adjacent lands within the same growing season or most recent full production from the impacted lands.
 - b. Grantee shall compensate Grantor or the surface occupant for any injury or loss to Grantor's or the surface occupant's livestock resulting from construction or Grantee's operations or activities on the Property, at the then current replacement price plus reasonable transaction costs for such livestock to make the individual whole.

EAS \$40.00

WILLIAMS COUNTY, ND

- c. In the event Grantee's activities or omissions cause fire on the Property or adjacent lands owned by Grantor, and the property or adjacent lands are used for grazing, Grantee shall promptly pay (i) the reasonable costs of all fire suppression incurred by Grantor or the surface occupant, (ii) One Hundred Twenty Dollars (\$120.00) per acre for all rangeland burned for immediate lost grazing as full and complete satisfaction for said lost grazing for a period of two (2) growing seasons, (iii) replacement costs for fences and any other improvements, including structures, destroyed or damaged by fire, and (iv) all other actual damages, including all costs associated with the prevention and control of cheat grass and cactus, to Grantor or the surface occupant as a result of such fire. Damages for immediate lost grazing shall be paid within one week of establishing the acres burned, and the amount per acre shall be adjusted annually by reference to the "CPI-U" published U.S. Department of Labor Bureau of Labor Statistics, or if such index is no longer published, a comparable replacement index. Compensation for other damages must be paid within a reasonable time after notification to Grantee of the fire damage in writing, which notice shall include itemization and evidence of the cost associated with the damages.
 - d. To the extent Grantee's construction of the Pipeline requires the removal of any of the Property from participation in the Conservation Reserve Program or any substantially similar government program in which it was enrolled and qualified on the Effective Date, Grantee shall reimburse Grantor for any penalties and reimbursement obligations levied against Grantor by the agency administering the program as a consequence of the property's removal.
10. As set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, the following mitigative measures shall be implemented during topsoil removal and storage. In cultivated lands and rangeland, the actual depth of the topsoil will be stripped from any area excavated. All subsoil material removed from the trench will be placed in a second stockpile that is separate from the topsoil stockpile (that is, double ditched.) The contractor shall perform work in a manner to minimize the potential for subsoil and topsoil to be mixed. In backfilling the trench, the stockpiled subsoil material will be placed back into the trench before replacing the topsoil. All tracks, ruts and equipment surface disturbance shall be removed by grading or filling in such tracks or ruts with topsoil after construction, maintenance or inspection. Two years after the construction is completed, Grantee shall also inspect the pipeline easement, and any ground which has sunk or caved in shall be restored to the contour as close to the original slope and contour as is reasonably possible.

814433

Page: 10 of 11
10/23/2015 1:31 PM
EAS \$40.00

WILLIAMS COUNTY, ND

11. Grantee shall control by appropriate spraying, or clipping prior to going to seed, all noxious weeds that grow within the pipeline right of way lands disturbed for construction or maintenance as set forth in the abovementioned ECP.
12. Grantee agrees to consult with Grantor and the surface occupants to take such precautions as necessary to protect new vegetation upon reseeding as set forth in the abovementioned ECP.
13. If the pipeline installed upon this easement is not used for a consecutive period of two (2) years, then within one (1) year following that date, the Grantee shall remove this pipeline and restore the surface to the affected areas as otherwise described in this Agreement. Within that same one year period, the Grantee shall also prepare and record a release of all of Grantee's rights, titles, and interests in this pipeline agreement. The requirement to remove the abandoned pipeline may be waived only with a separate agreement signed in advance by the Grantor.
14. Firearms shall not be brought on to the property, and there shall be no hunting allowed on the property covered by this easement by Grantee and its "agents" as defined in Paragraph 8 of this Exhibit.
15. Grantee agrees to keep the Property free and clear of all claims or liens for labor and services performed, and materials, supplies or equipment furnished in connection with Grantee's use of the Property; provided, however, if such a lien is filed against the Property, Grantee shall indemnify and hold Grantor and the surface occupants harmless against the consequences thereof.

This Easement shall run with the land and shall bind the parties, their heirs, successors and assigns. TO HAVE AND TO HOLD unto Grantee, its successors and assigns, the easement rights and privileges herein granted for so long as said easement is useful to Grantee for the purposes stated above, with no cessation of use for more than two (2) years.

EXECUTED this 9 day of September, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 10-14-15, 2015, is between **Jelean Braaten**, whose mailing address is **805 16th Street West, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 642.58 acres of land, more or less, being Lot 1, Lot 2, Lot 3 and Lot 4; the South Half of the Northwest Quarter (S1/2NW1/4) and the South Half of the Northeast Quarter (S1/2NE1/4), Section 4 and Lot 1 and Lot 2 and the South Half of the Northeast Quarter (S1/2NE1/4) of Section 5, all in Township 155 North, Range 97 West, Williams County, North Dakota as described in that certain Personal Representative's Deed of Distribution, dated November 10, 2009, from Jelean Braaten, Personal Representative of the Estate of Marlin D. Braaten, Grantor, to Jelean Braaten, Grantee, recorded as Instrument Number 694445, Official Public Records, Williams County, North Dakota, less and except any conveyance heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 27, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 813713, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

JB

EAS \$34.00

WILLIAMS COUNTY, ND

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses.

814608

Page: 3 of 9

10/28/2015 1:03 PM

EAS \$34.00

WILLIAMS COUNTY, ND

provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

814608

Page: 4 of 9

10/28/2015 1:03 PM

EAS \$34.00

WILLIAMS COUNTY, ND

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 14 day of October, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 10-14-15, 2015, is between **Jelean Braaten**, whose mailing address is **805 16th Street West, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 642.58 acres of land, more or less, being Lot 1, Lot 2, Lot 3 and Lot 4; the South Half of the Northwest Quarter (S1/2NW1/4) and the South Half of the Northeast Quarter (S1/2NE1/4), Section 4 and Lot 1 and Lot 2 and the South Half of the Northeast Quarter (S1/2NE1/4) of Section 5, all in Township 155 North, Range 97 West, Williams County, North Dakota as described in that certain Personal Representative's Deed of Distribution, dated November 10, 2009, from Jelean Braaten, Personal Representative of the Estate of Marlin D. Braaten, Grantor, to Jelean Braaten, Grantee, recorded as Instrument Number 694445, Official Public Records, Williams County, North Dakota, less and except any conveyance heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 27, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 813713, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

WILLIAMS COUNTY, ND

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses.

814608

Page: 3 of 9

10/28/2015 1:03 PM

EAS \$34.00

WILLIAMS COUNTY, ND

provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

814608

Page: 4 of 9

10/28/2015 1:03 PM

EAS \$34.00

WILLIAMS COUNTY, ND

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 14 day of October, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 10-14-15, 2015, is between **Jelean Braaten**, whose mailing address is **805 16th Street West, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty inches (30")** in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 642.58 acres of land, more or less, being Lot 1, Lot 2, Lot 3 and Lot 4; the South Half of the Northwest Quarter (S1/2NW1/4) and the South Half of the Northeast Quarter (S1/2NE1/4), Section 4 and Lot 1 and Lot 2 and the South Half of the Northeast Quarter (S1/2NE1/4) of Section 5, all in Township 155 North, Range 97 West, Williams County, North Dakota as described in that certain Personal Representative's Deed of Distribution, dated November 10, 2009, from Jelean Braaten, Personal Representative of the Estate of Marlin D. Braaten, Grantor, to Jelean Braaten, Grantee, recorded as Instrument Number 694445, Official Public Records, Williams County, North Dakota, less and except any conveyance heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 27, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 813713, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses.

814608

EAS \$34.00

WILLIAMS COUNTY, ND

provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements, Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

EAS \$34.00

WILLIAMS COUNTY, ND

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements: provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 14 day of October, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated November 15, 2015, is between Harvey B. Weyrauch and Aurita M. Weyrauch, husband and wife, joint tenants, whose mailing address is 6259 114th Avenue Northwest, Ray ND 58849; Charles F. Daniel and Lois Daniel, husband and wife, whose mailing address is PO Box 274, Ray, ND 58849; Clarence R. Daniel and Julie Daniel, husband and wife, Life Estate, whose mailing address is PO Box 67, Spiritwood, ND 58481; Susan M. Daniel whose mailing address is PO Box 67, Spiritwood, ND 58481 and Jennifer D. Christopher whose mailing address is 3514 2nd Street Northeast, Minneapolis, MN 55418, Remaindermen; Dennis E. Daniel and Carol L. Daniel, husband and wife, Life Estate, whose mailing address is 3430 County Road 139, Mandan, ND 58554, Patrick A. Daniel whose mailing address is 4901 Highland Road, Mandan, ND 58554, and Cheryl J. Copenhaver whose mailing address is 2723 T Road, Helena, MT 59602, Remaindermen and Shirley I. Kerbaugh, a widowed woman, whose mailing address is 1515 2nd Avenue West, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 121.16 acres of land, more or less, being Lots 3 and 4, and the SW/4NW/4, all in Section 5, Township 155 North, Range 97 West in Williams County, North Dakota, as described in that certain Quit Claim Deed dated September 30, 2014, from Dennis E. Daniel and Carol L. Daniel, husband and wife, Grantors, and Dennis E. Daniel and Carol L. Daniel, husband and wife, Life Tenants, and Patrick A. Daniel, a married person, and Cheryl J. Copenhaver, a married person, Remainder Tenants, Grantees, recorded as Instrument

WILLIAMS COUNTY, ND

Number 794346, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that it will make a reasonable effort to remove any and all rocks greater than three inches (3") in diameter uncovered or encountered during the digging process from the surface of the excavated easement. These shall, upon completion of the construction process, either be (i) removed from the premises, or (ii) buried underground to a depth of at least two feet (2')

d. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings.

e. Grantee agrees to not commence construction activities prior to March 31, 2016 without the prior written consent of Grantor.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Any payment tendered by Grantee to Grantor as consideration for this agreement does not cover any actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

6. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full. Grantee will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

7. Grantee agrees to strip the topsoil from the full width of the Pipeline Easement and Temporary Construction Easement, including the working side or travel lane, to prevent equipment traffic from mixing topsoil with the subsoil. In backfilling the trench, the stockpiled subsoil material will be placed back into the trench before replacing the topsoil. In agricultural areas where the materials excavated during trenching are insufficient in quantity to meet backfill requirements, the soil of any agricultural land adjacent to the trench and construction area shall not be used as either backfill or surface cover material. Under no circumstances shall any topsoil materials be used for pipe padding material or trench backfill. In situations where imported soil materials are employed for backfill on agricultural lands, such material shall be of similar texture and quality to the existing soils on site. Imported soils shall be free from noxious weeds and other pests to the extent possible. Grantee agrees to cultivate any area within the Pipeline Easement and Temporary Construction Easement disturbed during construction of the pipeline. Grantee agrees that no less than three (3) passes will be made across the Pipeline Easement and Temporary Construction Easement area that is ripped with the first pass to be completed with at least twelve inch (12") wide sweeps and subsequent passes to be completed with no greater than six inch (6") wide sweeps. Grantee agrees to remove rocks encountered between each pass as outlined in Paragraph 1 of this agreement. Grantee agrees to perform compaction testing after the installation of the pipeline to ensure the soil in the pipeline trench area is properly compacted in accordance with the ECP referenced in Paragraph 6 of this Agreement.

WILLIAMS COUNTY, ND

8. Grantee agrees to utilize imported topsoil to fill depressions in areas where minor trench settling occurs after topsoil spreading and land leveling. After initial reclamation, when topsoil spreading, and land leveling can no longer be utilized, Grantee shall use imported topsoil to fill depressions in areas where major trench settling occurs that is of significant depth. Topsoil from the adjacent agricultural land shall not be used to fill such depressions.

9. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed. Grantee agrees, to the extent as reasonably possible, that upon such notification and upon the Grantor's utilization of the North Dakota One Call System to mark Grantee's pipeline with bio-degradable markers or flags.

10. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

11. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

12. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

13. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

14. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

15. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

16. This easement agreement may be assigned, in whole or in part, without the Grantor's consent or permission, provided that Grantee gives Grantor notice of such assignment, providing the assignee's name, address and telephone number within ninety (60) days after such assignment. However, failure to provide Grantor such notices shall affect the transferability but not the validity or enforcement of this Easement. The Pipeline Easement and Access Easement shall be in for the term of ninety nine (99) years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

17. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

18. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

19. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

20. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

21. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

PARCEL ID: 22155970006020
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September 9, 2015, is between Constance "Connie" Bergstrom and Constance "Connie" Bergstrom as Trustee of the Family Share Trust under Will of Donald D. Bergstrom, Contract Seller; and David G. Bergstrom and Colleen K. Bergstrom, husband and wife, as tenants in common, Contract Buyer, whose mailing address is P.O. Box 507, Ray, ND 58849, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160.88 acres of land, more or less, situated in the S½NE¼, Lot 01 and Lot 02, in Section 06, Township 155 North, Range 97 West, Williams County, North Dakota, as described in that certain Assignment of Decedent Vendor's Interest in Contract for Deed, dated January 03, 2012, from Constance "Connie" H. Bergstrom, Personal Representative of the Estate of Donald D. Bergstrom, deceased, Assignor, and Constance "Connie" Bergstrom, Trustee of the Family Share Trust under Will of Donald D. Bergstrom, Assignee, recorded as Instrument Number 728255, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

816790

Page: 2 of 11
12/15/2015 1:05 PM
EAS \$40.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement, and (c) be recorded by Grantee in the Williams County Recorder's Office. Grantee shall provide Grantor with a copy of the recorded **Exhibit A-1** which shall constitute the actual Easement granted.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of (up to 30' diameter), relocating and changing the route or routes of within the boundaries of the Easement, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. However, Grantee shall not change the contour of the land in any manner which might inhibit or redirect the natural flow of water. Grantee agrees to fill and refill, as may be necessary in the option of Grantor, any subsidence along the Pipeline Easement with additional hauled in topsoil so the original contours of the land are maintained as near the recent natural surface level as possible.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and shall be definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops by the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

816790

Page: 3 of 11

EAS \$40.00

WILLIAMS COUNTY, ND

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Notwithstanding the foregoing, this Agreement is a general release as defined by Section 9-13-02 NDCC and does not release Grantee from future actual, extraordinary, unforeseen, indirect, special or consequential damages.

5. Unless more specifically agreed upon by the parties, Grantee shall restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder, as provided in the North Dakota Environmental Construction Plan attached hereto and incorporated by reference herein. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or interfere with Grantee's rights under this Agreement. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee no less than seventy two (72) hours before streets, roadways, utilities, or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. Grantor agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Grantee agrees the Pipeline will be constructed in a manner to allow the crossing of agricultural equipment of normal weight and livestock. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

EAS \$40.00

WILLIAMS COUNTY, ND

11. Unless more specifically stated in the terms of this Agreement, Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement, as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim, costs (including reasonable attorneys' fees and court costs) or liability or loss from personal injury, including death, or property damage to the extent caused by Grantee, its servants, agents or invitees, and to the extent caused by Grantee during the installation, use, maintenance, repair or removal of the pipeline by Grantee and such persons acting on its behalf, excepting, however, such claims, costs, liabilities or damages as may be due to or caused by the negligence of Grantor, or its servants, agents or invitees. Furthermore, Grantee hereby agrees to indemnify and hold Grantor harmless for any environmental damage caused by Grantee on this Easement, or for any damages caused by Grantees' noncompliance with any applicable and enforceable environmental law, order, administrative law, regulation or rule adopted or promulgated by the State of North Dakota or the United States of America, or any Board, Agency or Commission of either having jurisdiction over the operations of Grantee. Notwithstanding anything to the contrary contained in this Agreement, it is expressly understood and agreed between Grantor and Grantee that: (a) Grantee shall not be responsible for the existence, assessment, remediation, excavation, removal, relocation or disposal of any petroleum, hazardous or toxic substances or solid wastes which are present on the Pipeline Easement or the Temporary Construction Easement as of the date of this Agreement or which migrate from no fault or control of Grantee to the Pipeline Easement, Temporary Construction Easement or Access Easement after the date of this Agreement.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be for a term of ninety nine (99) years in accordance with North Dakota law, and provisions of this Agreement, including all benefits and burdens, shall run with the land.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contain the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit "B" attached hereto.

Monica Tracey
Notary Public

My Commission Expires: 11-27-2020

EXHIBIT "B"

This Addendum is attached to and made a part of that certain Easement Agreement dated September 9, 2015, by and between Constance "Connie" Bergstrom and Constance "Connie" Bergstrom as Trustee of the Family Share Trust under Will of Donald D. Bergstrom, Contract Seller; and David G. Bergstrom and Colleen K. Bergstrom, husband and wife, as tenants in common, Contract Buyer, as Grantor, and Dakota Access, LLC, of 1300 Main Street, Houston, Texas 77002, as Grantee. If any of the following provisions conflict with or are inconsistent with any of the printed provisions or terms of the Easement Agreement, the following provisions shall control:

1. Grantee may sell or assign in whole or in part its rights to this easement, however, such sale or assignment shall not be effective until Grantor has been delivered notice of the name, address, and phone number of the proposed assignee.
2. Grantor is not prevented from granting other easements that cross this easement provided that such easements or use by others does not damage or interfere with Grantee's use. To that extent, this is a non-exclusive easement. Grantee hereby grants permission to Grantor and the surface occupants to cross the Pipeline Easement at any time with agricultural equipment of normal weight as necessary to carry out normal and customary farming and ranching on the Property.
3. This Agreement is for the installation of one 30-inch steel crude oil pipeline and related equipment for the transportation of crude oil and associated by-products and may not be used for any other purpose. Grantee will allow no surface equipment or apparatus associated with the pipeline to be installed on Grantor's land without separate consent from Grantor, except for pipeline markers and cathodic protection test leads as may be required.
4. Grantee agrees to bury the pipeline a minimum of forty-eight inches (48") from the top on cultivated lands and rangelands and no less than twenty four inches (24") through rock.
5. The Easement consideration compensates Grantor for any existing structures and improvements located on the Property as of the Effective Date of this Agreement.
6. This pipeline easement shall not be effective, and the Grantee shall have no rights to enter upon the property, until all payments for this easement or for property damage have been paid to Grantor.
7. This pipeline may not be moved, and it may not be replaced by a larger pipeline than originally installed without the written permission of Grantor and additional consideration. If Grantee desires to dig up any part or portion of the pipeline during the term of this easement for any reason, it shall pay damages to Grantor for soil disturbance and actual damages at the then-current fair market value of such damages.

8. Grantee undertakes to and does hereby agree to defend, hold harmless, and indemnify Grantor, his successors, heirs, or assigns, from any and all liability, costs, and attorney's fees Grantor may suffer arising out of any operation, work, procedure, accident or otherwise involving the use by the Grantee of any portion of the lands described in this easement, or for any environmental damage caused or permitted by Grantee on this easement, or for any damage caused by Grantee's noncompliance with any environmental law, order, administrative law, or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either, having jurisdiction. The term "Grantee" as used in this paragraph includes Grantee's agents, servants, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or in behalf of Grantee for the purposes of accessing, laying, constructing, maintaining, operating, repairing, replacing, inspecting and removing the pipeline. This provision shall continue to apply to any such damage, loss or violation caused by Grantee regardless of any assignment or release of this easement by Grantee.
9. Grantor does not warrant or agree to defend title to the lands covered by this easement. Grantee has assumed the risk of title lien, cloud or claim. Grantee agrees to pay Grantor and/or his tenant(s) for damage to growing crops, livestock, timber, fences or other structural improvements which are caused by construction, maintenance, operation, repairing, alteration, replacement or removal of the pipeline and appurtenant facilities. Grantee shall reasonably compensate Grantor or the surface occupants for loss or damage to crops, pastures, fences, structures, improvements, waterlines, diversions, irrigation ditches, terraces, tile lines, tanks, timber, pipelines or any other damages to the Property, improvements, personal property or livestock caused by or resulting from Grantee's use or occupancy of the Property, including damages due to operation, location, use, testing, repair, maintenance, removal or abandonment of the Pipeline.
 - a. Should either (i) a growing crop, hay, grass, forage, rangeland or any cropland be damaged or destroyed, or (ii) the agricultural capability of the lands encompassing the Pipeline Easement or the Temporary Construction Easement be reduced or eliminated by Grantee during the use, operation, maintenance or replacement of the Pipeline, Grantor or the surface occupant shall be reasonably compensated for the loss thereof by multiplying the current market price for the crop by the reduced production as evidenced by comparing yields with adjacent lands within the same growing season or most recent full production from the impacted lands.
 - b. Grantee shall compensate Grantor or the surface occupant for any injury or loss to Grantor's or the surface occupant's livestock resulting from construction or Grantee's operations or activities on the Property, at the then current replacement price plus reasonable transaction costs for such livestock to make the individual whole.

- c. In the event Grantee's activities or omissions cause fire on the Property or adjacent lands owned by Grantor, and the property or adjacent lands are used for grazing, Grantee shall promptly pay (i) the reasonable costs of all fire suppression incurred by Grantor or the surface occupant, (ii) One Hundred Twenty Dollars (\$120.00) per acre for all rangeland burned for immediate lost grazing as full and complete satisfaction for said lost grazing for a period of two (2) growing seasons, (iii) replacement costs for fences and any other improvements, including structures, destroyed or damaged by fire, and (iv) all other actual damages, including all costs associated with the prevention and control of cheat grass and cactus, to Grantor or the surface occupant as a result of such fire. Damages for immediate lost grazing shall be paid within one week of establishing the acres burned, and the amount per acre shall be adjusted annually by reference to the "CPI-U" published U.S. Department of Labor Bureau of Labor Statistics, or if such index is no longer published, a comparable replacement index. Compensation for other damages must be paid within a reasonable time after notification to Grantee of the fire damage in writing, which notice shall include itemization and evidence of the cost associated with the damages.
 - d. To the extent Grantee's construction of the Pipeline requires the removal of any of the Property from participation in the Conservation Reserve Program or any substantially similar government program in which it was enrolled and qualified on the Effective Date, Grantee shall reimburse Grantor for any penalties and reimbursement obligations levied against Grantor by the agency administering the program as a consequence of the property's removal.
10. As set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, the following mitigative measures shall be implemented during topsoil removal and storage. In cultivated lands and rangeland, the actual depth of the topsoil will be stripped from any area excavated. All subsoil material removed from the trench will be placed in a second stockpile that is separate from the topsoil stockpile (that is, double ditched.) The contractor shall perform work in a manner to minimize the potential for subsoil and topsoil to be mixed. In backfilling the trench, the stockpiled subsoil material will be placed back into the trench before replacing the topsoil. All tracks, ruts and equipment surface disturbance shall be removed by grading or filling in such tracks or ruts with topsoil after construction, maintenance or inspection. Two years after the construction is completed, Grantee shall also inspect the pipeline easement, and any ground which has sunk or caved in shall be restored to the contour as close to the original slope and contour as is reasonably possible.

816790

Page: 10 of 11

12/15/2015 1:05 PM

EAS \$40.00

WILLIAMS COUNTY, ND

11. Grantee shall control by appropriate spraying, or clipping prior to going to seed, all noxious weeds that grow within the pipeline right of way lands disturbed for construction or maintenance as set forth in the abovementioned ECP.
12. Grantee agrees to consult with Grantor and the surface occupants to take such precautions as necessary to protect new vegetation upon reseeding as set forth in the abovementioned ECP.
13. If the pipeline installed upon this easement is not used for a consecutive period of two (2) years, then within one (1) year following that date, the Grantee shall remove this pipeline and restore the surface to the affected areas as otherwise described in this Agreement. Within that same one year period, the Grantee shall also prepare and record a release of all of Grantee's rights, titles, and interests in this pipeline agreement. The requirement to remove the abandoned pipeline may be waived only with a separate agreement signed in advance by the Grantor.
14. Firearms shall not be brought on to the property, and there shall be no hunting allowed on the property covered by this easement by Grantee and its "agents" as defined in Paragraph 8 of this Exhibit.
15. Grantee agrees to keep the Property free and clear of all claims or liens for labor and services performed, and materials, supplies or equipment furnished in connection with Grantee's use of the Property; provided, however, if such a lien is filed against the Property, Grantee shall indemnify and hold Grantor and the surface occupants harmless against the consequences thereof.

This Easement shall run with the land and shall bind the parties, their heirs, successors and assigns. TO HAVE AND TO HOLD unto Grantee, its successors and assigns, the easement rights and privileges herein granted for so long as said easement is useful to Grantee for the purposes stated above, with no cessation of use for more than two (2) years.

EXECUTED this 9 day of September, 2015.

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated _____, 2016, is between **Leslie C. Bean and Marla R. Bean, husband and wife**, whose mailing address is **13251 A Highway 1804, Williston, ND 58801** (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty inches (30")** in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 147.45 acres of land, more or less, being Lots 3, 4, 5 and SE1/4NW1/4, containing 147.45 acres, more or less, of Section 6, Township 155 North, Range 97 West, Williams County, North Dakota, as described in that certain Warranty Deed dated May 4, 1989, from The American State Bank and Trust Co. of Williston, as Conservator for Edith Helling, Grantor, to Leslie Bean, Grantee, recorded as Instrument Number 521204, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated March 13, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 804888, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

EAS \$31.00

WILLIAMS COUNTY, ND

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

LCB MRB

818394

Page: 3 of 8

1/28/2016 2:47 PM

EAS \$31.00

WILLIAMS COUNTY, ND

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.
5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.
6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.
7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.
8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.
9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the

LCB MRB

818394

1/28/2016 2:47 PM
EAS \$31.00

WILLIAMS COUNTY, ND

Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. Notwithstanding anything to the contrary herein contained or as may be directed by the rules and regulations of the State of North Dakota, Grantor is aware that certain trees and brush may be removed from Grantor's property by virtue of the revised route of Grantee's proposed pipeline, Grantor hereby elects and directs that Grantee not replant any trees or brush anywhere on Grantor's property.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated _____, 2016, is between Leslie C. Bean and Marla R. Bean, husband and wife, as joint tenants with right of survivorship, whose mailing address is 13251 A Highway 1804, Williston, ND 58801 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the Lots 1 and 2, S1/2NE1/4, all in Section 1, Township 155 North, Range 98 West, Williams County, North Dakota, as described in that certain Warranty Deed dated May 28, 1980 from Robert Neil Helling, a single man, Grantor, to Edith Helling, Grantee, recorded as Instrument Number 414584, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated March 13, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 804889, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

LCB MRB

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

EAS \$31.00

WILLIAMS COUNTY, ND

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the

818396

Page: 4 of 8

EAS \$31.00

WILLIAMS COUNTY, ND

Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. Notwithstanding anything to the contrary herein contained or as may be directed by the rules and regulations of the State of North Dakota, Grantor is aware that certain trees and brush may be removed from Grantor's property by virtue of the revised route of Grantee's proposed pipeline, Grantor hereby elects and directs that Grantee not replant any trees or brush anywhere on Grantor's property.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 23 day of Jan., 2016.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated _____, 2016, is between **Leslie C. Bean and Marla R. Bean, husband and wife**, whose mailing address is **13251 A Highway 1804, Williston, ND 58801** (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), (iii) access easements not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement and not to exceed fifty feet (50') in width for access to and from the below described surface site ("Access Easement"), and (iv) a fifty foot by seventy five foot (50' x 75') surface site, such surface site to be used for valves, risers, meters, pumps, electric facilities and lines, and associated pipeline facilities and the Access Easement(s) to be for ingress and egress, power lines and electric transmission or generation lines as may be needed to supply power to the facilities located on the surface site. The Pipeline Easement, the Temporary Construction Easement, and the Access Easement and the surface site (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, being Lots 3 and 4, S1/2NW1/4, all in Section 1, Township 155 North, Range 98 West, Williams County, North Dakota, as described in that certain Personal Representative Deed dated December 30, 1994, from the American State Bank and Trust Company of Williston as Personal Representative of the Estate of Edith L. Helling, deceased, to Leslie C. Bean and Marla R. Bean, husband and wife, as joint tenants with right of survivorship, recorded as Instrument Number 558171, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated March 13, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 804890, of the

LCB MRB

818395

Page: 2 of 8
1/28/2016 2:47 PM
EAS \$31.00

WILLIAMS COUNTY, ND

Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement and the surface site. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee may supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement and the surface site. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and

LCB MRB

818395

Page: 3 of 8
1/28/2016 2:47 PM
EAS \$31.00

WILLIAMS COUNTY, ND

conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement and surface site. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which,

in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. Notwithstanding anything to the contrary herein contained or as may be directed by the rules and regulations of the State of North Dakota, Grantor is aware that certain trees and brush may be removed from Grantor's property by virtue of the revised route of Grantee's proposed pipeline, Grantor hereby elects and directs that Grantee not replant any trees or brush anywhere on Grantor's property.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this

WILLIAMS COUNTY, ND

Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

TRACT NUMBER: ND-WI-046,000
PARCEL ID: 28155980002030
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 1-14-16, 2016, is between Kurt A. Wheeler, a/k/a Kurt Alan Wheeler, whose mailing address is 5422 99th Place Northeast, Unit B, Marysville, WA 98270-5200 hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"). The Pipeline Easement and the Temporary Construction Easement (collectively, the "Easements") are being granted and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of (in connection with maintenance or repair), relocating (in connection with maintenance or repair) and changing the route or routes of (in connection with maintenance or repair), abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities (as described in this Agreement), within the boundaries of the Easements on land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

SEE "EXHIBIT A"

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement and Temporary Construction Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement

KAW

WILLIAMS COUNTY, ND

to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing(in connection with maintenance or repair) installing, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of (in connection with maintenance or repair), abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement at fence lines and property lines when reasonable to do so) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access to the Pipeline Easement and Temporary Construction Easement (while in effect) within the boundaries of the Easements on the Grantor's Property for all purposes necessary to exercise the rights granted to it by this Agreement. If Grantor erects any fences across the Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Pipeline Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property within the boundaries of the Easements during the initial construction of the pipeline. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement and Temporary Construction Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Any payment tendered by Grantee to Grantor as consideration for this agreement does not cover any actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

6. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement and Pipeline Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for

KAW

that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

7. Grantor excepts from the Pipeline Easement and reserves to Grantor, rights to farm the Pipeline Easement and to graze livestock thereon; Grantor further reserves the right to build and maintain fences, terraces, power lines, pipelines, and roads across the Pipeline Easement as well as the right to fully use and enjoy the said premises in any manner on the Pipeline Easement for the purposes granted to Grantee. Grantor reserves the right to convey similar rights and privileges to such other persons and at such other times as Grantor may so desire; provided that such additional rights and privileges granted shall be exercised in a reasonable manner so as not to interfere with the rights of Grantee herein.

9. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

10. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

11. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement. Grantee agrees that it will make a reasonable effort to remove any and all rocks greater than four inches (4") in diameter uncovered or encountered during the digging process from the surface of the excavated easement. These shall, upon completion of the construction process, be removed from the premises.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement shall be in for a term of ninety nine (99) years, and provisions of this Agreement, including all benefits and burdens, shall run with the land.

15. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

16. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

KAW

WILLIAMS COUNTY, ND

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

20. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

EXECUTED this 14 day of January, 2016.

GRANTOR:

Kurt A. Wheeler, also known as
Kurt Alan Wheeler

ACKNOWLEDGMENT

STATE OF WASHINGTON)
)ss
COUNTY OF Stromish)

BEFORE ME, the undersigned authority, on this day personally appeared Kurt A. Wheeler, also known as Kurt Alan Wheeler, known to me to be the person(s) whose name is subscribed to the foregoing instrument and acknowledged to me that he executed the same for the purposes and consideration therein expressed.

IN TESTIMONY WHEREOF, I have hereunto set my hand and official seal this 14 day of January, 2016.

Notary Public
My Commission Expires: 7-25-19

Exhibit "B"

This Exhibit "B" is attached and made part of the EASEMENT AGREEMENT, the provisions of this Exhibit "B" shall prevail wherever in conflict with the provisions of the EASEMENT AGREEMENT.

1. Grantee covenants and agrees that the use of the pipeline subject to the terms of this easement shall be restricted to the transportation of crude oil and associated byproducts thereof. No other substance shall be transported in said pipeline. Grantee will not allow salt water (other than incidental quantities) or high concentrations of CO2 or H2S to pass through the pipe.
2. The additional temporary workspace as indicated in the ROW easement document will be used only to bore roads and at points of intersection. No additional temporary workspace will be allowed without first negotiating with the landowner.
3. All subsoil material removed from the trench will be placed in a stockpile that is separate from the topsoil stockpile. In Backfilling the trench, the stockpiled subsoil material will be placed back in the trench before replacing the topsoil. All of the Right of Way and work space will be cultivated following work. The subject land will be restored and remediated to as near original productivity and condition as reasonably possible after completion of work.
4. "Non-use" as such term is used herein shall be defined as the point in time when Grantee, or its assigns, no longer maintains the pipeline for operations in accordance with 49 CFR 195. In the event of non-use, except any period of non-use caused by reason of governmental regulations, force majeure, and other causes beyond Grantee's reasonable control, or be permanently abandoned for such purposes, or in the event any rights acquired by Grantee hereunder should be used for any purpose not specifically granted herein, then in any such event, all rights acquired by Grantee hereunder shall, at the option of Grantor, cease and terminate.
5. Except in emergency conditions, Grantee shall attempt to provide a minimum of forty-eight (48) hour notice prior to the entry upon Grantor's property. Acknowledgement of receipt of notice is not necessary prior to the entry upon Grantor's property. Grantee agrees to exit Grantor's property on a one-time basis from 6:00 p.m. to 6:00 a.m. to allow Grantor's contractor to spray for weeds during such one night period. Grantor agrees to provide notice to Grantee no less than one week prior to such period.

CA

SMP

KAW

EXHIBIT "B" - Continued

6. The rights of Grantee hereunder may be sold, assigned, or leased in whole or in part, by Grantee at any time. Grantor will be notified in writing if the Easement rights are sold, assigned, or leased. This Agreement and the benefits and obligations herein contained shall run with the land and shall inure to the benefit of and be binding and obligatory upon the heirs, executors, administrators, personal representatives, and successors and assigns of Grantor and Grantee.
7. Grantee shall cause surplus material, equipment, skids, trash, litter and miscellaneous debris from the construction activity to be removed and properly disposed of during final clean-up and restoration.
8. It is specifically understood that the Grantor is granting an easement only herein described, and that among all other rights retained by the Grantor, the Grantor, his heirs, successors, and assigns, shall have the right to construction roadways, sewer lines, water mains, and any other public utilities across said strip of lands, said improvements to be so constructed as not to interfere with Grantee's exercise of the rights herein granted. Grantor shall notify Grantee in advance of such construction.
9. During construction activity, Grantee will construct a temporary ditch crossover sufficient to permit Grantor's vehicles and farm equipment to cross over the trench at a reasonable location designated by Grantor or his/her tenant, so long as Grantor provides Grantee with such location for this crossing prior to construction commencing on Grantor's land.
10. If Grantor's fence is cut during construction, posts will be installed to brace the areas on either side of the cut. Temporary gates will be installed, as necessary. Grantee shall cause any existing fences damages by the construction, operation, inspection, repair maintenance, replacement or removal of pipeline, to be repaired, as near as practicable, to their condition prior to such activity.
11. Grantee shall cause no above-ground appurtenances to be constructed on this easement, with the exception of mandatory safety, otherwise deemed necessary for the safe operation of the pipeline, including, cathodic test leads and pipeline markers which, when reasonably possible, will be placed in fence lines, property lines and road right-of-way lines on the property. All environmental, survey and construction stakes shall all be wood lathes. There shall not be any metal or steel markers of any type on Grantor's property except at fence and property lines. All wood flags and survey markers shall be removed after construction. When surveying, only ATV or walking will be allowed.

CA
JM

KAW

EXHIBIT "B" - Continued

CA

SMF

- 12. Only the prairie shall be reseeded with a grass mixture free of alfalfa seed. If the reseeded does not result in a good stand of grass, the Grantee shall continue to reseed as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full until a good stand of grass has been established.
- 13. The final location of the pipeline depicted in Exhibit A shall not deviate more than 25' without Grantor's written consent. Grantee agrees to consult with the Grantor and to stake the route of the pipeline and to communicate with Grantor as to the proposed route of the pipeline prior to the initial construction of the pipeline.
- 14. This agreement and easement is for one (1) pipeline only. During the construction phase, the temporary easement area shall have a width of one hundred (100) feet along with any such additional areas depicted in Exhibit A. After said initial construction phase, the permanent easement area shall have a total width of fifty (50) feet.
- 15. In the event GRANTOR, GRANTOR's tenants or contractors or any of their respective employees (collective the "GRANTOR Personnel"), during farming operations, traverse a sinkhole on the lands subject to the permanent right of way under the ROW Agreement, and such sinkhole is the result of GRANTEE installing pipeline(s) on such lands, then if any equipment is damaged or any GRANTOR Personnel are injured or killed during such operations by reason of traversing such sinkhole, GRANTEE shall be responsible for such damages, injuries or deaths, as applicable, and shall defend, indemnify and hold harmless GRANTOR from any claims by the other GRANTOR Personnel resulting there from, UNLESS such damage, injury, death or claims result from or are attributable to the negligence, willful misconduct or malicious acts of the GRANTOR, any personnel or any of their respective agents, representatives or invitees, in which event GRANTEE shall not be responsible for any such damages, injuries, deaths or claims".
- 16. Grantee agrees that this Right of Way is subject to all existing lease agreements filed of record on said property.
- 17. Grantee agrees to respond in a timely manner to all emergency situations on the lands of the Grantor, its heirs, successors and/or assigns, including all spills, leaks, personal

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated March 13th, 2015, is between Leslie C. Bean and Marla R. Bean, husband and wife, as tenants in common; whose mailing address is 13251 A Highway 1804, Williston, ND 58801 hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), (iii) access easements not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement and not to exceed fifty feet (50') in width for access to and from the below described surface site ("Access Easement"), and (iv) a fifty foot by seventy five foot (50' x 75') surface site, such surface site to be used for valves, risers, meters, pumps, electric facilities and lines, and associated pipeline facilities and the Access Easement(s) to be for ingress and egress, power lines and electric transmission or generation lines as may be needed to supply power to the facilities located on the surface site. The Pipeline Easement, the Temporary Construction Easement, and the Access Easement and the surface site (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160.12 acres of land, more or less, being situated in the S/2NW/4, Lots 3 & 4 of Section 2, Township 155 North, Range 98 West, Williams County, North Dakota, as described in that certain Warranty Deed dated February 22, 2007, from Joan Wolff, a single person, to Leslie C.

Bean and Marla R. Bean, as tenants in common and not as joint tenants, recorded under Instrument Number 643407, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement and the surface site. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee may supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement and the surface site. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement and the surface site shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances and above or below ground powerlines (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement, and the surface site and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. Grantee shall have the right to install gates and fencing around the surface site.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1.

If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement and the surface site. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements

which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated April 6, 2015, is between **Brian K. Johnson**, whose mailing address is 5626 119th Avenue Northwest, Ray, ND 58849-9217, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 317.88 acres of land, more or less, situated in the S/2NW/4, Lots 3 & 4 of Section 4 and the S/2NE/4, Lots 1 & 2 of Section 5, Township 155 North, Range 98 West, Williams County, North Dakota, as described in that certain Warranty Deed dated June 20, 1996, from Phyllis Ann Conyers, a/k/a Phyllis A. Conyers and Michael Conyers, her husband, to Brian K. Johnson, recorded under Instrument Number 565434, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

806380

Page: 2 of 8
5/18/2015 3:44 PM
EAS \$31.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees to commence construction of its pipeline no later than five (5) years from the date of this Easement Agreement is executed; failure to so commence construction of the pipeline will result in easement termination unless the parties renegotiate the terms prior to the date of termination.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

806380

Page: 3 of 8

5/18/2015 3:44 PM

EAS \$31.00

WILLIAMS COUNTY, ND

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the

806380

WILLIAMS COUNTY, ND

Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated April 27, 2015, is between **Daniel A. Garaas and Cindy Garaas, husband and wife, as joint tenants**, whose mailing address is **2114 22nd Street West, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 308.32 acres of land, more or less, situated in the NW1/4 and the SW1/4 of Section 32, Township 156 North, Range 98 West, Williams County, North Dakota, as described in that certain Warranty Deed dated April 10, 2002, from Laverne Jarland, K. Don Jarland, David Jarland, Dickie L. Mohn, Danny L. Mohn, Denice L. Mohn and David L. Mohn, to Daniel A. Garaas and Cindy Garaas, husband and wife, as joint tenants, recorded under Instrument Number 602501, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

WILLIAMS COUNTY, ND

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 27th day of April, 2015.

GRANTOR:
Cindy Garaas
Cindy Garaas

ACKNOWLEDGMENT

(Individual)

State of North Dakota
County of Williams)ss

BEFORE ME, the undersigned authority, on this day personally appeared Cindy Garaas, known to me to be the person(s) whose name is subscribed to the foregoing instrument and acknowledged to me that he/she/they executed the same for the purposes and consideration therein expressed.

IN TESTIMONY WHEREOF, I have hereunto set my hand and official seal this 27th day of April, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated March 11, 2016, is between Crestwood Crude Terminals LLC, whose mailing address is 801 Cherry Street, Suite 3800, Fort Worth, TX 76102 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement") more particularly described on Exhibit A. The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, installing, replacing, operating, maintaining, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and necessary pipeline markers, cathodic protection test leads, and specific appurtenant facilities (the locations of which have been approved by Grantor and are more particularly described on Exhibit A), in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

Parcel 1: MS14-0147, located within Government Lots 3 and 4 of Section 5, Township 155 North, Range 98 West, 5th P.M., Williams County, North Dakota, more particularly described in a that Warranty Deed dated August 12, 2014 from Dan Garaas and Cindy Garaas, husband and wife, to Crestwood Crude Terminals LLC, recorded under Document Number 791297, in the Office of the County Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Parcel 2: Government Lot 7, Section 06, Township 155 North, Range 98 West, 5th P.M., Williams County, North Dakota, as described in that certain Warranty Deed dated April 26, 2011, from Corey Moen, a single person, to Rangeland Terminals, LLC, recorded under Document Number 710105, in the Office of the County Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Parcel 3: The SE¼ of Section 01, Township 155 North, Range 99 West, 5th P.M., Williams County, North Dakota, as described in that certain Warranty Deed dated April 26, 2011, from Corey Moen, a single person, to Rangeland Terminals, LLC, recorded under Document Number 710105, in the Office of the County Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any. **Should additional workspaces be needed for the construction of the subject pipeline, Grantee will obtain approval of such specific areas from Grantor prior to any disturbance to Grantor's property.**

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey and at, or reasonably near, the location described in Exhibit A, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, installing, operating, maintaining, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width. Any relocation of the Pipeline Easement shall not be made without prior written approval from Grantor.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend six (6) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the six (6) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project so long as said changes do not interfere with Grantor's use of Grantor's Property.

3. Grantee shall also have the non-exclusive right of entry and access, across the Access Easement and the Pipeline Easement only in, to, through, on, over, under, and across the Grantor's Property as necessary to exercise the rights granted to it by this Agreement. In accessing the Access Easement and Pipeline Easement, Grantee shall follow the security protocols of Grantor's facility now in place or as may be amended from time to time. The approximate location of the Access Easement is described on Exhibit A and shall be located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement, Grantor must install a gate and provide Grantee a reasonable means of entry through said gate.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made.

6. Grantee understands and hereby acknowledges that Grantor utilizes Grantor's Property for industrial purposes and Grantee's use of the Easements shall at no time interfere with Grantor's operations and activities thereon. In the event Grantee use of the Easements does interfere with Grantor's operations, Grantor and Grantee shall immediately use good faith efforts to resolve the interference. Should Grantor and Grantee fail to resolve the interference in a timely manner, such interference shall immediately be eliminated upon receipt of notice, written or otherwise, from Grantor. Grantee shall promptly reimburse Grantor for any expense related to any inference, including but not limited to business loss damages. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and consent by Grantee, said consent not to be unreasonably withheld, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and consent, said consent not to be unreasonably withheld, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor, said requirements to be consistent with industry standards.. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written consent of Grantee, said consent not to be unreasonably withheld: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written consent of Grantee, said consent not to be unreasonably withheld. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which may endanger or interfere with the safety or operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as to any modifications contemplated under the rights granted in this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall carry and maintain the following minimum insurance coverage throughout the term of this Agreement, with insurance companies having an A.M. Best rating of A-, VIII:

a. Workers' Compensation Insurance (including Occupational Disease Coverage and Alternate Employer Endorsement) to fully comply with all applicable laws of the jurisdiction where operations are performed and Employer's Liability Insurance with a minimum limit of not less than \$1,000,000 for each accident.

b. Commercial General Liability Insurance written on an occurrence basis with a minimum combined single limit of not less than \$1,000,000 for each occurrence for bodily/personal injury and property damage, including Premises and Operations Coverage, Products & Completed Operations Liability, Personal & Advertising Injury Liability, Property Damage, Independent Contractors Coverage, Deletion of any Underground, Explosion and Collapse Exclusions (X, C & U), sudden and accidental pollution liability, and Contractual Liability insuring the indemnity obligations and liabilities assumed by Grantee under this Agreement.

c. Business Automobile Liability Insurance covering all automotive equipment (whether owned, non-owned or hired by Grantee) with a minimum combined single limit of not less than \$1,000,000 each accident for bodily injury and/or property damage. The policy shall include or be endorsed to provide contractual liability coverage.

d. Excess Liability Insurance. Excess Liability Insurance shall be carried by the Grantee providing services for Grantee, in the amount of not less than \$5,000,000. The limit of each policy of Excess Liability Insurance shall apply in excess of the underlying liability limits and coverage set forth in Sections 14(a)-(b) above ("primary limits") and serve to increase the primary limits for any one accident or occurrence.

e. Pollution Liability Insurance. Grantee shall maintain Pollution Legal Liability or Contractor's Pollution Liability coverage in an amount not less than \$1,000,000 per occurrence throughout the term and for a

minimum of two (2) years after termination. Such insurance shall cover any actual or threatened occurrences caused or contributed to by Grantee with respect to the disposal, transportation, emission, discharge or release of pollutants. The Retroactive Date of this coverage shall be on or before the Effective Date of this Agreement, and be stated on the certificate of insurance by reference or by endorsement attached thereto.

14. All insurance policies required to be carried as set forth above (except Workers' Compensation, and Professional Errors & Omissions Liability coverages), shall be endorsed to name the Grantor as additional insured with respect to Grantee's operations contemplated by this Agreement but only to the extent of the obligations and liabilities assumed by Grantee. Such insurance coverages shall extend to and protect Grantor to the full extent and amount of such coverages, including excess or umbrella insurances, and shall be endorsed to, be primary to and receive no contribution from any other insurance or self-insurance programs in favor of or maintained by or on behalf of or benefitting Grantor. For all insurance policies where an additional insured has been named, such insurance policies shall also contain a separation or severability of interest clause (sometimes called cross liability coverage) so that each insured shall be treated separately under the policy; provided however, that even though such insurance policies shall provide coverage for additional insured persons under this provision, this provision shall not cause any change in the liabilities and obligations assumed under this Agreement.

15. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor.

16. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

17. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

18. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

19. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

20. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated January 28, 2016, is between Daniel A. Garaas and Cindy Garaas, husband and wife, as joint tenants, whose mailing address is 2114 22nd Street West, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 105.53 acres of land, more or less, being MS14-0148, a parcel of land located within Government Lots 3 and 4 of Section 5, Township 155 North (T155N), Range 98 West (R98W), Fifth Principle Meridian (5th P.M.), Williams County, North Dakota, more particularly described in that certain Plat, dated August 4, 2014, by Interstate Engineering, Inc., recorded as Instrument Number 790691, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Parcel 2: S1/2NW1/4 in Section 5, Township 155 North, Range 98 West, Williams County, North Dakota, as described in that certain Warranty Deed dated June 1, 2002, from Laverne Jarland, K. Don Jarland, David Jarland, Dickie L. Mohn, Danny L. Mohn, Denice L. Mohn and David L. Mohn, all dealing in their sole and separate property, Grantors, to Daniel A. Garaas and Cindy Garaas, husband and wife, as joint tenants, Grantees, recorded as Instrument Number 602501, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated April 27, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 807114, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.
 - a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.
 - b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.
2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.
3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown

on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or

WILLIAMS COUNTY, ND

prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

PARCEL ID: 28155980005060
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated April 28, 2015, is between Estate of Jeannine D. Cote, Dakota Community Bank and Trust Company, Personal Representative, whose mailing address is 919 South 7th Street, Bismarck, ND 58504, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30') in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 80 acres of land, more or less, situated in the West half of the Southwest Quarter (W1/2SW1/4), of Section 5, Township 155 North of Range 98 West in Williams County, North Dakota and as more particular described in Personal Representative Deed of Distribution dated August 27, 2009 from First National Bank & Trust Co. of Williston and Jeannine D. Cote, as Co-Personal Representatives of the Estate of Darryl J. Cote, deceased, recorded on September 9, 2009 in Recorder's Instrument No. 673310 in Williams County Recorder's Office, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

806379

Page: 2 of 7

EAS \$28.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

806379

Page: 3 of 7

EAS \$28.00

WILLIAMS COUNTY, ND

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

806379

Page: 4 of 7

5/18/2015 3:44 PM

EAS \$28.00

WILLIAMS COUNTY, ND

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated June 3rd, 2015, is between Dennis L. Bellet and Diane M. Bellet, husband and wife, Life Estate, Michael D. Bellet, Remainderman, whose mailing address is 5827 129th Avenue Northwest, Epping, ND 58843-9718, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 240 acres of land, more or less, situated in the N1/2SE1/4, NE1/4SW1/4, SE1/4NW1/4, NW1/4SW1/4 and the SW1/4NW1/4 of Section 12, Township 155 North, Range 100 West, Williams County, North Dakota as described in that certain Quit Claim Life Estate Deed dated August 3, 2009 from Dennis L. Bellet and Diane M. Bellet, husband and wife, and as Life Tenants to Michael D. Bellet, as Remainderman recorded under Clerk's File Number 671452, Official Public Records, Williams County, North Dakota.

Reference is here made to that certain Right of Way and Easement Agreement dated January 9th, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 802099, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

D.L.B.

D.M.B.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

DJB

D.M.B

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the

DJB
D.M.B

WILLIAMS COUNTY, ND

Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated June 3rd, 2015, is between Dennis L. Bellet and Diane M. Bellet, husband and wife, Life Estate, Michael D. Bellet, Remainderman, whose mailing address is 5827 129th Avenue Northwest, Epping, ND 58843-9718, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty inches (30")** in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 240 acres of land, more or less, situated in the N1/2SE1/4, NE1/4SW1/4, SE1/4NW1/4, NW1/4SW1/4 and the SW1/4NW1/4 of Section 12, Township 155 North, Range 100 West, Williams County, North Dakota as described in that certain Quit Claim Life Estate Deed dated August 3, 2009 from Dennis L. Bellet and Diane M. Bellet, husband and wife, and as Life Tenants to Michael D. Bellet, as Remainderman recorded under Clerk's File Number 671452, Official Public Records, Williams County, North Dakota.

Reference is here made to that certain Right of Way and Easement Agreement dated January 9th, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 802099, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

D.L.B.
D.M.B.

WILLIAMS COUNTY, ND

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

DJB

[Signature]

D.M.B

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the

DJB

D.M.B

WILLIAMS COUNTY, ND

Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

PARCEL ID: 40155000011030

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated March 9th, 2015, is between Wade A. Smith and Melissa C. Smith, husband and wife, whose mailing address is 6094 Highway 85 North, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 40 acres of land, more or less, situated in the S/2NE/4NE/4NE/4, SE/4NE/4NE/4, NE/4SE/4NE/4, SE/4SE/4NE/4, S/2SW/4SE/4NE/4 of Section 11, Township 155 North, Range 100 West, Williams County, North Dakota, as described in that certain Warranty Deed dated October 19, 2009, from Jeanette Kjorstad, a widow, recorded under Instrument Number 675187, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

WS
MS

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

WJF
MS

EAS \$31.00

WILLIAMS COUNTY, ND

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

LS
MS

- 10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.
- 11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.
- 12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.
- 13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.
- 14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.
- 15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.
- 16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.
- 17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.
- 18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated MARCH 9th, 2015, is between **Wade A. Smith and Melissa C. Smith, husband and wife**, whose mailing address is **6094 Highway 85 North, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 90 acres of land, more or less, situated in the N/2NE/4NE/4NE/4, NW/4NE/4NE/4, SW/4NE/4NE/4, NE/4NW/4NE/4, SE/4NW/4NE/4, NW/4SE/4NE/4, N/2SW/4SE/4NE/4, NE/4SW/4NE/4, SE/4SW/4NE/4, SW/4SW/4NE/4, of Section 11, Township 155 North, Range 100 West, 5th P.M., Williams County, North Dakota, as described in that certain Warranty Deed dated January 19, 2006, from Jeanette Kjorstad, a married woman dealing in her sole and separate property, recorded under Instrument Number 631819, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

MS

804881

Page: 2 of 8

4/21/2015 3:39 PM

EAS \$31.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the

EAS \$31.00

WILLIAMS COUNTY, ND

Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

WILLIAMS COUNTY, ND

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated March 16th, 2015, is between **Timothy W. Brown**, whose mailing address is **13226 59th Street Northwest, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty inches (30")** in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the Northwest Quarter (NW1/4) of Section 11, Township 155 North of Range 100 West in Williams County, North Dakota and as more particular described in Personal Representative's Deed of Distribution dated December 15, 2011 from Timothy W. Brown, Personal Representative of the Estate of William R. Brown to Timothy W. Brown recorded on February 1, 2012 in Recorder's Instrument No. 726829 in Williams County Recorder's Office, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

806376

Page: 2 of 7
5/18/2015 3:44 PM
EAS \$28.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Any payment tendered by Grantee to Grantor as consideration for this agreement does not cover any actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

6. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

7. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

8. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

9. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

10. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or

interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

11. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the easement by Grantee, its servants, agents or invitees, and the installation, use, maintenance, repair or removal of the pipelines by Grantee and such persons acting on its behalf, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

16. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated March 24, 2015, is between Wade A. Smith and Melissa C. Smith, husband and wife, whose mailing address is 6094 Highway 85 North, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the NE/4 of Section 10, Township 155 North, Range 100 West, Williams County, North Dakota, as described in that certain Warranty Deed dated January 19, 2006, from Jeanette Kjorstad, a married woman dealing in her sole and separate property, recorded under Instrument Number 631819, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

4/21/2015 3:39 PM

EAS \$31.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

EAS \$31.00

WILLIAMS COUNTY, ND

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

EAS \$31.00

WILLIAMS COUNTY, ND

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

PARCEL ID: 40155000010040
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated March 16th, 2015, is between **Timothy W. Brown**, whose mailing address is **13226 59TH Street Northwest, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty (30)** inches in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 148.53 acres of land, more or less, situated in the Northwest Quarter (NW1/4) except deeded parts of Section 10, Township 155 North of Range 100 West in Williams County, North Dakota and as more particular described in Personal Representative's Deed of Distribution dated December 15, 2011 from Timothy W. Brown, Personal Representative of the Estate of William R. Brown to Timothy W. Brown recorded on February 1, 2012 in Recorder's Instrument No. 726829 in Williams County Recorder's Office, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

806377

Page: 3 of 7
5/18/2015 3:44 PM
EAS \$28.00

WILLIAMS COUNTY, ND

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Any payment tendered by Grantee to Grantor as consideration for this agreement does not cover any actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

6. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

7. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

8. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

9. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

10. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or

interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

11. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the easement by Grantee, its servants, agents or invitees, and the installation, use, maintenance, repair or removal of the pipelines by Grantee and such persons acting on its behalf, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

16. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

PROJECT: DAPL/Dakota Access Pipeline 30"
TRACT NUMBER: ND-WI-093.000
PARCEL ID: 40155000009030
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated October 19th, 2015, is between **Timothy W. Brown**, whose mailing address is 13226 59th Street Northwest, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the Northeast Quarter (NE1/4) of Section 9, Township 155 North of Range 100 West in Williams County, North Dakota and as more particular described in Personal Representative's Deed of Distribution dated December 15, 2011 from Timothy W. Brown, Personal Representative of the Estate of William R. Brown to Timothy W. Brown recorded on February 1, 2012 in Recorder's Instrument No. 726829 in Williams County Recorder's Office, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated July 10, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 810097, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

TRW

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

814610

Page: 3 of 7

EAS \$28.00

WILLIAMS COUNTY, ND

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the

814610

Page: 4 of 7

EAS \$28.00

WILLIAMS COUNTY, ND

Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated February 22, 2016, is between Ron Pankowski, whose mailing address is 13256 59th Street Northwest, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee").

For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 10.18 acres of land, more or less, being situated in the Lots 12 and 13 in Block 02 of Flaten Subdivision, Williams County, North Dakota, more particularly described in that certain Warranty Deed dated April 17, 2006, from Dale L. Flaten and Veronica N. Flaten, husband and wife, to Ron Pankowski recorded as Document Number 809126 in the Office of the Recorder, Williams County, North Dakota, less and except any conveyance heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the

legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, repairing, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and adjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. In the event of any excavation within the Easements, including, but not limited to installation and construction of the pipeline herein, the topsoil will be removed and stored separately from the subsoil. As the pipeline trench is backfilled, the subsoil will be replaced over the pipe and pipe bedding and all topsoil will be placed on top of the subsoil, commonly referred to as the double-ditch method.

7. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

8. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

WILLIAMS COUNTY, ND

9. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

10. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantor.

11. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in for a term of ninety nine (99) years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/hemselfes/itself, his/her/his/hers/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

16. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/his/its/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 22 day of Feb, 2016.

GRANTOR:

Ron Fankowski
Ron Fankowski

ACKNOWLEDGMENT

(Individual)

State of North Dakota
(ss) William
County of Williams

BEFORE ME, the undersigned authority, on this day personally appeared Ron Fankowski, known to me to be the person(s) whose name is subscribed to the foregoing instrument and acknowledged to me that he/she/they executed the same for the purposes and consideration therein expressed.

IN TESTIMONY WHEREOF, I have hereunto set my hand and official seal this 22 day of February, 2016.

WILLIAMS COUNTY, NORTH DAKOTA

SECTION 9, TOWNSHIP 155 NORTH, RANGE 100 WEST OF THE 5TH P.M.

Permanent Easement Description

A 50.0 foot wide Permanent Easement:

That part of Block 2, Lots 11, 12, 13 and 14 of Flaten Subdivision, Section 9, Township 155 North, Range 100 West of the 5th P.M., Williams County, North Dakota, described as Commencing at a 5/8 inch iron Rod found at the North Quarter corner of said Section 9; then S01°08'42"E 1940.63 feet to a point on the East line of the Ron Pankowski parcel as recorded in Document No. 809126, deed records, Williams County, North Dakota and the Point Of Beginning. Thence continuing along the East line of said Pankowski parcel S01°08'42"E 51.92 feet to a point; thence S73°13'35"W 797.72 feet along the Southerly side of said permanent easement to a point; thence S80°15'46"W 83.12 feet to a point on the West line of said Pankowski parcel from which a 3/4 inch iron Rod found at the West Quarter corner of said Section 9 bears S01°10'15"E 421.14 feet and S88°42'55"W 1778.17 feet; thence N01°10'15"E 75.60 feet along the West line of said Pankowski parcel to a point; thence N80°15'46"E 55.60 feet along the Northernly side of said temporary construction easement to a point; thence N73°13'35"E 825.00 feet to the Point of Beginning. Said temporary construction easement contains 1.52 acres, more or less.

Temporary Construction Easement #1: That part of Block 2, Lots 11, 12, 13 and 14 of Flaten Subdivision, Section 9, Township 155 North, Range 100 West of the 5th P.M., Williams County, North Dakota, described as Commencing at a 5/8 inch iron Rod found at the North Quarter corner of said Section 9; thence S01°08'42"E 1862.75 feet to a point on the East line of the Ron Pankowski parcel as recorded in Document No. 809126, deed records, Williams County, North Dakota and the Point Of Beginning. Thence continuing along the East line of said Pankowski parcel S01°08'42"E 77.88 feet to a point; thence S73°13'35"W 808.63 feet along the Southerly side of said temporary construction easement to a point; thence S80°15'46"W 72.51 feet to a point on the West line of said Pankowski parcel from which a 3/4 inch iron Rod found at the West Quarter corner of said Section 9 bears S01°10'15"E 471.70 feet and S88°42'55"W 1778.17 feet; thence N01°10'15"W 75.60 feet along the West line of said Pankowski parcel to a point; thence N80°15'46"E 55.60 feet along the Northernly side of said temporary construction easement to a point; thence N73°13'35"E 825.00 feet to the Point of Beginning. Said temporary construction easement contains 1.52 acres, more or less.

Temporary Construction Easement #2: That part of Block 2, Lots 11, 12, 13 and 14 of Flaten Subdivision, Section 9, Township 155 North, Range 100 West of the 5th P.M., Williams County, North Dakota, described as Commencing at a 5/8 inch iron Rod found at the North Quarter corner of said Section 9; thence S01°08'42"E 1992.55 feet to a point on the East line of the Ron Pankowski parcel as recorded in Document No. 809126, deed records, Williams County, North Dakota and the Point Of Beginning. Thence continuing along the East line of said Pankowski parcel S01°08'42"E 25.96 feet to a point; thence S73°13'35"W 792.26 feet along the Southerly side of said temporary construction easement to a point; thence S80°15'46"W 88.42 feet to a point on the West line of said Pankowski parcel from which a 3/4 inch iron Rod found at the West Quarter corner of said Section 9 bears S01°10'15"E 395.86 feet and S88°42'55"W 1778.17 feet; thence N80°15'46"E 25.28 feet along the West line of said Pankowski parcel to a point; thence N80°15'46"E 83.12 feet along the Northernly side of said temporary construction easement to a point; thence N73°13'35"E 797.72 feet to the Point of Beginning. Said temporary construction easement contains 0.51 acres, more or less.

FILE: \\northdakota.com\gsd\A\09\Projects\103957\Discipline\COO\DRAWINGS\4-PROPERTY_Plan\NORTH DAKOTA\WILLIAMS COUNTY\ND-W-094.000 REV 1.dwg PLOT DATE: 9/11/2015 BY: WML/ELM WML

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

All that certain lot, tract or parcel of land, containing 10.06 acres of land, more or less, being Lots 11 and 12 in Block 01 of Flaten Subdivision, Williams County, North Dakota, as described in that certain Warranty Deed dated September 24, 2007, from Dale L. Flaten and Veronica N. Flaten, husband and wife, to Byron L. Trovbridge, recorded under Instrument Number 652230, in the Office of the Recorder, Williams County, North Dakota.

as follows:
owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land of, abandoning in place and removing at will one pipeline not to exceed thirty (30") in patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of Easement, the Temporary Construction Easement ("Access Easement"). The Pipeline (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline on the Exhibit A more particularly described below ("Temporary Construction Easement"), and construction easement one hundred feet (100') in width and any such additional areas indicated easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns between Byron L. Trovbridge whose mailing address is 1107 4th Street West, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC This easement agreement ("Agreement"), dated _____, 2016, is

Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designers, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and adjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantor in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantor will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantor's construction activities during the periods of the original construction of the pipeline.

5. Grantor will, insofar as practicable, restore the ground disturbed by the Grantor's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantor hereunder as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full. Grantor shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. In the event of any excavation within the Easements, including, but not limited to installation and construction of the pipeline herein, the topsoil will be removed and stored separately from the subsol. As the pipeline trench is backfilled, the subsol will be replaced over the pipe and pipe bedding and all topsoil will be placed on top of the subsol, commonly referred to as the double-ditch method.

7. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantor's rights under this Agreement. Grantor is permitted, after review and approval by Grantor, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantor's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantor's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantor's pipeline, provided that all of Grantor's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantor in writing before streets, roadways, utilities or other encroachments are installed.

8. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantor's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantor: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantor. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantor or Grantor shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantor for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantor acquires possession of the Easements, may be removed by Grantor without liability to Grantor for damages.

9. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

10. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

11. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in for a term of ninety nine (99) years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themself/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the feehold or abandoned in place by Grantee.

16. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

IN TESTIMONY WHEREOF, I have hereunto set my hand and official seal this 23rd day of February, 2016.

WILLIAMS COUNTY, ND

WILLIAMS COUNTY, NORTH DAKOTA
SECTION 9, TOWNSHIP 155 NORTH, RANGE 100 WEST OF THE 5TH P.M.

Permanent Easement Description

A 50.0 foot wide Permanent Easement:
 That part of Lots 11 & 12, Block 1 of Flaten Subdivision in Section 9, Township 155 North, Range 100 West of the 5th P.M., Williams County, North Dakota, described as the Byron L. Township parcel as recorded in Document No. 652230, Deed Records, Williams County; Commencing at a 3/4 inch iron rod found at the Southwest corner of the Northwest Quarter (NW 1/4) of Section 9; thence N88°43'01"E 1712.33 feet to the East line of said Township parcel; thence N01°10'30"W 411.41 feet along the East line of said Township parcel to the Point of Beginning; thence S80°15'46"W 65.06 feet along the Southeastern side of the permanent easement to a point; thence S86°38'16"W 679.45 feet to a point; thence S49°16'52"W 124.88 feet to a point on the West line of said Township parcel; thence N01°10'24"W 64.84 feet along the West line of said Township parcel to a point from which a 1/2 inch iron rod with cap found at the Northwest corner of Section 9 bears N01°10'24"W 133.84 feet; S86°38'21"W 872.30 feet and N01°10'47"W 2118.70 feet; thence N49°16'52"E 101.47 feet along said Northwestern side of the permanent easement to a point; thence N88°38'16"E 693.67 feet to a point; thence S01°10'30"E 50.56 feet along the east line of said Township parcel to the Point of Beginning. Said permanent easement contains 0.99 acres, more or less.

Temporary Construction Easements (T.C.E.)

Temporary Construction Easement #1:
 That part of Lots 11 & 12, Block 1 of Flaten Subdivision in Section 9, Township 155 North, Range 100 West of the 5th P.M., Williams County, North Dakota, described as the Byron L. Township parcel as recorded in Document No. 652230, Deed Records, Williams County; Commencing at a 3/4 inch iron rod found at the Southwest corner of the Northwest Quarter (NW 1/4) of Section 9; thence N88°43'01"E 1712.33 feet to the East line of said Township parcel; thence N01°10'30"W 386.13 feet along the East line of said Township parcel to the Point of Beginning; thence S80°15'46"W 63.13 feet along the Southeastern side of the temporary construction easement to a point; thence S88°38'16"W 672.34 feet to a point; thence S49°16'52"W 136.58 feet to a point on the West line of said Township parcel; thence N01°10'24"W 32.42 feet along the West line of said Township parcel to a point from which a 1/2 inch iron rod with cap found at the Northwest corner of Section 9 bears N01°10'24"W 198.68 feet; S88°38'21"W 872.30 feet and N01°10'47"W 2118.70 feet; thence N49°16'52"E 124.88 feet along said Northwestern side of the temporary construction easement to a point; thence N88°38'16"E 679.45 feet to a point; thence S01°10'30"E 25.28 feet along the east line of said Township parcel to the Point of Beginning. Said temporary construction easement contains 0.50 acres, more or less.

Temporary Construction Easement #2:
 That part of Lots 11 & 12, Block 1 of Flaten Subdivision in Section 9, Township 155 North, Range 100 West of the 5th P.M., Williams County, North Dakota, described as the Byron L. Township parcel as recorded in Document No. 652230, Deed Records, Williams County; Commencing at a 3/4 inch iron rod found at the Southwest corner of the Northwest Quarter (NW 1/4) of Section 9; thence N88°43'01"E 1712.33 feet to the East line of said Township parcel; thence N01°10'30"W 461.87 feet along the East line to the Northeast corner of said Township parcel to the Point of Beginning; thence S80°15'46"W 68.93 feet along the Southeastern side of the temporary construction easement to a point; thence S88°38'16"W 693.67 feet to a point; thence S49°16'52"W 101.47 feet to a point on the West line of said Township parcel; thence N01°10'24"W 97.26 feet along the West line of said Township parcel to a point from which a 1/2 inch iron rod with cap found at the Northwest corner of Section 9 bears N01°10'24"W 36.58 feet; S88°38'21"W 872.30 feet and N01°10'47"W 2118.70 feet; thence N49°16'52"E 57.68 feet along the Northwestern side of said temporary construction easement to a point on the North line of said Township parcel; thence S01°10'30"E 59.43 feet along the east line of said Township parcel to the Point of Beginning. Said temporary construction easement contains 1.37 acres, more or less.

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 27 Jan. 2016, 2016, is between Byron L. Trowbridge, whose mailing address is 1107 4th Street West, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 10.06 acres of land, more or less, being Lots 11 and 12 in Block 01 of Flaten Subdivision, Williams County, North Dakota, as described in that certain Warranty Deed dated September 24, 2007, from Dale L. Flaten and Veronica N. Flaten, husband and wife, to Byron L. Trowbridge, recorded under Instrument Number 652230, in the Office of the Recorder, Williams County, North Dakota.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the

Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. In the event of any excavation within the Easements, including, but not limited to installation and construction of the pipeline herein, the topsoil will be removed and stored separately from the subsoil. As the pipeline trench is backfilled, the subsoil will be replaced over the pipe and pipe bedding and all topsoil will be placed on top of the subsoil, commonly referred to as the double-ditch method.

7. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

8. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to

conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

9. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

10. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

11. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in for a term of ninety nine (99) years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

16. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 27 day of Jan, 2016.

PARCEL ID: 40155000007010, 40155000008020, 40155000008060, 40155000008070
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated December 22, 2015, is between **Justin Folvag, a single person**, whose mailing address is **525 22nd Street East, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in connection with repair, improving, , operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, , abandoning in place and removing at will one pipeline not to exceed **thirty** inches (**30"**) in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 520 acres of land, more or less, situated in the N½, of Section 08, NE¼ of Section 07, all in Township 155 North, Range 100 West, Williams County, North Dakota, as described in that certain Warranty Deed dated November 04, 2004, from Jerome Folvag and Claire Folvag, husband and wife, to Justin Folvag, a single person, recorded as Document Number 617824, in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in connection with repair, improving, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, must be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and ordinary damages to the Grantor's Property, excluding the Easements, resulting from initial construction of the pipeline. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for ordinary damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Grantor

agrees that the consideration paid by Grantee in this agreement includes any future damage or loss of revenue for the prohibition or restrictions on mining of scoria, coal, and gravel within the boundaries of the Permanent Easement in Section 7 of Grantor's property. Grantor agrees that the consideration paid by Grantee in this agreement includes any and all costs incurred by Grantor for installing fencing, whether temporary or permanent, along and outside the boundaries of the Easements so as to prevent Grantor's livestock from entering the Easements during the initial construction of the pipeline. Grantor is not responsible for the removal or disposal of such fencing.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages for removal of such improvements.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional

EAS \$40.00

WILLIAMS COUNTY, ND

drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be for a period of 99 years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) represents that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor.

13. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

14. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

15. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, shall be recorded in the real estate records of the county or counties where Grantor's Property lies.

16. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

17. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

18. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

Landowner Initials _____

EXHIBIT B
TO
RIGHT OF WAY AGREEMENT

THIS EXHIBIT is attached to and by reference made a part of the Easement Agreement dated December 22 2015, by and between **JUSTIN FOLVAG** , Grantor, and **DAKOTA ACCESS, LLC**. As Grantee, and covering the following land in **WILLIAMS COUNTY, NORTH DAKOTA**, to-wit:

All that certain lot, tract or parcel of land, containing 520 acres of land, more or less, situated in the N½, of Section 08, NE¼ of Section 07, all in Township 155 North, Range 100 West, Williams County, North Dakota, as described in that certain Warranty Deed dated November 04, 2004, from Jerome Folvag and Claire Folvag, husband and wife, to Justin Folvag, a single person, recorded as Document Number 617824, in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Notwithstanding the provision of this Agreement to the contrary:

1. Wherever the term "Easement" is mentioned herein, it is intended to be one and the same as the Easement Agreement to which the Exhibit is attached.
2. In the addition to the agreed upon consideration, Grantee shall pay for future damages to the land, crops, grass or plants intended for hay, grass and any other damages which may occur as a result of entry upon the property and/or exercise of any rights granted in the Agreement after the initial construction of the pipeline except for any future damage or loss of revenue for the prohibition or restrictions on mining of scoria, coal, and gravel within the boundaries of the Permanent Easement in Section 7 of Grantor's property as cited in Paragraph 4 of the Easement Agreement.
3. Grantee shall indemnify and hold Grantor harmless from any claims made by any persons or entities for damages to persons or property or violation of any laws or regulations, including environmental, as a result of Grantee's activities on the land or the exercise by Grantee of any of the rights granted herein. Grantee's indemnification of Grantor shall include reimbursement of court costs and reasonable attorney fees which may arise and for which Grantor is obligated to pay as a result of any claims, demands, causes of action, or liability for damages, loss or injuries that arise out of Grantee's operations on the land. Grantee shall not be liable for or indemnity Grantor against the negligence or the acts or omissions of Grantor that result in any claim, demand, and cause of action or liability for damages.
4. Grantee agrees that any consideration paid for this Easement does not compensate Grantor for any damages Grantor might suffer as a result of the negligence of Grantee resulting from Grantee's operations on the subject land, including entry upon the land and exercising any of the rights granted pursuant to this Easement Agreement after completion of initial construction.

818397

Page: 9 of 11
1/28/2016 2:47 PM
EAS \$40.00

WILLIAMS COUNTY, ND

5. All topsoil will be scraped and set to one side. Topsoil will be replaced after easement work has been completed. All rocks 4 inches or larger will be buried or disposed of following dirt work. The subject land will be restored by Grantee to as near original condition as reasonably possible after completion of work, as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full. Grantee agrees to replace or repair all fences, terraces, contours and drainage ditches and to pay any damages which may arise from the construction, maintenance and operation of said lines.

6. All pipelines shall be buried no less than forty eight inches (48") from the top of the pipe in cultivated areas, forty eight inches (48") from the top of the pipe in rangeland areas, and no less than twenty four inches (24") from the top of the pipe through solid rock.

7. Grantee shall perform any work reasonably requested by Grantor for the maintenance of the easement to ensure its condition does not adversely impact Grantor's use of the land and to ensure that the terms of this easement are met. This work includes, but is not limited to, filling pipeline trenches that have settled below original grade and contour, and grass seeding that did not grow.

8. Grantee agrees to control the presence of weeds within the Easements caused by Grantee's activities as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full.

9. Seeding of grassland in the easement area will be seeded to a suitable grass mixture as required by Grantee's permits and other agreements.

10. Grantee's access to and from the easement is limited to travelling over the width of the right of way and Access Easement after the initial construction of pipeline.

11. Grantee agrees that it will not put any above-ground facilities on the easement except for cathodic test lead and pipeline markers. The pipeline markers will be at such locations and distances as are necessary to provide a minimum of line of sight between markers as well as to indicate all points of intersection and crossings of property boundaries, waterbodies, railroad tracks and/or roads. All necessary or required cathodic test leads will be placed in fence lines on the lands, at foreign pipeline crossings or road right of way lines.

12. Prior to initial construction of the pipeline, Grantee agrees to perform a test of the ground water for hydrocarbon levels from a source in reasonable proximity to the Pipeline Easement on Grantor's property and that information will be shared with the Grantor. Grantor agrees to designate location of and provide access to the water source from which said test is to be conducted.

13. This easement is intended for one (1) pipeline in one (1) trench. Grantee shall not transport salt water through the pipeline.

14. If, after three (3) years from the date below, construction of the pipeline has not commenced, this entire Agreement shall be terminated. In the event that use of the pipeline by Grantee, its successors and assigns shall not be maintained for the purpose herein granted for the period of three (3) consecutive years, then, upon receipt of the appropriate government approvals for abandonment, Grantee shall have no further rights in the lands or the Pipeline Easement except, at the option of Grantee, the right to abandon the subsurface pipeline facilities in place or the right and privilege to remove the Pipeline Facilities. In the event Grantee elects to remove the subsurface pipeline facilities, Grantee shall restore the surface of the Pipeline Easement as near as reasonably practicable to its condition prior to such removal. Grantee, its successors or assigns shall, within six (6) months after the abandonment in place or removal of the pipeline facilities, file with the County Recorder's office of the county in which the Lands are located a release of the right, title and interest of Grantee in and to the lands and Pipeline Easement. If signification erosion or washouts occur, Grantee agrees to mitigate the affected area, within thirty (30) days of the occurrence, weather conditions permitting. This requirement is not intended to alleviate Grantee from any more stringent requirements set by law and/or governmental agencies.

15. The actual location of the easement has not yet been determined. Once the location of the easement has been determined, it shall in no event be located on any lands belonging to Grantor other than those which are described herein. The plat or map attached to the Easement Agreement shall be recorded with the Easement Agreement. The map or plat may not alter the terms of the easement other than to provide the exact legal description of the easement. Grantee shall provide to Grantor an as-built survey upon completion of the construction of the pipeline. This will be provided to Grantor within six (6) months of completion of construction.

16. Grantor reserves all rights to quiet enjoyment of the land and to use said land for any purpose that does not unreasonably interfere with the easement granted herein. Grantor's reserved rights include, but are not limited to, usage of the surface for farming, recreation and development along with the rights to sell said land or parts thereof and the rights to grant other easements over and under said land. All construction activities affecting the Pipeline Easement by Grantor or any third party shall be subject to the engineering and construction specification of Grantee. In addition any third party to whom an easement is granted will be required to sign Grantee's form of encroachment prior to entering on the Pipeline Easement.

17. During construction of the pipeline or any subsequent work on the pipeline, Grantee shall ensure that Grantor is not prevented from access across the easement area to ensure that Grantor, its licensees and/or invitees, has/have access to and through Grantor's land for agricultural, recreational, or any other reason. Grantee agrees to work with Grantor to ensure that earthen plugs are left along the route of the Pipeline Easement during construction or during subsequent work where Grantor will be able to cross the Pipeline Easement area without unreasonable difficulty. Such access will contemplate the need for farm implements, livestock, people and vehicles crossing the Pipeline Easement area. Grantor agrees that the consideration paid by Grantee in this agreement includes any and all costs incurred by Grantor for installing fencing, whether temporary or permanent, along and outside the boundaries of the Easements so as to prevent Grantor's livestock from entering the Easements during the initial construction of the pipeline. Grantor is not responsible for the removal or disposal of such fencing.

18. Upon completion of construction, Grantee shall keep the easement area free of garbage and debris and shall promptly remove any unnecessary and/or unused construction materials and equipment.

19. Grantee is aware that there are recorded easements located on the property wherein Grantor previously entered into an easement agreement (or agreements) covering a portion or all of the land covered herein. The exact location(s) of the easement(s) is not expressed by Grantor, nor is Grantee relying on any statements or claims by Grantor in this regard. It is incumbent upon Grantee to determine the location of the existing recorded easement(s) Grantee hereby relieves and forever holds Grantor, and Grantor's successors and assigns, free from any and all claims, lawsuits or disputes of any kind that may arise out of competing interests or conflicts as a result of various recorded easements being located on the subject property. Grantee shall not in any way be liable for any damages or claims for interference with unrecorded easements or agreements affecting the Pipeline Easement. Grantor shall communicate to Grantee any unrecorded pipelines or easements he or she has knowledge of. The exact locations of unrecorded pipelines or other easements is not expressed by Grantor, nor is Grantee relying on Grantor in this regard.

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated Sept 21th, 2015, is between Lukenbill Family Partnership, LLLP, whose mailing address is 13876 57th Street Northwest, Williston, ND 58801 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a twenty five foot (25') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) a temporary easement not to exceed (twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 132.79 acres of land, more or less, situated in the E $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, Section 11, Township 155 North, Range 101 West, Williams County, North Dakota, as described in that certain Personal Representative's Deed of Distribution, dated July 23, 1979, from Gene Iverson, Personal Representative of the Estate of Walter Lukenbill a/k/a Bud Lukenbill, deceased, to Colette M. Lukenbill, recorded as Document Number 408130 in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

KH

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement.. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend twelve and one half feet (12.5') outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed twenty five feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement and the Access Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement and Access Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement and Access Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement and Access Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement while the Access Easement is in effect. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Any payment tendered by Grantee to Grantor as consideration for this agreement does not cover any actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

6. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

7. Grantor excepts from the Pipeline Easement and reserves to Grantor, rights to farm the Pipeline Easement and to graze livestock thereon; Grantor further reserves the right to build and maintain fences, terraces, power lines, pipelines, and roads across the Pipeline Easement as well as the right to fully use and enjoy the said premises in any manner on the Pipeline Easement for the purposes granted to Grantee. Grantor reserves the right to convey similar rights and privileges to such other persons and at such other times as Grantor may so desire; provided that such additional rights and privileges granted shall be exercised in a reasonable manner so as not to interfere with the rights of Grantee herein.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. After the construction of the pipeline, should the Pipeline Easement not be used for twenty four (24) consecutive months, then the Pipeline Easement shall be considered abandoned and all rights granted hereunder shall revert back to the then record holder of the land, and this Agreement shall be of no further force or effect. Grantee shall have the right for two years following any termination of this easement to remove its pipe, valves and all other property.

Following the expiration of such period, any such property remaining on said land shall be and become the property of Grantor

13. During construction of the pipeline, Grantee shall haul off of the Easements on a regular basis all litter and debris caused by Grantee that are not an integral part of the pipeline. Grantee shall not permit such debris to encroach and remain upon Grantor's adjacent lands.

14. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

15. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement shall be for a term of ninety nine (99) years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

16. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

17. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

18. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

19. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

20. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated SEPT 27-2015, 2015, is between Herbert R. Cornell Jr. and Marlene Joyce Cornell, husband and wife, as joint tenants, and not as tenants in common, whose mailing address is 5867 Highway 85, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a twenty five foot (25') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) a temporary easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 140.21 acres of land, more or less, situated in the NE¼, of Section 11, Township 155 North, Range 101 West, Williams County, North Dakota, more particularly described in that Warranty Deed dated June 09, 1966 from Earl Heffelfinger, a widower, to Herbert R. Cornell, Jr. and Marlene Joyce Cornell, as joint tenants, and not as tenants in common, recorded as Document Number 327972, in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

All that certain lot, tract or parcel of land, containing 80.00 acres more or less, being situated in the E½NW¼, of Section 11, Township 155, Range 101, Williams County, North Dakota, more particularly described in Warranty Deed dated June 09, 1966 from Earl Heffelfinger, a widower, to Herbert R. Cornell, Jr. and Marlene Joyce Cornell, as joint tenants and not as tenants in common, recorded as Book 160 Deeds, Page 157, Document Number 327972, in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore for made.

WILLIAMS COUNTY, ND

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend twelve and one half feet (12.5') outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed twenty five feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement and the Access Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement and Access Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement and Access Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement and Access Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement while the Access Easement is in effect. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing

afrc

EAS \$34.00

WILLIAMS COUNTY, ND

roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Any payment tendered by Grantee to Grantor as consideration for this agreement does not cover any actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

6. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

7. Grantor excepts from the Pipeline Easement and reserves to Grantor, rights to farm the Pipeline Easement and to graze livestock thereon; Grantor further reserves the right to build and maintain fences, terraces, power lines, pipelines, and roads across the Pipeline Easement as well as the right to fully use and enjoy the said premises in any manner on the Pipeline Easement for the purposes granted to Grantee. Grantor reserves the right to convey similar rights and privileges to such other persons and at such other times as Grantor may so desire; provided that such additional rights and privileges granted shall be exercised in a reasonable manner so as not to interfere with the rights of Grantee herein.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the

Handwritten initials: JPC

Handwritten initials: MC

North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. After the construction of the pipeline, should the Pipeline Easement not be used for twenty four (24) consecutive months, then the Pipeline Easement shall be considered abandoned and all rights granted hereunder shall revert back to the then record holder of the land, and this Agreement shall be of no further force or effect. Grantee shall have the right for two years following any termination of this easement to remove its pipe, valves and all other property. Following the expiration of such period, any such property remaining on said land shall be and become the property of Grantor

13. During construction of the pipeline, Grantee shall haul off of the Easements on a regular basis all litter and debris caused by Grantee that are not an integral part of the pipeline. Grantee shall not permit such debris to encroach and remain upon Grantor's adjacent lands.

14. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

15. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement shall be for a term of ninety nine (99) years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

16. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

17. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

18. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

19. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

20. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September 20, 2015, is between Robert P. Miller and Nadine R. Miller, husband and wife, as joint tenants and not as tenants in common, whose mailing address is 5865 Highway 85, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a twenty five foot (25') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) a temporary easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 10.70 acres of land, more or less, being Sublot Number 01 located in the E $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 11, Township 155 North, Range 101 West, Williams County, North Dakota, more particularly described in Warranty Deed dated March 03, 2008 from Herbert R. Cornell, Jr. and Marlene Joyce Cornell, husband and wife, to Robert P. Miller and Nadine R. Miller, as joint tenants and not as tenants in common, recorded as Document Number 652838, in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area

R. M.

N. M.

immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend twelve and one half feet (12.5') outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed twenty five feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement and the Access Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement and Access Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement and Access Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement and Access Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement while the Access Easement is in effect. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if

R. M.

N. M.

WILLIAMS COUNTY, ND

Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Any payment tendered by Grantee to Grantor as consideration for this agreement does not cover any actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

6. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

7. Grantor excepts from the Pipeline Easement and reserves to Grantor, rights to farm the Pipeline Easement and to graze livestock thereon; Grantor further reserves the right to build and maintain fences, terraces, power lines, pipelines, and roads across the Pipeline Easement as well as the right to fully use and enjoy the said premises in any manner on the Pipeline Easement for the purposes granted to Grantee. Grantor reserves the right to convey similar rights and privileges to such other persons and at such other times as Grantor may so desire; provided that such additional rights and privileges granted shall be exercised in a reasonable manner so as not to interfere with the rights of Grantee herein.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. After the construction of the pipeline, should the Pipeline Easement not be used for twenty four (24) consecutive months, then the Pipeline Easement shall be considered abandoned and all rights granted hereunder shall revert back

to the then record holder of the land, and this Agreement shall be of no further force or effect. Grantee shall have the right for two years following any termination of this easement to remove its pipe, valves and all other property. Following the expiration of such period, any such property remaining on said land shall be and become the property of Grantor

13. During construction of the pipeline, Grantee shall haul off of the Easements on a regular basis all litter and debris caused by Grantee that are not an integral part of the pipeline. Grantee shall not permit such debris to encroach and remain upon Grantor's adjacent lands.

14. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

15. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement shall be for a term of ninety nine (99) years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

16. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

17. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

18. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

19. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

20. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated SEPT 27-2015, 2015, is between Herbert R. Cornell Jr. and Marlene Joyce Cornell, husband and wife, as joint tenants, and not as tenants in common, whose mailing address is 5867 Highway 85, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a twenty five foot (25') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) a temporary easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 140.21 acres of land, more or less, situated in the NE¼, of Section 11, Township 155 North, Range 101 West, Williams County, North Dakota, more particularly described in that Warranty Deed dated June 09, 1966 from Earl Heffelfinger, a widower, to Herbert R. Cornell, Jr. and Marlene Joyce Cornell, as joint tenants, and not as tenants in common, recorded as Document Number 327972, in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

All that certain lot, tract or parcel of land, containing 80.00 acres more or less, being situated in the E½NW¼, of Section 11, Township 155, Range 101, Williams County, North Dakota, more particularly described in Warranty Deed dated June 09, 1966 from Earl Heffelfinger, a widower, to Herbert R. Cornell, Jr. and Marlene Joyce Cornell, as joint tenants and not as tenants in common, recorded as Book 160 Deeds, Page 157, Document Number 327972, in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore for made.

EAS \$34.00

WILLIAMS COUNTY, ND

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend twelve and one half feet (12.5') outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed twenty five feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement and the Access Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement and Access Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement and Access Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement and Access Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement while the Access Easement is in effect. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing

af ac

mc

North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. After the construction of the pipeline, should the Pipeline Easement not be used for twenty four (24) consecutive months, then the Pipeline Easement shall be considered abandoned and all rights granted hereunder shall revert back to the then record holder of the land, and this Agreement shall be of no further force or effect. Grantee shall have the right for two years following any termination of this easement to remove its pipe, valves and all other property. Following the expiration of such period, any such property remaining on said land shall be and become the property of Grantor

13. During construction of the pipeline, Grantee shall haul off of the Easements on a regular basis all litter and debris caused by Grantee that are not an integral part of the pipeline. Grantee shall not permit such debris to encroach and remain upon Grantor's adjacent lands.

14. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

15. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement shall be for a term of ninety nine (99) years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

16. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

17. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

18. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

19. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

20. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

PROJECT: DAPL/Dakota Access Pipeline 30"
TRACT NUMBER: ND-WI-009.512.310
PARCEL ID: 46155010011035
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated October 19, 2015, is between **Robert Brian Rieder**, whose mailing address is **5825 137th Avenue Northwest, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed thirty inches (**30"**) in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

That certain lot, tract or parcel of land, containing 80 acres of land, more or less, situated in the W½NW¼ of Section 11, Township 155 North, Range 101 West, County of Williams, State of North Dakota, more particularly described in that Warranty Deed dated July 28, 2000 from Harriet A. Rieder, a widow, by Bobbi Jo Arnt, her attorney-in-fact to Robert Brian Rieder, recorded as Document Number 592561 in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made and as more particularly described on the attached Exhibit "A".

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

815567

Page: 2 of 10

11/17/2015 3:16 PM

EAS \$37.00

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement, within one year of recording the same.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Pipeline Easement, and Temporary Construction Easement (while in effect) for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during

RRR

the periods of the original construction of the pipeline. Any payment by Grantee to Grantor does not cover actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well within the Pipeline Easement and Temporary Construction Easement (while in effect); (3) remove soil or change the grade or slope; (4) intentionally impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

815567

Page: 4 of 10

EAS \$37.00

WILLIAMS COUNTY, ND

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees; notwithstanding, it is agreed between Grantor and Grantee that the Access Easement shall never be assigned without the Pipeline Easement also being assigned. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

Exhibit "B" Addendum to Easement

Grantor(s): Robert Brian Rieder

Grantee: Dakota Access, LLC

Notwithstanding anything to the contrary in the Easement Agreement to which this Exhibit "B" is attached and made part of, the provisions of this Exhibit "B" shall prevail wherever in conflict with the provisions of the Easement Agreement. In addition, this Exhibit "B" shall attach to and be recorded in the Williams County Recorder's Office in connection with the Easement Agreement.

COMPACTION. In the event that Grantors have "no-till" farm/croplands over which Grantee's operations described herein are conducted, as soon as reasonably practical after completion of the Facilities and within (2) years from commencement of construction, Grantee shall fill in the ground above the Facilities with a suitable crown of earth and shall properly grade and level the location, compacting as needed, to reclaim said lands to reasonable "no-till" conditions.

GRANTOR INDEMNITY. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the easement by Grantee, its servants, agents or invitees, and the installation, use, maintenance, repair or removal of the pipelines by Grantee and such persons acting on its behalf, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

REASONABLE AND PRUDENT OPERATIONS. Grantee will conduct its operations related to this Easement in a reasonable and prudent manner with a view toward protecting the Grantor and the Grantor's land, and the environment. Grantee understands that the Grantor makes no representation as to the condition of the surface for any particular purpose other than agricultural use. Grantee further understands that this Easement is subject to all liens, leases, easements, servitudes, rights-of-way, oil and gas leases, reservations and other matters of record or apparent on the land in question. Grantee shall obey all laws, ordinances and regulations of federal, state and local governments in connection with possessing such easement.

ABANDONMENT CLAUSE. If at any time after five years from the date hereof, Grantee should abandon the rights granted herein for said pipelines and appurtenances constructed upon said land and if such abandonment should continue for a continuous period of as long as one year, all rights of Grantee herein shall ipso facto terminate and revert to Grantor, his heirs, legal representatives, and assigns. Grantee shall have the right for two years following any termination of this easement to remove its pipe, valves and all other property. Following the expiration of such period, any such property remaining on said land shall be and become the property of Grantor.

RBR

815567

Page: 9 of 10

11/17/2015 3:16 PM

EAS \$37.00

WILLIAMS COUNTY, ND

CERTAIN BEHAVIORS PROHIBITED. Grantee shall not allow or permit any of its employees, authorized agents, invitees, or other persons under its direction or control: to carry any firearms or other weapons onto the Grantor's property, including that portion thereof included in this easement, do any hunting or camping on said property, have any open fires on said property, or use any alcohol or drugs in the easement area or on the Grantor's surrounding property.

MAINTENANCE. Grantee agrees to perform work requested by Grantors for the maintenance of the easement to ensure its condition does not adversely impact Grantors' use of the land and to ensure that the terms of this easement are met. This work includes, but is not limited to, filling pipeline trenches that have settled below original grade and contour or grass seeding that did not grow.

QUIET ENJOYMENT. Grantors reserve all rights to quiet enjoyment of the land and to use said land for any purpose that does not unreasonably interfere with the easement granted herein. Grantors' reserved rights include, but are not limited to, usage of the surface for farming, recreation and development along with the rights to sell said land or parts thereof and the rights to grant other easements over and under said land.

MINERALS. The easement agreement does not include granting mineral rights in said area to grantee.

ABOVEGROUND STRUCTURES. There shall be no above ground structures granted by this easement.

FENCE. If Grantor's fence is cut during construction, posts will be installed to brace the areas on either side of the cut. Temporary Gates will be installed, as necessary. Grantee shall cause any existing fences damaged by the construction, operation, inspection, repair maintenance, replacement or removal of pipeline, to be repaired, as near as practicable, to their condition prior to such activity.

APPURTENANCE CLAUSE. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

TREES. Grantee agrees to replace trees removed as a result of the installation of the pipeline by a ratio of two new trees to one damaged tree on the Grantor's property in a mutually agreed upon location. Further, Grantee shall replant the new trees on a tree line to a distance of fifteen (15) feet on each side of the pipeline, as installed. It is the intention to only have a 30 foot break of no trees in any tree line not being bored under. Grantee shall have the right, but not obligation, to trim any branches, limbs or forested canopy that encroaches into said 30 foot break. Grantee agrees that in the areas where the Pipeline is to be installed by the drill or bore methods in Section 10 of Grantor's property as depicted in Exhibit "A" to not disturb any trees, with the exceptions of the crossing of 137th Northwest and Grantee's right to trim branches, limbs, or any forested canopy that interferes with Grantee's aerial inspections of the Pipeline Easement. Lastly, on Section 9 of the Grantor's property, there stands a large prominent tree in the permanent easement area the Parties have recognized and agreed shall not be damaged or destroyed by the construction or maintenance of this easement.

ABR

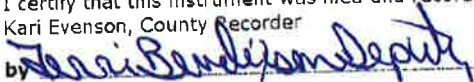

CONSTRUCTION DEVIANCE FROM EXHIBIT A. Grantee agrees to not deviate the location of the constructed pipeline a distance of greater than 75 feet from what was proposed to Grantor, and attached hereto as Exhibit "A", except as may be necessary to avoid the large prominent tree mentioned in the previous paragraph. Any change in location greater than 75 feet from what was proposed to Grantor and attached hereto as Exhibit "A," must be in agreed to in writing by both Parties.

ACCESS EASEMENT. By and through this Easement Agreement, the Grantor has conveyed a Temporary Access Easement in Section 10 being twenty five (25) feet in width as depicted in Exhibit A attached hereto, for the purposes of allowing access to the Pipeline Easement and Temporary Construction Easement (while in effect). Grantor agrees to allow the Temporary Access Easement to be widened by Grantee beyond twenty five feet in width at significant turns or bends so as to provide sufficient space for Grantee to transport its equipment along the Temporary Access Easement. The Parties acknowledge the conveyance is for the initial construction of the pipeline and shall terminate upon the completion of the construction of the pipeline. Further, Grantee agrees to set mats to help eliminate damage to the land, associated with the Temporary Access Easement if the weather so dictates. Lastly, upon termination of this Temporary Access Easement, the Grantee shall work and level the Temporary Access Easement Area to eliminate the compaction of soil created by the use of this Temporary Access Easement.

PROJECT: DAPL/Dakota Access Pipeline 30"
TRACT NUMBER: ND-WI-043.512
PARCEL ID: 46155010010030
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated October 19, 2015, is between **Robert Brian Rieder**, whose mailing address is 5825 137th Avenue Northwest, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

That certain lot, tract or parcel of land, containing 150 acres of land, more or less, situated in the NE1/4 less NE1/4SE1/4NE1/4, and the N1/2SE1/4 of Section 10, Township 155 North, Range 101 West, Williams County, North Dakota, as described in that certain Warranty Deed dated July 28, 2000, from Harriet A. Rieder, a widow, by Bobbi Jo Arnt, her attorney-in-fact, to Robert Brian Rieder, recorded as Document No. 592561, Office of Recorder, Williams County, North Dakota, less and except any conveyances heretofore made and as more particularly described on the attached Exhibit "A".

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

ROR

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement, within one year of recording the same.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Pipeline Easement, and Temporary Construction Easement (while in effect) for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during

RBR

815566

Page: 3 of 10
11/17/2015 3:16 PM
EAS \$37.00

WILLIAMS COUNTY, ND

the periods of the original construction of the pipeline. Any payment by Grantee to Grantor does not cover actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well within the Pipeline Easement and Temporary Construction Easement (while in effect); (3) remove soil or change the grade or slope; (4) intentionally impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

RAK

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees; notwithstanding, it is agreed between Grantor and Grantee that the Access Easement shall never be assigned without the Pipeline Easement also being assigned. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

RB
Landowner Initials

Exhibit "B" Addendum to Easement

Grantor(s): Robert Brian Rieder

Grantee: Dakota Access, LLC

Notwithstanding anything to the contrary in the Easement Agreement to which this Exhibit "B" is attached and made part of, the provisions of this Exhibit "B" shall prevail wherever in conflict with the provisions of the Easement Agreement. In addition, this Exhibit "B" shall attach to and be recorded in the Williams County Recorder's Office in connection with the Easement Agreement.

COMPACTION. In the event that Grantors have "no-till" farm/croplands over which Grantee's operations described herein are conducted, as soon as reasonably practical after completion of the Facilities and within (2) years from commencement of construction, Grantee shall fill in the ground above the Facilities with a suitable crown of earth and shall properly grade and level the location, compacting as needed, to reclaim said lands to reasonable "no-till" conditions.

GRANTOR INDEMNITY. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the easement by Grantee, its servants, agents or invitees, and the installation, use, maintenance, repair or removal of the pipelines by Grantee and such persons acting on its behalf, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

REASONABLE AND PRUDENT OPERATIONS. Grantee will conduct its operations related to this Easement in a reasonable and prudent manner with a view toward protecting the Grantor and the Grantor's land, and the environment. Grantee understands that the Grantor makes no representation as to the condition of the surface for any particular purpose other than agricultural use. Grantee further understands that this Easement is subject to all liens, leases, easements, servitudes, rights-of-way, oil and gas leases, reservations and other matters of record or apparent on the land in question. Grantee shall obey all laws, ordinances and regulations of federal, state and local governments in connection with possessing such easement.

ABANDONMENT CLAUSE. If at any time after five years from the date hereof, Grantee should abandon the rights granted herein for said pipelines and appurtenances constructed upon said land and if such abandonment should continue for a continuous period of as long as one year, all rights of Grantee herein shall ipso facto terminate and revert to Grantor, his heirs, legal representatives, and assigns. Grantee shall have the right for two years following any termination of this easement to remove its pipe, valves and all other property. Following the expiration of such period, any such property remaining on said land shall be and become the property of Grantor.

ABX

815566

Page: 9 of 10
11/17/2015 3:16 PM
EAS \$37.00

WILLIAMS COUNTY, ND

CERTAIN BEHAVIORS PROHIBITED. Grantee shall not allow or permit any of its employees, authorized agents, invitees, or other persons under its direction or control: to carry any firearms or other weapons onto the Grantor's property, including that portion thereof included in this easement, do any hunting or camping on said property, have any open fires on said property, or use any alcohol or drugs in the easement area or on the Grantor's surrounding property.

MAINTENANCE. Grantee agrees to perform work requested by Grantors for the maintenance of the easement to ensure its condition does not adversely impact Grantors' use of the land and to ensure that the terms of this easement are met. This work includes, but is not limited to, filling pipeline trenches that have settled below original grade and contour or grass seeding that did not grow.

QUIET ENJOYMENT. Grantors reserve all rights to quiet enjoyment of the land and to use said land for any purpose that does not unreasonably interfere with the easement granted herein. Grantors' reserved rights include, but are not limited to, usage of the surface for farming, recreation and development along with the rights to sell said land or parts thereof and the rights to grant other easements over and under said land.

MINERALS. The easement agreement does not include granting mineral rights in said area to grantee.

ABOVEGROUND STRUCTURES. There shall be no above ground structures granted by this easement.

FENCE. If Grantor's fence is cut during construction, posts will be installed to brace the areas on either side of the cut. Temporary Gates will be installed, as necessary. Grantee shall cause any existing fences damaged by the construction, operation, inspection, repair maintenance, replacement or removal of pipeline, to be repaired, as near as practicable, to their condition prior to such activity.

APPURTENANCE CLAUSE. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

TREES. Grantee agrees to replace trees removed as a result of the installation of the pipeline by a ratio of two new trees to one damaged tree on the Grantor's property in a mutually agreed upon location. Further, Grantee shall replant the new trees on a tree line to a distance of fifteen (15) feet on each side of the pipeline, as installed. It is the intention to only have a 30 foot break of no trees in any tree line not being bored under. Grantee shall have the right, but not obligation, to trim any branches, limbs or forested canopy that encroaches into said 30 foot break. Grantee agrees that in the areas where the Pipeline is to be installed by the drill or bore methods in Section 10 of Grantor's property as depicted in Exhibit "A" to not disturb any trees, with the exceptions of the crossing of 137th Northwest and Grantee's right to trim branches, limbs, or any forested canopy that interferes with Grantee's aerial inspections of the Pipeline Easement. Lastly, on Section 9 of the Grantor's property, there stands a large prominent tree in the permanent easement area the Parties have recognized and agreed shall not be damaged or destroyed by the construction or maintenance of this easement.

RBR

CONSTRUCTION DEVIANCE FROM EXHIBIT A. Grantee agrees to not deviate the location of the constructed pipeline a distance of greater than 75 feet from what was proposed to Grantor, and attached hereto as Exhibit "A", except as may be necessary to avoid the large prominent tree mentioned in the previous paragraph. Any change in location greater than 75 feet from what was proposed to Grantor and attached hereto as Exhibit "A," must be in agreed to in writing by both Parties.

ACCESS EASEMENT. By and through this Easement Agreement, the Grantor has conveyed a Temporary Access Easement in Section 10 being twenty five (25) feet in width as depicted in Exhibit A attached hereto, for the purposes of allowing access to the Pipeline Easement and Temporary Construction Easement (while in effect). Grantor agrees to allow the Temporary Access Easement to be widened by Grantee beyond twenty five feet in width at significant turns or bends so as to provide sufficient space for Grantee to transport its equipment along the Temporary Access Easement. The Parties acknowledge the conveyance is for the initial construction of the pipeline and shall terminate upon the completion of the construction of the pipeline. Further, Grantee agrees to set mats to help eliminate damage to the land, associated with the Temporary Access Easement if the weather so dictates. Lastly, upon termination of this Temporary Access Easement, the Grantee shall work and level the Temporary Access Easement Area to eliminate the compaction of soil created by the use of this Temporary Access Easement.

PROJECT: DAPL/Dakota Access Pipeline 30"
TRACT NUMBER: ND-WI-044.512.300
PARCEL ID: 46155010010070
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated April 22, 2015, is between Gerald L. Halvorson and Cheryl A. Halvorson, husband and wife, whose mailing address is P.O. Box 1894, Williston, ND 58802, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 40 acres of land, more or less, situated in the Southeast Quarter of the Northwest Quarter (SE1/4NW1/4) of Section Ten (10), in Township One Hundred Fifty-five (155) North, Range One Hundred-One (101), more particularly described in Co-Trustee Deed dated May 24th, 2006 from First National Bank and Trust Co., Jeanette Tate and Gerald G. Franke, as Co-Trustees of the George B. Franke Family Trust created by Will dated 3/16/1984, as Co-Trustees unto Gerald L. Halvorson and Cheryl A. Halvorson, husband and wife, recorded as Document #635445, office of County Recorder, of Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area

immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the

Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

PARCEL ID: 46155010010080

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated October 19, 2015, is between **Robert Brian Rieder**, whose mailing address is **5825 137th Avenue Northwest, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

That certain lot, tract or parcel of land, containing 40 acres of land, more or less, situated in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 10 in Township 155 North, Range 101 West, Williams County, North Dakota, more particularly described in that Warranty Deed dated January 19, 2011 from Gordon R. Franke a/k/a Gordon Franke, a married person dealing in his sole and separate property, Dolores J. Anderson a/k/a Dolores Anderson, a widow, Jeanette L. Tate a/k/a Jeanette Tate, a widow, Anita K. Hall a/k/a Anita Hall, a single person, Gerald G. Franke a/k/a Gerald Franke, a married person dealing in his sole and separate property, Gloria G. Knowles a/k/a Gloria Knowles, a married person dealing in her sole and separate property and Barbara F. Franke a/k/a Barbara Franke, a single person, to Robert Brian Rieder a/k/a Brian Rieder, a single person, recorded as Document Number 704151, in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore made and as more particularly described on the attached Exhibit "A".

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area

RBR

immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement, within one year of recording the same.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Pipeline Easement, and Temporary Construction Easement (while in effect)for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the

RBR

Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Any payment by Grantee to Grantor does not cover actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantor's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well within the Pipeline Easement and Temporary Construction Easement (while in effect); (3) remove soil or change the grade or slope; (4) intentionally impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional

EAS \$37.00

WILLIAMS COUNTY, ND

drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees; notwithstanding, it is agreed between Grantor and Grantee that the Access Easement shall never be assigned without the Pipeline Easement also being assigned. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment, or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

RB
Landowner Initials

Exhibit "B" Addendum to Easement

Grantor(s): Robert Brian Rieder

Grantee: Dakota Access, LLC

Notwithstanding anything to the contrary in the Easement Agreement to which this Exhibit "B" is attached and made part of, the provisions of this Exhibit "B" shall prevail wherever in conflict with the provisions of the Easement Agreement. In addition, this Exhibit "B" shall attach to and be recorded in the Williams County Recorder's Office in connection with the Easement Agreement.

COMPACTION. In the event that Grantors have "no-till" farm/croplands over which Grantee's operations described herein are conducted, as soon as reasonably practical after completion of the Facilities and within (2) years from commencement of construction, Grantee shall fill in the ground above the Facilities with a suitable crown of earth and shall properly grade and level the location, compacting as needed, to reclaim said lands to reasonable "no-till" conditions.

GRANTOR INDEMNITY. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the easement by Grantee, its servants, agents or invitees, and the installation, use, maintenance, repair or removal of the pipelines by Grantee and such persons acting on its behalf, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

REASONABLE AND PRUDENT OPERATIONS. Grantee will conduct its operations related to this Easement in a reasonable and prudent manner with a view toward protecting the Grantor and the Grantor's land, and the environment. Grantee understands that the Grantor makes no representation as to the condition of the surface for any particular purpose other than agricultural use. Grantee further understands that this Easement is subject to all liens, leases, easements, servitudes, rights-of-way, oil and gas leases, reservations and other matters of record or apparent on the land in question. Grantee shall obey all laws, ordinances and regulations of federal, state and local governments in connection with possessing such easement.

ABANDONMENT CLAUSE. If at any time after five years from the date hereof, Grantee should abandon the rights granted herein for said pipelines and appurtenances constructed upon said land and if such abandonment should continue for a continuous period of as long as one year, all rights of Grantee herein shall ipso facto terminate and revert to Grantor, his heirs, legal representatives, and assigns. Grantee shall have the right for two years following any termination of this easement to remove its pipe, valves and all other property. Following the expiration of such period, any such property remaining on said land shall be and become the property of Grantor.

TBR

WILLIAMS COUNTY, ND

CERTAIN BEHAVIORS PROHIBITED. Grantee shall not allow or permit any of its employees, authorized agents, invitees, or other persons under its direction or control: to carry any firearms or other weapons onto the Grantor's property, including that portion thereof included in this easement, do any hunting or camping on said property, have any open fires on said property, or use any alcohol or drugs in the easement area or on the Grantor's surrounding property.

MAINTENANCE. Grantee agrees to perform work requested by Grantors for the maintenance of the easement to ensure its condition does not adversely impact Grantors' use of the land and to ensure that the terms of this easement are met. This work includes, but is not limited to, filling pipeline trenches that have settled below original grade and contour or grass seeding that did not grow.

QUIET ENJOYMENT. Grantors reserve all rights to quiet enjoyment of the land and to use said land for any purpose that does not unreasonably interfere with the easement granted herein. Grantors' reserved rights include, but are not limited to, usage of the surface for farming, recreation and development along with the rights to sell said land or parts thereof and the rights to grant other easements over and under said land.

MINERALS. The easement agreement does not include granting mineral rights in said area to grantee.

ABOVEGROUND STRUCTURES. There shall be no above ground structures granted by this easement.

FENCE. If Grantor's fence is cut during construction, posts will be installed to brace the areas on either side of the cut. Temporary Gates will be installed, as necessary. Grantee shall cause any existing fences damaged by the construction, operation, inspection, repair maintenance, replacement or removal of pipeline, to be repaired, as near as practicable, to their condition prior to such activity.

APPURTENANCE CLAUSE. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

TREES. Grantee agrees to replace trees removed as a result of the installation of the pipeline by a ratio of two new trees to one damaged tree on the Grantor's property in a mutually agreed upon location. Further, Grantee shall replant the new trees on a tree line to a distance of fifteen (15) feet on each side of the pipeline, as installed. It is the intention to only have a 30 foot break of no trees in any tree line not being bored under. Grantee shall have the right, but not obligation, to trim any branches, limbs or forested canopy that encroaches into said 30 foot break. Grantee agrees that in the areas where the Pipeline is to be installed by the drill or bore methods in Section 10 of Grantor's property as depicted in Exhibit "A" to not disturb any trees, with the exceptions of the crossing of 137th Northwest and Grantee's right to trim branches, limbs, or any forested canopy that interferes with Grantee's aerial inspections of the Pipeline Easement. Lastly, on Section 9 of the Grantor's property, there stands a large prominent tree in the permanent easement area the Parties have recognized and agreed shall not be damaged or destroyed by the construction or maintenance of this easement.

RBK

CONSTRUCTION DEVIANCE FROM EXHIBIT A. Grantee agrees to not deviate the location of the constructed pipeline a distance of greater than 75 feet from what was proposed to Grantor, and attached hereto as Exhibit "A", except as may be necessary to avoid the large prominent tree mentioned in the previous paragraph. Any change in location greater than 75 feet from what was proposed to Grantor and attached hereto as Exhibit "A," must be in agreed to in writing by both Parties.

ACCESS EASEMENT. By and through this Easement Agreement, the Grantor has conveyed a Temporary Access Easement in Section 10 being twenty five (25) feet in width as depicted in Exhibit A attached hereto, for the purposes of allowing access to the Pipeline Easement and Temporary Construction Easement (while in effect). Grantor agrees to allow the Temporary Access Easement to be widened by Grantee beyond twenty five feet in width at significant turns or bends so as to provide sufficient space for Grantee to transport its equipment along the Temporary Access Easement. The Parties acknowledge the conveyance is for the initial construction of the pipeline and shall terminate upon the completion of the construction of the pipeline. Further, Grantee agrees to set mats to help eliminate damage to the land, associated with the Temporary Access Easement if the weather so dictates. Lastly, upon termination of this Temporary Access Easement, the Grantee shall work and level the Temporary Access Easement Area to eliminate the compaction of soil created by the use of this Temporary Access Easement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated April 22, 2015, is between Gerald L. Halvorson and Cheryl A. Halvorson, husband and wife, whose mailing address is P.O. Box 1894, Williston, ND 58802, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), (iii) access easements not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement and not to exceed fifty feet (50') in width for access to and from the below described surface site ("Access Easement"), and (iv) a fifty foot by seventy five foot (50' x 75') surface site, such surface site to be used for valves, risers, meters, pumps, electric facilities and lines, and associated pipeline facilities and the Access Easement(s) to be for ingress and egress, power lines and electric transmission or generation lines as may be needed to supply power to the facilities located on the surface site. The Pipeline Easement, the Temporary Construction Easement, and the Access Easement and the surface site (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 80 acres of land, more or less, situated in the South Half of the Northeast Quarter (S1/2NE1/4) of Section Nine (9), Township One Hundred Fifty-five (155) North, Range One Hundred-One (101), more particularly described in Co-Trustees Deed dated May 24th, 2006 from First National Bank and Trust Co., Jeanette Tate and Gerald G. Franke, as Co-Trustees of the George B. Franke Family Trust created by Will dated 3/16/1984, as Co-Trustees to Gerald L. Halvorson and Cheryl A. Halvorson, husband and wife, recorded as Document #635445, office of County Recorder, of Williams County, North Dakota, less and except any conveyances heretofore made.

WILLIAMS COUNTY, ND

Exhibit A attached hereto is a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement and the surface site. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee may supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement and the surface site. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement and the surface site shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances and above or below ground powerlines (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement, and the surface site and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and adjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. Grantee shall have the right to install gates and fencing around the surface site.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so

chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement and the surface site. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated October 19th, 2015, is between **Robert Brian Rieder**, whose mailing address is **5825 137th Avenue Northwest, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

That certain lot, tract or parcel of land, containing 315 acres of land, more or less, situated in the NW¼ and the N½SW¼ of Section 09 Township 155 North, Range 101 West, County of Williams, State of North Dakota, more particularly described in that Warranty Deed dated July 28, 2000 from Harriet A. Rieder, a widow, by Bobbi Jo Arnt, her attorney-in-fact to Robert Brian Rieder, recorded as Document Number 592561, in the Office of the Recorder, Williams County, North Dakota, less and except any conveyances heretofore for made, and as more particularly described on the attached Exhibit "A".

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

WILLIAMS COUNTY, ND

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement, within one year of recording the same.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Pipeline Easement, and Temporary Construction Easement (while in effect) for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during

RSK

the periods of the original construction of the pipeline. Any payment by Grantee to Grantor does not cover actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well within the Pipeline Easement and Temporary Construction Easement (while in effect); (3) remove soil or change the grade or slope; (4) intentionally impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantor shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

RBR

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees; notwithstanding, it is agreed between Grantor and Grantee that the Access Easement shall never be assigned without the Pipeline Easement also being assigned. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

WILLIAMS COUNTY, ND

Exhibit "B" Addendum to Easement

Grantor(s): Robert Brian Rieder

Grantee: Dakota Access, LLC

Notwithstanding anything to the contrary in the Easement Agreement to which this Exhibit "B" is attached and made part of, the provisions of this Exhibit "B" shall prevail wherever in conflict with the provisions of the Easement Agreement. In addition, this Exhibit "B" shall attach to and be recorded in the Williams County Recorder's Office in connection with the Easement Agreement.

COMPACTION. In the event that Grantors have "no-till" farm/croplands over which Grantee's operations described herein are conducted, as soon as reasonably practical after completion of the Facilities and within (2) years from commencement of construction, Grantee shall fill in the ground above the Facilities with a suitable crown of earth and shall properly grade and level the location, compacting as needed, to reclaim said lands to reasonable "no-till" conditions.

GRANTOR INDEMNITY. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the easement by Grantee, its servants, agents or invitees, and the installation, use, maintenance, repair or removal of the pipelines by Grantee and such persons acting on its behalf, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

REASONABLE AND PRUDENT OPERATIONS. Grantee will conduct its operations related to this Easement in a reasonable and prudent manner with a view toward protecting the Grantor and the Grantor's land, and the environment. Grantee understands that the Grantor makes no representation as to the condition of the surface for any particular purpose other than agricultural use. Grantee further understands that this Easement is subject to all liens, leases, easements, servitudes, rights-of-way, oil and gas leases, reservations and other matters of record or apparent on the land in question. Grantee shall obey all laws, ordinances and regulations of federal, state and local governments in connection with possessing such easement.

ABANDONMENT CLAUSE. If at any time after five years from the date hereof, Grantee should abandon the rights granted herein for said pipelines and appurtenances constructed upon said land and if such abandonment should continue for a continuous period of as long as one year, all rights of Grantee herein shall ipso facto terminate and revert to Grantor, his heirs, legal representatives, and assigns. Grantee shall have the right for two years following any termination of this easement to remove its pipe, valves and all other property. Following the expiration of such period, any such property remaining on said land shall be and become the property of Grantor.

CERTAIN BEHAVIORS PROHIBITED. Grantee shall not allow or permit any of its employees, authorized agents, invitees, or other persons under its direction or control: to carry any firearms or other weapons onto the Grantor's property, including that portion thereof included in this easement, do any hunting or camping on said property, have any open fires on said property, or use any alcohol or drugs in the easement area or on the Grantor's surrounding property.

MAINTENANCE. Grantee agrees to perform work requested by Grantors for the maintenance of the easement to ensure its condition does not adversely impact Grantors' use of the land and to ensure that the terms of this easement are met. This work includes, but is not limited to, filling pipeline trenches that have settled below original grade and contour or grass seeding that did not grow.

QUIET ENJOYMENT. Grantors reserve all rights to quiet enjoyment of the land and to use said land for any purpose that does not unreasonably interfere with the easement granted herein. Grantors' reserved rights include, but are not limited to, usage of the surface for farming, recreation and development along with the rights to sell said land or parts thereof and the rights to grant other easements over and under said land.

MINERALS. The easement agreement does not include granting mineral rights in said area to grantee.

ABOVEGROUND STRUCTURES. There shall be no above ground structures granted by this easement.

FENCE. If Grantor's fence is cut during construction, posts will be installed to brace the areas on either side of the cut. Temporary Gates will be installed, as necessary. Grantee shall cause any existing fences damaged by the construction, operation, inspection, repair maintenance, replacement or removal of pipeline, to be repaired, as near as practicable, to their condition prior to such activity.

APPURTENANCE CLAUSE. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

TREES. Grantee agrees to replace trees removed as a result of the installation of the pipeline by a ratio of two new trees to one damaged tree on the Grantor's property in a mutually agreed upon location. Further, Grantee shall replant the new trees on a tree line to a distance of fifteen (15) feet on each side of the pipeline, as installed. It is the intention to only have a 30 foot break of no trees in any tree line not being bored under. Grantee shall have the right, but not obligation, to trim any branches, limbs or forested canopy that encroaches into said 30 foot break. Grantee agrees that in the areas where the Pipeline is to be installed by the drill or bore methods in Section 10 of Grantor's property as depicted in Exhibit "A" to not disturb any trees, with the exceptions of the crossing of 137th Northwest and Grantee's right to trim branches, limbs, or any forested canopy that interferes with Grantee's aerial inspections of the Pipeline Easement. Lastly, on Section 9 of the Grantor's property, there stands a large prominent tree in the permanent easement area the Parties have recognized and agreed shall not be damaged or destroyed by the construction or maintenance of this easement.

RBR

CONSTRUCTION DEVIANCE FROM EXHIBIT A. Grantee agrees to not deviate the location of the constructed pipeline a distance of greater than 75 feet from what was proposed to Grantor, and attached hereto as Exhibit "A", except as may be necessary to avoid the large prominent tree mentioned in the previous paragraph. Any change in location greater than 75 feet from what was proposed to Grantor and attached hereto as Exhibit "A," must be in agreed to in writing by both Parties.

ACCESS EASEMENT. By and through this Easement Agreement, the Grantor has conveyed a Temporary Access Easement in Section 10 being twenty five (25) feet in width as depicted in Exhibit A attached hereto, for the purposes of allowing access to the Pipeline Easement and Temporary Construction Easement (while in effect). Grantor agrees to allow the Temporary Access Easement to be widened by Grantee beyond twenty five feet in width at significant turns or bends so as to provide sufficient space for Grantee to transport its equipment along the Temporary Access Easement. The Parties acknowledge the conveyance is for the initial construction of the pipeline and shall terminate upon the completion of the construction of the pipeline. Further, Grantee agrees to set mats to help eliminate damage to the land, associated with the Temporary Access Easement if the weather so dictates. Lastly, upon termination of this Temporary Access Easement, the Grantee shall work and level the Temporary Access Easement Area to eliminate the compaction of soil created by the use of this Temporary Access Easement.

PARCEL ID: 46-155-01-00-08-040
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated March 2, 2015, is between Charles W. Allison (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1519 Rose Lane, Williston, ND 58801, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 120.00 acres more or less, being situated in the N/2NE/4, SE/4NE/4 of Section Eight (8) Township One Hundred Fifty-five (155) North, Range One Hundred-One (101) West of the 5th P.M., as described in Personal Representative's Deed of Distribution dated August 4th, 1980 from Charles W. Allison, Personal Representative of the Estate of Peter J. Booke unto Charles W. Allison, recorded under Instrument Number 417845, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees

that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder.

Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 2nd day of March, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated February 18, 2015, is between Jane L. Haakenson, a single person, whose mailing address is 13943 58th Street Northwest, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 120 acres of land, more or less, situated in the NW/4SE/4, SW/4SE/4, SW/4NE/4 of Section 8, Township 155 North, Range 101 West, Williams County, North Dakota, as described in that certain Warranty Deed dated June 16, 2005, from Robert Weyrauch, a single person, to Jane L. Haakenson, a single person, recorded under Instrument Number 625258, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline

as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

3. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

4. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

5. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

6. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

7. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

8. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

9. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

10. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the

Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

11. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

16. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September 28, 2015, is between Charles W. Allison, whose mailing address is 1519 Rose Lane, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, NW¼ of Section 08 Township 155North, Range 101West, Williams County, North Dakota, as described in that certain Personal Representatives Deed of Distribution dated August 04, 1980 from Charles W. Allison, Personal Representative of the Estate of Peter J. Boone to Charles W. Allison under Instrument Number 417845 Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated March 2, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in Williams County, North Dakota, such Prior Easement being filed of record as file number 804893, of the Deed Records of Williams County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

EAS \$28.00

WILLIAMS COUNTY, ND

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

814434

Page: 3 of 7

EAS \$28.00

WILLIAMS COUNTY, ND

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the

Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated December 9, 2015, is between **Carol Jean Jensen, Life Estate; Bethanie Christman and Naomi K. Edwards, Remaindermen**, whose mailing address is **116 23rd Street East, Williston, ND 58801**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in connection with repair, improving, , operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, , abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 236.15 acres of land, more or less, situated in Lots 01 and 02, the E½NW¼, and the NE¼ of Section 07 Township 155 North, Range 101West, Williams County, North Dakota, as described in that certain Personal Representatives Deed of Distribution dated September 04, 2008 from Carol Jean Jensen, Personal Representative of the Estate of Richard Jensen to Carol Jean Jensen, under Instrument Number 660312, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in connection with repair, improving, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, must be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and ordinary damages to the Grantor's Property, excluding the Easements, resulting from initial construction of the pipeline. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for ordinary damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages for removal of such improvements.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be for a period of 99 years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) represents that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof, by through and under Grantor but not otherwise.

13. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

14. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

15. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, shall be recorded in the real estate records of the county or counties where Grantor's Property lies.

16. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

17. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

18. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

EXECUTED this 9 day of Nov., 2015.

Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

 Landowner Initials

EXHIBIT B
TO
RIGHT OF WAY AGREEMENT

THIS EXHIBIT is attached to and by reference made a part of the Easement Agreement dated December 9 2015, by and between **CAROL JEAN JENSEN, LIFE ESTATE; BETHANIE CHRISTMAN AND NAOMI K. EDWARDS, REMAINDERMEN**, Grantor, and **DAKOTA ACCESS, LLC**. As Grantee, and covering the following land in **WILLIAMS COUNTY, NORTH DAKOTA**, to-wit:

All that certain lot, tract or parcel of land, containing 236.15 acres of land, more or less, situated in Lots 01 and 02, the E½NW¼, and the NE¼ of Section 07 Township 155 North, Range 101 West, Williams County, North Dakota, as described in that certain Personal Representatives Deed of Distribution dated September 04, 2008 from Carol Jean Jensen, Personal Representative of the Estate of Richard Jensen to Carol Jean Jensen, under Instrument Number 660312, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Notwithstanding the provision of this Agreement to the contrary:

1. Wherever the term "Easement" is mentioned herein, it is intended to be one and the same as the Easement Agreement to which the Exhibit is attached.
2. In the addition to the agreed upon consideration, Grantee shall pay for future damages to the land, crops, grass or plants intended for hay, grass and any other damages which may occur as a result of entry upon the property and/or exercise of any rights granted in the Agreement after the initial construction of the pipeline.
3. Grantee shall indemnify and hold Grantor harmless from any claims made by any persons or entities for damages to persons or property or violation of any laws or regulations, including environmental, as a result of Grantee's activities on the land or the exercise by Grantee of any of the rights granted herein. Grantee's indemnification of Grantor shall include reimbursement of court costs and reasonable attorney fees which may arise and for which Grantor is obligated to pay as a result of any claims, demands, causes of action, or liability for damages, loss or injuries that arise out of Grantee's operations on the land. Grantee shall not be liable for or indemnity Grantor against the negligence or the acts or omissions of Grantor that result in any claim, demand, and cause of action or liability for damages.
4. Grantee agrees that any consideration paid for this Easement does not compensate Grantor for any damages Grantor might suffer as a result of the negligence of Grantee resulting from Grantee's operations on the subject land, including entry upon the land and exercising any of the rights granted pursuant to this Easement Agreement after completion of initial construction.
5. All topsoil will be scraped and set to one side. Topsoil will be replaced after easement work has been completed. All rocks 4 inches or larger will be buried or disposed of following dirt work. The subject land will be restored by Grantee to as near original condition as reasonably possible after completion of

work. as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full. Grantee agrees to replace or repair all fences, terraces, contours and drainage ditches and to pay any damages which may arise from the construction, maintenance and operation of said lines.

6. All pipelines shall be buried no less than forty eight inches (48") from the top of the pipe in cultivated areas, forty eight inches (48") from the top of the pipe in rangeland areas, and no less than twenty four inches (24") from the top of the pipe through rock.

7. Grantee shall perform any work reasonably requested by Grantor for the maintenance of the easement to ensure its condition does not adversely impact Grantor's use of the land and to ensure that the terms of this easement are met. This work includes, but is not limited to, filling pipeline trenches that have settled below original grade and contour, and grass seeding that did not grow.

8. Grantor agrees that the consideration paid by Grantee in this agreement includes the cost of any necessary weed control measures (should such exist) that arise as a result of Grantee's initial construction of its pipeline. Grantor agrees to be responsible for such weed control at Grantor's discretion.

9. Seeding of grassland in the easement area will be seeded to a suitable grass mixture as required by Grantee's permits and other agreements.

10. Grantee's access to and from the easement is limited to travelling over the width of the right of way and Access Easement after the initial construction of pipeline.

11. Grantee agrees that it will not put any above-ground facilities on the easement except for cathodic test lead and pipeline markers. The pipeline markers will be at such locations and distances as are necessary to provide a minimum of line of sight between markers as well as to indicate all points of intersection and crossings of property boundaries, waterbodies, railroad tracks and/or roads. All necessary or required cathodic test leads will be placed in fence lines on the lands, at foreign pipeline crossings or road right of way lines.

12. Should Grantee strike ground water during initial construction, or subsequent maintenance of the pipeline, Grantee shall have a certified test of the ground water performed prior to installation of any pipelines and that information will be shared with Grantor.

13. This easement is intended for one (1) pipeline in one (1) trench. Grantee shall not transport salt water through the pipeline.

14. If, after five (5) years from the date below, construction of the pipeline has not commenced, this entire Agreement shall be terminated. In the event that use of the pipeline by Grantee, its successors and assigns shall not be maintained for the purpose herein granted for the period of three (3) consecutive years, then, upon receipt of the appropriate government approvals for abandonment, Grantee shall have no further rights in the lands or the Pipeline Easement except, at the option of Grantee, the right to abandon the subsurface pipeline facilities in place or the right and privilege to remove the Pipeline Facilities. In the

event Grantee elects to remove the subsurface pipeline facilities, Grantee shall restore the surface of the Pipeline Easement as near as reasonably practicable to its condition prior to such removal. Grantee, its successors or assigns shall, within six (6) months after the abandonment in place or removal of the pipeline facilities, file with the County Clerk of the count in which the Lands are located a release of the right, title and interest of Grantee in and to the lands and Pipeline Easement. If signification erosion or washouts occur, Grantee agrees to mitigate the affected area, within thirty (30) days of the occurrence, weather conditions permitting. This requirement is not intended to alleviate Grantee from any more stringent requirements set by law and/or governmental agencies.

15. The actual location of the easement has not yet been determined. Once the location of the easement has been determined, it shall in no event be located on any lands belonging to Grantor other than those which are described herein. The plat or map attached to the Easement Agreement shall be recorded with the Easement Agreement. The map or plat may not alter the terms of the easement other than to provide the exact legal description of the easement. Grantee shall provide to Grantor an as-built survey upon completion of the construction of the pipeline. This will be provided to Grantor within six (6) months of completion of construction.

16. Grantor reserves all rights to quiet enjoyment of the land and to use said land for any purpose that does not unreasonably interfere with the easement granted herein. Grantor's reserved rights include, but are not limited to, usage of the surface for farming, recreation and development along with the rights to sell said land or parts thereof and the rights to grant other easements over and under said land. All construction activities affecting the Pipeline Easement by Grantor or any third party shall be subject to the engineering and construction specification of Grantee. In addition any third party to whom an easement is granted will be required to sign Grantee's form of encroachment prior to entering on the Pipeline Easement.

17. During construction of the pipeline or any subsequent work on the pipeline, Grantee shall ensure that Grantor is not prevented from access across the easement area to ensure that Grantor, its licensees and/or invitees, has/have access to and through Grantor's land for agricultural, recreational, or any other reason. Grantee agrees to work with Grantor to ensure that earthen plugs are left along the route of the Pipeline Easement during construction or during subsequent work where Grantor will be able to cross the Pipeline Easement are without unreasonable difficulty. Such access will contemplate the need for farm implements, livestock, people and vehicles crossing the Pipeline Easement area.

18. Upon completion of construction, Grantee shall keep the easement area free of garbage and debris and shall promptly remove any unnecessary and/or unused construction materials and equipment.

19. Grantee is aware that there are recorded easements located on the property wherein Grantor previously entered into an easement agreement (or agreements) covering a portion or all of the land covered herein. The exact location(s) of the easement(s) is not expressed by Grantor, nor is Grantee relying on any statements or claims by Grantor in this regard. It is incumbent upon Grantee to determine the location of the existing recorded easement(s) Grantee hereby relieves and forever holds Grantor, and Grantor's successors and assigns, free from any and all claims, lawsuits or disputes of any kind that may arise out of competing interests or conflicts as a result of various recorded easements being located on the subject property. Grantee shall not in any way be liable for any damages or claims for interference with unrecorded

easements or agreements affecting the Pipeline Easement. Grantor shall communicate to Grantee any unrecorded pipelines or easements he or she has knowledge of. The exact locations of unrecorded pipelines or other easements is not expressed by Grantor, nor is Grantee relying on Grantor in this regard.

Dated this 9 day of Nov, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September 3, 2015, is between Harriet Jensen, whose mailing address is 506 East Highland Drive, Apartment 2, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 312.84 acres of land, more or less, situated in the SE¼, Section 07, Township 155 North, Range 101 West, Williams County, North Dakota, as described in that certain Personal Representatives Deed dated February 10, 1998 from Harriet Jensen, Personal Representative of the Estate of Walter M. Jensen, recorded February 17, 1998, as Document Number 576923, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made;

E½SW¼, Lot 03(36.33), Lot 04(36.51) Section 07, Township 155 North, Range 101 West, Williams County, North Dakota, as described in that certain Personal Representatives Deed dated February 10, 1998 from Harriet Jensen, Personal Representative of the Estate of Walter M. Jensen, deceased, recorded as Document Number 576923, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual

WILLIAMS COUNTY, ND

Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement, and (c) be recorded by Grantee in the Williams County Recorder's Office. Grantee shall provide Grantor with a copy of the recorded **Exhibit A-1** which shall constitute the actual Easement granted.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of (up to 30' diameter), relocating and changing the route or routes of within the boundaries of the Easement, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. However, Grantee shall not change the contour of the land in any manner which might inhibit or redirect the natural flow of water. Grantee agrees to fill and refill, as may be necessary in the option of Grantor, any subsidence along the Pipeline Easement with additional hauled in topsoil so the original contours of the land are maintained as near the recent natural surface level as possible.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and shall be definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops by the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Notwithstanding the foregoing, this Agreement is a general release as defined by Section 9-13-02 NDCC and does not release Grantee from future actual, extraordinary, unforeseen, indirect, special or consequential damages.

5. Unless more specifically agreed upon by the parties, Grantee shall restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder, as provided in the North Dakota Environmental Construction Plan attached hereto and incorporated by reference herein. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or interfere with Grantee's rights under this Agreement. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee no less than seventy two (72) hours before streets, roadways, utilities, or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. Grantor agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Grantee agrees the Pipeline will be constructed in a manner to allow the crossing of agricultural equipment of normal weight and livestock. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Unless more specifically stated in the terms of this Agreement, Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement, as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim, costs (including reasonable attorneys' fees and court costs) or liability or loss from personal injury, including death, or property damage to the extent caused by Grantee, its servants, agents or invitees, and to the extent caused by Grantee during the installation, use, maintenance, repair or removal of the pipeline by Grantee and such persons acting on its behalf, excepting, however, such claims, costs, liabilities or damages as may be due to or caused by the negligence of Grantor, or its servants, agents or invitees. Furthermore, Grantee hereby agrees to indemnify and hold Grantor harmless for any environmental damage caused by Grantee on this Easement, or for any damages caused by Grantees' noncompliance with any applicable and enforceable environmental law, order, administrative law, regulation or rule adopted or promulgated by the State of North Dakota or the United States of America, or any Board, Agency or Commission of either having jurisdiction over the operations of Grantee. Notwithstanding anything to the contrary contained in this Agreement, it is expressly understood and agreed between Grantor and Grantee that: (a) Grantee shall not be responsible for the existence, assessment, remediation, excavation, removal, relocation or disposal of any petroleum, hazardous or toxic substances or solid wastes which are present on the Pipeline Easement or the Temporary Construction Easement as of the date of this Agreement or which migrate from no fault or control of Grantee to the Pipeline Easement, Temporary Construction Easement or Access Easement after the date of this Agreement.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be for a term of ninety nine (99) years in accordance with North Dakota law, and provisions of this Agreement, including all benefits and burdens, shall run with the land.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/hcr/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contain the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit "B" attached hereto.

EXHIBIT "B"

This Addendum is attached to and made a part of that certain Easement Agreement dated September 3, 2015, by and between Harriet Jensen, as Grantor, and Dakota Access, LLC, of 1300 Main Street, Houston, Texas 77002, as Grantee. If any of the following provisions conflict with or are inconsistent with any of the printed provisions or terms of the Easement Agreement, the following provisions shall control:

1. Grantee may sell or assign in whole or in part its rights to this easement, however, such sale or assignment shall not be effective until Grantor has been delivered notice of the name, address, and phone number of the proposed assignee.
2. Grantor is not prevented from granting other easements that cross this easement provided that such easements or use by others does not damage or interfere with Grantee's use. To that extent, this is a non-exclusive easement. Grantee hereby grants permission to Grantor and the surface occupants to cross the Pipeline Easement at any time with agricultural equipment of normal weight as necessary to carry out normal and customary farming and ranching on the Property.
3. This Agreement is for the installation of one 30-inch steel crude oil pipeline and related equipment for the transportation of crude oil and associated by-products and may not be used for any other purpose. Grantee will allow no surface equipment or apparatus associated with the pipeline to be installed on Grantor's land without separate consent from Grantor, except for pipeline markers and cathodic protection test leads as may be required.
4. Grantee agrees to bury the pipeline a minimum of forty-eight inches (48") from the top on cultivated lands and rangelands and no less than twenty four inches (24") through rock.
5. The Easement consideration compensates Grantor for Any existing structures and improvements located on the Property as of the Effective Date of this Agreement.
6. This pipeline easement shall not be effective, and the Grantee shall have no rights to enter upon the property, until all payments for this easement or for property damage have been paid to Grantor.
7. This pipeline may not be moved, and it may not be replaced by a larger pipeline than originally installed without the written permission of Grantor and additional consideration. If Grantee desires to dig up any part or portion of the pipeline during the term of this easement for any reason, it shall pay damages to Grantor for soil disturbance and actual damages at the then-current fair market value of such damages.
8. Grantee undertakes to and does hereby agree to defend, hold harmless, and indemnify Grantor, his successors, heirs, or assigns, from any and all liability, costs, and attorney's fees Grantor may suffer arising out of any operation, work, procedure, accident or

otherwise involving the use by the Grantee of any portion of the lands described in this easement, or for any environmental damage caused or permitted by Grantee on this easement, or for any damage caused by Grantee's noncompliance with any environmental law, order, administrative law, or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either, having jurisdiction. The term "Grantee" as used in this paragraph includes Grantee's agents, servants, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or in behalf of Grantee for the purposes of accessing, laying, constructing, maintaining, operating, repairing, replacing, inspecting and removing the pipeline. This provision shall continue to apply to any such damage, loss or violation caused by Grantee regardless of any assignment or release of this easement by Grantee.

9. Grantor does not warrant or agree to defend title to the lands covered by this easement. Grantee has assumed the risk of title lien, cloud or claim. Grantee agrees to pay Grantor and/or his tenant(s) for damage to growing crops, livestock, timber, fences or other structural improvements which are caused by construction, maintenance, operation, repairing, alteration, replacement or removal of the pipeline and appurtenant facilities. Grantee shall reasonably compensate Grantor or the surface occupants for loss or damage to crops, pastures, fences, structures, improvements, waterlines, diversions, irrigation ditches, terraces, tile lines, tanks, timber, pipelines or any other damages to the Property, improvements, personal property or livestock caused by or resulting from Grantee's use or occupancy of the Property, including damages due to operation, location, use, testing, repair, maintenance, removal or abandonment of the Pipeline.
 - a. Should either (i) a growing crop, hay, grass, forage, rangeland or any cropland be damaged or destroyed, or (ii) the agricultural capability of the lands encompassing the Pipeline Easement or the Temporary Construction Easement be reduced or eliminated by Grantee during the use, operation, maintenance or replacement of the Pipeline, Grantor or the surface occupant shall be reasonably compensated for the loss thereof by multiplying the current market price for the crop by the reduced production as evidenced by comparing yields with adjacent lands within the same growing season or most recent full production from the impacted lands.
 - b. Grantee shall compensate Grantor or the surface occupant for any injury or loss to Grantor's or the surface occupant's livestock resulting from construction or Grantee's operations or activities on the Property, at the then current replacement price plus reasonable transaction costs for such livestock to make the individual whole.
 - c. In the event Grantee's activities or omissions cause fire on the Property or adjacent lands owned by Grantor, and the property or adjacent lands are used for grazing, Grantee shall promptly pay (i) the reasonable costs of all fire suppression incurred

by Grantor or the surface occupant, (ii) One Hundred Twenty Dollars (\$120.00) per acre for all rangeland burned for immediate lost grazing as full and complete satisfaction for said lost grazing for a period of two (2) growing seasons, (iii) replacement costs for fences and any other improvements, including structures, destroyed or damaged by fire, and (iv) all other actual damages, including all costs associated with the prevention and control of cheat grass and cactus, to Grantor or the surface occupant as a result of such fire. Damages for immediate lost grazing shall be paid within one week of establishing the acres burned, and the amount per acre shall be adjusted annually by reference to the "CPI-U" published U.S. Department of Labor Bureau of Labor Statistics, or if such index is no longer published, a comparable replacement index. Compensation for other damages must be paid within a reasonable time after notification to Grantee of the fire damage in writing, which notice shall include itemization and evidence of the cost associated with the damages.

- d. To the extent Grantee's construction of the Pipeline requires the removal of any of the Property from participation in the Conservation Reserve Program or any substantially similar government program in which it was enrolled and qualified on the Effective Date, Grantee shall reimburse Grantor for any penalties and reimbursement obligations levied against Grantor by the agency administering the program as a consequence of the property's removal.
10. As set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full, the following mitigative measures shall be implemented during topsoil removal and storage. In cultivated lands and rangeland, the actual depth of the topsoil will be stripped from any area excavated. All subsoil material removed from the trench will be placed in a second stockpile that is separate from the topsoil stockpile (that is, double ditched.) The contractor shall perform work in a manner to minimize the potential for subsoil and topsoil to be mixed. In backfilling the trench, the stockpiled subsoil material will be placed back into the trench before replacing the topsoil. All tracks, ruts and equipment surface disturbance shall be removed by grading or filling in such tracks or ruts with topsoil after construction, maintenance or inspection. Two years after the construction is completed, Grantee shall also inspect the pipeline easement, and any ground which has sunk or caved in shall be restored to the contour as close to the original slope and contour as is reasonably possible.
11. Grantee shall control by appropriate spraying, or clipping prior to going to seed, all noxious weeds that grow within the pipeline right of way lands disturbed for construction or maintenance as set forth in the abovementioned ECP.

12. Grantee agrees to consult with Grantor and the surface occupants to take such precautions as necessary to protect new vegetation upon reseeded as set forth in the abovementioned ECP.
13. If the pipeline installed upon this easement is not used for a consecutive period of two (2) years, then within one (1) year following that date, the Grantee shall remove this pipeline and restore the surface to the affected areas as otherwise described in this Agreement. Within that same one year period, the Grantee shall also prepare and record a release of all of Grantee's rights, titles, and interests in this pipeline agreement. The requirement to remove the abandoned pipeline may be waived only with a separate agreement signed in advance by the Grantor.
14. Firearms shall not be brought on to the property, and there shall be no hunting allowed on the property covered by this easement by Grantee and its "agents" as defined in Paragraph

This Easement shall run with the land and shall bind the parties, their heirs, successors and assigns. TO HAVE AND TO HOLD unto Grantee, its successors and assigns, the easement rights and privileges herein granted for so long as said easement is useful to Grantee for the purposes stated above, with no cessation of use for more than two (2) years.

PROJECT: DAPL/Dakota Access Pipeline 30"
TRACT NUMBER: ND-WI-190.310
PARCEL ID: 51154020034060
COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated July 2012, 2015, is between Bradley J. Olson and Marilyn E. Olson, as joint tenants and not as tenants in common, whose mailing address is 1203 University Avenue, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 73.03 acres of land, more or less, situated in the E½NE¼, Ex Street, of Section 34, Township 154 North, Range 102 West, Williams County, North Dakota, as described in that certain Warranty Deed dated November 18, 2002 from Cynthia L. Fisher, a single person, to Bradley J. Olson and Marilyn E. Olson under Instrument Number 603749, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Grantor and Grantee shall agree upon the location of said pipelines prior to any laying, constructing or operating said pipeline by Grantee with the agreement of said location being evidenced by an attached survey plat, Exhibit A to this Right of Way Agreement, of the location of the pipeline. Upon completion of the laying and construction of said pipeline, Grantee shall re-record said Right of Way Agreement and an updated plat to accurately display the as-built location of said pipeline. The location of the pipeline in the as-built plat shall not differ from the previously recorded plat by more than five feet on each side of the pipeline locations laid out in Exhibit A.

BJO
MEO

Exhibit A attached hereto is a plat survey of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

BTJ
UM60

4. The consideration paid by Grantee in this agreement includes the value of the Easements, both permanent and temporary, granted by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional

370
UN60

drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This agreement is further modified by Exhibit "B", which is not attached and will not be filed of record.

18. This Agreement along with Exhibit "B" contain the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

**EXHIBIT "B"**

Attached to and made part of that Pipeline Right of Way Grant and Release of Damages agreement dated the day of July, 20 2015, between **Bradley J. Olson and Marilyn E. Olson, as joint tenants and not as tenants in common** (Grantor) and **Dakota Access, LLC** (Grantee) covering the following described lands:

All that certain lot, tract or parcel of land, containing 73.03 acres of land, more or less, situated in the E $\frac{1}{2}$ NE $\frac{1}{4}$, Ex Street, of Section 34, Township 154 North, Range 102 West, Williams County, North Dakota, as described in that certain Warranty Deed dated November 18, 2002 from Cynthia L. Fisher, a single person, to Bradley J. Olson and Marilyn E. Olson under Instrument Number 603749, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Notwithstanding anything to the contrary in the Right of Way Agreement to which this Exhibit "B" is attached and made part of, the following provisions of this Exhibit "B" are hereby added and incorporated into the Right-of-Way Agreement and shall prevail wherever in conflict with the provisions of said Right of Way Agreement.

1. To the extent the term Grantor is used herein, it is meant to include the original Grantor as well as his/her heirs, successors and assigns. Likewise, to the extent the term Grantee is used herein, it is meant to include the original Grantee, its successors and assigns.

2. All topsoil will be bladed and set to one side, and all subsoil removed from the trench shall be placed in a second stockpile that is separate from the topsoil stockpile. In backfilling the trench, the stockpiled subsoil shall be placed back into the trench before the topsoil is replaced. If the topsoil is not scraped and separated, new topsoil shall be hauled onto the easement to restore the topsoil to its original depth. After completion of the work, the subject lands shall be restored to as near original productivity and condition as reasonably possible.

3. Grantee agrees to take all practicable steps necessary to control and eliminate erosion and washouts caused by its operations upon the land. Grantee agrees to perform any reasonable work requested by Grantor for the maintenance of the easement to ensure its condition does not adversely impact Grantor's use of the land. This work includes, but is not limited to, filling pipeline trenches that have settled below original grade and contour. Grantor shall immediately notify Grantee of any significant erosion, settling or washouts observed in the easement area.

4. If, after five (5) years from the date below, no pipeline has been installed, this easement shall automatically terminate. Once constructed, this easement shall terminate if the pipeline is not used to transport any product for 24 consecutive months. Upon termination of the easement, Grantee shall file a release of record and the pipeline shall be purged of all gases, oil, and vapors and permanently capped, and all above ground structures associated with pipeline shall be removed and the land restored to as near original condition as reasonably possible. When abandoning the pipeline, Grantee shall comply with any applicable laws or regulations of the State of North Dakota or any other governmental authority having jurisdiction over the matter.

5. In the event Grantee determines it is necessary to install any above ground facilities on the easement, it agrees to notify Grantor of the proposed location and to cooperate with any reasonable requests made by Grantor as to the location of the surface facilities.

6. Grantee shall employ timely efforts to control and prevent weeds from growing and going to seed. If necessary and upon request of Grantor, weeds will be controlled by Grantee through two (2) growing seasons following reclamation of the easement area.

7. Grass land seeding of the easement area, if not cultivated as cropland, will be monitored yearly by landowner until grass has been established to as near original condition as reasonably possible. If necessary and upon request of Grantor, re-seeding will be completed yearly by Grantee for a period of two (2) growing seasons following completion of pipeline construction.

8. Grantee hereby agrees to defend, hold harmless and indemnify Grantor from any and all liability, costs, and attorney's fees the Grantor may suffer as a result of claims, demands, costs, or judgments against Grantor arising out of any operation, work, procedure, accident or otherwise caused by Grantee or for any environmental damage caused or permitted by the Grantee on this easement or Grantee's noncompliance with any environmental law, order, administrative law or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency or commission thereof.

9. The damage payment provided for in conjunction with this easement is intended to cover normal and customary damages resulting from the initial construction of the pipeline. Should the Grantee, or anyone claiming under it, cause any extraordinary loss, damage or destruction to the property which is in excess of the reasonable, normal and customary damages contemplated by the parties, such as fire, injury to livestock, or soil damage caused by spills, the Grantee shall be responsible for repairing or restoring such damage and for compensating Grantor for the same.

10. In the event Grantee is required to enter onto the easement area after the initial construction of the pipeline for any reason, it shall compensate Grantor for any damage to growing crops, grass and any other damages, which may result from entry upon the property and/or the exercise of any rights granted in the easement.

11. If requested by Grantor, Grantee shall construct and maintain temporary access across open construction trenches in order to allow Grantor to access cropland for purposes of conducting necessary farming operations.

12. Upon reasonable request, Grantee shall pay Grantor to construct and maintain temporary fences and/or gates around open construction trenches within the easement area in order to protect Grantor's livestock.

13. Grantor does not warrant or agree to defend title to the lands covered herein. Grantee has assumed the risk of title lien, cloud, or claim.

14. If Grantee assigns all or part of this lease, assignee shall remain subject to the terms of this agreement and fully comply with and perform all covenants and obligations imposed herein. Upon request, Grantee shall provide Grantor with the copy of the assignment, which shows the mailing address of the assignee.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September 16, 2015, is between Lee Nelles Leonhardy, as Trustee of the Terrance G. Leonhardy Revocable Trust UDT dated March 14, 2002 whose mailing address is 3117 38th Street Northwest, Washington, DC 20016 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 154.85 acres of land, more or less, situated in the NW¼ of Section 35, Township 154 North, Range 102 West, Williams County, North Dakota, more particularly described in Quit Claim Deed dated December 03, 2002 from Terrance G. Leonhardy and Lee Nelles Leonhardy, husband and wife, to Terrance G. Leonhardy and Lee Nelles Leonhardy, Co-trustees of the Terrance G. Leonhardy Revocable Trust UDT dated March 14, 2002 recorded under Document Number 604085, Office of Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.
11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.
12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.
13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.
14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.
15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.
16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.
17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.
18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.
19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

My Commission Expires: _____

**EXHIBIT B
TO
EASEMENT AGREEMENT**

Lee Nelles Leonhardy, as Trustee of the Terrance G. Leonhardy Revocable Trust UDT dated March 14, 2002, herein referred to as "GRANTOR"

Dakota Access, L.L.C. - herein referred to as "GRANTEE"

REGARDLESS OF LANGUAGE TO THE CONTRARY CONTAINED IN THE EASEMENT AGREEMENT THE FOLLOWING SHALL CONTROL:

Definitions:

"GRANTOR" means her/his/their employees, agents, contractors and invitees.

"GRANTEE" means **Dakota Access, L.L.C.**, its employees, agents, contractors, and invitees.

"Easement Corridor" or "Pipeline Corridor" means that area lying within the easement boundaries here granted.

PIPELINE INSTALLATION DAMAGES: GRANTEE shall be responsible for all damages caused by it during and after the installation of the pipeline contemplated by the Easement Agreement.

PIPELINE: This Exhibit B provides GRANTEE the privilege to lay, construct, maintain, operate, repair, replace, inspect, and remove one pipeline contemplated by the Easement Agreement.

1. **Number of Pipeline(s), Easement Width and Depth:** Installation and easement is limited to one pipeline within the easement corridor together with necessary underground fittings, appliances and associated equipment.
2. **Consultation:** GRANTOR and GRANTEE agree that any pipeline to be constructed under the terms of this Agreement shall be in consultation with the GRANTOR.
3. **Route and Map Incorporation:** The route of the pipeline shall be pre-determined before construction shall begin. A map shall be attached to and incorporated herein for the purpose of the proposed pipeline route; this route may be changed upon GRANTEE's consultation with and written approval of GRANTOR.
4. **Construction Start Date:** intentionally omitted.

WILLIAMS COUNTY, ND

814287
Page: 7 of 17
10/21/2015 10:35 AM
EAS \$58.00

5. **Time by which construction must be completed:** GRANTEE agrees to construct and install the pipeline within the Easement Corridor no later than **December 31, 2020**. If the pipeline is not constructed during this time period, the GRANTEE will be deemed to have abandoned the rights to construct the pipeline; and this Easement will terminate.
6. **Term of Agreement and Term Extension:** The duration of this Easement shall be for ninety-nine (99) years.
7. **Compensation:** GRANTEE has agreed to compensate GRANTOR a specific monetary sum for the usual, ordinary and expected damages incurred during the installation of a pipeline and reclamation of the pipeline corridor and access points. GRANTEE shall compensate GRANTOR for future loss, if any, as provided in Paragraph 11 below; and extra-ordinary and unexpected damages.
8. **Tenant/Farmer Direct Payment:** intentionally omitted.
9. **Payment for Additional Disturbances:** GRANTEE shall pay GRANTOR for any entry after initial construction of the pipeline that results in additional surface damages, including damages to crops, grasslands or livestock or improvements.
10. **Nonexclusive easement:** This easement is nonexclusive. GRANTOR shall be permitted to grant easements to others that parallel and/or cross GRANTEE's easement; however such future easements granted that run parallel to GRANTEE's easement shall not lie within the easement corridor here granted without GRANTEE's consent – which said consent shall not be unreasonably withheld. Any future easements granted by GRANTOR that cross the easement corridor must not unreasonably interfere with GRANTEE's use of its easement. GRANTOR reserves the right to farm, graze and otherwise fully use and enjoy the Easement Corridor, provided GRANTOR agrees not to construct or create any obstruction (including planted trees), structure, impound water, construct a canal or any other engineering work on the Easement Corridor that will interfere with the rights and interests of GRANTEE herein granted.
11. **Future loss:** GRANTEE shall be liable for any damage to GRANTOR and GRANTOR's property (whether real or personal) in excess of usual, expected and ordinary damage sustained during initial construction, installation, inspection, maintenance, repair, replacement, removal and reclamation of the pipeline(s). Such damage includes but is not limited to personal injury or death of GRANTOR; damage, injury or death to livestock; and damage to lands within and adjacent to the easement corridor.
 - In the event such excess damage or injury is a result of GRANTEE's operations and/or activities, GRANTEE will pay reasonable compensation to GRANTOR for such loss.

814287

Page: 8 of 17
10/21/2015 10:35 AM
EAS \$58.00

- GRANTEE shall also be responsible for any damage caused by activities of its subcontractors during the construction, installation, inspection, maintenance, repair, replacement, removal and reclamation of said pipeline(s).

Nothing in this paragraph shall impose liability upon GRANTEE for the negligence, reckless or intentional acts of GRANTOR.

12. Hold Harmless and Indemnification: GRANTEE agrees to indemnify, defend and hold the GRANTOR harmless from the claims and demands of all parties arising out of its operations and/or activities relating to the construction, installation, reclamation, use, inspection and maintenance of the pipeline or easement corridor.

- The GRANTEE also undertakes and does hereby agree to defend, hold harmless and indemnify GRANTOR from any and all liability, costs, and attorney's fees the GRANTOR may suffer as a result of claims, demands, costs, or judgments against GRANTOR, arising out GRANTEE's activities and/or operations on GRANTOR's property, including but not limited to any environmental damage caused by the GRANTEE and GRANTEE's noncompliance with any environmental law, order, administrative law or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either. This hold harmless and indemnification shall also include, but is not be limited to, any claims by contractors, subcontractors or others for money owed to them as a result of construction, installation, repair or maintenance of GRANTEE's pipeline or easement. This indemnification and hold harmless shall also include any award of damages against GRANTOR for acts of negligence, reckless or intentional conduct of GRANTEE, its employees or its agents.

Nothing in this paragraph shall impose liability upon GRANTEE for the negligence, reckless or intentional acts of GRANTOR.

13. Gates and Fencing: Upon request, GRANTEE shall, within reason as determined by GRANTEE, construct and maintain temporary gates and/or fences across or around, as applicable, any open construction trench within GRANTEE's Pipeline Easement during GRANTEE's initial construction and installation of pipeline so as to avoid injury to or interference with GRANTOR during said construction; OR GRANTEE shall compensate GRANTOR for the foregoing prior to construction.

.....

- if GRANTOR should so desire, GRANTOR may place a fence capable of turning livestock across or adjacent to the easement corridor after the

814287

Page: 9 of 17

10/21/2015 10:35 AM

EAS \$58.00

pipeline has been installed, provided that GRANTOR shall perform any such construction within the Easement in a safe manner.

- 14. INGRESS and EGRESS TO PIPELINE FOR INSPECTION AND REPAIR:** GRANTEE shall make reasonable good faith efforts to notify GRANTOR in advance before accessing the pipeline for inspection and repair and shall use existing roads or trails or the pipeline corridor for ingress and egress to inspect or repair the pipeline, unless such ingress or egress required is due to an emergency, or GRANTOR is notified and gives consent to use other ingress and egress points.
- 15. Notification of Surface Activities:** Before entering the GRANTOR's land, GRANTEE shall make good faith efforts to notify GRANTOR in advance of proposed, non-emergency activities to be conducted upon the surface of the said land.
- 16. Daylighting of Pipeline:** Intentionally omitted.
- 17. Surface structures:** GRANTEE agrees there shall be no above ground installations, surface equipment, structures or apparatus associated with the pipeline to be installed on the Easement without the express, written consent of GRANTOR, except pipeline markers test leads or rectifiers at fence lines, roadways, railroads, ditches and waterways, or as required by applicable law.
- 18. Mineral Reservation, including Aggregates:** GRANTOR reserves all oil, gas, and other minerals on and under said lands, including, but not limited to gravel, clay and scoria that GRANTOR owns at the time GRANTOR executes this Easement Agreement.
- 19. Commercial Deposits of Scoria, Sand and Gravel:** GRANTOR shall have the right to exploit and/or mine all commercial quantities of coal, scoria, gravel, sand and/or aggregates [hereinafter collectively "surface minerals"] on or under the lands described in the Easement; provided, however, this clause shall not serve to terminate or amend any existing mineral or materials leases.

Should GRANTEE'S pipeline interfere with GRANTOR's right to exploit or mine any surface minerals GRANTEE shall either:

- (i) Pay for the value of the surface minerals in place in lieu of GRANTOR exploiting and/or mining the same;
- it is the intent of the parties that GRANTOR be paid for surface minerals that cannot be exploited or mined as a result of the pipeline presence, not just surface minerals located only within the easement corridor.

814287

Page: 10 of 17

10/21/2015 10:35 AM

EAS \$58.00

- (ii) Exploit or mine to the satisfaction of GRANTOR the surface minerals before installation of the pipeline and stockpile the same on GRANTOR'S adjacent lands.
 - Should GRANTEE elect to exploit or mine and remove the material during the installation of the pipeline or at any time thereafter, it shall stockpile the minerals as noted above, and GRANTOR shall provide a location suitable for the stockpile at no cost to GRANTEE.

The Parties will enter into an agreement suitable for whichever above activity GRANTEE selects describing the rights and responsibilities of the Parties.

Before GRANTEE is required to pay under the provisions above, surface mineral(s) must be first mined in an area near or adjacent to the easement corridor and perform reasonable testing to confirm that the commercial vein of such surface mineral(s) lies within the pipeline corridor..

- 20. **Debris & Rocks:** GRANTEE shall remove all debris, pick rocks four (4") inches in diameter or larger brought to surface and either remove them or bury them at a location designated by GRANTOR, replace topsoil to as near preconstruction condition as possible, compact trench and restore the disturbed area. GRANTEE shall take immediate steps to remove or bury within sixty (60) days from date of written notice unless such period is extended with consent of GRANTOR.
- 21. **Control of Weeds:** GRANTEE shall employ timely efforts to control and prevent weeds from growing and going to seed on and in the pipeline corridor for a period of time required by Grantee's permits and authorizations but in no case less than three (3) growing seasons following reclamation of the pipeline corridor after the final pipeline is installed.
- 22. **Restoration of Disturbed areas:** All disturbed surfaces which are not tilled crop land will be re-seeded at GRANTEE's expense with either of the following as determined by GRANTOR:
 - (i) an approved local NRCS seed mixture; or
 - (ii) same seed as was growing in the area prior to disruption.

GRANTEE will seed and re-seed pasture and/or grasslands as often as necessary to establish a catch consistent with the condition of the pasture and/or grasslands prior to GRANTEE's entry upon the lands. GRANTOR shall have the right for a period not to exceed three (3) years from date of completion of the pipeline to make reasonable determination that the ground and foliage has been satisfactorily been restored.

814287

Page: 11 of 17

10/21/2015 10:35 AM
EAS \$58.00

During construction and installation or maintenance or repair of the pipeline, topsoil shall be set aside and then replaced on the top of any disturbed land during restoration or covering of trenches dug for installation, repair, maintenance, replacement or removal of any pipeline.

All tracks, ruts and equipment surface disturbances shall be removed by grading or filling in such tracks or ruts with topsoil.

23. Restoration Upon Abandonment: Upon final abandonment of the pipeline GRANTEE shall comply with all Local, State and Federal rules or regulations concerning the same. GRANTEE shall remain responsible for any hazardous or dangerous condition relating to the pipeline.

24. Miscellaneous:

- GRANTEE must comply with the North Dakota Environmental Construction Plan on file with the North Dakota Public Service Commission.
- GRANTEE will restore the surface to its original contour as nearly as practicable, the disturbance to which shall be occasioned by the construction, maintenance or operation of said pipeline under and through the above-described land.
- During reclamation GRANTEE shall keep right of way level with surrounding grade, fill in all washouts and or areas that have settled below surrounding grade with top soil supplied by GRANTEE.
- GRANTEE will take all steps reasonably necessary to prevent erosion of the easement corridor.
- Confidentiality provisions in the Pipeline Right of Way Grant, Release of Damages or payment agreement if any are hereby struck and void.
- GRANTOR must approve all fence repairs. Such approval will not to be unreasonable withheld.
- GRANTEE agrees that if a water flowing spring develops during and resulting from the construction of the pipeline, and the spring continues to flow or cause a wetland like area in otherwise agriculturally productive lands the GRANTEE shall pay for the total value of lost production and shall continue to pay per harvest year as long as the lands are not able to produce crop. The price paid shall be an amount equal to the total amount of acres burdened by water damage multiplied by the commodity price of crop planted on adjacent acreage and the corresponding yield.

814287

Page: 12 of 17
10/21/2015 10:35 AM
EAS \$58.00

25. Abandonment by nonuse: If any of GRANTEE's pipeline(s) are abandoned by non-use, or by not maintaining the same as required by any applicable regulatory authority, for a period of thirty-six (36) consecutive months, this Easement Agreement becomes null and void and will be released of record and GRANTEE's rights to the same shall automatically, without out further action on the part of GRANTOR, revert to the GRANTOR.

- Upon abandonment as provided above, GRANTEE will make every effort to render pipeline clean and safe for dormancy.
- GRANTEE at its expense shall remove the pipeline from GRANTOR's property, if a local, state, or federal government agency or other governing regulatory body requires at any time that the pipeline is to be removed.

The provisions of the paragraph shall not apply for any period of time when such non-use or failure to maintain the pipeline is the result of enforcement or any governmental rule or regulation temporarily prohibiting the use of the pipeline.

26. Right to Cure: In the event GRANTOR deems or considers GRANTEE to be in default of any provision or requirement, GRANTOR shall provide written notice to GRANTEE of said default and GRANTEE shall then have **sixty (60)** days from receipt of said notice to commence to cure or contest the claimed default.

- A. The Pipeline trench must be fully backfilled and topsoil must be replaced on the Easement Corridor immediately following construction.
- B. Contractor must stay on the agreed Easement, existing lease roads or public highways during the construction phase under this Easement Agreement, unless otherwise consented to by GRANTOR;
- C. No livestock will be let out by GRANTEE. Gates, if any, shall remain closed at all times while GRANTEE is on the right of way. All permanent gates installed shall be steel gates; no wire gates. During initial construction, fence gaps shall be no wider than fifty (50) feet without additional pole support and shall in all cases have sufficient tension to turn back livestock.
- D. GRANTOR shall notify GRANTEE about the location(s) of a sinkhole (if any) that is located in the easement corridor, or caused by GRANTEE's activities; and GRANTEE shall take immediate steps to fill in the sinkhole.

814287

Page: 13 of 17

10/21/2015 10:35 AM

EAS \$58.00

GRANTEE upon GRANTOR providing notice or contact concerning the above items shall make at a minimum contact with GRANTOR within 24 hours by telephone, email, facsimile transmission or in person acknowledging notice from or contact by GRANTOR.

27. **No warranty of title:** GRANTOR does not warrant or guarantee title to the easement granted. GRANTEE is put on notice that the easement may be subject to superior rights, including but not limited to rights of mineral development that precede this grant of easement.
28. **Attorney's fees:** Should GRANTOR engage legal counsel to enforce any provision of the Easement including this Exhibit, and should the Court rule in favor of the GRANTOR whether in whole or in part, GRANTEE shall be responsible for GRANTOR's reasonable attorney's fees and costs.
29. **GRANTEE's Current Contact Information for Purpose of Notice:** Should GRANTOR be required to provide notice or otherwise need to contact GRANTEE for any matter relating to this easement, GRANTEE may be notified and contacted at:

DAKOTA ACCESS, LLC
ATTN: Land and Right of Way
1300 Main Street
Houston, Texas 77002
Telephone: (713) 989-1000

30. **Notice:** If GRANTEE's contact information should change, GRANTEE shall promptly provide GRANTOR a change of mailing address, telephone number and email address to which GRANTOR may provide notice when required under this Agreement. Until GRANTOR receives such notice in writing from GRANTEE, notice to the above address shall be deemed sufficient for purposes of this Agreement.

- **If GRANTEE assigns or otherwise conveys its interest or rights hereunder to another, GRANTEE shall provide GRANTOR contact information within thirty (30) days of assignment.** Until GRANTOR receives such notice in writing from GRANTEE, notice to the above address shall be deemed sufficient for purposes of this Agreement.

BINDING EFFECT: Provisions of the Exhibit are binding upon the GRANTOR and GRANTEE, their heirs, assigns and estates.

PARCEL ID: 51154020035020

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated April 22, 2015, is between Gerald Halvorson and Cheryl Halvorson, husband and wife, whose mailing address is P.O. Box 1894, Williston, ND 58802, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the NE1/4 of Section 35, Township 154 North, Range 102 West, Williams County, North Dakota as described in that certain Warranty Deed dated December 8, 1992 from Abe Owan to Gerald Halvorson and Cheryl Halvorson, husband and wife, recorded under Clerk's File Number 547458, Official Public Records, Williams County, North Dakota.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline

as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

807108

Page: 3 of 8

6/3/2015 10:34 AM

EAS \$31.00

WILLIAMS COUNTY, ND

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the

807108

Page: 4 of 8
6/3/2015 10:34 AM
EAS \$31.00

WILLIAMS COUNTY, ND

Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated November 18, 2015, is between Robert G. Jackson and Jane E. Jackson, co-trustees of the Jackson Family Trust dated September 06, 2013, whose mailing address is 17036 8th Avenue Northeast, Seattle, WA 98155, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160.00 acres of land, more or less, being situated in the SE/4 of Section 35, Township 154 North, Range 102 West, Williams County, North Dakota, as described in that certain Warranty Deed dated October 03, 2013, from Robert George Jackson and Jane E. Jackson, his wife, to Robert G. Jackson and Jane E. Jackson, co-trustees of the Jackson Family Trust dated September 06, 2013, recorded under Instrument Number 773565, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

815972

EAS \$31.00

WILLIAMS COUNTY, ND

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated November 19, 2015, is between Caroline Olson, Trustee of the Caroline Olson Revocable Trust; Thomas J. Toussaint; William J. Toussaint; Sharon Ann Robinson, whose mailing address is 17112 117th Place Northeast, Kirkland, WA 98034 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, and (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"). The Pipeline Easement and the Temporary Construction Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 279.36 acres of land, more or less, being Lots 1, 2, 3, NE1/4SW1/4, S1/2SW1/4 and the SE1/4NW1/4 of Section 2, Township 153 North, Range 102 West, Williams County, North Dakota, more specifically described in that Warranty Deed dated June 13, 2012 from Caroline Olson, a single person, to Caroline Olson, Trustee of the Caroline Olson North Dakota Revocable Trust, recorded under Document Number 740497, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement and the Temporary Construction Easement.. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of initial construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee will bury the pipelines laid hereunder with a cover of at least forty-eight inches (48") from the top of the pipe to the surface of the ground; except it shall be buried not less than twenty-four inches (24") through solid rock (for example purposes, if a section of the pipeline is in an area that has solid rock beginning twelve inches under the surface of the topsoil, the pipeline would be laid 36 inches deep – that is, under 12 inches of soil and through 24 inches of rock). In all sections where the pipeline is laid less than 48 inches deep, the Grantee will conspicuously sign the area above the pipeline at intervals of not less than every 100 feet.

d. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

e. Grantee agrees that under no circumstances shall it cause or allow saltwater to be transmitted through the pipeline.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access in, to, through, on, over, under, and across the Pipeline Easement (and the Temporary Construction Easement while in effect) for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. If Grantor

816380

Page: 3 of 15
12/3/2015 1:59 PM
EAS \$52.00

WILLIAMS COUNTY, ND

erects any fences across the or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Pipeline Easement is locked, Grantor must supply Grantee with a key or allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement and the Temporary Construction Easement. In addition, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement and Pipeline Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made.

6. Grantor excepts from the Pipeline Easement and reserves to Grantor, rights to farm the Pipeline Easement and to graze livestock thereon; Grantor further reserves the right to build and maintain fences, terraces, power lines, pipelines, and roads across the Pipeline Easement as well as the right to fully use and enjoy the said premises in any manner on the Pipeline Easement. Grantor reserves the right to convey similar rights and privileges to such other persons and at such other times as Grantor may so desire; provided that such additional rights and privileges granted shall be exercised in a reasonable manner so as not to unreasonably interfere with the rights of Grantee herein.

7. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, and reservoirs on the Easements which may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

8. Grantor shall retain all the rights to water, oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

9. Grantor shall retain all rights to farm the surface of the Easements and harvest crops grown upon the Easements so long as such farming does not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the Easements to the condition in which they were in prior to the immediately

preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee's restoration shall include remediation of any contamination of the Property with Hazardous Material by Grantee, as defined herein. The term "Hazardous Material" means any hazardous or toxic substance, material or waste, including, but not limited to, those substances, materials, and wastes listed in the United States Department of Transportation Hazardous Materials Table (49 C.F.R. § 172.101) or by the United States Environmental Protection Agency as hazardous substances (40 C.F.R. pt. 302 and amendments thereto), petroleum products and their derivatives, salt water, and such other substances, materials and wastes as become regulated or subject to cleanup authority under any Environmental Laws. The term "Environmental Laws" means any and all state, federal and local statutes, regulations and ordinances relating to the protection of human health and the environment.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim and liability and loss from personal injury, property damage resulting from or arising out of the use of the easement by Grantee, its servants, agents or invitees, and the installation, use, maintenance, repair or removal of the pipelines by Grantee and such persons acting on its behalf, excepting, however, such claims, liabilities or damages as may be due to or caused solely by the acts of Grantor, or its servants, agents or invitees.

14. Grantee agrees to indemnify and hold Grantor harmless from and against any claim and liability and loss from or related to contamination of the Property with Hazardous Material and against any claim and liability and loss from or related to violations of Environmental Laws but only to the extent that such contamination, claim, liability and loss results, in whole or in part, from the acts or omissions of Grantee.

15. Grantee shall, at its cost and expense, at all times during the term of the Easements, maintain and carry for the joint benefit, and in the names, of Grantor and Grantee, as co-insureds, with cross liability endorsement, property damage, personal liability, and environmental contamination insurance, by the terms of which Grantor shall be indemnified against liability for damage, contamination of Grantor's Property with Hazardous Material, or injury to property or person (including death) occurring on the Easements, or any part thereof, or arising from the use or occupancy thereof, or arising directly or indirectly from any act or omission of Grantee, its employees, agents, representatives, assigns or licensees. Such insurance policy or policies shall name Grantor, and others designated by Grantor as having an insurable interest, as additional insured(s) limited to Grantee's indemnity obligation hereunder and shall be carried and maintained by Grantee on the minimum basis of Two million and 00/100 Dollars (\$2,000,000.00) for bodily injury (including death), environmental contamination, and property damage; Four Million and 00/100 Dollars (\$4,000,000) aggregate. Grantee shall deliver to Grantor the certificate of each insurance carrier as to each such insurance policy prior to Grantee's construction of the pipeline. Each insurance policy shall contain a clause that it cannot be canceled or reduced in scope without thirty (30) days' prior written notice to Grantor; however, under no circumstances shall this notice provision be interpreted to allow Grantee to avoid its obligation to continually maintain insurance according to the foregoing minimums.

16. If at any time after five years from the date hereof, Grantee should abandon the rights granted herein for said pipelines and appurtenances constructed upon said land and if such abandonment should continue for a continuous period of as long as two years, all rights of Grantee herein shall ipso facto terminate and revert to Grantor, his heirs, legal representatives, and assigns. Grantee's failure to transmit hydrocarbons through the pipeline shall constitute abandonment of the rights granted herein for the purposes of this paragraph. Grantee shall have the right for two years following any termination of this easement to remove its pipe, valves and all other property. Following the expiration of such period, Grantor shall have the option to retain any such property remaining on said land as its property, or to compel Grantee to remove any such property at Grantee's expense.

17. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees upon the written consent of Grantor, which consent shall not be unreasonably withheld or delayed. In the event of approved assignment, the Grantor shall be provided a copy of all documents pertaining to such assignment. Grantee and all Grantee's successors in interest shall in all events remain liable for performance of this Agreement with the Assignee, and the Assignee shall also be required to assume all obligations on this Agreement. Notwithstanding the foregoing, Grantee shall have the right to assign this Agreement to any parent, subsidiary or affiliated entity without Grantor consent, but Grantee shall provide written notice thereof to Grantor within ninety days thereafter. The Pipeline Easement and shall be for ninety nine years

WILLIAMS COUNTY, ND

(99) and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

18. In accordance with the provisions of Section 47-05-02.1 of the North Dakota Century Code, the duration of the easement granted herein is limited to ninety nine (99) years.

19. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

20. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

21. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

22. This agreement is further modified by Addendum "A", which is not attached and will not be filed of record.

23. This Agreement along with Addendum "A" contain the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

24. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated November 19, 2015, is between Caroline Olson, Trustee of the Caroline Olson Revocable Trust; Thomas J. Toussaint; William J. Toussaint; Sharon Ann Robinson, whose mailing address is 17112 117th Place Northeast, Kirkland, WA 98034 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, and (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"). The Pipeline Easement and the Temporary Construction Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 279.36 acres of land, more or less, being Lots 1, 2, 3, NE1/4SW1/4, S1/2SW1/4 and the SE1/4NW1/4 of Section 2, Township 153 North, Range 102 West, Williams County, North Dakota, more specifically described in that Warranty Deed dated June 13, 2012 from Caroline Olson, a single person, to Caroline Olson, Trustee of the Caroline Olson North Dakota Revocable Trust, recorded under Document Number 740497, Official Public Records, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement and the Temporary Construction Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of initial construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee will bury the pipelines laid hereunder with a cover of at least forty-eight inches (48") from the top of the pipe to the surface of the ground; except it shall be buried not less than twenty-four inches (24") through solid rock (for example purposes, if a section of the pipeline is in an area that has solid rock beginning twelve inches under the surface of the topsoil, the pipeline would be laid 36 inches deep – that is, under 12 inches of soil and through 24 inches of rock). In all sections where the pipeline is laid less than 48 inches deep, the Grantee will conspicuously sign the area above the pipeline at intervals of not less than every 100 feet.

d. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

e. Grantee agrees that under no circumstances shall it cause or allow saltwater to be transmitted through the pipeline.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access in, to, through, on, over, under, and across the Pipeline Easement (and the Temporary Construction Easement while in effect) for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. If Grantor

erects any fences across the or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Pipeline Easement is locked, Grantor must supply Grantee with a key or allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement and the Temporary Construction Easement. In addition, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement and Pipeline Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made.

6. Grantor excepts from the Pipeline Easement and reserves to Grantor, rights to farm the Pipeline Easement and to graze livestock thereon; Grantor further reserves the right to build and maintain fences, terraces, power lines, pipelines, and roads across the Pipeline Easement as well as the right to fully use and enjoy the said premises in any manner on the Pipeline Easement. Grantor reserves the right to convey similar rights and privileges to such other persons and at such other times as Grantor may so desire; provided that such additional rights and privileges granted shall be exercised in a reasonable manner so as not to unreasonably interfere with the rights of Grantee herein.

7. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, and reservoirs on the Easements which may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

8. Grantor shall retain all the rights to water, oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

9. Grantor shall retain all rights to farm the surface of the Easements and harvest crops grown upon the Easements so long as such farming does not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the Easements to the condition in which they were in prior to the immediately

preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee's restoration shall include remediation of any contamination of the Property with Hazardous Material by Grantee, as defined herein. The term "Hazardous Material" means any hazardous or toxic substance, material or waste, including, but not limited to, those substances, materials, and wastes listed in the United States Department of Transportation Hazardous Materials Table (49 C.F.R. § 172.101) or by the United States Environmental Protection Agency as hazardous substances (40 C.F.R. pt. 302 and amendments thereto), petroleum products and their derivatives, salt water, and such other substances, materials and wastes as become regulated or subject to cleanup authority under any Environmental Laws. The term "Environmental Laws" means any and all state, federal and local statutes, regulations and ordinances relating to the protection of human health and the environment.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim and liability and loss from personal injury, property damage resulting from or arising out of the use of the easement by Grantee, its servants, agents or invitees, and the installation, use, maintenance, repair or removal of the pipelines by Grantee and such persons acting on its behalf, excepting, however, such claims, liabilities or damages as may be due to or caused solely by the acts of Grantor, or its servants, agents or invitees.

14. Grantee agrees to indemnify and hold Grantor harmless from and against any claim and liability and loss from or related to contamination of the Property with Hazardous Material and against any claim and liability and loss from or related to violations of Environmental Laws but only to the extent that such contamination, claim, liability and loss results, in whole or in part, from the acts or omissions of Grantee.

15. Grantee shall, at its cost and expense, at all times during the term of the Easements, maintain and carry for the joint benefit, and in the names, of Grantor and Grantee, as co-insureds, with cross liability endorsement, property damage, personal liability, and environmental contamination insurance, by the terms of which Grantor shall be indemnified against liability for damage, contamination of Grantor's Property with Hazardous Material, or injury to property or person (including death) occurring on the Easements, or any part thereof, or arising from the use or occupancy thereof, or arising directly or indirectly from any act or omission of Grantee, its employees, agents, representatives, assigns or licensees. Such insurance policy or policies shall name Grantor, and others designated by Grantor as having an insurable interest, as additional insured(s) limited to Grantee's indemnity obligation hereunder and shall be carried and maintained by Grantee on the minimum basis of Two million and 00/100 Dollars (\$2,000,000.00) for bodily injury (including death), environmental contamination, and property damage; Four Million and 00/100 Dollars (\$4,000,000) aggregate. Grantee shall deliver to Grantor the certificate of each insurance carrier as to each such insurance policy prior to Grantee's construction of the pipeline. Each insurance policy shall contain a clause that it cannot be canceled or reduced in scope without thirty (30) days' prior written notice to Grantor; however, under no circumstances shall this notice provision be interpreted to allow Grantee to avoid its obligation to continually maintain insurance according to the foregoing minimums.

16. If at any time after five years from the date hereof, Grantee should abandon the rights granted herein for said pipelines and appurtenances constructed upon said land and if such abandonment should continue for a continuous period of as long as two years, all rights of Grantee herein shall ipso facto terminate and revert to Grantor, his heirs, legal representatives, and assigns. Grantee's failure to transmit hydrocarbons through the pipeline shall constitute abandonment of the rights granted herein for the purposes of this paragraph. Grantee shall have the right for two years following any termination of this easement to remove its pipe, valves and all other property. Following the expiration of such period, Grantor shall have the option to retain any such property remaining on said land as its property, or to compel Grantee to remove any such property at Grantee's expense.

17. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees upon the written consent of Grantor, which consent shall not be unreasonably withheld or delayed. In the event of approved assignment, the Grantor shall be provided a copy of all documents pertaining to such assignment. Grantee and all Grantee's successors in interest shall in all events remain liable for performance of this Agreement with the Assignee, and the Assignee shall also be required to assume all obligations on this Agreement. Notwithstanding the foregoing, Grantee shall have the right to assign this Agreement to any parent, subsidiary or affiliated entity without Grantor consent, but Grantee shall provide written notice thereof to Grantor within ninety days thereafter. The Pipeline Easement and shall be for ninety nine years

EAS \$52.00

WILLIAMS COUNTY, ND

(99) and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

18. In accordance with the provisions of Section 47-05-02.1 of the North Dakota Century Code, the duration of the easement granted herein is limited to ninety nine (99) years.

19. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

20. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

21. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

22. This agreement is further modified by Addendum "A", which is not attached and will not be filed of record.

23. This Agreement along with Addendum "A" contain the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

24. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated Jan. 21st, 2016, 2016, is between Gerald McGillivray and Heidi McGillivray, husband and wife, whose mailing address is P.O. Box 338, Trenton ND 58853 and Julla Streich whose mailing address 1115 25th Street NW, Minot, ND 58701 is (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed ~~thirty~~ 30 inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing _____ acres of land, more or less, situated in:

The E $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, and those parts of the N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ lying East of the center line of County Highway, Section 10 and the NW $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 11, All in Township 153 North, Range 102 West of the 5th Principal Meridian, Williams County, North Dakota.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline

WILLIAMS COUNTY, ND

Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

819658

Page: 3 of 15

EAS \$62.00

WILLIAMS COUNTY, ND

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in

819658

Page: 4 of 15

EAS \$62.00

WILLIAMS COUNTY, ND

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated Jan. 21st, 2016, 2016, is between Gerald McGillivray and Heidi McGillivray, husband and wife, whose mailing address is P.O. Box 338, Trenton ND 58853 and Julia Streich whose mailing address 1115 25th Street NW, Minot, ND 58701 is (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing _____ acres of land, more or less, situated in:

The E $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, and those parts of the N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ lying East of the center line of County Highway, Section 10 and the NW $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 11, All in Township 153 North, Range 102 West of the 5th Principal Meridian, Williams County, North Dakota.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline

EAS \$62.00

WILLIAMS COUNTY, ND

Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

819658

Page: 3 of 15

EAS \$62.00

WILLIAMS COUNTY, ND

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.
6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.
7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.
8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.
9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.
10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in

819658

EAS \$62.00

WILLIAMS COUNTY, ND

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

Prepared by and Return to:

Micah Rorie, Dakota Access, LLC, 2403 East Thayer Avenue, Bismarck, ND 58501, (701) 660-3835

PROJECT: DAPL/Dakota Access Pipeline 30"

TRACT NUMBER: ND-WI-204.000

PARCEL ID: 09153020009020

COUNTY: Williams

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated November 23rd, 2015, is between Martin Ranch, LLP and Brenda L. Sundby, whose mailing address is 920 22nd Street East, Williston, ND 58801, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in connection with repair, improving, , operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, , abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

1804-16th Ave. W. RLW

All that certain lot, tract or parcel of land, containing 136.06 acres of land, more or less, situated in the E $\frac{1}{2}$ SE $\frac{1}{4}$ and the E $\frac{1}{2}$ NE $\frac{1}{4}$, less that portion of Sublot 04 located in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ in Section 09, Township 153 North, Range 102 West, Williams County, North Dakota, more particularly described in Warranty Deed, dated September 04, 2010 from Rebecca L. Wahlstrom, a married person dealing in her sole and separate property; Barbara D. Langerud, a married person dealing in her sole and separate property; and Elizabeth A. Glander, a married person dealing in her sole and separate property, to Martin Ranch, LLP, recorded under Document Number 695972, Office of Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area

817539

Page: 2 of 15
1/6/2016 1:34 PM
EAS \$52.00

WILLIAMS COUNTY, ND

immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in connection with repair, improving, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, must be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and ordinary damages to the Grantor's Property, excluding the Easements, resulting from initial construction of the pipeline. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for ordinary damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and

817539

Page: 3 of 15
1/6/2016 1:34 PM
EAS \$52.00

WILLIAMS COUNTY, ND

Access Easement. Grantor agrees that the consideration paid by Grantee in this agreement includes any and all costs incurred by Grantor for installing fencing, whether temporary or permanent, along and outside the boundaries of the Easements so as to prevent Grantor's livestock from entering the Easements during the initial construction of the pipeline. Grantor is not responsible for the removal or disposal of such fencing.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages for removal of such improvements.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

817539

Page: 4 of 15

1/6/2016 1:34 PM

EAS \$52.00

WILLIAMS COUNTY, ND

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be for a period of 99 years, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) represents that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor.

13. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

14. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

15. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, shall be recorded in the real estate records of the county or counties where Grantor's Property lies.

16. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

17. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

18. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

EXHIBIT B
TO
RIGHT OF WAY AGREEMENT

THIS EXHIBIT is attached to and by reference made a part of the Easement Agreement dated November 28th 2015, by and between **Martin Ranch, LLP and Brenda L. Sundby**, Grantor, and **DAKOTA ACCESS, LLC**. As Grantee, and covering the following land in **WILLIAMS COUNTY, NORTH DAKOTA**, to-wit:

All that certain lot, tract or parcel of land, containing 136.06 acres of land, more or less, situated in the E $\frac{1}{2}$ SE $\frac{1}{4}$ and the E $\frac{1}{2}$ NE $\frac{1}{4}$, less that portion of Sublot 04 located in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ in Section 09, Township 153 North, Range 102 West, Williams County, North Dakota, more particularly described in Warranty Deed, dated September 04, 2010 from Rebecca L. Wahlstrom, a married person dealing in her sole and separate property; Barbara D. Langerud, a married person dealing in her sole and separate property; and Elizabeth A. Glander, a married person dealing in her sole and separate property, to Martin Ranch, LLP, recorded under Document Number 695972, Office of Recorder, Williams County, North Dakota, less and except any conveyances heretofore made.

Notwithstanding the provision of this Agreement to the contrary:

1. Wherever the term "Easement" is mentioned herein, it is intended to be one and the same as the Easement Agreement to which the Exhibit is attached.

2. In the addition to the agreed upon consideration, Grantee shall pay for future damages to the land, crops, grass or plants intended for hay, grass and any other damages which may occur as a result of entry upon the property and/or exercise of any rights granted in the Agreement after the initial construction of the pipeline.

3. Grantee shall indemnify and hold Grantor harmless from any claims made by any persons or entities for damages to persons or property or violation of any laws or regulations, including environmental, as a result of Grantee's activities on the land or the exercise by Grantee of any of the rights granted herein. Grantee's indemnification of Grantor shall include reimbursement of court costs and reasonable attorney fees which may arise and for which Grantor is obligated to pay as a result of any claims, demands, causes of action, or liability for damages, loss or injuries that arise out of Grantee's operations on the land. Grantee shall not be liable for or indemnify Grantor against the negligence or the acts or omissions of Grantor that result in any claim, demand, and cause of action or liability for damages.

4. Grantee agrees that any consideration paid for this Easement does not compensate Grantor for any damages Grantor might suffer as a result of the negligence of Grantee resulting from Grantee's operations on the subject land, including entry upon the land and exercising any of the rights granted pursuant to this Easement Agreement after completion of initial construction.

817539

Page: 13 of 15

EAS \$52.00

WILLIAMS COUNTY, ND

5. All topsoil will be scraped and set to one side. Topsoil will be replaced after easement work has been completed. All rocks 4 inches or larger will be buried or disposed of following dirt work. The subject land will be restored by Grantee to as near original condition as reasonably possible after completion of work, as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full. Grantee agrees to replace or repair all fences, terraces, contours and drainage ditches and to pay any damages which may arise from the construction, maintenance and operation of said lines.

6. All pipelines shall be buried no less than forty eight inches (48") from the top of the pipe in cultivated areas, forty eight inches (48") from the top of the pipe in rangeland areas, and no less than twenty four inches (24") from the top of the pipe through solid rock.

7. Grantee shall perform any work reasonably requested by Grantor for the maintenance of the easement to ensure its condition does not adversely impact Grantor's use of the land and to ensure that the terms of this easement are met. This work includes, but is not limited to, filling pipeline trenches that have settled below original grade and contour, and grass seeding that did not grow.

8. Grantee agrees to control the presence of weeds within the Easements caused by Grantee's activities as set forth in that certain Environmental Construction Plan ("ECP"), as approved or amended by the North Dakota Public Service Commission, the same being incorporated herein by reference as if set forth in full. .

9. Seeding of grassland in the easement area will be seeded to a suitable grass mixture as required by Grantee's permits and other agreements.

10. Grantee's access to and from the easement is limited to travelling over the width of the right of way and Access Easement after the initial construction of pipeline.

11. Grantee agrees that it will not put any above-ground facilities on the easement except for cathodic test lead and pipeline markers. The pipeline markers will be at such locations and distances as are necessary to provide a minimum of line of sight between markers as well as to indicate all points of intersection and crossings of property boundaries, waterbodies, railroad tracks and/or roads. All necessary or required cathodic test leads will be placed in fence lines on the lands, at foreign pipeline crossings or road right of way lines.

12. Prior to initial construction of the pipeline, Grantee agrees to perform a test of the ground water for hydrocarbon levels from a source in reasonable proximity to the Pipeline Easement on Grantor's property and that information will be shared with the Grantor. Grantor agrees to designate location of and provide access to the water source from which said test is to be conducted.

13. This easement is intended for one (1) pipeline in one (1) trench. Grantee shall not transport salt water through the pipeline.

817539

Page: 14 of 15

1/6/2016 1:34 PM

EAS \$52.00

WILLIAMS COUNTY, ND

14. If, after three (3) years from the date below, construction of the pipeline has not commenced, this entire Agreement shall be terminated. In the event that use of the pipeline by Grantee, its successors and assigns shall not be maintained for the purpose herein granted for the period of three (3) consecutive years, then, upon receipt of the appropriate government approvals for abandonment, Grantee shall have no further rights in the lands or the Pipeline Easement except, at the option of Grantee, the right to abandon the subsurface pipeline facilities in place or the right and privilege to remove the Pipeline Facilities. In the event Grantee elects to remove the subsurface pipeline facilities, Grantee shall restore the surface of the Pipeline Easement as near as reasonably practicable to its condition prior to such removal. Grantee, its successors or assigns shall, within six (6) months after the abandonment in place or removal of the pipeline facilities, file with the County Recorder's office of the county in which the Lands are located a release of the right, title and interest of Grantee in and to the lands and Pipeline Easement. If significant erosion or washouts occur, Grantee agrees to mitigate the affected area, within thirty (30) days of the occurrence, weather conditions permitting. This requirement is not intended to alleviate Grantee from any more stringent requirements set by law and/or governmental agencies.

15. The actual location of the easement has not yet been determined. Once the location of the easement has been determined, it shall in no event be located on any lands belonging to Grantor other than those which are described herein. The plat or map attached to the Easement Agreement shall be recorded with the Easement Agreement. The map or plat may not alter the terms of the easement other than to provide the exact legal description of the easement. Grantee shall provide to Grantor an as-built survey upon completion of the construction of the pipeline. This will be provided to Grantor within six (6) months of completion of construction.

16. Grantor reserves all rights to quiet enjoyment of the land and to use said land for any purpose that does not unreasonably interfere with the easement granted herein. Grantor's reserved rights include, but are not limited to, usage of the surface for farming, recreation and development along with the rights to sell said land or parts thereof and the rights to grant other easements over and under said land. All construction activities affecting the Pipeline Easement by Grantor or any third party shall be subject to the engineering and construction specification of Grantee. In addition any third party to whom an easement is granted will be required to sign Grantee's form of encroachment prior to entering on the Pipeline Easement.

17. During construction of the pipeline or any subsequent work on the pipeline, Grantee shall ensure that Grantor is not prevented from access across the easement area to ensure that Grantor, its licensees and/or invitees, has/have access to and through Grantor's land for agricultural, recreational, or any other reason. Grantee agrees to work with Grantor to ensure that earthen plugs are left along the route of the Pipeline Easement during construction or during subsequent work where Grantor will be able to cross the Pipeline Easement area without unreasonable difficulty. Such access will contemplate the need for farm implements, livestock, people and vehicles crossing the Pipeline Easement area. Grantor agrees that the consideration paid by Grantee in this agreement includes any and all costs incurred by Grantor for installing fencing, whether temporary or permanent, along and outside the boundaries of the Easements so as to prevent Grantor's livestock from entering the Easements during the initial construction of the pipeline. Grantor is not responsible for the removal or disposal of such fencing.

18. Upon completion of construction, Grantee shall keep the easement area free of garbage and debris and shall promptly remove any unnecessary and/or unused construction materials and equipment.

19. Grantee is aware that there are recorded easements located on the property wherein Grantor previously entered into an easement agreement (or agreements) covering a portion or all of the land covered herein. The exact location(s) of the easement(s) is not expressed by Grantor, nor is Grantee relying on any statements or claims by Grantor in this regard. It is incumbent upon Grantee to determine the location of the existing recorded easement(s) Grantee hereby relieves and forever holds Grantor, and Grantor's successors and assigns, free from any and all claims, lawsuits or disputes of any kind that may arise out of competing interests or conflicts as a result of various recorded easements being located on the subject property. Grantee shall not in any way be liable for any damages or claims for interference with unrecorded easements or agreements affecting the Pipeline Easement. Grantor shall communicate to Grantee any unrecorded pipelines or easements he or she has knowledge of. The exact locations of unrecorded pipelines or other easements is not expressed by Grantor, nor is Grantee relying on Grantor in this regard.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated *December 16, 2015*, 2015, is between **First National Bank & Trust Co., as Trustee of the Steven Papineau Trust UDT September 25, 2007**, whose mailing address is **P.O. Box 1827, Williston, ND 58802-1827**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in conjunction with repair, improving, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed **thirty inches (30")** in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 864.72 acres of land, more or less situated in Lots 01, 02, NE¼, E½NW¼ of Section 07, the S½ of Section 08, the N½NW¼, NE¼ of Section 17, Township 151 North, Range 102 West, McKenzie County, North Dakota, as more particularly described in that certain Warranty Deed dated September 25, 2007 from Steven Papineau, a single person, to First National Bank and Trust Company, as Trustee of the Steven Papineau Trust UDT September 25, 2007, recorded under Instrument Number 375407, Office of the County Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

7/1
10/1

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing only in conjunction with repair, improving, operating, maintaining, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and ordinary damages to the Grantor's Property including any tree damages,, excluding the Easements, resulting from the initial construction of the pipeline. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for ordinary damages caused to crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for customary damages for removal of such improvements.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Grantor agrees that the consideration paid by Grantee in this agreement includes the costs incurred by Grantor for the repair and replacement of, permanent fencing destroyed or disturbed by project construction activities. Such fencing is to be installed upon the completion of construction of the pipeline, at its Grantor's sole expense, along the same alignment and approximate location of the Grantor's existing fences. Notwithstanding the foregoing, Grantee shall install temporary fencing to keep Grantor's cattle from escaping during the initial construction of the pipeline.

Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) represents that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor.

13. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

14. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

15. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/het/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, shall be recorded in the real estate records of the county or counties where Grantor's Property lies.

16. This Agreement, with the referenced Exhibits, contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

17. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

18. This Agreement is subject to the terms and conditions of Exhibit B, attached hereto.

EXECUTED this 16th day of December, 2015.

EXHIBIT B
TO
EASEMENT AGREEMENT

THIS EXHIBIT is attached to and by reference made a part of the Easement Agreement dated December 6, 2015, by and between **First National Bank & Trust Co., as Trustee for the Steven Papineau Trust UDT September 25, 2007**, whose mailing address is **P.O. Box 1827, Williston, ND 58802-1827**, Grantor, and **Dakota Access, LLC**, Grantee, and covering the following land in McKenzie County, NORTH DAKOTA, to-wit:

Lots 01, 02, NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 07, the S $\frac{1}{2}$ of Section 08, the N $\frac{1}{2}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ of Section 17, Township 151 North, Range 102 West, McKenzie County, North Dakota, as more particularly described in that certain Warranty Deed dated September 25, 2007 from Steven Papineau, a single person, to First National Bank and Trust Company, as Trustee of the Steven Papineau Trust UDT September 25, 2007, recorded under Instrument Number 375407, Office of the County Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Notwithstanding the provisions of this Agreement to the contrary:

1. Wherever the term "Right of Way Agreement", "Agreement" or "Easement" is mentioned herein, it is intended to be one and the same as the Easement Agreement to which this Exhibit is attached.

2. In addition to the agreed upon consideration, Grantee shall pay for future damages to land, crops, grass or plants intended for hay, grass and any other damages which may occur after the initial installation of the Pipeline as a result of entry upon the property and/or exercise of any rights granted in the Right of Way Agreement.

3. Grantee shall indemnify and hold Grantor harmless from any claims made by any persons or entities for damages to persons or property or violation of any laws or regulations, including environmental, as a result of Grantee's activities on the land or the exercise by Grantee of any of the rights granted herein. Grantee's indemnification of Grantor shall include reimbursement of court costs and reasonable attorney fees which may arise and for which Grantor is obligated to pay as a result of any claims, demands, causes of action, or liability for damages, loss or injuries that arise out of Grantee's indemnity obligations relating from Grantee's operations on the land.

4. Grantee agrees that any consideration paid for this Right of Way Agreement does not compensate Grantor for any damages Grantor might suffer as a result of the negligence of Grantee resulting from Grantee's operations on the subject land, including entry upon the land and exercising any of the rights granted pursuant to this Right of Way Agreement.

5. Grantor agrees that the consideration paid for this Right of Way Agreement includes any costs incurred by Grantor for the reconstruction of any fences crossed by the initial construction of the pipeline within the Easements as well as the installation of gates no less than fourteen feet (14') wide in any fence crossed by the initial construction of the pipeline within the Easements. Grantor agrees to construct such fences and gates immediately following the completion of the construction of the pipeline.

6. All topsoil will be scraped and set to one side. Topsoil will be replaced after easement work has been completed. If the topsoil is not scraped to one side, topsoil will be hauled onto the

easement to restore it to the original depth of topsoil. Sub soil will be scraped and set to opposite side. Soil layers will be replaced and compacted separately in order to limit excessive settling of soil; top soil shall remain on top. All rocks 4 inches or larger will be buried or disposed of following dirt work. Cropland will be cultivated if such is to be cultivated land following work and rocks re-packed by Grantee. The subject land will be restored by Grantee to as near original productivity and condition as reasonably possible after completion of work. Grantee agrees to replace or repair all fences, terraces, contours and drainage ditches, and to pay any damages which may arise from the construction, maintenance and operation of said lines. All pipelines will be buried no less than 48 inches below the surface, from the top of the pipe.

7. Grantee shall perform any work reasonably requested by Grantor for the maintenance of the easement to ensure its condition does not adversely impact Grantor's use of the land and to ensure that the terms of this easement are met. This work includes, but is not limited to, filling pipeline trenches that have settled below original grade and contour or grass seeding that did not grow.

8. Grass land seeding at the easement area, if not cultivated as cropland, will be monitored yearly by landowner until grass has been established to the same as its original state. At Grantee's expense, re-seeding will be completed yearly by Grantee for a period of two (2) growing seasons following completion of pipeline construction. Crop damage payment will be paid for up to two (2) growing seasons by Grantee until a satisfactory stand has been accomplished.

9. Weeds on the easement will be controlled by Grantee through two (2) growing seasons following construction. Weeds will be monitored in grass land seeding until a grass stand has been established and crop land easement will be attended to by Grantee until a crop has been planted the following year. At no time will weeds overrun the easement and go to seed.

10. Seeding of grassland in the easement area will be seeded to a suitable grass mixture reasonably agreeable to the Grantor at a suitable planting rate.

11. Grantee's access to and from the easement is limited to traveling over the width of the right of way, except as otherwise provided in the Easement.

12. The length of this easement shall be for 99 years from the date of this Agreement unless terminated before such time. If the pipeline is still being utilized at the end of the Initial ROW Period, the Grantor and Grantee or their heirs or assigns shall negotiate in good faith for a new Easement.

13. Grantee agrees that it will not put any above-ground facilities on the Easement except for any above ground installments as required by law which will be placed in locations so as to cause the least inconvenience to Grantor where possible. Grantee shall give Grantor prior written notice of any installation.

14. Should Grantee strike ground water during initial construction, or subsequent maintenance of the pipeline, Grantee shall have a certified test of the ground water for hydrocarbons performed prior to installation of any pipelines and that information will be shared with Grantor.

15. Any confidentiality agreed to by Grantor does not limit Grantor from discussing those provisions with attorneys, accountants, bankers, financial advisors or other professionals hired by Grantor to advise him on issues that may arise from the Grantee's use of the land or payment of the money.

16. This easement is intended for one (1) pipeline in one (1) trench. Grantee shall not allow salt water to pass through the pipeline.

17. If, after two (2) years from the date of receipt of all necessary permits Grantee has not commenced the installation of the pipeline, or no pipeline has been installed within five (5) years after the date of this Agreement, this entire Agreement shall be terminated. This Easement shall terminate if for a period of twenty-four (24) consecutive months after the installation of the Pipeline, the pipeline is not used to transport any product allowed by this Easement. In the event the Easement is terminated, Grantee shall file a release of record and the pipeline shall be cleaned and rendered safe for future dormancy within twelve (12) months of the termination. Grantor may elect to keep the pipeline at which time Grantee would have no further interest or liability therein. Once the pipelines have been permanently abandoned by Grantee, Grantee may, in its discretion, permanently remove the pipeline at Grantee's sole cost and responsibility. Upon removal, the surface of the land shall be restored to conform to contour and grade with the land as it existed before the land was dug for initial placement of the pipeline.

18. Grantee shall take all practicable steps to control and eliminate erosion and washouts caused by its operations upon the land. If significant erosion or washouts occur, Grantee agrees to mitigate the affected area within thirty (30) days of the occurrence, weather conditions permitting, to the reasonable satisfaction of Grantor. This requirement is not intended to alleviate Grantee from any more stringent requirements set by law and/or governmental agencies.

19. The easement shall in no event be located on any lands belonging to Grantor other than those which are described herein. The Easement shall not be recorded prior to the determination of the actual route of the Easement. The plat or map shall be recorded with the easement. The map or plat may not alter the terms of the easement other than to provide the exact legal description of the easement. The route may not be altered or changed without the express written consent of Grantor. If the actual location of the easement is changed by Grantee prior to the installation of the Pipeline, the changed location of the easement shall be placed on the property so as to cause the least interference with the land taking into consideration the possibility of future development after consultation with the Grantor. While Grantor shall not unreasonably withhold consent to the changed location of the pipeline, Grantee shall locate the easement in accordance with Grantor's desires to the extent reasonably possible.

20. Grantee shall provide to Grantor an as-built survey upon completion of the construction of the pipeline. This will be provided to Grantor within one hundred sixty (160) days of completion of construction.

21. Grantor reserves all rights to quiet enjoyment of the land and to use said land for any purpose that does not unreasonably interfere with the easement granted herein. Grantor's reserved rights include, but are not limited to, usage of the surface for farming, recreation and development along with the rights to sell said land or parts thereof and the rights to grant other easements over and under said land that do not interfere with Grantee's pipeline or easement.

22. During construction of the pipeline or any subsequent work on the pipeline, Grantee shall ensure that Grantor is not prevented from access across the easement area to ensure that Grantor, its licensees and/or invitees, has/have access to and through Grantor's land for agricultural, recreational, or any other reason. Grantee agrees to work with Grantor to ensure that points are left along the route of the easement during construction or during subsequent work where Grantor will be able to cross the easement area without unreasonable difficulty. Such access will contemplate the need for farm implements, livestock, people and vehicles crossing the easement area. In no event will any portion of the trench be left open for more than seven (7) consecutive days, weather conditions permitting for quality trench fill, without the written consent of the Grantor.

23. Upon completion of construction, Grantee shall keep the easement area free of garbage, and debris and shall promptly remove any unnecessary and/or unused construction materials and equipment, including all pin flags.

24. Grantee shall reimburse Grantor for Grantor's reasonable attorneys' fees relating to the successful enforcement of any provision contained herein.

25. Grantee is aware that there are or are potentially easements located on the property wherein Grantor previously entered into an easement agreement (or agreements) covering a portion or all of the land covered herein. The exact location(s) of the easement(s) is not expressed by Grantor nor is Grantee relying on any statements or claims by Grantor in this regard. It is incumbent upon Grantee to determine the location of the existing easement(s) to ensure it does not infringe upon or in any way interfere with the existing easement(s). The variables and potential competing interests of Grantee and the Grantee(s) (or any successor assigns) of any prior easements cannot be reasonably anticipated by Grantor. As such, Grantee hereby agrees that it will communicate with the Grantee(s) (or any successors or assigns) of any prior easements (or its successors or assigns) to ensure that the locations and uses of each of their respective easements will not conflict. Grantee hereby relieves and forever holds Grantor, and Grantor's successors and assigns, free from any and all claims, lawsuits or disputes of any kind that may arise out of competing interests or conflicts as a result of various preexisting recorded easements being located on the subject property. Grantor shall not be included by Grantee in any dispute arising out of the easement in any way, regardless of whether Grantor was consulted by either Grantee or the Grantee(s) (or any successors or assigns) of any prior easements, as to location of their respective easements.

26. Grantee's subsidiary, or other affiliated companies, their agents, employees, contractors, subcontractors and others as may be authorized by Grantee, shall be governed by the terms and conditions of this Agreement when said subsidiary, or other affiliated company, agent, employee, contractor, subcontractor, or other as authorized by Grantee, is/are upon the above-described land for the purpose of exercising any right granted herein.

January THIS AGREEMENT, made and entered into as of this 25th day of January, 2016, by and between DAKOTA ACCESS, LLC. (hereinafter referred to as "Grantee") and ROMO BROTHERS, a co-partnership, hereinafter referred to as "Grantor" whether one or more.

WITNESSETH:

WHEREAS, by instrument dated April 28, 2015, recorded under Document # 483148 of the Official Records of the County Recorder of McKenzie County, North Dakota, Grantor granted to Grantee, an easement (the "Easement") on, over and across certain lands in McKenzie County, North Dakota for the right to lay, maintain, operate, replace, repair and remove one pipeline only within a fifty foot easement for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof; and

WHEREAS, Grantor and Grantee desire to amend language in the Easement pertaining to the construction commencement date and location of the pipeline.

NOW, THEREFORE, for and in consideration of \$10.00 and other good and valuable consideration, Grantor hereby agrees that paragraphs 1.a and 1.c. of the Easement shall be amended by deleting the same in their entirety and replacing same with the following, to-wit:

"a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; however, Grantee will locate the Pipeline Easement to the extent reasonably practical along the existing pipeline easement that is proximately adjacent to the route of the centerline of the pipeline as shown on the attached Exhibit A, but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width."

"c. Grantee agrees to commence construction of its pipeline no later than five (5) years from April 28, 2015; failure to so commence construction of the pipeline will result in easement termination unless the parties renegotiate the terms prior to the date of termination."

Except as amended herein, the Agreements shall remain in full force and effect as written.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated February, 8th, 2016, is between Nancy Obritsch and Carol Flaa, as trustees of the Joseph L. Lech and Elizabeth A. Lech April 17, 2012 Irrevocable Trust, Life Estate terminating upon the death of Joseph L. Lech and Elizabeth A. Lech, Carol Flaa, Nancy Obritsch, Kevin Lech, Tamara Lofrano and Daniel Lech, Remaindermen, whose mailing address is 108 Crestview Drive, Watford City, ND 58854 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, being situated in the SW¼, Section 15, Township 151 North, Range 102 West, McKenzie County, North Dakota, more particularly described in that Warranty Deed, dated December 02, 2003, from Betty A. Lech and Joseph L. Lech, wife and husband, to Carol Flaa, Nancy Obritsch, Kevin Lech, Tammy Lofrano, Daniel Lech, as tenants in common, recorded as Document Number 346824, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyance heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated April 30, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in McKenzie County, North Dakota, such Prior Easement being filed of record as file number 483156, of the Deed Records of McKenzie County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the

recording of this Easement Agreement by Dakota Access, L.L.C, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses,

provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 8th day of February, 2016.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated January 15th, 2016, is between Leonard Mrachek; Elaine Masso; Donald Mrachek; Nancy Obritsch and Carol Flaa, as trustees of the Joseph L. Lech and Elizabeth A. Lech April 17, 2012 Irrevocable Trust, Life Estate terminating upon the death of Joseph L. Lech and Elizabeth A. Lech, Carol Flaa, Nancy Obritsch, Kevin Lech, Tammy Lofrano and Daniel Lech, Remaindermen, whose mailing address is 108 Crestview Drive, Watford City, ND 58854 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, being situated in the SW $\frac{1}{4}$, Section 15, Township 151 North, Range 102 West, McKenzie County, North Dakota, more particularly described in that Warranty Deed, dated December 02, 2003, from Betty A. Lech and Joseph L. Lech, wife and husband, to Carol Flaa, Nancy Obritsch, Kevin Lech, Tammy Lofrano, Daniel Lech, as tenants in common, recorded as Document Number 346824, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyance heretofore made.

Reference is here made to that certain Right of Way and Easement Agreement dated April 30, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in McKenzie County, North Dakota, such Prior Easement being filed of record as file number 483156, of the Deed Records of McKenzie County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the

recording of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses,

provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated January 06, 2015 is between RDDR Farm, LLP, whose mailing address is 1508 Rose Lane, Williston, ND 58801 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 111.09 acres of land, more or less, being Parcel 1: The Southwest Quarter of the Northwest Quarter (SW1/4NW1/4), Parcel 2: The North Half of the Northwest Quarter (N1/2NW1/4), less IT #1985 in the West Half of the Northwest Quarter (W1/2NW1/4), All in Section Twenty-two (22), Township One Hundred Fifty-one (151) North, Range One Hundred-two (102) West of the 5th P.M., more particularly described Quit Claim Deed dated December 10th, 2011 from Dorothy Monger, a married person, Delores Rod, a married person, Rose Hollan, a single person, and Raymond Mrachek, a married man unto RDDR Farm, LLP, recorded as Document #429854, office of County Recorder, of McKenzie County, North Dakota, less and except any conveyances heretofore for made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 7, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in McKenzie County, North Dakota, such Prior Easement being filed of record as file number 480082, of the Deed Records of McKenzie County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the

recording of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses,

provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated January 06 2016, is between RDDR Farm, LLP, whose mailing address is 1508 Rose Lane, Williston, ND 58801 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 120 acres of land, more or less, being Parcel 1: The Southeast Quarter of the Northwest Quarter (SE1/4NW1/4), Parcel 2: The West Half of the Northeast Quarter (W1/2NE1/4) All in Section Twenty-two (22), Township One Hundred Fifty-one (151) North, Range One Hundred-two (102) West of the 5th P.M., more particularly described in Quit Claim Deed dated December 10th, 2011 from Dorothy Monger, a married person, Delores Rod, a married person, Rose Hollan, a single person, and Raymond Mracliek, a married man unto RDDR Farm, LLP, recorded as Document #429854, office of County Recorder, of McKenzie County, North Dakota, less and except any conveyances heretofore for made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 7, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in McKenzie County, North Dakota, such Prior Easement being filed of record as file number 480083, of the Deed Records of McKenzie County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

RM

29

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the

Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated January 28, 2016, is between Edward Mrachek and Rebecca Mrachek, husband and wife, as joint tenants, whose mailing address is P.O. Box 143, Alexander, ND 58831 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the East Half of the Northeast Quarter (E1/2NE1/4) of Section Twenty-two (22) and the West Half of the Northwest Quarter (W1/2NW1/4), all in Township One Hundred Fifty-one (151) North, Range One Hundred-two (102) West of the 5th P.M., more particularly described in Quit Claim Deed dated February 21st, 2006 from Edward Mrachek and Rebecca Mrachek, husband and wife unto Edward Mrachek and Rebecca Mrachek, husband and wife, as joint tenants, recorded as Document #361498, office of County Recorder, of McKenzie County, North Dakota, less and except any conveyances heretofore for made.

Reference is here made to that certain Right of Way and Easement Agreement dated February 7, 2015 (the "Prior Easement") by and between Grantor and Grantee relating to a pipeline easement over and across Grantor's property located in McKenzie County, North Dakota, such Prior Easement being filed of record as file number 480763, of the Deed Records of McKenzie County, North Dakota. Grantor and Grantee hereby agree that simultaneously with the recordation of this Easement Agreement by Dakota Access, LLC, this Easement Agreement shall replace the Prior Easement and the Prior Easement shall be automatically terminated and of no further force and effect.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the

Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

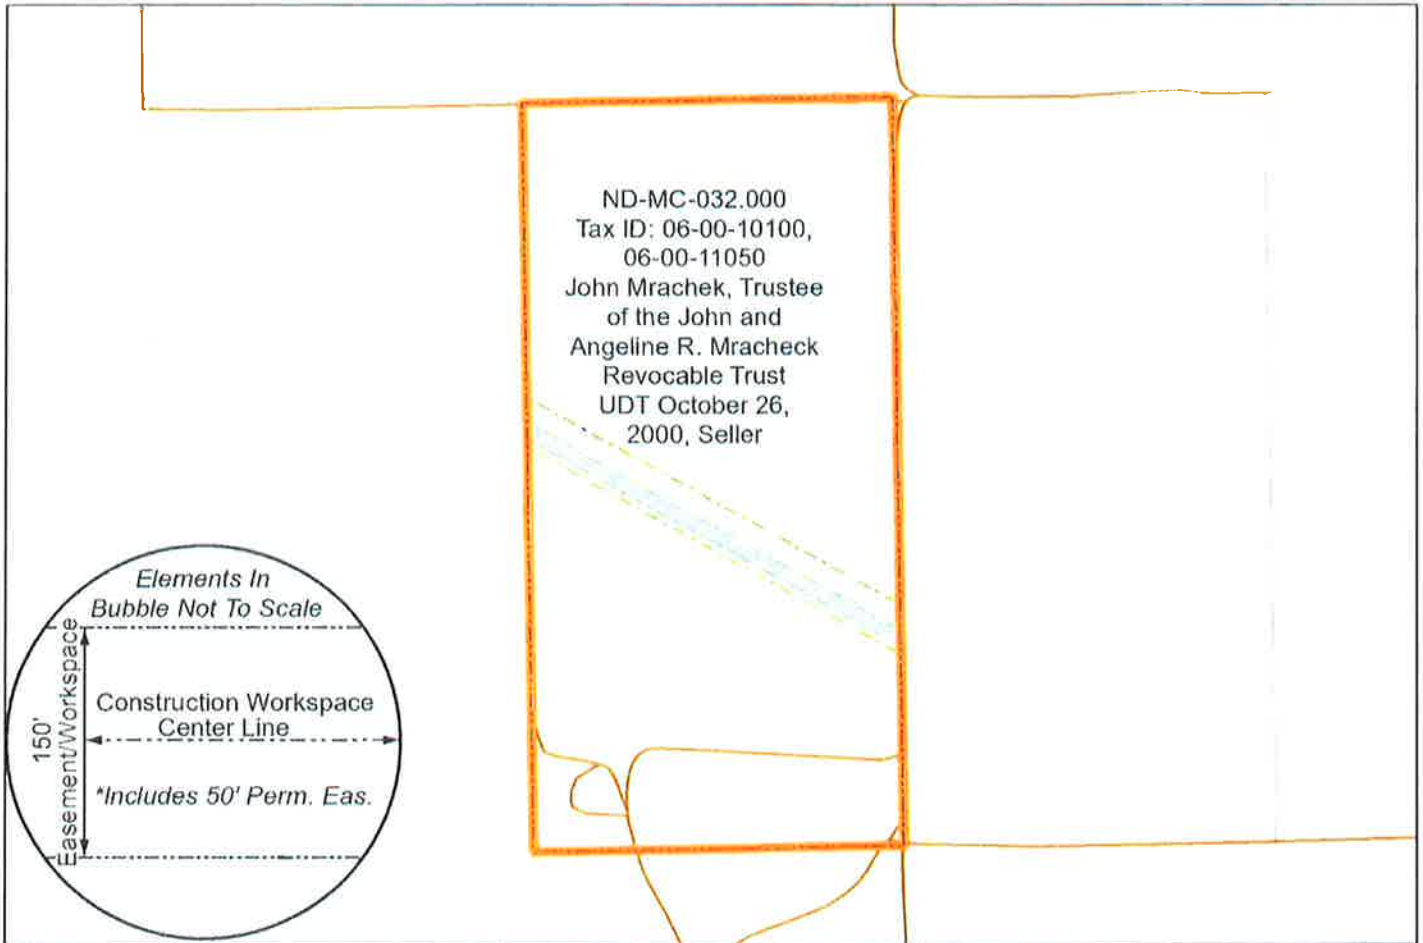

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

THIS AGREEMENT, made and entered into as of this 3rd day of Feb, 2016, by and between DAKOTA ACCESS, LLC, (hereinafter referred to as "Grantee"), and Timothy P. Taylor and Kent S. Taylor, hereinafter referred to as "Grantor" whether one or more.

WITNESSETH:

WHEREAS, by instrument dated September 11, 2015 recorded under document number 486367 of the County Recorder Records of McKenzie County, North Dakota, Grantor granted to Grantee, an easement (the "Easement") on, over and across certain lands in McKenzie County, North Dakota for the right to lay, maintain, operate, replace, repair and remove one pipeline only within a fifty foot easement for the transportation of gas and/or liquid hydrocarbons, and substances produced therefrom; and

WHEREAS, Grantor and Grantee have agreed to a change in the location of the pipeline and desire to amend language in the Easement pertaining to such change.

NOW, THEREFORE, for and in consideration of \$10.00 and other good and valuable consideration, Grantor and Grantee hereby agree to amend the Easement by deleting therefrom the Exhibit A attached thereto and substituting therefor the Exhibit A attached hereto which shows the relocated location of the pipeline easement. The parties further agree that within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, or to amend this Agreement to include such new Exhibit A-1, and to record or re-record such affidavit, or amendment with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, or recorded amendment.

Except as amended herein, the Agreements shall remain in full force and effect as written.

IN WITNESS WHEREOF, this instrument is duly executed this 3rd day of February, 2016.

This easement agreement ("Agreement"), dated September 14, 2015, is between Konrad P. Norstog and Sharon M. Norstog, husband and wife, whose mailing address is Box 643, Watford City, ND 58854, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the North Half of the Southwest Quarter (N1/2SW1/4) and the East Half of the Northwest Quarter (E1/2NW1/4) all in Section Two (02) in Township One Hundred Forty-nine (149) North of Range Ninety-nine (99) West of the Fifth Principal Meridian, McKenzie County, North Dakota, more particularly described in that Warranty Deed dated April 06, 1956 from William N. Shelley and Myrtle R. Shelley, his wife, to Olaf Norstog and Marie Norstog, as joint tenants and not as tenants in common, recorded as Document Number 150463, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

All that certain lot, tract or parcel of land, containing 40 acres of land, more or less, situated in the SW1/4NE1/4, Section 02, Township 149 North, Range 99 West, McKenzie County, North Dakota, more particularly described in that Quit Claim Deed, dated May 6, 1994 from Bjarne Norstog and Margaret L. Norstog, husband and wife, to Konrad P. Norstog and Sharon M. Norstog, husband and wife, recorded as Document Number 319889, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

All that certain lot, tract or parcel of land, containing 160.25 acres of land, more or less, situated in Lot 01; SE ¼ NE ¼; E ½ SE ¼, all in Section 02, Township 149 North, Range 99 West, McKenzie County, North Dakota, as described in that Quit Claim Deed, dated June 24, 1975 from Bjarne Norstog and Margaret L. Norstog, husband and wife, to Konrad P. Norstog, a single man, recorded as Document Number 199136, in the Office of the Recorder, of McKenzie County, North Dakota, less and except any conveyances heretofore for made.

All that certain lot, tract or parcel of land, containing 239.08 acres of land, more or less, situated in Lots 03 and 04; E½SW¼; S½NW¼, all in Section 01, Township 149 North, Range 99 West, McKenzie County, North Dakota, as described in that Quit Claim Deed dated June 24, 1975 from Bjarne Norstog and Margaret L. Norstog, husband and wife, to Konrad P. Norstog, a single man, recorded as Document Number 199136, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore for made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Any payment tendered by Grantee to Grantor as consideration for this agreement does not cover any actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

6. Grantee agrees to suspend construction activities on tract ND-MC-098.502 depicted on Exhibit A during that certain three day period in June of 2016. Grantee shall backfill any open ditch in said area and erect temporary fencing along the north boundary of the easement area during said three day period. Grantor agrees to notify Grantee in writing no later than April 1, 2016 of the exact dates of the three day period in which construction activity is to be suspended.

7. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

8. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

9. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

10. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

11. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

12. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

13. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

14. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

15. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

16. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

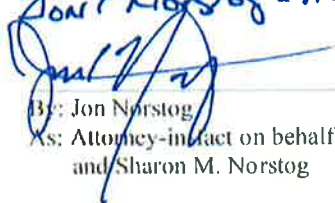

17. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

18. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

19. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

20. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 14th day of September, 2015.

Option Agreement to Purchase Land in Fee

The undersigned (hereinafter referred to in the singular as "Vendor", whether one or more), the owner of the real estate herein described, for valuable consideration received, the receipt and sufficiency of which is hereby acknowledged, has granted and sold and by these presents do grant and sell to **Dakota Access, LLC**, a Delaware company, whose address is 1300 Main Street, Houston Texas, 77002, its successors, affiliates, and assigns, (individually and collectively referred to as the "Purchaser"), the exclusive right to purchase, without becoming obligated to purchase, the following described real estate excepting out all of Vendors interest in and to all of the oil, gas, casinghead gas, casinghead gasoline and other minerals (collectively the "Minerals") in and under and that may be produced from the following described property (which Minerals are only to be produced from locations outside of the boundaries of the property) situated in the County of McKenzie, State of North Dakota, to wit:

McKenzie County T 149N R 99W Sec 1 S ½ NE 1/4 Lots 1-2

Containing 120 acres more or less (hereinafter referred to as "said Land").

The parties hereto agree that the foregoing description is subject to correction upon completion of a survey by a registered surveyor.-

1. The purchase price of said land is the sum of six million, (\$ 6,000,000.00) Dollars, subject to adjustment based on an agreed upon sales price of \$50,000 per acre. Taxes, insurance and rents on said land for the current year shall be prorated as of the date of completion of the purchase. Vendor and Purchaser agree to a total amount for the option of \$600,000.00 (the "Option Price"). Vendor acknowledges receipt of \$100.00 as the initial installment of the Option Price, and Purchaser agrees to pay the remaining \$599,900.00 of the Option Price on January 2, 2015. The January 2, 2015 payment is not consideration for any additional benefit beyond that granted by the initial payment, but is rather an installment payment of the amount due. The Option Price shall be applied to the purchase price at closing.
2. Vendor agrees to convey to Purchaser a good fee simple unencumbered merchantable title to said land; and upon execution of this agreement, to make available such abstract of title as Vendor has, if any, for the use of Purchaser during the period of this option.
3. This option shall expire at midnight the 24 day of May, 2015.
4. Vendor represents and warrants that no hazardous substances or toxic wastes as those terms are defined by the Comprehensive Environmental Response and Liability Act 42 U.S.C., subsection 9601 et seq. and the Toxic Substances Control Act or successor legislation are present upon or have been used on said land.
5. During the term of this option, Purchaser shall have and is hereby given and granted the free and full right of ingress and egress on, over, through, across and to and from said land other adjoining land of Vendor for the purposes of making explorations, core tests, environmental evaluations and surveys or any other act or acts which Purchaser deems incident or necessary thereto on said land. Purchaser agrees to reclaim and pay compensation for any damages to surface caused by its acts during period of option. If Purchaser exercises this option the obligation to pay surface damages would be waived.
6. Purchaser may exercise this option by posting a notice, in writing, addressed to Vendor at 2372 Highway 85N Watford City, ND 58854 and deposited in the United States mail, postage prepaid,

ACKNOWLEDGEMENT

THE STATE OF TEXAS §
COUNTY OF Harris §

BEFORE ME, the undersigned, a Notary Public in and for said county and state, on this day personally appeared **Robert Rose** in his capacity as Vice President of Land and Right-of-Way of Dakota Access, LLC, a Delaware Company known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same in his stated capacity for the purposes and consideration therein expressed.

Given under my hand and seal of office this 10th day of December, 2014.

Donna Walters
Notary Public, State of Texas

prior to the date fixed in Paragraph 3 hereof or by delivering such written notice in any other manner to Vendor prior to said date. This correspondence is to be sent certified mail with a return receipt dated prior to the expiration of option.

7. Should Purchaser exercise this option Vendor agrees to furnish Purchaser, within fifteen (15) days after receiving such notice, either, as may be requested by Purchaser, a full and complete Abstract of Title to said land or a Title Policy for the purchase price of the said land, and after receipt of such Abstract of Title or Title Policy the Purchaser shall be allowed a period of Thirty (30) days within which to have the said Abstract of Title or Title Policy examined. In the event Purchaser finds that Vendor has a good and merchantable title of said land the purchase of said land by Purchaser shall be forthwith concluded by Vendor delivering to Purchaser a good and valid general warranty deed covering said land with all clauses usual in deeds in the state of North Dakota conveying real estate, relinquishing and waiving all rights under and by virtue of any applicable dower or homestead exemption laws, and by the Purchaser paying over in cash to the Vendor the purchase price hereinbefore designated, and the consideration paid for this option shall be applied as a credit to reduce the purchase price by the amount paid for this option.
8. Vendor agrees that upon the Purchaser giving to Vendor a written statement of any objection to the title to said land including any ordinances, conditions or restrictions adversely affecting the proposed use of said land by Purchaser, to use Vendor's best efforts to cure said objections. In the event Purchaser should find that Vendor does not have a good and merchantable title to said land or if Purchaser's objections to Vendor's title are not cured by Vendor within fifteen (15) days after receipt of written notice thereof, there shall be no obligation on the part of Purchaser to purchase said land, but Purchaser, in such event shall promptly advise Vendor, in writing, to the effect that Purchaser will not complete such purchase, and thereupon Vendor will repay to Purchaser the consideration for this option.
9. Confidentiality. The existence of this Option Agreement to Purchase Land in Fee and its contents are intended to be confidential and are not to be discussed with or disclosed to any third party, except (i) with the express prior written consent of the other party hereto, (ii) as may be required or appropriate in response to any summons, subpoena or discovery order or to comply with any applicable law, order, regulation or ruling or (iii) as Purchaser and Vendor, or their designees, reasonably deem appropriate in order to conduct due diligence, title or other investigation relating to the contemplated transactions.
10. Zoning. During term of this Option Agreement, Vendor agrees to cooperate and do whatever is necessary to assist Purchaser in having current zoning changed to allow the utilization of the Land for Industrial purposes that support Purchaser's crude oil project. Should the zoning change effort fail to effectuate such zoning change by the option termination date and Purchaser is deemed unable to utilize the property for its intended purposes of containing storage tanks, pumps and other facilities used for crude oil storage and transport, Vendor agrees to refund \$300,000.00 of the payment received from Purchaser and this Option Agreement will be considered cancelled.
11. If any part, term or provision of this Option Agreement is, by a court of competent jurisdiction or regulatory authority having jurisdiction over said land held to be illegal, void, or unenforceable, or to be in conflict with the law of the State of North Dakota, validity of the remaining provisions or portion hereof shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if this option Agreement did not contain the particular part, term, provision held to be invalid.

The terms, covenants and provisions of this Option Agreement shall inure to and be binding upon the heirs, executors, administrators, personal representatives, successors and assigns of each of the parties hereto.

This Option Agreement together with exhibits incorporated herein by references, if any, embodies the whole agreement of the parties. There are no promises, terms, conditions, or obligations other than those contained herein; and this agreement shall supersede all previous communications, representations, or agreements, either verbal or written between the parties.

Assignment of Option

This Assignment for Option is made on November 7, 2015, by Stenehjem Development, LLC, whose address is P.O. Box 607 Watford City, ND 58854 ("Assignor") for the benefit of ~~Energy Transfer Partners, LP~~ ^{Dakota Access, LLC} whose address is 3738 Oak Lawn Ave, Dallas TX 75219 ("Assignee") with respect to that Option Agreement dated October 3, 2014 given by Einar and Sonja Prestangen to Assignee regarding the below described real estate

Lot 4, Section 6, Township 149 North, Range 98 West ("Option Property"), including all privileges, licenses, easements, and any other rights benefiting or appurtenant thereto.

The parties agree as follows:

1. Upon payment of Seventy Five Thousand and no/100 (\$75,000.00) in good and available funds, Assignor agrees to assign and transfer to Assignee all Assignor's rights, title and interest under the above referenced Option Agreement.
2. This Assignment shall be "with recourse" against Assignor.
3. Assignee acknowledges that it now becomes fully responsible and obligated to perform all the covenants and conditions under the Option dated October 3, 2014.
4. This Assignment shall be binding upon the parties and their heirs, representatives, successors and assigns.
5. This Assignment contains the complete agreement of the parties and supersedes any and all prior promises, representations, understandings and agreements between the parties, whether written or oral, regarding the matters contained herein. This Assignment may not be amended except in writing signed by all parties.
6. This Assignment is governed by the laws of the State of North Dakota.

IN WITNESS WHEREOF, Assignor has executed and delivered this Assignment of Contract for Deed to Grantee on the date set forth above.

OPTION AGREEMENT

This OPTION AGREEMENT ("Agreement") made this 4th day of October, 2014 between Stenehjem Development, LLP ("Stenehjem"), and Einar and Sonja Prestangen, hereinafter collectively referred to as "Prestangens").

NOW, THEREFORE, in consideration of the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

Option

Grant of the Option. In consideration of the payment by Stenehjem to Prestangens of Thirty Five Thousand Dollars (\$35,000), Prestangens hereby grants to Stenehjem the exclusive right and option to purchase the following property: Lot 4, Section 6, Township 149 North, Range 98 West ("Option Property"), including all privileges, licenses, easements, and any other rights benefiting or appurtenant thereto. ~~Should Stenehjem exercise the option, the Thirty Five Thousand Dollars (\$35,000) will be applied to the Option Purchase Price.~~

*EUP
SEP*

Option Price. The price that Stenehjem shall pay to Prestangen for the Option Property pursuant to this Agreement ("Option Purchase Price") shall be Fifty Five Thousand Dollars (\$55,000) per acre.

Option Period. This Option shall commence as of the date of this Agreement and shall remain in effect for eighteen (18) months.

Exercise of Option. Provided Stenehjem is not in default under the terms and conditions of this Agreement, Stenehjem may exercise this Option at any time prior to the expiration by delivering written notice of the exercise of the Option to Prestangen and closing the purchase and payment of the Option Price within thirty (30) days of giving notice to exercise. Should Stenehjem exercise the Option, the closing of the Option Property will be subject to the same representations, warranties, and covenants as with the adjacent 37 acres purchased to the north from Prestangens contemporaneously herewith and are incorporated herein by reference and shall survive Closing.

IN WITNESS WHEREOF, this Agreement has been entered into as of the day and year first above written

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 1/5/2016 ²⁰¹⁵, is between Einar M. Prestangen and Sonja Prestangen, husband and wife, as tenants in common, whose mailing address 2372 Highway 85 North, Watford City, ND 58854 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 150.45 acres of land, more or less, situated in Lots 03, 04, 05 and 06, Except 6.02 Acre Right of Way, Section 06, Township 149 North, Range 98 West, McKenzie County, North Dakota, more particularly described in that certain Quit Claim Deed, dated December 26, 2013, from Einar M. Prestangen and Sonja Prestangen, husband and wife, to Einar M. Prestangen and Sonja Prestangen, husband and wife, as tenants in common, recorded as Document Number 461116, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Einar M. Prestangen
SP 31

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

OPTION AGREEMENT

This OPTION AGREEMENT ("**Agreement**") made this 7th day of October, 2014 between Stenehjem Development, LLP ("**Stenehjem**"), and Einar and Sonja Prestangen, hereinafter collectively referred to as "**Prestangens**").

NOW, THEREFORE, in consideration of the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

Option

Grant of the Option. In consideration of the payment by Stenehjem to Prestangens of Thirty Five Thousand Dollars (\$35,000), Prestangens hereby grants to Stenehjem the exclusive right and option to purchase the following property: Lot 4, Section 6, Township 149 North, Range 98 West ("Option Property"), including all privileges, licenses, easements, and any other rights benefiting or appurtenant thereto. ~~Should Stenehjem exercise the option, the Thirty Five Thousand Dollars (\$35,000) will be applied to the Option Purchase Price.~~

Handwritten note: 35k
to
\$35k

Option Price. The price that Stenehjem shall pay to Prestangen for the Option Property pursuant to this Agreement ("Option Purchase Price") shall be Fifty Five Thousand Dollars (\$55,000) per acre.

Option Period. This Option shall commence as of the date of this Agreement and shall remain in effect for eighteen (18) months.

Exercise of Option. Provided Stenehjem is not in default under the terms and conditions of this Agreement, Stenehjem may exercise this Option at any time prior to the expiration by delivering written notice of the exercise of the Option to Prestangen and closing the purchase and payment of the Option Price within thirty (30) days of giving notice to exercise. Should Stenehjem exercise the Option, the closing of the Option Property will be subject to the same representations, warranties, and covenants as with the adjacent 37 acres purchased to the north from Prestangens contemporaneously herewith and are incorporated herein by reference and shall survive Closing.

IN WITNESS WHEREOF, this Agreement has been entered into as of the day and year first above written.

Assignment of Option

This Assignment for Option is made on November 17, 2015, by Stenehjem Development, LLC, whose address is P.O. Box 607 Watford City, ND 58854 ("Assignor") for the benefit of Energy Transfer Partners, LP, whose address is 3738 Oak Lawn Ave, Dallas TX 75219 ("Assignee") with respect to that Option Agreement dated October 3, 2014 given by Einar and Sonja Prestangen to Assignee regarding the below described real estate

Lot 4, Section 6, Township 149 North, Range 98 West ("Option Property"), including all privileges, licenses, easements, and any other rights benefiting or appurtenant thereto.

The parties agree as follows:

1. Upon payment of Seventy Five Thousand and no/100 (\$75,000.00) in good and available funds, Assignor agrees to assign and transfer to Assignee all Assignor's rights, title and interest under the above referenced Option Agreement.
2. This Assignment shall be "with recourse" against Assignor.
3. Assignee acknowledges that it now becomes fully responsible and obligated to perform all the covenants and conditions under the Option dated October 3, 2014.
4. This Assignment shall be binding upon the parties and their heirs, representatives, successors and assigns.
5. This Assignment contains the complete agreement of the parties and supersedes any and all prior promises, representations, understandings and agreements between the parties, whether written or oral, regarding the matters contained herein. This Assignment may not be amended except in writing signed by all parties.
6. This Assignment is governed by the laws of the State of North Dakota.

IN WITNESS WHEREOF, Assignor has executed and delivered this Assignment of Contract for Deed to Grantee on the date set forth above.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated June 16, 2015, is between Don Fritel and Ruby Fritel, husband and wife as joint tenants and not as tenants in common, whose mailing address is PO Box 894 Watford City, ND 58854, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 9.85 acres more or less, being situated in the Irregular Tract Number 2266, being a tract of land located in the Northeast Quarter of Section 06, Township 149 North, Range 98 West of the Fifth Principal Meridian, McKenzie County, State of North Dakota, as described in Warranty Deed dated March 14, 2012, from Norman E. Sondrol and Marlene J. Sondrol, husband and wife, to Don Fritel and Ruby Fritel, husband and wife as joint tenants and not as tenants in common, recorded under Document Number 431803, Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated June 23, 2015, is between Glenn Wahus and Tina Wahus, husband and wife, as joint tenants and not as tenants in common, whose mailing address is PO Box 342, Watford City, ND 58854, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 19.74 acres more or less, being situated in the Irregular Tract Number 2466, being a tract of land located in the Northeast Quarter of Section 06, Township 149 North, Range 98 West, McKenzie County, State of North Dakota, as described in Warranty Deed dated August 29, 2012, from Norman E. Sondrol and Marlene J. Sondrol, husband and wife, to Glenn Wahus and Tina Wahus, husband and wife, as joint tenants and not as tenants in common, recorded under Document Number 439390, Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made..

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 19 JUNE 2015, is between Norman E. Sondrol and Marlene J. Sondrol, as tenants in common, whose mailing address is 2781 Promontory Drive, Bismarck, ND 58503 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 119.40 acres of land, more or less, situated in the the S½NE¼, Lots 01 and 02 of Section 06, Township 149 North, Range 98 West, McKenzie County, North Dakota, as described in Warranty Deed dated December 17, 1997, from Norman E. Sondrol and Marlene J. Sondrol, husband and wife, to Norman E. Sondrol and Marlene J. Sondrol, as tenants in common, recorded under Document Number 331492, Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and adjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 19 day of JUNE, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September 19, 2015, is between Curtis M. Sorenson and Jennifer J. Sorenson, husband and wife, as joint tenants, whose mailing address is 12652 22nd Street Northwest, Watford City, ND 58854 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, installing, realigning, replacing, improving, altering, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

dated October 26, 2010 from Grace Lee, a married woman, individually and as Attorney-in-Fact for Vernon Lee, her husband, to Curtis M. Sorenson and Jennifer J. Sorenson, husband and wife, as joint tenants, recorded as Document Number 409682, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary to exercise the rights granted to it by this

Re-Record

County Recorder
McKenzie County
Watford City ND 58854

Page 3 of 12

488103

Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements, Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages. In the event that the Grantor desires to cross under Grantee's pipeline with water lines or electrical lines, Grantor shall provide Grantee with the plans for such lines not less than ninety (90) days prior to the date that Grantor proposes to so cross Grantee's pipeline. To the extent that such plans provide that the lines proposed by Grantor shall cross Grantee's pipeline at an angle of not less than forty five (45) degrees and spacing of

Re-Record
County Recorder
McKenzie County
Watford City ND 58854

Page 4 of 12

488103

not less than twenty-four (24) inches below Grantee's pipeline, then Grantee agrees to locate the depth of its pipeline by hydro-evacuating to the top of Grantee's pipeline at the location where Grantor proposes to cross under Grantee's pipeline.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the reasonable judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the reasonable judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this

Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

EXHIBIT "B"

1. Grantee shall dismiss from Grantor's property any employees, agents, contractors, subcontractors, servants, or their invitees who materially violate any of the surface use requirements contained in this Agreement. Grantee will act promptly and decisively with respect to such violations and have any violators removed until such time as Grantor's authorized representatives approve the violator's reentry on Grantor's lands.
2. The Grantee shall immediately notify Grantor of any injury or damage resulting from the activities on Grantor's property, including, but not limited to, injury or damage to cattle, and Grantor's personal property, including fire guards, roads, buildings, fences, gates, cattle guards, livestock pens, tanks, windmills, water facilities and similar improvements. Grantee agrees to pay replacement value or fair market value, whichever is higher, for all such damages or losses for which it acknowledges it is strictly liable.
3. The Grantee shall comply with all applicable governmental laws, rules and regulations, laws while on Grantor's property.
4. The Grantee shall use commercially reasonable measures to minimize the risk of fire resulting from the Grantee's operations on Grantor's property, including, but not limited to, (i) prohibiting smoking or open fires on Grantor's property, (ii) maintaining mufflers and spark arresters on equipment in proper working order and watching out for rocks and metal when moving, and (iii) avoiding driving or parking vehicles in grassy areas where tall, dry grass can come into contact with catalytic converter on the underside of a vehicle.
5. The Grantee and its employees, agents, and contractors shall not make recreational use of the Easement or Grantor's remaining property. No hunting. No fishing. No fire arms. No dogs. No Alcohol. This prohibition extends to no hunting of artifacts.
6. The Grantee must remove from the Easement all trash or debris resulting from the Grantee's activities on the property on a daily basis.
7. All Grantee vehicles must maintain speeds below 20 miles per hour while on Grantor's property.
8. Except as otherwise provided in this Agreement, the Grantee shall not store supplies or equipment, or park outside of the Easement and Temporary Work Space.
9. Grantee shall be responsible for all reasonable expenses associated with livestock retrieval work resulting from gates or fences left open by Grantee. Grantee has no responsibility to pay for expenses associated with livestock retrieval work not resulting from its actions.
10. Grantor agrees that the consideration paid by Grantee in this agreement includes any and all costs incurred by Grantor for installing fencing, whether temporary or permanent, along and outside the boundaries of the Easements after the initial construction of the pipeline so as to prevent Grantor's livestock from entering the Easements. Grantee is not responsible for the removal or disposal of such fencing.

County Recorder
McKenzie County
Watford City ND 58854

488103

11. During initial construction of Facilities, Grantor's authorized representative shall be supplied the 24-hour contact number of an authorized representative or construction supervisor who has authority to act on Grantee's behalf.
12. Fence crossings must be built prior to crossing fence. Such crossings, gates and braces shall be built to the following specifications: "IP" braces shall be constructed of minimum schedule 40 pipe, with the minimum outside diameter of three and one-half inches (3.5"). Spacings between posts will be a minimum of six feet (6') between posts, and a minimum of seven feet (7') between post and deadmen. Minimum posthole depth is forty-eight inches (48").
13. Grantee will be responsible for damages to Grantor's real property, improvements, and livestock resulting from any fire caused by Grantor's use of Easement.
14. If applicable, all road crossings will be padded with gravel or base selected by Grantee and watered and bladed consistent with industry standards unless the road is bored.
15. Should Grantor's livestock be injured or killed as a result of Grantee's construction, operation, or maintenance of the pipeline, the greater of either the prevailing rate in the area for similar livestock, or replacement costs, whichever is greater, shall be paid.
16. After the completion of the initial construction of Grantee's pipeline, Grantee shall be liable for repairs and replacement and to pay to Grantor fair and reasonable damages, if any, cause by Grantee's operations to Grantor's real and personal property, including fire guards, roads, buildings, fences, gates, cattle guards, livestock pens, tanks, windmills, water facilities, and other improvements.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated November 12, 2015, is between Robby Lindley and Renae Lindley, husband and wife, as joint tenants, whose mailing address is 2461 125th Avenue Northwest, Watford City, ND 58854 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 56.10 acres of land, more or less, situated in the NE¼ (IT #2606) containing 51.10 acres, more or less 5.00 acres out of the IT #1904 PT of the NE1/4 of Section 31, Township 150 North, Range 98 West of the 5th P.M., McKenzie County, North Dakota, as described in the certain Warranty Deed dated December 18, 2012 from Edward I. Schilke and Charlotte A. Schilke, husband and wife, to Robby Lindley and Renae Lindley, husband and wife, as joint tenants, recorded as Document Number 447801, County Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

168
55-

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

**EXHIBIT B
TO
EASEMENT AGREEMENT**

Robby Lindley and Renae Lindley, husband and wife, as joint tenants, herein referred to as “GRANTOR”

Dakota Access, L.L.C. - herein referred to as “GRANTEE”

REGARDLESS OF LANGUAGE TO THE CONTRARY CONTAINED IN THE EASEMENT AGREEMENT THE FOLLOWING SHALL CONTROL:

Definitions:

“GRANTOR” means **Robby Lindley and Renae Lindley**, their employees, agents, contractors and invitees.

“GRANTEE” means **Dakota Access, L.L.C.**, its employees, agents, contractors, and invitees.

“Easement Corridor” or “Pipeline Corridor” means that area lying within the easement boundaries here granted.

PIPELINE INSTALLATION DAMAGES: GRANTEE shall be responsible for all damages caused by it during and after the installation of the pipeline contemplated by the Easement Agreement.

PIPELINE: This Exhibit B provides GRANTEE the privilege to lay, construct, maintain, operate, repair, replace, inspect, and remove one pipeline contemplated by the Easement Agreement.

1. **Number of Pipeline(s), Easement Width and Depth:** Installation and easement is limited to one pipeline within the easement corridor, installed no less than forty eight inches (48”) from the top of the pipe to the surface of the ground, together with necessary underground fittings, appliances and associated equipment.
2. **Consultation:** GRANTOR and GRANTEE agree that any pipeline to be constructed under the terms of this Agreement shall be in consultation with the GRANTOR.
3. **Route and Map Incorporation:** The route of the pipeline shall be pre-determined before construction shall begin. A map shall be attached to and incorporated herein for the purpose of the proposed pipeline route; this route may be changed upon GRANTEE’s consultation with and written approval of GRANTOR.
4. **Construction Start Date:** intentionally omitted.

5. **Time by which construction must be completed:** GRANTEE agrees to construct and install the pipeline within the Easement Corridor no later than **December 31, 2020**. If the pipeline is not constructed during this time period, the GRANTEE will be deemed to have abandoned the rights to construct the pipeline; and this Easement will terminate.
6. **Term of Agreement and Term Extension:** The duration of this Easement shall be for ninety-nine (99) years.
7. **Compensation:** GRANTEE has agreed to compensate GRANTOR a specific monetary sum for the usual, ordinary and expected damages incurred during the installation of a pipeline and reclamation of the pipeline corridor and access points. GRANTEE shall compensate GRANTOR for future loss, if any, as provided in Paragraph 11 below; and extra-ordinary and unexpected damages.
8. **Tenant/Farmer Direct Payment:** intentionally omitted.
9. **Payment for Additional Disturbances:** GRANTEE shall pay GRANTOR for any entry after initial construction of the pipeline that results in additional surface damages, including damages to crops, grasslands or livestock or improvements.
10. **Nonexclusive easement:** This easement is nonexclusive. GRANTOR shall be permitted to grant easements to others that parallel and/or cross GRANTEE's easement; however such future easements granted that run parallel to GRANTEE's easement shall not lie within the easement corridor here granted without GRANTEE's consent – which said consent shall not be unreasonably withheld. Any future easements granted by GRANTOR that cross the easement corridor must not unreasonably interfere with GRANTEE's use of its easement. GRANTOR reserves the right to farm, graze and otherwise fully use and enjoy the Easement Corridor, provided GRANTOR agrees not to construct or create any obstruction (including planted trees), structure, impound water, construct a canal or any other engineering work on the Easement Corridor that will interfere with the rights and interests of GRANTEE herein granted.
11. **Future loss:** GRANTEE shall be liable for any damage to GRANTOR and GRANTOR's property (whether real or personal) in excess of usual, expected and ordinary damage sustained during initial construction, installation, inspection, maintenance, repair, replacement, removal and reclamation of the pipeline(s). Such damage includes but is not limited to personal injury or death of GRANTOR; damage, injury or death to livestock; and damage to lands within and adjacent to the easement corridor.
 - In the event such excess damage or injury is a result of GRANTEE's operations and/or activities, GRANTEE will pay reasonable compensation to GRANTOR for such loss.

- GRANTEE shall also be responsible for any damage caused by activities of its subcontractors during the construction, installation, inspection, maintenance, repair, replacement, removal and reclamation of said pipeline(s).

Nothing in this paragraph shall impose liability upon GRANTEE for the negligence, reckless or intentional acts of GRANTOR.

12. Hold Harmless and Indemnification: GRANTEE agrees to indemnify, defend and hold the GRANTOR harmless from the claims and demands of all parties arising out of its operations and/or activities relating to the construction, installation, reclamation, use, inspection and maintenance of the pipeline or easement corridor.

- The GRANTEE also undertakes and does hereby agree to defend, hold harmless and indemnify GRANTOR from any and all liability, costs, and attorney's fees the GRANTOR may suffer as a result of claims, demands, costs, or judgments against GRANTOR, arising out GRANTEE's activities and/or operations on GRANTOR's property, including but not limited to any environmental damage caused by the GRANTEE and GRANTEE's noncompliance with any environmental law, order, administrative law or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either. This hold harmless and indemnification shall also include, but is not be limited to, any claims by contractors, subcontractors or others for money owed to them as a result of construction, installation, repair or maintenance of GRANTEE's pipeline or easement. This indemnification and hold harmless shall also include any award of damages against GRANTOR for acts of negligence, reckless or intentional conduct of GRANTEE, its employees or its agents.

Nothing in this paragraph shall impose liability upon GRANTEE for the negligence, reckless or intentional acts of GRANTOR.

13. Gates and Fencing: Upon request, GRANTEE shall, within reason as determined by GRANTEE, construct and maintain temporary gates and/or fences across or around, as applicable, any open construction trench within GRANTEE's Pipeline Easement during GRANTEE's initial construction and installation of pipeline so as to avoid injury to or interference with GRANTOR during said construction; OR GRANTEE shall compensate GRANTOR for the foregoing prior to construction.

.....

- if GRANTOR should so desire, GRANTOR may place a fence capable of turning livestock across or adjacent to the easement corridor after the

pipeline has been installed, provided that GRANTOR shall perform any such construction within the Easement in a safe manner.

14. **INGRESS and EGRESS TO PIPELINE FOR INSPECTION AND REPAIR:** GRANTEE shall make reasonable good faith efforts to notify GRANTOR in advance before accessing the pipeline for inspection and repair and shall use existing roads or trails or the pipeline corridor for ingress and egress to inspect or repair the pipeline, unless such ingress or egress required is due to an emergency, or GRANTOR is notified and gives consent to use other ingress and egress points.
15. **Notification of Surface Activities:** Before entering the GRANTOR's land, GRANTEE shall make good faith efforts to notify GRANTOR in advance of proposed, non-emergency activities to be conducted upon the surface of the said land.
16. **Daylighting of Pipeline:** Intentionally omitted.
17. **Surface structures:** GRANTEE agrees there shall be no above ground installations, surface equipment, structures or apparatus associated with the pipeline to be installed on the Easement without the express, written consent of GRANTOR, except pipeline markers test leads or rectifiers at fence lines, roadways, railroads, ditches and waterways, or as required by applicable law.
18. **Mineral Reservation, including Aggregates:** GRANTOR reserves all oil, gas, and other minerals on and under said lands, including, but not limited to gravel, clay and scoria that GRANTOR owns at the time GRANTOR executes this Easement Agreement.
19. **Commercial Deposits of Scoria, Sand and Gravel:** GRANTOR shall have the right to exploit and/or mine all commercial quantities of coal, scoria, gravel, sand and/or aggregates [hereinafter collectively "surface minerals"] on or under the lands described in the Easement; provided, however, this clause shall not serve to terminate or amend any existing mineral or materials leases.

Should GRANTEE'S pipeline interfere with GRANTOR's right to exploit or mine any surface minerals GRANTEE shall either:

- (i) Pay for the value of the surface minerals in place in lieu of GRANTOR exploiting and/or mining the same;
 - it is the intent of the parties that GRANTOR be paid for surface minerals that cannot be exploited or mined as a result of the pipeline presence, not just surface minerals located only within the easement corridor.

- (ii) Exploit or mine to the satisfaction of GRANTOR the surface minerals before installation of the pipeline and stockpile the same on GRANTOR'S adjacent lands.
 - Should GRANTEE elect to exploit or mine and remove the material during the installation of the pipeline or at any time thereafter, it shall stockpile the minerals as noted above, and GRANTOR shall provide a location suitable for the stockpile at no cost to GRANTEE.

The Parties will enter into an agreement suitable for whichever above activity GRANTEE selects describing the rights and responsibilities of the Parties.

Before GRANTEE is required to pay under the provisions above, surface mineral(s) must be first mined in an area near or adjacent to the easement corridor and perform reasonable testing to confirm that the commercial vein of such surface mineral(s) lies within the pipeline corridor.

- 20. **Debris & Rocks:** GRANTEE shall remove all debris, pick rocks four (4") inches in diameter or larger brought to surface and either remove them or bury them at a location designated by GRANTOR, replace topsoil to as near preconstruction condition as possible, compact trench and restore the disturbed area. GRANTEE shall take immediate steps to remove or bury within sixty (60) days from date of written notice unless such period is extended with consent of GRANTOR.
- 21. **Control of Weeds:** GRANTEE shall employ timely efforts to control and prevent weeds from growing and going to seed on and in the pipeline corridor for a period of time required by Grantee's permits and authorizations but in no case less than three (3) growing seasons following reclamation of the pipeline corridor after the final pipeline is installed.
- 22. **Restoration of Disturbed areas:** All disturbed surfaces which are not tilled crop land will be re-seeded at GRANTEE's expense with either of the following as determined by GRANTOR:
 - (i) an approved local NRCS seed mixture; or
 - (ii) same seed as was growing in the area prior to disruption.

GRANTEE will seed and re-seed pasture and/or grasslands as often as necessary to establish a catch consistent with the condition of the pasture and/or grasslands prior to GRANTEE's entry upon the lands. GRANTOR shall have the right for a period not to exceed three (3) years from date of completion of the pipeline to make reasonable determination that the ground and foliage has been satisfactorily been restored.

During construction and installation or maintenance or repair of the pipeline, topsoil shall be set aside and then replaced on the top of any disturbed land during restoration or covering of trenches dug for installation, repair, maintenance, replacement or removal of any pipeline.

All tracks, ruts and equipment surface disturbances shall be removed by grading or filling in such tracks or ruts with topsoil.

23. **Restoration Upon Abandonment:** Upon final abandonment of the pipeline GRANTEE shall comply with all Local, State and Federal rules or regulations concerning the same. GRANTEE shall remain responsible for any hazardous or dangerous condition relating to the pipeline.

24. **Miscellaneous:**

- GRANTEE must comply with the North Dakota Environmental Construction Plan on file with the North Dakota Public Service Commission.
- GRANTEE will restore the surface to its original contour as nearly as practicable, the disturbance to which shall be occasioned by the construction, maintenance or operation of said pipeline under and through the above-described land.
- During reclamation GRANTEE shall keep right of way level with surrounding grade, fill in all washouts and or areas that have settled below surrounding grade with top soil supplied by GRANTEE.
- GRANTEE will take all steps reasonably necessary to prevent erosion of the easement corridor.
- Confidentiality provisions in the Pipeline Right of Way Grant, Release of Damages or payment agreement if any are hereby struck and void.
- GRANTOR must approve all fence repairs. Such approval will not to be unreasonable withheld.
- GRANTEE agrees that if a water flowing spring develops during and resulting from the construction of the pipeline, and the spring continues to flow or cause a wetland like area in otherwise agriculturally productive lands the GRANTEE shall pay for the total value of lost production and shall continue to pay per harvest year as long as the lands are not able to produce crop. The price paid shall be an amount equal to the total amount of acres burdened by water damage multiplied by the commodity price of crop planted on adjacent acreage and the corresponding yield.

25. **Abandonment by nonuse:** If any of GRANTEE's pipeline(s) are abandoned by non-use, or by not maintaining the same as required by any applicable regulatory authority, for a period of thirty-six (36) consecutive months, this Easement Agreement becomes null and void and will be released of record and GRANTEE's rights to the same shall automatically, without out further action on the part of GRANTOR, revert to the GRANTOR.

- Upon abandonment as provided above, GRANTEE will make every effort to render pipeline clean and safe for dormancy.
- GRANTEE at its expense shall remove the pipeline from GRANTOR's property, if a local, state, or federal government agency or other governing regulatory body requires at any time that the pipeline is to be removed.

The provisions of the paragraph shall not apply for any period of time when such non-use or failure to maintain the pipeline is the result of enforcement or any governmental rule or regulation temporarily prohibiting the use of the pipeline.

26. **Right to Cure:** In the event GRANTOR deems or considers GRANTEE to be in default of any provision or requirement, GRANTOR shall provide written notice to GRANTEE of said default and GRANTEE shall then have **sixty (60)** days from receipt of said notice to commence to cure or contest the claimed default.

- A. The Pipeline trench must be fully backfilled and topsoil must be replaced on the Easement Corridor immediately following construction.
- B. Contractor must stay on the agreed Easement, existing lease roads or public highways during the construction phase under this Easement Agreement, unless otherwise consented to by GRANTOR;
- C. No livestock will be let out by GRANTEE. Gates, if any, shall remain closed at all times while GRANTEE is on the right of way. All permanent gates installed shall be steel gates; no wire gates. During initial construction, fence gaps shall be no wider than fifty (50) feet without additional pole support and shall in all cases have sufficient tension to turn back livestock.
- D. GRANTOR shall notify GRANTEE about the location(s) of a sinkhole (if any) that is located in the easement corridor, or caused by GRANTEE's activities; and GRANTEE shall take immediate steps to fill in the sinkhole.

GRANTEE upon GRANTOR providing notice or contact concerning the above items shall make at a minimum contact with GRANTOR within 24 hours by telephone, email, facsimile transmission or in person acknowledging notice from or contact by GRANTOR.

27. **No warranty of title:** GRANTOR does not warrant or guarantee title to the easement granted. GRANTEE is put on notice that the easement may be subject to superior rights, including but not limited to rights of mineral development that precede this grant of easement.
28. **Attorney's fees:** Should GRANTOR engage legal counsel to enforce any provision of the Easement including this Exhibit, and should the Court rule in favor of the GRANTOR whether in whole or in part, GRANTEE shall be responsible for GRANTOR's reasonable attorney's fees and costs.
29. **GRANTEE's Current Contact Information for Purpose of Notice:** Should GRANTOR be required to provide notice or otherwise need to contact GRANTEE for any matter relating to this easement, GRANTEE may be notified and contacted at:

DAKOTA ACCESS, LLC
ATTN: Land and Right of Way
1300 Main Street
Houston, Texas 77002
Telephone: (713) 989-1000

30. **Notice:** If GRANTEE's contact information should change, GRANTEE shall promptly provide GRANTOR a change of mailing address, telephone number and email address to which GRANTOR may provide notice when required under this Agreement. Until GRANTOR receives such notice in writing from GRANTEE, notice to the above address shall be deemed sufficient for purposes of this Agreement.
 - **If GRANTEE assigns or otherwise conveys its interest or rights hereunder to another, GRANTEE shall provide GRANTOR contact information within thirty (30) days of assignment.** Until GRANTOR receives such notice in writing from GRANTEE, notice to the above address shall be deemed sufficient for purposes of this Agreement.

BINDING EFFECT: Provisions of the Exhibit are binding upon the GRANTOR and GRANTEE, their heirs, assigns and estates.

PARCEL ID: 20-00-22600

COUNTY: McKenzie

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated October 20, 2015, is between Edward I. Schilke and Charlotte A. Schilke, husband and wife, as tenants in common, whose mailing address is Box 637, Watford City, ND 58854 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 149.29 acres of land, more or less, situated in the Northwest Quarter (NW¼), Section Thirty-two (32), Township 150 North, Range 98 West, McKenzie County, North Dakota, more particularly described in Warranty Deed dated October 17, 2008 from Edward I. Schilke and Charlotte A. Schilke, husband and wife, to Edward I. Schilke and Charlotte A. Schilke, husband and wife, as tenants in common, recorded as Document Number 383219, office of County Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

55

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

Notary Public, State of Texas

My Commission Expires: _____

**EXHIBIT B
TO
EASEMENT AGREEMENT**

Edward I. Schilke and Charlotte A. Schilke, herein referred to as “GRANTOR”

Dakota Access, L.L.C. - herein referred to as “GRANTEE”

REGARDLESS OF LANGUAGE TO THE CONTRARY CONTAINED IN THE EASEMENT AGREEMENT THE FOLLOWING SHALL CONTROL:

Definitions:

“GRANTOR” means her/his/their employees, agents, contractors and invitees.

“GRANTEE” means **Dakota Access, L.L.C.**, its employees, agents, contractors, and invitees.

“Easement Corridor” or “Pipeline Corridor” means that area lying within the easement boundaries here granted.

PIPELINE INSTALLATION DAMAGES: GRANTEE shall be responsible for all damages caused by it during and after the installation of the pipeline contemplated by the Easement Agreement.

PIPELINE: This Exhibit B provides GRANTEE the privilege to lay, construct, maintain, operate, repair, replace, inspect, and remove one pipeline contemplated by the Easement Agreement.

1. **Number of Pipeline(s), Easement Width and Depth:** Installation and easement is limited to one pipeline within the easement corridor together with necessary underground fittings, appliances and associated equipment.
2. **Consultation:** GRANTOR and GRANTEE agree that any pipeline to be constructed under the terms of this Agreement shall be in consultation with the GRANTOR.
3. **Route and Map Incorporation:** The route of the pipeline shall be pre-determined before construction shall begin. A map shall be attached to and incorporated herein for the purpose of the proposed pipeline route; this route may be changed upon GRANTEE’s consultation with and written approval of GRANTOR.
4. **Construction Start Date:** intentionally omitted.
5. **Time by which construction must be completed:** GRANTEE agrees to construct and install the pipeline within the Easement Corridor no later than **December 31,**

2020. If the pipeline is not constructed during this time period, the GRANTEE will be deemed to have abandoned the rights to construct the pipeline; and this Easement will terminate.

6. **Term of Agreement and Term Extension:** The duration of this Easement shall be for ninety-nine (99) years.
7. **Compensation:** GRANTEE has agreed to compensate GRANTOR a specific monetary sum for the usual, ordinary and expected damages incurred during the installation of a pipeline and reclamation of the pipeline corridor and access points. GRANTEE shall compensate GRANTOR for future loss, if any, as provided in Paragraph 11 below; and extra-ordinary and unexpected damages.
8. **Tenant/Farmer Direct Payment:** intentionally omitted.
9. **Payment for Additional Disturbances:** GRANTEE shall pay GRANTOR for any entry after initial construction of the pipeline that results in additional surface damages, including damages to crops, grasslands or livestock or improvements.
10. **Nonexclusive easement:** This easement is nonexclusive. GRANTOR shall be permitted to grant easements to others that parallel and/or cross GRANTEE's easement; however such future easements granted that run parallel to GRANTEE's easement shall not lie within the easement corridor here granted without GRANTEE's consent – which said consent shall not be unreasonably withheld. Any future easements granted by GRANTOR that cross the easement corridor must not unreasonably interfere with GRANTEE's use of its easement. GRANTOR reserves the right to farm, graze and otherwise fully use and enjoy the Easement Corridor, provided GRANTOR agrees not to construct or create any obstruction (including planted trees), structure, impound water, construct a canal or any other engineering work on the Easement Corridor that will interfere with the rights and interests of GRANTEE herein granted.
11. **Future loss:** GRANTEE shall be liable for any damage to GRANTOR and GRANTOR's property (whether real or personal) in excess of usual, expected and ordinary damage sustained during initial construction, installation, inspection, maintenance, repair, replacement, removal and reclamation of the pipeline(s). Such damage includes but is not limited to personal injury or death of GRANTOR; damage, injury or death to livestock; and damage to lands within and adjacent to the easement corridor.
 - In the event such excess damage or injury is a result of GRANTEE's operations and/or activities, GRANTEE will pay reasonable compensation to GRANTOR for such loss.

- GRANTEE shall also be responsible for any damage caused by activities of its subcontractors during the construction, installation, inspection, maintenance, repair, replacement, removal and reclamation of said pipeline(s).

Nothing in this paragraph shall impose liability upon GRANTEE for the negligence, reckless or intentional acts of GRANTOR.

12. Hold Harmless and Indemnification: GRANTEE agrees to indemnify, defend and hold the GRANTOR harmless from the claims and demands of all parties arising out of its operations and/or activities relating to the construction, installation, reclamation, use, inspection and maintenance of the pipeline or easement corridor.

- The GRANTEE also undertakes and does hereby agree to defend, hold harmless and indemnify GRANTOR from any and all liability, costs, and attorney's fees the GRANTOR may suffer as a result of claims, demands, costs, or judgments against GRANTOR, arising out GRANTEE's activities and/or operations on GRANTOR's property, including but not limited to any environmental damage caused by the GRANTEE and GRANTEE's noncompliance with any environmental law, order, administrative law or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either. This hold harmless and indemnification shall also include, but is not be limited to, any claims by contractors, subcontractors or others for money owed to them as a result of construction, installation, repair or maintenance of GRANTEE's pipeline or easement. This indemnification and hold harmless shall also include any award of damages against GRANTOR for acts of negligence, reckless or intentional conduct of GRANTEE, its employees or its agents.

Nothing in this paragraph shall impose liability upon GRANTEE for the negligence, reckless or intentional acts of GRANTOR.

13. Gates and Fencing: Upon request, GRANTEE shall, within reason as determined by GRANTEE, construct and maintain temporary gates and/or fences across or around, as applicable, any open construction trench within GRANTEE's Pipeline Easement during GRANTEE's initial construction and installation of pipeline so as to avoid injury to or interference with GRANTOR during said construction; OR GRANTEE shall compensate GRANTOR for the foregoing prior to construction.

- if GRANTOR should so desire, GRANTOR may place a fence capable of turning livestock across or adjacent to the easement corridor after the pipeline has been installed, provided that GRANTOR shall perform any such construction within the Easement in a safe manner.

County Recorder
McKenzie County
Watford City ND 58854

488107

Page 9 of 16

- 14. INGRESS and EGRESS TO PIPELINE FOR INSPECTION AND REPAIR:** GRANTEE shall make reasonable good faith efforts to notify GRANTOR in advance before accessing the pipeline for inspection and repair and shall use existing roads or trails or the pipeline corridor for ingress and egress to inspect or repair the pipeline, unless such ingress or egress required is due to an emergency, or GRANTOR is notified and gives consent to use other ingress and egress points.
- 15. Notification of Surface Activities:** Before entering the GRANTOR's land, GRANTEE shall make good faith efforts to notify GRANTOR in advance of proposed, non-emergency activities to be conducted upon the surface of the said land.
- 16. Daylighting of Pipeline:** Intentionally omitted.
- 17. Surface structures:** GRANTEE agrees there shall be no above ground installations, surface equipment, structures or apparatus associated with the pipeline to be installed on the Easement without the express, written consent of GRANTOR, except pipeline markers test leads or rectifiers at fence lines, roadways, railroads, ditches and waterways, or as required by applicable law.
- 18. Mineral Reservation, including Aggregates:** GRANTOR reserves all oil, gas, and other minerals on and under said lands, including, but not limited to gravel, clay and scoria that GRANTOR owns at the time GRANTOR executes this Easement Agreement.
- 19. Commercial Deposits of Scoria, Sand and Gravel:** GRANTOR shall have the right to exploit and/or mine all commercial quantities of coal, scoria, gravel, sand and/or aggregates [hereinafter collectively "surface minerals"] on or under the lands described in the Easement; provided, however, this clause shall not serve to terminate or amend any existing mineral or materials leases.

Should GRANTEE'S pipeline interfere with GRANTOR's right to exploit or mine any surface minerals GRANTEE shall either:

- (i) Pay for the value of the surface minerals in place in lieu of GRANTOR exploiting and/or mining the same;
 - it is the intent of the parties that GRANTOR be paid for surface minerals that cannot be exploited or mined as a result of the pipeline presence, not just surface minerals located only within the easement corridor.

- (ii) Exploit or mine to the satisfaction of GRANTOR the surface minerals before installation of the pipeline and stockpile the same on GRANTOR'S adjacent lands.
 - Should GRANTEE elect to exploit or mine and remove the material during the installation of the pipeline or at any time thereafter, it shall stockpile the minerals as noted above, and GRANTOR shall provide a location suitable for the stockpile at no cost to GRANTEE.

The Parties will enter into an agreement suitable for whichever above activity GRANTEE selects describing the rights and responsibilities of the Parties.

Before GRANTEE is required to pay under the provisions above, surface mineral(s) must be first mined in an area near or adjacent to the easement corridor and perform reasonable testing to confirm that the commercial vein of such surface mineral(s) lies within the pipeline corridor..

- 20. **Debris & Rocks:** GRANTEE shall remove all debris, pick rocks four (4") inches in diameter or larger brought to surface and either remove them or bury them at a location designated by GRANTOR, replace topsoil to as near reconstruction condition as possible, compact trench and restore the disturbed area. GRANTEE shall take immediate steps to remove or bury within sixty (60) days from date of written notice unless such period is extended with consent of GRANTOR.
- 21. **Control of Weeds:** GRANTEE shall employ timely efforts to control and prevent weeds from growing and going to seed on and in the pipeline corridor for a period of time required by Grantee's permits and authorizations but in no case less than three (3) growing seasons following reclamation of the pipeline corridor after the final pipeline is installed.
- 22. **Restoration of Disturbed areas:** All disturbed surfaces which are not tilled crop land will be re-seeded at GRANTEE's expense with either of the following as determined by GRANTOR:
 - (i) an approved local NRCS seed mixture; or
 - (ii) same seed as was growing in the area prior to disruption.

GRANTEE will seed and re-seed pasture and/or grasslands as often as necessary to establish a catch consistent with the condition of the pasture and/or grasslands prior to GRANTEE's entry upon the lands. GRANTOR shall have the right for a period not to exceed three (3) years from date of completion of the pipeline to make reasonable determination that the ground and foliage has been satisfactorily been restored.

During construction and installation or maintenance or repair of the pipeline, topsoil shall be set aside and then replaced on the top of any disturbed land during restoration or covering of trenches dug for installation, repair, maintenance, replacement or removal of any pipeline.

All tracks, ruts and equipment surface disturbances shall be removed by grading or filling in such tracks or ruts with topsoil.

23. Restoration Upon Abandonment: Upon final abandonment of the pipeline GRANTEE shall comply with all Local, State and Federal rules or regulations concerning the same. GRANTEE shall remain responsible for any hazardous or dangerous condition relating to the pipeline.

24. Miscellaneous:

- GRANTEE must comply with the North Dakota Environmental Construction Plan on file with the North Dakota Public Service Commission.
- GRANTEE will restore the surface to its original contour as nearly as practicable, the disturbance to which shall be occasioned by the construction, maintenance or operation of said pipeline under and through the above-described land.
- During reclamation GRANTEE shall keep right of way level with surrounding grade, fill in all washouts and or areas that have settled below surrounding grade with top soil supplied by GRANTEE.
- GRANTEE will take all steps reasonably necessary to prevent erosion of the easement corridor.
- Confidentiality provisions in the Pipeline Right of Way Grant, Release of Damages or payment agreement if any are hereby struck and void.
- GRANTOR must approve all fence repairs. Such approval will not to be unreasonable withheld.
- GRANTEE agrees that if a water flowing spring develops during and resulting from the construction of the pipeline, and the spring continues to flow or cause a wetland like area in otherwise agriculturally productive lands the GRANTEE shall pay for the total value of lost production and shall continue to pay per harvest year as long as the lands are not able to produce crop. The price paid shall be an amount equal to the total amount of acres burdened by water damage multiplied by the commodity price of crop planted on adjacent acreage and the corresponding yield.

25. **Abandonment by nonuse:** If any of GRANTEE's pipeline(s) are abandoned by non-use, or by not maintaining the same as required by any applicable regulatory authority, for a period of thirty-six (36) consecutive months, this Easement Agreement becomes null and void and will be released of record and GRANTEE's rights to the same shall automatically, without out further action on the part of GRANTOR, revert to the GRANTOR.

- Upon abandonment as provided above, GRANTEE will make every effort to render pipeline clean and safe for dormancy.
- GRANTEE at its expense shall remove the pipeline from GRANTOR's property, if a local, state, or federal government agency or other governing regulatory body requires at any time that the pipeline is to be removed.

The provisions of the paragraph shall not apply for any period of time when such non-use or failure to maintain the pipeline is the result of enforcement or any governmental rule or regulation temporarily prohibiting the use of the pipeline.

26. **Right to Cure:** In the event GRANTOR deems or considers GRANTEE to be in default of any provision or requirement, GRANTOR shall provide written notice to GRANTEE of said default and GRANTEE shall then have **sixty (60)** days from receipt of said notice to commence to cure or contest the claimed default.

- A. The Pipeline trench must be fully backfilled and topsoil must be replaced on the Easement Corridor immediately following construction.
- B. Contractor must stay on the agreed Easement, existing lease roads or public highways during the construction phase under this Easement Agreement, unless otherwise consented to by GRANTOR;
- C. No livestock will be let out by GRANTEE. Gates, if any, shall remain closed at all times while GRANTEE is on the right of way. All permanent gates installed shall be steel gates; no wire gates. During initial construction, fence gaps shall be no wider than fifty (50) feet without additional pole support and shall in all cases have sufficient tension to turn back livestock.
- D. GRANTOR shall notify GRANTEE about the location(s) of a sinkhole (if any) that is located in the easement corridor, or caused by GRANTEE's activities; and GRANTEE shall take immediate steps to fill in the sinkhole.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated September 19, 2015, is between Curtis M. Sorenson and Jennifer J. Sorenson, husband and wife, as joint tenants, whose mailing address is 12652 22nd Street Northwest, Watford City, ND 58854 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, L.L.C whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, installing, realigning, replacing, improving, altering, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

Tract 1: All that certain lot, tract or parcel of land, containing 999.77 acres of land, more or less, situated in the SE¼, Section 31, Township 150 North, Range 98 West, McKenzie County, North Dakota, more particularly described in that certain Warranty Deed dated May 07, 2008 from Vernon Lee and Grace Lee, husband and wife, to Curtis Sorenson and Jennifer Sorenson, husband and wife, as joint tenants, recorded as Document Number 378041, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made;

Tract 2: All of Section 28; Parcel 2: The SE¼SE¼ of Section 29 all in Township 150 North, Range 98 West, McKenzie County, North Dakota, as described in that Warranty Deed, dated October 26, 2010, from Grace Lee, a married woman, individually and as Attorney-in-Fact for Vernon Lee, her husband, to Curtis M. Sorenson and Jennifer J. Sorenson, husband and wife, as joint tenants, recorded as Document Number 409682, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made;

Tract 3: NE¼NE¼; Parcel 2: S½NE¼; Parcel 3: NW¼SE¼ being a portion of the SE¼ all in Section 32, Township 150 North, Range 98 West, McKenzie County, North Dakota, as more particularly described in that Warranty Deed

dated October 26, 2010 from Grace Lee, a married woman, individually and as Attorney-in-Fact for Vernon Lee, her husband, to Curtis M. Sorenson and Jennifer J. Sorenson, husband and wife, as joint tenants, recorded as Document Number 409682, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary to exercise the rights granted to it by this

Re-Record

County Recorder
McKenzie County

Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements, Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline

5. Grantee will, insofar as practicable restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages. In the event that the Grantor desires to cross under Grantee's pipeline with water lines or electrical lines, Grantor shall provide Grantee with the plans for such lines not less than ninety (90) days prior to the date that Grantor proposes to so cross Grantee's pipeline. To the extent that such plans provide that the lines proposed by Grantor shall cross Grantee's pipeline at an angle of not less than forty five (45) degrees and spacing of

Re-Record
County Recorder
McKenzie County
Watford City ND 58854

Page 4 of 12

488103

not less than twenty-four (24) inches below Grantee's pipeline, then Grantee agrees to locate the depth of its pipeline by hydro-evacuating to the top of Grantee's pipeline at the location where Grantor proposes to cross under Grantee's pipeline.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the reasonable judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the reasonable judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this

Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

EXECUTED this 19TH day of September, 2015.

EXHIBIT "B"

1. Grantee shall dismiss from Grantor's property any employees, agents, contractors, subcontractors, servants, or their invitees who materially violate any of the surface use requirements contained in this Agreement. Grantee will act promptly and decisively with respect to such violations and have any violators removed until such time as Grantor's authorized representatives approve the violator's reentry on Grantor's lands.
2. The Grantee shall immediately notify Grantor of any injury or damage resulting from the activities on Grantor's property, including, but not limited to, injury or damage to cattle, and Grantor's personal property, including fire guards, roads, buildings, fences, gates, cattle guards, livestock pens, tanks, windmills, water facilities and similar improvements. Grantee agrees to pay replacement value or fair market value, whichever is higher, for all such damages or losses for which it acknowledges it is strictly liable.
3. The Grantee shall comply with all applicable governmental laws, rules and regulations, laws while on Grantor's property.
4. The Grantee shall use commercially reasonable measures to minimize the risk of fire resulting from the Grantee's operations on Grantor's property, including, but not limited to, (i) prohibiting smoking or open fires on Grantor's property, (ii) maintaining mufflers and spark arresters on equipment in proper working order and watching out for rocks and metal when moving, and (iii) avoiding driving or parking vehicles in grassy areas where tall, dry grass can come into contact with catalytic converter on the underside of a vehicle.
5. The Grantee and its employees, agents, and contractors shall not make recreational use of the Easement or Grantor's remaining property. No hunting. No fishing. No fire arms. No dogs. No Alcohol. This prohibition extends to no hunting of artifacts.
6. The Grantee must remove from the Easement all trash or debris resulting from the Grantee's activities on the property on a daily basis.
7. All Grantee vehicles must maintain speeds below 20 miles per hour while on Grantor's property.
8. Except as otherwise provided in this Agreement, the Grantee shall not store supplies or equipment, or park outside of the Easement and Temporary Work Space.
9. Grantee shall be responsible for all reasonable expenses associated with livestock retrieval work resulting from gates or fences left open by Grantee. Grantee has no responsibility to pay for expenses associated with livestock retrieval work not resulting from its actions.
10. Grantor agrees that the consideration paid by Grantee in this agreement includes any and all costs incurred by Grantor for installing fencing, whether temporary or permanent, along and outside the boundaries of the Easements after the initial construction of the pipeline so as to prevent Grantor's livestock from entering the Easements. Grantee is not responsible for the removal or disposal of such fencing.

County Recorder
McKenzie County
Watford City ND 58854

488103

Page 7 of 8

11. During initial construction of Facilities, Grantor's authorized representative shall be supplied the 24-hour contact number of an authorized representative or construction supervisor who has authority to act on Grantee's behalf.
12. Fence crossings must be built prior to crossing fence. Such crossings, gates and braces shall be built to the following specifications: "11" braces shall be constructed of minimum schedule 40 pipe, with the minimum outside diameter of three and one-half inches (3.5"). Spacings between posts will be a minimum of six feet (6') between posts, and a minimum of seven feet (7') between post and deadmen. Minimum posthole depth is forty-eight inches (48").
13. Grantee will be responsible for damages to Grantor's real property, improvements, and livestock resulting from any fire caused by Grantor's use of Easement.
14. If applicable, all road crossings will be padded with gravel or base selected by Grantee and watered and bladed consistent with industry standards unless the road is bored.
15. Should Grantor's livestock be injured or killed as a result of Grantee's construction, operation, or maintenance of the pipeline, the greater of either the prevailing rate in the area for similar livestock, or replacement costs, whichever is greater, shall be paid.
16. After the completion of the initial construction of Grantee's pipeline, Grantee shall be liable for repairs and replacement and to pay to Grantor fair and reasonable damages, if any, cause by Grantee's operations to Grantor's real and personal property, including fire guards, roads, buildings, fences, gates, cattle guards, livestock pens, tanks, windmills, water facilities, and other improvements.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated May 28, 2015, 2015, is between Kathy M. Boos, Trustee of the Larry S. Veeder and Carolyn Veeder Trust Agreement dated September 16, 2014, whose mailing address is 905 Hawthorn, Redwing, MN 55066, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 160 acres of land, more or less, situated in the South Half of the Northeast Quarter (S1/2NE1/4), the North Half of the Southeast Quarter (N1/2SE1/4) Section Nineteen (19), Township One Hundred Fifty (150) North, Range One Ninety-seven (97) West of the 5th P.M, McKenzie County, North Dakota, more particularly described in Warranty Deed dated October 1st, 1999 from Leroy Veeder, a single man, to Larry S. Veeder, a married person, recorded as Document #335724, office of County Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

20

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee will bury the pipeline laid hereunder with a cover of at least forty-eight inches (48") from the top of the pipe to the surface of the ground; except it shall be buried not less than twenty-four inches (24") through rock.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the

Pipeline Easement, Temporary Construction Easement, and Access Easement and has also been paid for any future damage or loss of revenue for the prohibition or restrictions on mining of scoria, coal, and gravel within the boundaries of the Permanent Easement Property. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional

drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage, or environmental damages resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

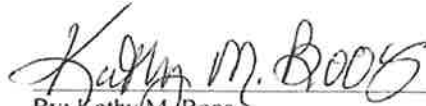

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 28th day of May, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated May 7, 2015, is between Jayson Lund and Amy Lund, husband and wife, as joint tenants, whose mailing address is 12281 Highway 23 East, Watford City, ND 58854, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 360.00 acres more or less, being situated in the Northwest Quarter of the Southeast Quarter (NW1/4SE1/4), North Half of the Southwest Quarter (N1/2SW1/4), Southeast Quarter of the Northwest Quarter (SE1/4NW1/4), Southeast Quarter of the Northeast Quarter (SE1/4NE1/4), and the Northeast Quarter of the Southeast Quarter (NE1/4SE1/4), all in Section Twenty (20), and The North Half of the Southwest Quarter (N1/2SW1/4), and the Southwest Quarter of the Southwest Quarter (SW1/4SW1/4), in Section Twenty-one (21), All in Township One Hundred Fifty (150) North, Range Ninety-seven (97) West, McKenzie County, North Dakota, more particularly described in Warranty Deed, dated 3/14/2003, from H.F. Gierke, III aka Herman F. Gierke, III, a married man dealing with his sole and separate property, and Jeanine C. Gierke, his wife, to Jayson Lund and Amy Lund, husband and wife, as joint tenants with the right of survivorship, and not as tenants in common, recorded in Document No. 376907, in the Office of the Recorder, McKenzie County, North Dakota, less and except any conveyance heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access

Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

d. Grantee will bury the pipeline laid hereunder with a cover of at least forty eight inches (48") from the top of the pipe to the surface of the ground except it shall be buried not less than twenty-four inches (24") through rock.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked,

Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages. In the event that the Grantor desires to cross under Grantee's pipeline with water lines or electrical lines, Grantor shall provide Grantee with the plans for such lines not less than ninety (90) days prior to the date that Grantor proposes to so cross Grantee's pipeline. To the extent that such plans provide that the lines proposed by Grantor shall cross Grantee's pipeline at an angle of not less than forty five (45) degrees and spacing of not less than twenty-four (24) inches below Grantee's pipeline, then Grantee agrees to locate the depth of its pipeline by hydro-evacuating to the top of Grantee's pipeline at the location where Grantor proposes to cross under Grantee's pipeline.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this

Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated January 22, 2015, is between **Robert L. Omlid**, whose mailing **Box 356 Watford City, ND 58854** (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty** inches (**30"**) in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 160.00 acres more or less, being situated in the Southwest Quarter of the Northeast Quarter (SW1/4NE1/4), West Half of the Southeast Quarter (W1/2SE1/4), and Southeast Quarter of the Southwest Quarter (SE1/4SW1/4), Section 21, Township 150 North, Range 97 West, McKenzie County, North Dakota, more particularly described in Warranty Deed dated 3/2/2001 from Theodora K. Anderson, Personal Representative of the Estate of Josephine W. Shafer; M. Heard Family Partnership, Ltd., dated 2/29/1996; Charles Shafer, John P. McCormick, William H. McCormick, Kelly J. Schumacher NKA Kelly J Schaw, Jackie F. McCormick, and Teri A. McCormick NKA Terry McCormick Stephens, to Robert L. Omlid, recorded in Document Number 339131, Office of the Register of Deeds, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated FEBRUARY 6, 2015, is between Alan Bruins and Sheri Bruins, as joint tenants and not as tenants in common, whose mailing 2962 134th Avenue Northwest, Arnegard, ND 58835 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows.

All that certain lot, tract or parcel of land, containing 134.28 acres more or less, being situated in the Southwest Quarter (SW1/4), excepting therefrom Auditor's Irregular Tract No's. 1068, 1011 and 1111, Section 22, Township 150 North, Range 97 West, McKenzie County, North Dakota, more particularly described in Warranty Deed dated 10/3/1991 from Ralph Thomas a/k/a Ralph D. Thomas and Ramona Thomas, husband and wife, to Alan Bruins and Sheri Bruins, as joint tenants and not as tenants in common, recorder in Document Number 311964, Office of the Register of Deeds, McKenzie County, North Dakota, less and except any conveyances hereto fore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

SB GJB

98
21

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

SB CBB

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

SB [Signature]

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the easement by Grantee, its servants, agents or invitees, and the installation, use, maintenance, repair or removal of the pipelines by Grantee and such persons acting on its behalf, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

MEMORANDUM OF PIPELINE EASEMENT

THIS MEMORANDUM OF PIPELINE EASEMENT is to provide notice of that certain PIPELINE EASEMENT ("Easement") dated November 17th 2015, by and between Stenehjem Holdings, LLC formerly known as Judith H. Stenehjem (SLS) Limited Partnership, whose address is PO Box 607, Watford City, ND 58854 (hereinafter referred to as "Grantor," whether one or more), and Dakota Access, LLC, whose address is 1300 Main Street, Houston, Texas 77002 (hereinafter referred to as "Grantee").

PLEASE TAKE NOTICE AS FOLLOWS:

1. Capitalized terms contained herein and not otherwise defined herein shall have the meanings given to such terms in the Pipeline Easement.

2. The Pipeline Easement grants to Grantee a Right-of-Way for the purposes constructing, maintaining, repairing, and removing at will one steel crude oil transmission pipeline not to exceed thirty inches (30") in diameter together with all fittings, cathodic protection equipment, pipeline markers, and all other equipment, facilities, and appurtenances used or useful in connection with the foregoing pipeline (collectively "Pipeline Facilities"), along routes convenient for Grantee's operations, on, over, under, across and/or through certain land in the following tracts ("the Premises") located in McKenzie County, State of North Dakota:

Parcel 1:

Township 150 North, Range 100 West

Section 13: NW $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, and the S $\frac{1}{2}$ SE $\frac{1}{4}$ North of RR

Parcel 2:

Township 150 North, Range 97 West

Section 21: E $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$

("Subject Lands") and more specifically described or depicted on the plat or survey attached as Exhibit A to this Memorandum of Pipeline Easement.

3. The Pipeline Easement grants to Grantee a 99-year easement for the Right-of-Way described and depicted in Exhibit A, as well as the right to use, on a temporary basis, workspace adjacent to the Right-of-Way so as to allow Grantee to exercise any of the rights granted to Grantee in the Pipeline Easement.

4. This Memorandum of Pipeline Easement is placed of record in the county in which the Subject Lands are located for the purpose of placing all persons on notice of the existence of the Pipeline Easement.

5. An executed copy of the Pipeline Easement with all exhibits attached is on file in the office of the Grantee at the above-referenced address.

AP
24

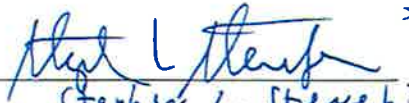

6. The terms and conditions of the Pipeline Easement are incorporated by reference into this Memorandum of Pipeline Easement as if fully set forth herein.

7. This Memorandum of Pipeline Easement is executed by Grantee as of the date of the acknowledgment of the signature below, but is effective for all purposes as of the date of the Pipeline Easement.

EXECUTED this 17th day of November, 2015.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated February 7th, 2015, is between Dale C. Jorgenson and Barbara Ann Jorgenson, husband and wife, as joint tenants and not as tenants in common, whose mailing address is 11542 Highway 23, Watford City, ND 58854, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 400 acres of land, more or less, situated in the North Half of the southeast Quarter (N1/2SE1/4), Section 22, and all of Section 23, all in Township 150 North, Range 97 West, McKenzie County, North Dakota, more particularly described in Warranty Deed dated 1/10/1966 from Fred Peterson, a Widower, and Sigvart Peterson, a Widower by Fred Peterson, his Attorney-in-Fact, to Dale C. Jorgenson and Barbara Ann Jorgenson, husband and wife, as joint tenants and not as tenants in common, recorded in Document Number 177094, Book 111 Page 549, Office of Register of Deeds, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the

Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated FEBRUARY 23, 2015, is between Delmer Rink and Marcelline Rink, husband and wife, whose mailing address is 10955 25th Street Northwest, Keene, ND 58847, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 347.42 acres of land, more or less, situated in the North Half (N1/2) and Northwest Quarter of the Southwest Quarter (NW1/4SW1/4), of Section 24, Township 150 North, Range 97 West, McKenzie County, North Dakota, more particularly described as all of Section 24 in Warranty Deed dated 5/8/1996 from Leroy S. Rink, also known as Leroy Rink, a single person, to Delmer Rink and Marcelline Rink, husband and wife, recorded under Document Number 324890, Office of Register of Deeds, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

af
11

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the

Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated July 11, 2015, is between Calvin L. Parrish a/k/a Calvin Parrish and Janette C. Parrish, husband and wife, and Nicole C. Parrish, whose mailing address is 2492 Beaver Creek Road, Watford City, ND 58854, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

41-NWNW 42-SWNW 43-NWSW
All that certain lot, tract or parcel of land, containing 497.81 acres of land, more or less, situated in Southeast Quarter of the Northwest Quarter (SE/4NW/4); Lot 1; Lot 4; Southeast Quarter of the Southwest Quarter (SE/4SW/4); Lot 3; Northeast of the Southwest Quarter (NE/4SW/4); South Half of the Northeast Quarter (S/2NE/4); and the Northeast Quarter of the Northeast Quarter (NE/4NE/4), all in Section 19, Township 150 North, Range 96 West, McKenzie County, North Dakota, more particularly described in Warranty Deed dated 3/5/1996 from Lloyd Parrish, a/k/a Lloyd F. Parrish, individually and as Conservator for Helen Parrish, to Calvin L. Parrish, a/k/a Calvin Parrish and Janette C. Parrish, husband and wife, and Nicole C. Parrish, recorded in Document Number 324405, County Recorder, McKenzie County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area

immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement and has also been paid for any future damage or loss of revenue for the prohibition or restrictions on mining of scoria, coal, and gravel within the boundaries of the Permanent Easement Property. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated November 12, 2015, is between William E. Jorgenson, whose mailing address is 11010 16th Street Northwest, Watford City, ND 58854 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a twenty five foot (25') wide non-exclusive, free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, and (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"). The Pipeline Easement and the Temporary Construction Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of (within the boundaries of the Pipeline Easement), abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 321.21 acres of land, more or less, situated in the E½NW¼; NW¼NW¼; and Lots 01, 02 and 05 in Section 23, also Lots 01 and 02 in Section 26, all in Township 148 North, Range 96 West, Dunn County, North Dakota, and as more particular described in Personal Representative's Deed of Distribution dated, December 30, 1998 from William E. Jorgenson as Personal Representative of the Estate of Einar Jorgenson, Deceased, to William E. Jorgenson, recorded on January 12, 1999 in Recorder's File Number 3000997; Book 122, page 354 in Dunn County Recorder's Office, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement and Temporary Construction Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as

determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 12.5' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee agrees that no permanent above ground appurtenances other than any required cathodic protection test leads, pipeline and aerial markers will be placed on Grantor's property unless mutually agreed to in writing. Grantee agrees to place such markers and test leads at property lines, fence lines, points of inflection, or foreign pipeline crossings when reasonable to do so.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry within the boundaries of the Pipeline Easement and Temporary Construction Easement (while in effect) for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. If Grantor erects any fences across the Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Pipeline Easement is locked, Grantor must supply Grantee with a key or allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement and the Temporary Construction Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Any payment tendered by Grantee to Grantor as consideration for this

agreement does not cover any actual damages that may arise from maintaining or repairing the pipeline after the initial construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement and the Pipeline Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement. Grantee shall use Grantee's best efforts to control by appropriate spraying with chemicals, if allowed by federal, state or local laws or regulations, clipping or other means all noxious weeds that grow within the pipeline right of way to the extent caused by Grantee's operations on or maintenance of the pipeline.

6. Grantor excepts from the Pipeline Easement and reserves to Grantor, rights to farm the Pipeline Easement and to graze livestock thereon. Grantor further reserves the right to build and maintain fences, terraces, power lines, and pipelines across the Pipeline Easement as well as the right to fully use and enjoy the said premises in any manner on the Pipeline Easement except for the purposes granted to the said Grantee. Grantor reserves the right to convey similar rights and privileges to such other persons and at such other times as Grantor may so desire; provided that such additional rights and privileges granted shall be exercised in a reasonable manner so as not to interfere with the rights of Grantee herein.

7. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

8. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

9. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

10. Grantee agrees to furnish Grantor any cultural artifacts, unearthed as a result of Grantee's construction activities on Grantor's property.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement shall be in perpetuity, and provisions

of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 12 day of Nov, 2015.

GRANTOR:

William E. Jorgenson

ACKNOWLEDGMENT

State of North Dakota
County of Dunn)ss

BEFORE ME, the undersigned authority, on this day personally appeared William E. Jorgenson, known to me to be the person(s) whose name is subscribed to the foregoing instrument and acknowledged to me that he/she/they executed the same for the purposes and consideration therein expressed.

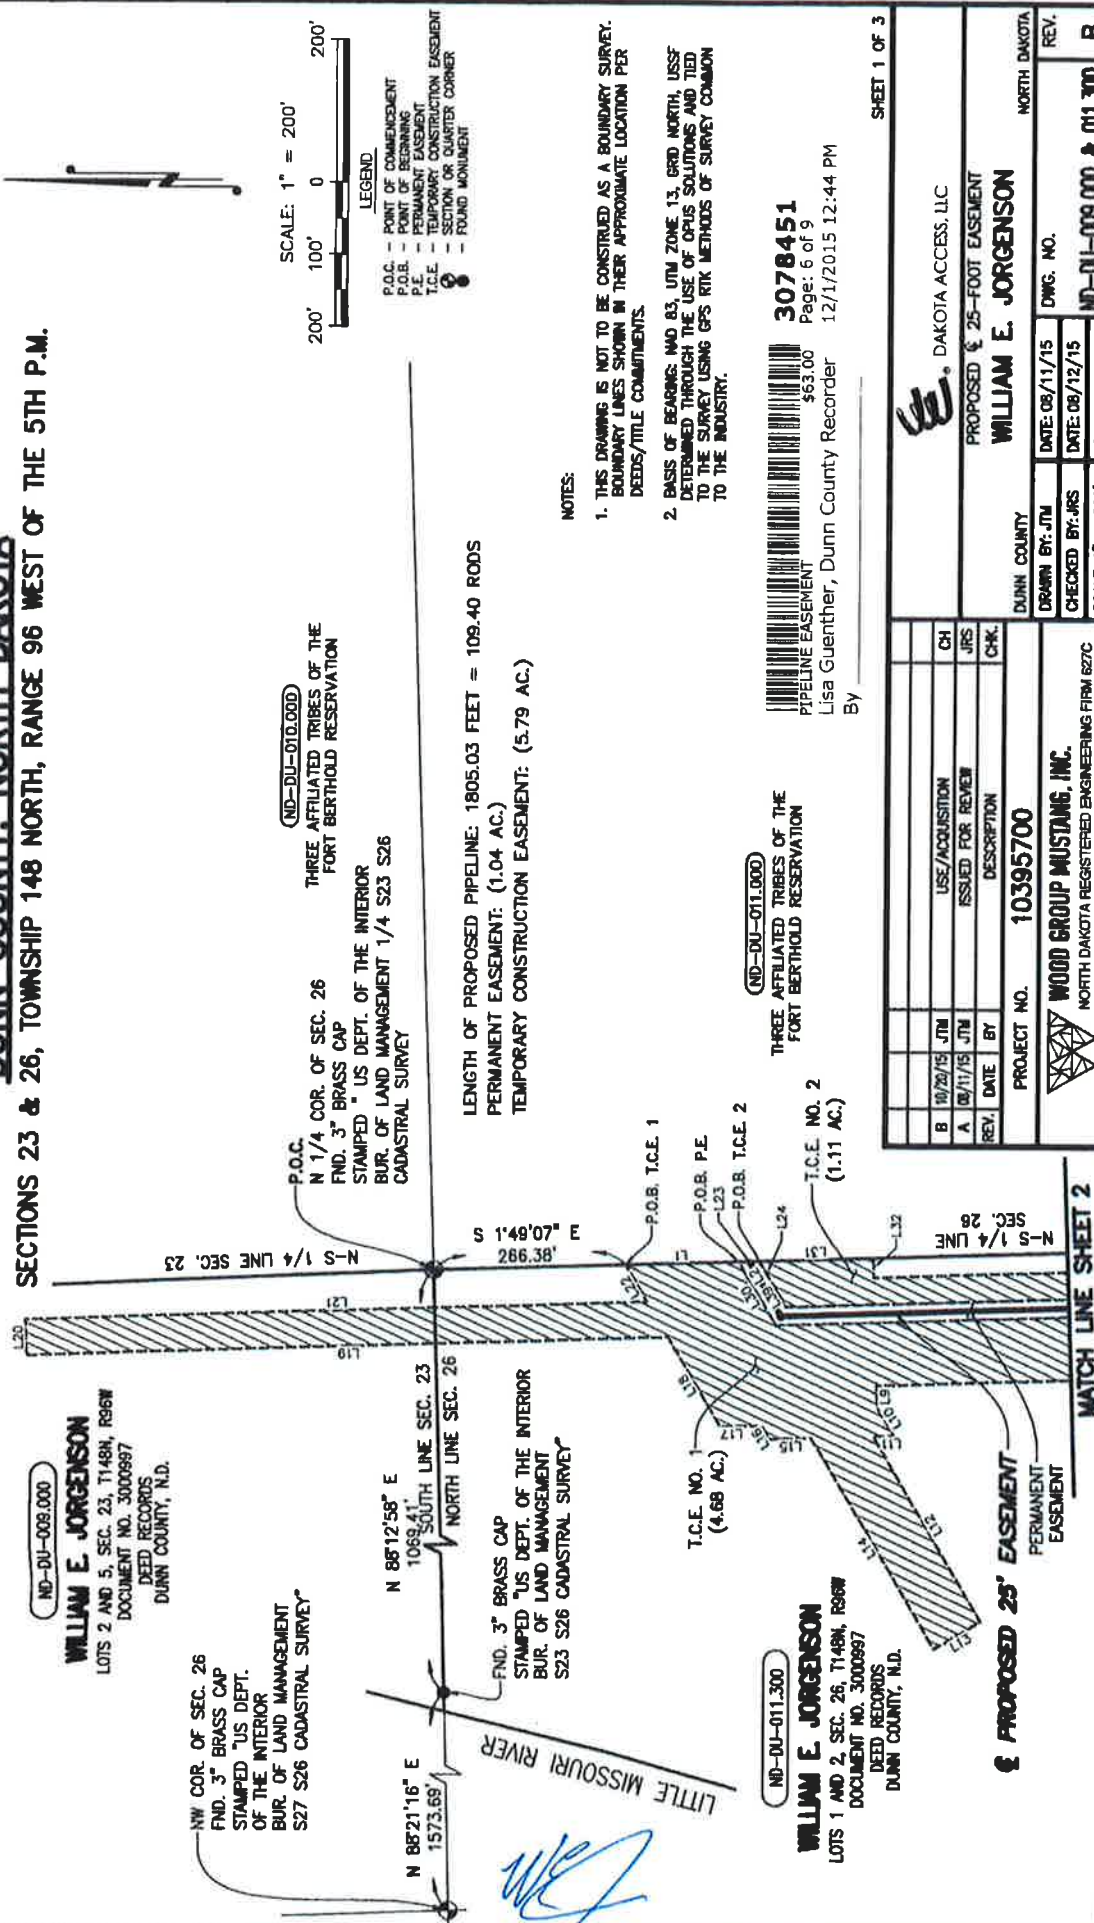

IN TESTIMONY WHEREOF, I have hereunto set my hand and official seal this 12
day of November, 2015.

DUNN COUNTY, NORTH DAKOTA

SECTIONS 23 & 26, TOWNSHIP 148 NORTH, RANGE 96 WEST OF THE 5TH P.M.

Permanent Easement Description

A 25.0 foot wide Permanent Easement:

That part of Lots 1 and 2 of Section 26, Township 148 North, Range 96 West of the 5th P.M., Dunn County, North Dakota, described as Commencing at a 3 inch brass cap stamped "US DEPARTMENT OF THE INTERIOR BUR OF LAND MANAGEMENT 1/4 S23 S26 CADASTRAL SURVEY" found at the North Quarter corner of said Section 26, thence S01°49'07"E 423.63 feet along North Quarter line of said Section 26 and the William E. Jorgenson parcel as recorded in Document No. 3000997, Deed Records, Dunn County, to the Point of Beginning. Thence continuing S01°49'07"E 28.59 feet along Easterly line of said Jorgenson parcel to a point; thence S59°09'21"W 73.47 feet along the Southeasterly side of said permanent easement to a point, thence S01°52'56"E 933.76 feet to a point; thence S01°33'18"E 778.86 feet to a point on the South line of said Jorgenson parcel from which the East Quarter corner of Section 26 bears S83°02'33"E 2739.14 feet; thence N78°31'36"W 25.56 feet along the South line of the said Jorgenson parcel to a point; thence N01°33'18"W 773.46 feet along the Westerly side of said permanent easement to a point; thence N01°52'56"W 948.43 feet to a point; thence N59°09'21"E 102.08 feet to the Point of Beginning. Said permanent easement contains 1.04 acres, more or less.

Temporary Construction Easements (T.C.E.)

Temporary Construction Easement #1: That part of Lots 1 and 2 of Section 26 and Lots 2 and 5 of Section 13, Township 148 North, Range 96 West of the 5th P.M., Dunn County, North Dakota, described as Commencing at a 3 inch brass cap stamped "US DEPARTMENT OF THE INTERIOR BUR OF LAND MANAGEMENT 1/4 S23 S26 CADASTRAL SURVEY" found at the North Quarter corner of said Section 26, thence S01°49'07"E 266.38 feet along North Quarter line of said Section 26 and the William E. Jorgenson parcel as recorded in Document No. 3000997, Deed Records, Dunn County, to the Point of Beginning. Thence continuing S01°49'07"E 157.25 feet along Easterly line of said Jorgenson parcel to a point; thence S59°09'21"W 102.08 feet along the Southeasterly side of said temporary construction easement to a point, thence S01°52'56"E 948.43 feet to a point; thence S01°33'18"E 75.04 feet to a point from which the East Quarter corner of Section 26 bears S69°28'18"E 2950.42 feet; thence S88°07'04"W 112.07 feet along the Southerly side of the said temporary construction easement to a point; thence N01°52'56"W 250.00 feet along the Westerly side of said temporary construction easement to a point; thence N88°07'04"E 25.00 feet to a point; thence N01°52'56"W 636.62 feet to a point; thence S88°07'04"W 30.69 feet to a point; thence S59°09'21"W 44.51 feet to a point; thence N01°52'56"W 28.57 feet to a point; thence S59°09'21"W 295.82 feet to a point; thence N30°50'39"W 75.00 feet to a point; thence N59°09'21"E 337.33 feet to a point; thence N01°52'56"W 57.15 feet to a point; thence N59°09'21"E 22.44 feet to a point; thence N01°52'56"W 57.15 feet to a point; thence N59°09'21"E 142.87 feet to a point; thence N01°52'56"W 322.99 feet in passing the North Section line of Section 26 and the South Section line of Section 23 to a total distance of 886.30 feet to a point; thence N88°07'04"E 50.00 feet to a point; thence S01°52'56"E 563.39 feet in passing the South Section line of Section 23 and the North Section line of Section 26 to a total distance of 858.63 feet to a point; thence N59°09'21"E 59.42 feet to the Point of Beginning. Said temporary construction easement contains 4.68 acres, more or less.

Temporary Construction Easement #2: That part of Lots 1 and 2 of Section 26, Township 148 North, Range 96 West of the 5th P.M., Dunn County, North Dakota, described as Commencing at a 3 inch brass cap stamped "US DEPARTMENT OF THE INTERIOR BUR OF LAND MANAGEMENT 1/4 S23 S26 CADASTRAL SURVEY" found at the North Quarter corner of said Section 26, thence S01°49'07"E 452.22 feet along North Quarter line of said Section 26 and the William E. Jorgenson parcel as recorded in Document No. 3000997, Deed Records, Dunn County, to the Point of Beginning. Thence continuing S01°49'07"E 157.68 feet along Easterly line of said Jorgenson parcel to a point; thence S88°07'04"W 26.60 feet to a point, thence S01°52'56"E 636.62 feet along the Easterly side of said temporary construction easement to a point; thence N88°07'04"E 25.00 feet to a point; thence S01°52'56"E 250.00 feet to a point from which the East Quarter corner of Section 26 bears S68°48'09"E 2869.32 feet; thence S88°07'04"W 62.93 feet along the Southerly side of the said temporary construction easement to a point; thence N01°33'18"W 74.97 feet along the Westerly side of said temporary construction easement to a point; thence N01°52'56"W 933.76 feet to a point; thence N59°09'21"E 73.47 feet to the Point of Beginning. Said temporary construction easement contains 1.11 acres, more or less.

PROJECT: DAPL/Dakota Access Pipeline 30"

TRACT NUMBER: ND-DU-014.000

PARCEL ID: 012283000, 012284.000

COUNTY: Dunn

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 5th OCTOBER, 2015, is between Rodney D. Wolf and Verna L. Wolf, as Trustees of the Rodney D. Wolf and Verna L. Wolf Family Surface Trust, whose mailing address is Box 191, Killdeer, ND 58640, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 219.50 acres of land, more or less, situated in Lot 3, Lot 4 and Lot 8 and the West half of the Southwest Quarter (W1/2SW1/4), Southeast Quarter of the Southwest Quarter (SE1/4SW1/4) of Section 26, all in Township 148 North, Range 96 West of the 5th P.M., Dunn County, North Dakota, and as more particular described in Quit Claim Deed dated, September 19, 2014 from Rodney D. Wolf and Verna L. Wolf, husband and wife, to Rodney D. Wolf and Verna L. Wolf, as Trustees of the Rodney D. Wolf and Verna L. Wolf Family Surface Trust, recorded on October 22, 2014 in Recorder's File No. 3073741 in Dunn County Recorder's Office, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee shall not allow salt water or carbon dioxide (other than incidental quantities) to pass through the pipeline.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. Except in the event of an emergency, Grantee will provide Grantor or its tenant with reasonable prior notice before accessing his/her property for the purpose of constructing, maintaining, or operating the pipeline.

5. Grantee agrees to consult with Grantor prior to construction for the purposes of notifying Grantor of the proposed construction schedule and methods of construction.

6. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

7. Grantee agrees to not conduct construction activity on Grantor's property prior to March 31, 2016 with the exception of Grantee's use of the Easements for the installation of the pipeline by the method of horizontal directional drill across the Little Missouri River.

8. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

9. Grantee agrees to furnish Grantor any cultural artifacts, unearthed as a result of Grantee's construction activities on Grantor's property. Grantee shall have the right, but not obligation, to analyze, document, and assess such artifacts prior to providing same to Grantor.

10.. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

11. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not

interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

12. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

13. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

14. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

15. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

16. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

17. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

18. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

19. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

20. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

21. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

22. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 5th day of OCTOBER, 2015.

COUNTY: Dunn

SURFACE/VALVE/POWER LINE EASEMENT

This Surface/Valve/Power Line Easement Agreement ("Agreement"), dated as of the 11 day of December, 2015, is between Fred Kershnik and Cheri Kershnik, husband and wife (hereinafter referred to as "Grantor", whether one or more), whose mailing address is P. O. Box 117, Killdeer, ND 58640, and Dakota Access, LLC, a Delaware limited liability company (hereinafter referred to as "Grantee"), whose mailing address is 1300 Main St., Houston, Texas 77002. Grantor represents and warrants that it owns that certain real property located in Dunn County, North Dakota and legally described on Exhibit A attached hereto and made a part hereof (the "Property") and that it has full right and power to grant and convey the surface easement, power line easement, access easement and other interests as herein provided. For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells, conveys and transfers unto Grantee (i) a fifty foot by seventy-five foot (50' x 75') surface site, (the "Surface Easement"), such Surface Easement to be used for valves, risers, meters, pumps, electric facilities and lines, and associated pipeline facilities, (ii) access easements not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement (the terms "Pipeline Easement and Temporary Construction Easement" shall be as defined and set forth in that certain Easement Agreement dated December 11, 2015, by and between Grantor and Grantee which relates to Grantor's Property) and not to exceed fifty feet (50') in width for access to and from the above described Surface Easement ("Access Easement"), such Access Easement to be used for ingress and egress, power lines and electric transmission or generation lines as may be needed to supply power to the facilities located on the Surface Easement, and (iii) a power line easement for power lines and electric transmission or generation lines as may be needed to supply power to the facilities located on the Surface Easement (the "Power Line Easement"), such Power Line Easement shall be located within the boundaries of the Pipeline Easement and

the Access Easement. The Surface Easement, the Power Line Easement, and the Access Easement shall be hereinafter collectively referred to as the "Easements" are more particularly described and/or depicted on the attached "Exhibit "A", are being granted and conveyed from Grantor to Grantee, and are to be located in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

W½, SE¼, and NE¼, in Section 35, and Lots 01, 02, 03, and 04, in Section 02, all located in Township 147 North, Range 96 West, County of Dunn, State of North Dakota, more particularly described in Warranty Deed dated June 24, 1996 from Dorotha O. Pelton a/k/a Dorotha Pelton a/k/a Dot Pelton, to Fred Kershnik and Cheri Kershnik, recorded under Document Number 3005781, Deed Records, Dunn County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Property showing the approximate locations of the Easements. Within one hundred eighty (180) days following the completion of construction of the facilities to be located within the Easements, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed Surface Easement, Access Easement, Power Pole Easement and other facilities as determined by an as-built survey, and (b) provide the legal description of the Easements. Grantor hereby agrees that Grantee shall have the right and is hereby authorized, with or without the joinder of Grantor, to attach Exhibit A-1 to an affidavit, to amend this Agreement to include Exhibit A-1, or to attach Exhibit A-1 to this Agreement, and to record or re-record, as the case may be, such affidavit, amendment or Agreement with Exhibit A-1 attached thereto. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. TO HAVE AND TO HOLD said Easements until the first facility of Grantee is constructed thereon and shall extend for a period of (i) ninety nine (99) years in accordance with North Dakota law, or (ii) so long thereafter as any such facility is maintained on said Easements, whichever is less, together with all rights, amenities, privileges and appurtenances thereunto belonging in any manner related to the purposes of this grant, together with the right to assign in whole or in part, the right of ingress and egress over and across the tract of land out of which the hereinabove particularly described tract or parcel of land is a part of, as necessary or convenient for the full enjoyment or use of the rights herein granted unto the said Grantee, its successors and assigns, for the purpose of constructing, maintaining, operating, removing, changing the size of (in connection with maintenance or repair), relocating (n connection with maintenance or repair), replacing (in connection with maintenance or repair), protecting, and repairing dehydrators, separators, valves, electrical lines, wires, cables, meters, meter houses, meter runs and any and all other devices, equipment and structures incident or necessary to the regulation, control, measurement, treatment, transportation and distribution of oil, together with the right to enclose said Surface Easement by fences and the further right, at the expiration of the use of said Easements for one or more of such purposes, to retain possession and control of said property for a reasonable period of time of not less than two (2) years thereafter within which to remove said facilities and all other properties of whatever character or description placed or constructed by said Grantee upon said Easements at any time hereunder. Grantor binds itself, its heirs, executors and administrators, successors and assigns, to warrant and forever defend all and singular said Easements unto Grantee, its successors and assigns, against every person whomsoever, claiming or to claim the same or any part thereof. The rights herein granted may be assigned together or separately and in whole or in part to any other person, firm or corporation.

2. Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Easements to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. Grantee shall have the right to install gates and fencing around the surface site.

3. If Grantor erects any fences across the Access Easement or Power Line Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow

Page 2 of 4

Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Easements. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the facilities.

5. If the Easements in conjunction with the Pipeline Easement are abandoned by Grantee for non-use for a period of twenty four consecutive months from the initial construction of the Easements, this agreement becomes null and void and will be released of record. The abandonment of the Easements does not however relieve Grantee of any liability regarding the Easements. Upon abandonment, Grantee shall make every effort to render the surface site clean and safe for its future dormancy.

6. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee.

7. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

8. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, death, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees. **GRANTEE SHALL INDEMNIFY, DEFEND AND HOLD HARMLESS GRANTOR, GRANTOR'S HEIRS, SUCCESSORS, ASSIGNS, TRANSFEREES, EMPLOYEES, AGENTS, LESSEES, CONTRACTORS, SUBCONTRACTORS, AS WELL AS TRUSTEES, BENEFICIARIES, RELATIVES, PARTNERS, OFFICERS, DIRECTORS AND RELATED OR AFFILIATED ENTITIES FROM AND AGAINST ANY LOSS, LIABILITY, COST, EXPENSE OR CLAIM ARISING FROM THE INCURRING OF COSTS OF REQUIRED REPAIRS, CLEAN UP, OR DETOXIFICATION AND REMOVAL UNDER ANY HAZARDOUS MATERIAL LAW WHICH MAY RESULT FROM GRANTEE'S ACTS OR OMISSIONS ON GRANTOR'S LANDS, OR GRANTEE'S OPERATIONS THEREON. SPECIFICALLY EXCLUDED FROM THE FOREGOING INDEMNITEES IS ANY CLAIM FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OR ANY CLAIM FOR THE DISCOVERY OF ADVERSE ENVIRONMENTAL CONDITIONS NOT CAUSED BY GRANTEE. IT IS FURTHER EXPRESSLY AGREED AND UNDERSTOOD THAT ABOVE INDEMNITY IS NOT INTENDED TO PROTECT GRANTOR FROM GRANTOR'S OWN NEGLIGENCE OR WILLFUL MISCONDUCT. THE OBLIGATIONS OF GRANTEE HEREUNDER SHALL SURVIVE THE TERMINATION OF THE PIPELINE RIGHT-OF-WAY FOR A PERIOD OF TIME EQUAL TO THE STATUTE OF LIMITATIONS APPLICABLE TO THE RESPECTIVE OBLIGATION.**

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 16 - 13, 2015, is between Bruce G. Brandvik, as Attorney-in-Fact for Mavis Brandvik whose mailing address is 10789 Highway 22, Killdeer, ND 58640 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities described as facilities directly necessary and related to operation and maintenance of the Pipeline , in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

- Township 147 North, Range 96 West, Dunn County, North Dakota
- Section 02: S½; S½NW¼
- Section 11: ALL
- Section 13: ALL
- Section 14: NW¼; N½NE¼
- Section 24: ALL, less Highway
- Section 25: W½

containing 2,871.07 acres, more or less, more particularly described in Warranty Deed dated April 04, 2006, from Morris A. Brandvik and Mavis Brandvik, husband and wife, to Morris A. Brandvik and Mavis Brandvik, husband and wife, as joint tenants and not as tenants in common, recorded under Document Number 3017248, in the Office of the Recorder, Dunn County, North Dakota, less and except any conveyances heretofore made.

PIPELINE EASEMENT

\$49.00

By _____

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. Appurtenant facilities shall be defined for the purposes of this Easement Agreement as any facilities directly necessary for the construction, operation and maintenance of the Pipeline and specifically excludes any hazardous waste storage and residential housing of any kind. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Construction shall commence within three (3) years after receipt of all permits necessary to construct the pipeline. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Grantee agrees to bury and locate the above referenced thirty (30) inch pipeline not less than four (4) feet below the surface of the land.

3. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. However, Grantee shall make reasonable effort to mitigate damages to and restore any water sources on the land including, but not limited to, lakes, ponds, streams, rivers, springs, or wells.

By _____

4. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to the construction, operation and maintenance of the Pipeline, to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance. Any Access Easements will be, where possible, located on existing roads, paths or trails and the Pipeline Easement and may not otherwise be located across cultivated land. Grantee shall be responsible for all improvements and maintenance on said Access Easements at their sole expense for so long as they should use said Access Easements. Once Grantee has stopped using these Access Easements, said Access Easements shall be left for the use of the Grantor. After the pipeline has been fully constructed, Grantor, their tenants, agents, successors and assigns and anyone with their permission may use and travel upon these Access Easements; provided, however, the entity causing any damages to the Access Easement shall be solely responsible for the immediate repair of such damages.

5. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Grantor reserves the right to seek reimbursement for any post construction damages, surface or otherwise, to property located outside of the boundaries of the easements at any time thereafter. Grantee shall additionally compensate Grantor for any damages outside of the designated Easement Areas which are a direct result of Grantee's actions during construction, or at any other time. The said additional compensation, such as but not limited to crop damage, crop loss, or pasture loss will be at fair market value.

6. During construction of the pipeline and Access Easements, Grantee shall separate the topsoil and subsoil affected by such construction and restore the land so affected back to its original condition. Grantee shall be required to keep the property at all times free and clear of any debris, garbage, and trash. Any rocks 4" or greater in diameter dug up or removed on cultivated or non-cultivated land must be stock piled adjacent to the boundaries of the Pipeline Easement in a separate area on non-cultivated land designated by the Grantor.

7. Grantee shall use standard engineering practices for regularly monitoring pipeline integrity. In case of an emergency, Grantee shall notify Grantor of the emergency and appropriate response plan.

8. Grantee shall adhere to all applicable state, federal, administrative, and local statutes and regulations, including environmental statutes and regulations, in the building, operating, and maintenance of this Pipeline and any appurtenant facilities related thereto.

9. Grantee, its agents, successors, assigns, employees, etc. shall be expressly prohibited from hunting, fishing, camping, or participating in any type of recreation on the land and Easement Areas.

10. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement. Grantee shall reclaim and maintain the Easement Areas after construction, seeding grass, filling in any cave-ins, restoring any wind and/or water erosion, and shall spray and control noxious weeds as may be provided in the North Dakota Reclamation regulations established for Grantee's Pipeline. Said

reclamation needs to be completed within a reasonable period after completion of construction of said Pipeline as provided in said reclamation regulations. Should Grantee fail to reclaim or maintain the Easement Areas after receipt of not less than sixty (60) days prior notice unless a force majeure event requires a longer period, Grantor may arrange and pay for such reclamation or maintenance and Grantee shall be responsible to reimburse Grantor for such actual expense.

11. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

12. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

13. Grantee has the right to trim and/or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successor and assigns, as may be necessary to prevent possible interference with the rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

14. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

15. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

By _____

16. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

17. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees. Grantee shall indemnify, defend and hold harmless Grantor from any and all claims, demands, cause of action, or liability for damages, loss or injuries that may arise out of the negligent acts or omissions of Grantee in carrying out its operations on the land. Grantor shall not be responsible, nor be held liable in any way, for the environmental problems or damages created by, or resulting from the negligent acts or omissions of Grantee in carrying out its operations upon said lands. Grantee agrees to comply with all federal, state and local regulations. Grantee agrees to indemnify and hold harmless the Grantor from any and all environmental liability, claims, and/or damages caused by the negligent acts or omissions of Grantee in carrying out its maintenance, construction or operations. Grantee shall pay any and all costs of environmental remediation to remediate those environmental damages so caused by Grantee.

18. Should Grantee fail to lay a Pipeline within five (5) years from the date that Grantee has acquired all permits necessary to construct the Pipeline, the Easement is considered abandoned, and said Easement is terminated. If a Pipeline is constructed on said Easement, but no permissible substance, as specified within this Agreement, has flowed through said Pipeline at any time for a period of two (2) years, said Pipeline is considered abandoned, the Easement is terminated, and the Grantee must remove any and all pipeline structures and appurtenant facilities erected upon said Easement premises, and the reclamation provisions of the North Dakota Reclamation regulations established for Grantee's pipeline and time lines therein shall govern.

19. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in force for a period of 99 years, and provisions of this Agreement, including all benefits and burdens, shall run with the land for that term, unless terminated pursuant to the terms set forth herein. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

20. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

21. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws. The parties agree that any legal dispute shall be venued in the Southwest Judicial District of North Dakota State District Court, County of Dunn.

22. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

23. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

24. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 13th day of Oct., 2015.

EXHIBIT H-4(b)

Reroute Location 52

AMENDMENT TO EASEMENT AGREEMENT

THE STATE OF NORTH DAKOTA)

COUNTY OF DUNN)

THIS AGREEMENT, made and entered into as of this 3 day of FEB , 2016, by and between DAKOTA ACCESS, L.L.C. (hereinafter referred to as "Grantee"), and Dylane Klatt and Darvey Klatt, hereinafter referred to as "Grantor" whether one or more.

WITNESSETH:

WHEREAS, by instrument dated August 13th, 2015 recorded under document number 3077861 of the County Recorder Records of Dunn County, North Dakota, Grantor granted to Grantee, an easement (the "Easement") on, over and across certain lands in Dunn County, North Dakota for the right to lay, maintain, operate, replace, repair and remove one pipeline only within a fifty foot easement for the transportation of oil and natural gas and/or liquid hydrocarbons, and substances produced therefrom; and

WHEREAS, Grantor and Grantee have agreed to a change in the location of the pipeline and desire to amend language in the Easement pertaining to such change.

NOW, THEREFORE, for and in consideration of \$10.00 and other good and valuable consideration, Grantor and Grantee hereby agree to amend the Easement by deleting therefrom the Exhibit A attached thereto and substituting therefor the Exhibit A attached hereto which shows the relocated location of the pipeline easement. The parties further agree that within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, or to amend this Agreement to include such new Exhibit A-1, and to record or re-record such affidavit, or amendment with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, or recorded amendment.

Except as amended herein, the Agreements shall remain in full force and effect as written.

IN WITNESS WHEREOF, this instrument is duly executed this 3rd day of February, 2016.

AMENDMENT TO EASEMENT AGREEMENT

THE STATE OF NORTH DAKOTA)
COUNTY OF DUNN)

THIS AGREEMENT, made and entered into as of this 3rd day of Feb., 2016, by and between DAKOTA ACCESS, LLC, (hereinafter referred to as "Grantee"), and Dylane Klatt, hereinafter referred to as "Grantor" whether one or more.

WITNESSETH:

WHEREAS, by instrument dated July 31st, 2015 recorded under document number 3077862 of the County Recorder Records of Dunn County, North Dakota, Grantor granted to Grantee, an easement (the "Easement") on, over and across certain lands in Dunn County, North Dakota for the right to lay, maintain, operate, replace, repair and remove one pipeline only within a fifty foot easement for the transportation of oil and natural gas and/or liquid hydrocarbons, and substances produced therefrom; and

WHEREAS, Grantor and Grantee have agreed to a change in the location of the pipeline and desire to amend language in the Easement pertaining to such change.

NOW, THEREFORE, for and in consideration of \$10.00 and other good and valuable consideration, Grantor and Grantee hereby agree to amend the Easement by deleting therefrom the Exhibit A attached thereto and substituting therefor the Exhibit A attached hereto which shows the relocated location of the pipeline easement. The parties further agree that within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, or to amend this Agreement to include such new Exhibit A-1, and to record or re-record such affidavit, or amendment with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, or recorded amendment.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 12 December, 2014, is between Marlin Rohde, whose mailing address is 931 91ST Avenue Southwest, Halliday, ND 58636, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 480 acres of land, more or less, situated in the N1/2 and SW1/4 of Section 13, Township 146 North, Range 95 West, Dunn County, North Dakota, more particularly described in Warranty Deed dated February 12, 2007 from Margery Tercek fka Margery A. Willer, a single woman and Alan Willer, as single man to Marlin Rohde, recorded under Document No. 3021192, Office of the Recorder, Dunn County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

amr

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

EASEMENT

By _____

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

AMR

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated November 27, 2015, is between George S. Tuhy and Gertrude Tuhy, husband and wife, Seller; Robert Steven Tuhy, a single person, Buyer, whose mailing address is 20 99th Avenue Northwest, Dunn Center, ND 58626 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 1097.84 acres of land, more or less, North Half (N/2) and the Southeast Quarter (SE/4) of Section 24, Township 146 North, Range 95 West, Dunn County, North Dakota and all of Section 19, Township 146 North, Range 94 West, Dunn County, North Dakota more particularly described in Quit Claim Deed dated July 30, 2013 from Theresa Tuhy, a single person, to Robert Steven Tuhy, a single person, recorded under Document No. 3067205, Official Public Records, Dunn County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

By _____

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. This agreement is subject to the terms and conditions of Exhibit B attached hereto.

EXECUTED this 27 day of November, 2015.

**EXHIBIT B
TO
EASEMENT AGREEMENT**

George S. Tuhy and Gertrude Tuhy, husband and wife, Sellers; Robert Steven Tuhy, a single person, Buyer, herein referred to as “GRANTOR”

Dakota Access, L.L.C. - herein referred to as “GRANTEE”

REGARDLESS OF LANGUAGE TO THE CONTRARY CONTAINED IN THE EASEMENT AGREEMENT THE FOLLOWING SHALL CONTROL:

Definitions:

“GRANTOR” means **George S. Tuhy and Gertrude Tuhy, husband and wife, as Sellers; Robert Steven Tuhy, a single person, as Buyer,** their employees, agents, contractors and invitees.

“GRANTEE” means **Dakota Access, L.L.C.,** its employees, agents, contractors, and invitees.

“Easement Corridor” or “Pipeline Corridor” means that area lying within the easement boundaries here granted.

PIPELINE INSTALLATION DAMAGES: GRANTEE shall be responsible for all damages caused by it during and after the installation of the pipeline contemplated by the Easement Agreement.

PIPELINE: This Exhibit B provides GRANTEE the privilege to lay, construct, maintain, operate, repair, replace, inspect, and remove one pipeline contemplated by the Easement Agreement.

1. **Number of Pipeline(s), Easement Width and Depth:** Installation and easement is limited to one pipeline within the easement corridor, installed no less than forty eight inches (48”) from the top of the pipe to the surface of the ground, together with necessary underground fittings, appliances and associated equipment.
2. **Consultation:** GRANTOR and GRANTEE agree that any pipeline to be constructed under the terms of this Agreement shall be in consultation with the GRANTOR.
3. **Route and Map Incorporation:** The route of the pipeline shall be pre-determined before construction shall begin. A map shall be attached to and incorporated herein for the purpose of the proposed pipeline route; this route may be changed upon GRANTEE’s consultation with and written approval of GRANTOR.

Page: 8 of 17
1/6/2016 3:00 PM

4. **Construction Start Date:** intentionally omitted.
5. **Time by which construction must be completed:** GRANTEE agrees to construct and install the pipeline within the Easement Corridor no later than **December 31, 2020**. If the pipeline is not constructed during this time period, the GRANTEE will be deemed to have abandoned the rights to construct the pipeline; and this Easement will terminate.
6. **Term of Agreement and Term Extension:** The duration of this Easement shall be for ninety-nine (99) years.
7. **Compensation:** GRANTEE has agreed to compensate GRANTOR a specific monetary sum for the usual, ordinary and expected damages incurred during the installation of a pipeline and reclamation of the pipeline corridor and access points including pasture damages resulting from GRANTEE's initial construction of the pipeline for the first three (3) years following the completion of construction. GRANTEE shall compensate GRANTOR for future loss, if any, as provided in Paragraph 11 below; and extra-ordinary and unexpected damages.
8. **Tenant/Farmer Direct Payment:** intentionally omitted.
9. **Payment for Additional Disturbances:** GRANTEE shall pay GRANTOR for any entry after initial construction of the pipeline that results in additional surface damages, including damages to crops, grasslands or livestock or improvements.
10. **Nonexclusive easement:** This easement is nonexclusive. GRANTOR shall be permitted to grant easements to others that parallel and/or cross GRANTEE's easement; however such future easements granted that run parallel to GRANTEE's easement shall not lie within the easement corridor here granted without GRANTEE's consent – which said consent shall not be unreasonably withheld. Any future easements granted by GRANTOR that cross the easement corridor must not unreasonably interfere with GRANTEE's use of its easement. GRANTOR reserves the right to farm, graze and otherwise fully use and enjoy the Easement Corridor, provided GRANTOR agrees not to construct or create any obstruction (including planted trees), structure, impound water, construct a canal or any other engineering work on the Easement Corridor that will interfere with the rights and interests of GRANTEE herein granted.
11. **Future loss:** GRANTEE shall be liable for any damage to GRANTOR and GRANTOR's property (whether real or personal) in excess of usual, expected and ordinary damage sustained during initial construction, installation, inspection, maintenance, repair, replacement, removal and reclamation of the pipeline(s). Such damage includes but is not limited to personal injury or death of GRANTOR; damage, injury or death to livestock; and damage to lands, within and adjacent to the easement corridor with the exception of pasture damages for the first three (3)

years resulting from initial construction of the pipeline. Said three year period shall commence upon the completion of initial construction of the pipeline.

- In the event such excess damage or injury is a result of GRANTEE's operations and/or activities, GRANTEE will pay reasonable compensation to GRANTOR for such loss.
- GRANTEE shall also be responsible for any damage caused by activities of its subcontractors during the construction, installation, inspection, maintenance, repair, replacement, removal and reclamation of said pipeline(s).

Nothing in this paragraph shall impose liability upon GRANTEE for the negligence, reckless or intentional acts of GRANTOR.

12. Hold Harmless and Indemnification: GRANTEE agrees to indemnify, defend and hold the GRANTOR harmless from the claims and demands of all parties arising out of its operations and/or activities relating to the construction, installation, reclamation, use, inspection and maintenance of the pipeline or easement corridor.

- The GRANTEE also undertakes and does hereby agree to defend, hold harmless and indemnify GRANTOR from any and all liability, costs, and attorney's fees the GRANTOR may suffer as a result of claims, demands, costs, or judgments against GRANTOR, arising out GRANTEE's activities and/or operations on GRANTOR's property, including but not limited to any environmental damage caused by the GRANTEE and GRANTEE's noncompliance with any environmental law, order, administrative law or rule, adopted or promulgated by the State of North Dakota or the United States of America, or any board, agency, or commission of either. This hold harmless and indemnification shall also include, but is not be limited to, any claims by contractors, subcontractors or others for money owed to them as a result of construction, installation, repair or maintenance of GRANTEE's pipeline or easement. This indemnification and hold harmless shall also include any award of damages against GRANTOR for acts of negligence, reckless or intentional conduct of GRANTEE, its employees or its agents.

Nothing in this paragraph shall impose liability upon GRANTEE for the negligence, reckless or intentional acts of GRANTOR.

13. Gates and Fencing: If GRANTOR should so desire, GRANTOR may place a fence capable of turning livestock across or adjacent to the easement corridor after the pipeline has been installed, provided that GRANTOR shall perform any such construction within the Easement in a safe manner.

14. **INGRESS and EGRESS TO PIPELINE FOR INSPECTION AND REPAIR:** GRANTEE shall make reasonable good faith efforts to notify GRANTOR in advance before accessing the pipeline for inspection and repair and shall use existing roads or trails or the pipeline corridor for ingress and egress to inspect or repair the pipeline, unless such ingress or egress required is due to an emergency, or GRANTOR is notified and gives consent to use other ingress and egress points.
15. **Notification of Surface Activities:** Before entering the GRANTOR's land, GRANTEE shall make good faith efforts to notify GRANTOR in advance of proposed, non-emergency activities to be conducted upon the surface of the said land.
16. **Daylighting of Pipeline:** Intentionally omitted.
17. **Surface structures:** GRANTEE agrees there shall be no above ground installations, surface equipment, structures or apparatus associated with the pipeline to be installed on the Easement without the express, written consent of GRANTOR, except pipeline markers test leads or rectifiers at fence lines, roadways, railroads, ditches and waterways, or as required by applicable law.
18. **Mineral Reservation, including Aggregates:** GRANTOR reserves all oil, gas, and other minerals on and under said lands, including, but not limited to gravel, clay and scoria that GRANTOR owns at the time GRANTOR executes this Easement Agreement.
19. **Commercial Deposits of Scoria, Sand and Gravel:** GRANTOR shall have the right to exploit and/or mine all commercial quantities of coal, scoria, gravel, sand and/or aggregates [hereinafter collectively "surface minerals"] on or under the lands described in the Easement; provided, however, this clause shall not serve to terminate or amend any existing mineral or materials leases.

Should GRANTEE'S pipeline interfere with GRANTOR's right to exploit or mine any surface minerals GRANTEE shall either:

- (i) Pay for the value of the surface minerals in place in lieu of GRANTOR exploiting and/or mining the same;
- it is the intent of the parties that GRANTOR be paid for surface minerals that cannot be exploited or mined as a result of the pipeline presence, not just surface minerals located only within the easement corridor.

- (ii) Exploit or mine to the satisfaction of GRANTOR the surface minerals before installation of the pipeline and stockpile the same on GRANTOR'S adjacent lands.
 - Should GRANTEE elect to exploit or mine and remove the material during the installation of the pipeline or at any time thereafter, it shall stockpile the minerals as noted above, and GRANTOR shall provide a location suitable for the stockpile at no cost to GRANTEE.

The Parties will enter into an agreement suitable for whichever above activity GRANTEE selects describing the rights and responsibilities of the Parties.

Before GRANTEE is required to pay under the provisions above, surface mineral(s) must be first mined in an area near or adjacent to the easement corridor and perform reasonable testing to confirm that the commercial vein of such surface mineral(s) lies within the pipeline corridor..

- 20. **Debris & Rocks:** GRANTEE shall remove all debris, pick rocks four (4") inches in diameter or larger brought to surface and either remove them or bury them at a location designated by GRANTOR, replace topsoil to as near preconstruction condition as possible, compact trench and restore the disturbed area. GRANTEE shall take immediate steps to remove or bury within sixty (60) days from date of written notice unless such period is extended with consent of GRANTOR.
- 21. **Control of Weeds:** GRANTEE shall employ timely efforts to control and prevent weeds from growing and going to seed on and in the pipeline corridor for a period of time required by Grantee's permits and authorizations but in no case less than three (3) growing seasons following reclamation of the pipeline corridor after the final pipeline is installed.
- 22. **Restoration of Disturbed areas:** All disturbed surfaces which are not tilled crop land will be re-seeded at GRANTEE's expense with either of the following as determined by GRANTOR:
 - (i) an approved local NRCS seed mixture; or
 - (ii) same seed as was growing in the area prior to disruption.

GRANTEE will seed and re-seed pasture and/or grasslands as often as necessary to establish a catch consistent with the condition of the pasture and/or grasslands prior to GRANTEE's entry upon the lands.

During construction and installation or maintenance or repair of the pipeline, topsoil shall be set aside and then replaced on the top of any disturbed land during

restoration or covering of trenches dug for installation, repair, maintenance, replacement or removal of any pipeline.

All tracks, ruts and equipment surface disturbances shall be removed by grading or filling in such tracks or ruts with topsoil.

23. Restoration Upon Abandonment: Upon final abandonment of the pipeline GRANTEE shall comply with all Local, State and Federal rules or regulations concerning the same. GRANTEE shall remain responsible for any hazardous or dangerous condition relating to the pipeline.

24. Miscellaneous:

- GRANTEE must comply with the North Dakota Environmental Construction Plan on file with the North Dakota Public Service Commission.
- GRANTEE will restore the surface to its original contour as nearly as practicable, the disturbance to which shall be occasioned by the construction, maintenance or operation of said pipeline under and through the above-described land.
- During reclamation GRANTEE shall keep right of way level with surrounding grade, fill in all washouts and or areas that have settled below surrounding grade with top soil supplied by GRANTEE.
- GRANTEE will take all steps reasonably necessary to prevent erosion of the easement corridor.
- Confidentiality provisions in the Pipeline Right of Way Grant, Release of Damages or payment agreement if any are hereby struck and void.
- GRANTOR must approve all fence repairs. Such approval will not to be unreasonable withheld.
- GRANTOR shall pay GRANTEE in the amount of two thousand dollars (\$2,000.00) for any bore pit utilized by Grantee in the initial construction of the pipeline.
- GRANTEE agrees that if a water flowing spring develops during and resulting from the construction of the pipeline, and the spring continues to flow or cause a wetland like area in otherwise agriculturally productive lands the GRANTEE shall pay for the total value of lost production and shall continue to pay per harvest year as long as the lands are not able to produce crop. The price paid shall be an amount equal to the total amount

of acres burdened by water damage multiplied by the commodity price of crop planted on adjacent acreage and the corresponding yield.

25. **Abandonment by nonuse:** If any of GRANTEE's pipeline(s) are abandoned by non-use, or by not maintaining the same as required by any applicable regulatory authority, for a period of thirty-six (36) consecutive months, this Easement Agreement becomes null and void and will be released of record and GRANTEE's rights to the same shall automatically, without out further action on the part of GRANTOR, revert to the GRANTOR.

- Upon abandonment as provided above, GRANTEE will make every effort to render pipeline clean and safe for dormancy.
- GRANTEE at its expense shall remove the pipeline from GRANTOR's property, if a local, state, or federal government agency or other governing regulatory body requires at any time that the pipeline is to be removed.

The provisions of the paragraph shall not apply for any period of time when such non-use or failure to maintain the pipeline is the result of enforcement or any governmental rule or regulation temporarily prohibiting the use of the pipeline.

26. **Right to Cure:** In the event GRANTOR deems or considers GRANTEE to be in default of any provision or requirement, GRANTOR shall provide written notice to GRANTEE of said default and GRANTEE shall then have **sixty (60)** days from receipt of said notice to commence to cure or contest the claimed default.

- A. The Pipeline trench must be fully backfilled and topsoil must be replaced on the Easement Corridor immediately following construction.
- B. Contractor must stay on the agreed Easement, existing lease roads or public highways during the construction phase under this Easement Agreement, unless otherwise consented to by GRANTOR;
- C. No livestock will be let out by GRANTEE. Gates, if any, shall remain closed at all times while GRANTEE is on the right of way. All permanent gates installed shall be steel gates; no wire gates. During initial construction, fence gaps shall be no wider than fifty (50) feet without additional pole support and shall in all cases have sufficient tension to turn back livestock.
- D. GRANTOR shall notify GRANTEE about the location(s) of a sinkhole (if any) that is located in the easement corridor, or caused by GRANTEE's

activities; and GRANTEE shall take immediate steps to fill in the sinkhole.

GRANTEE upon GRANTOR providing notice or contact concerning the above items shall make at a minimum contact with GRANTOR within 24 hours by telephone, email, facsimile transmission or in person acknowledging notice from or contact by GRANTOR.

27. **No warranty of title:** GRANTOR does not warrant or guarantee title to the easement granted. GRANTEE is put on notice that the easement may be subject to superior rights, including but not limited to rights of mineral development that precede this grant of easement.
28. **Attorney's fees:** Should GRANTOR engage legal counsel to enforce any provision of the Easement including this Exhibit, and should the Court rule in favor of the GRANTOR whether in whole or in part, GRANTEE shall be responsible for GRANTOR's reasonable attorney's fees and costs.
29. **GRANTEE's Current Contact Information for Purpose of Notice:** Should GRANTOR be required to provide notice or otherwise need to contact GRANTEE for any matter relating to this easement, GRANTEE may be notified and contacted at:

DAKOTA ACCESS, LLC
ATTN: Land and Right of Way
1300 Main Street
Houston, Texas 77002
Telephone: (713) 989-1000

30. **Notice:** If GRANTEE's contact information should change, GRANTEE shall promptly provide GRANTOR a change of mailing address, telephone number and email address to which GRANTOR may provide notice when required under this Agreement. Until GRANTOR receives such notice in writing from GRANTEE, notice to the above address shall be deemed sufficient for purposes of this Agreement.
 - **If GRANTEE assigns or otherwise conveys its interest or rights hereunder to another, GRANTEE shall provide GRANTOR contact information within thirty (30) days of assignment.** Until GRANTOR receives such notice in writing from GRANTEE, notice to the above address shall be deemed sufficient for purposes of this Agreement.

BINDING EFFECT: Provisions of the Exhibit are binding upon the GRANTOR and GRANTEE, their heirs, assigns and estates.

PROJECT: DAPL/Dakota Access Pipeline 30"

TRACT NUMBER: ND-DU-038.000

PARCEL ID: 011101000

COUNTY: Dunn

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 17 December, 2014, is between **Gary L. Klatt**, whose mailing address is 129 101st Avenue Northwest, Dunn Center, ND 58626, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 319.31 acres of land, more or less, situated in the E 1/2 of Section 30, Township 146 North, Range 94 West, Dunn County, North Dakota, more particularly described in Warranty Deed dated May 14, 2007, from Gary L. Klatt and Mary Klatt, husband and wife to Gary L. Klatt and Mary Klatt, as joint tenants with right of survivorship, recorded as Document #3022015, Office of the Recorder, Dunn County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

By _____

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

EASEMENT

Lisa Guenther, Dunn County Recorder

By _____

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated October 27, 2015, is between Kent G. Carlson and Jocelyn A. Carlson, husband and wife, whose mailing address is 550 Lincoln Street NW, Killdeer, ND 58640 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities described as facilities directly necessary and related to operation and maintenance of the Pipeline , in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 634.26 acres of land, more or less, situated in All of Section 29, Township 146 North, Range 94 West, Dunn County, North Dakota, more particularly described in that Warranty Deed dated October 02, 2008 from Kent G. Carlson and Jocelyn A. Carlson, husband and wife, to Kent G. Carlson and Jocelyn A. Carlson, husband and wife, as tenants in common, recorded as Document Number 3032053 in the Office of the Recorder, Dunn County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

PIPELINE EASEMENT \$31.00
 Lisa Guenther, Dunn County Recorder
 By _____

3078449

Page: 2 of 8

12/1/2015 12:44 PM

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. Appurtenant facilities shall be defined for the purposes of this Easement Agreement as any facilities directly necessary for the construction, operation and maintenance of the Pipeline and specifically excludes any hazardous waste storage and residential housing of any kind. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Construction shall commence within three (3) years after receipt of all permits necessary to construct the pipeline. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Grantee agrees to bury and locate the above referenced thirty (30) inch pipeline not less than four (4) feet below the surface of the land.

3. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. However, Grantee shall make reasonable effort to mitigate damages to and restore any water sources on the land including, but not limited to, lakes, ponds, streams, rivers, springs, or wells.

4. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to the construction, operation and maintenance of the Pipeline, to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely

PIPELINE EASEMENT \$31.00

3078449

12/1/2015 12:44 PM

By _____

located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance. Any Access Easements will be, where possible, located on existing roads, paths or trails and the Pipeline Easement and may not otherwise be located across cultivated land. Grantee shall be responsible for all improvements and maintenance on said Access Easements at their sole expense for so long as they should use said Access Easements. Once Grantee has stopped using these Access Easements, said Access Easements shall be left for the use of the Grantor. After the pipeline has been fully constructed, Grantor, their tenants, agents, successors and assigns and anyone with their permission may use and travel upon these Access Easements; provided, however, the entity causing any damages to the Access Easement shall be solely responsible for the immediate repair of such damages.

5. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Grantor reserves the right to seek reimbursement for any post construction damages, surface or otherwise, to property located outside of the boundaries of the easements at any time thereafter. Grantee shall additionally compensate Grantor for any damages outside of the designated Easement Areas which are a direct result of Grantee's actions during construction, or at any other time. The said additional compensation, such as but not limited to crop damage, crop loss, or pasture loss will be at fair market value.

6. During construction of the pipeline and Access Easements, Grantee shall separate the topsoil and subsoil affected by such construction and restore the land so affected back to its original condition. Grantee shall be required to keep the property at all times free and clear of any debris, garbage, and trash. Any rocks 4" or greater in diameter dug up or removed on cultivated or non-cultivated land must be stock piled adjacent to the boundaries of the Pipeline Easement in a separate area on non-cultivated land designated by the Grantor.

7. Grantee shall use standard engineering practices for regularly monitoring pipeline integrity. In case of an emergency, Grantee shall notify Grantor of the emergency and appropriate response plan.

8. Grantee shall adhere to all applicable state, federal, administrative, and local statutes and regulations, including environmental statutes and regulations, in the building, operating, and maintenance of this Pipeline and any appurtenant facilities related thereto.

9. Grantee, its agents, successors, assigns, employees, etc. shall be expressly prohibited from hunting, fishing, camping, or participating in any type of recreation on the land and Easement Areas.

10. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement. Grantee shall reclaim and maintain the Easement Areas after construction, seeding grass, filling in any cave-ins, restoring any wind and/or water erosion, and shall spray and control noxious weeds as may be provided in the North Dakota Reclamation regulations established for Grantee's Pipeline. Said reclamation needs to be completed within a reasonable period after completion of construction of said Pipeline as provided in said reclamation regulations. Should Grantee fail to reclaim or maintain the Easement Areas after receipt of not less than sixty (60) days prior notice unless a force majeure event requires a longer period, Grantor may arrange and pay for such reclamation or maintenance and Grantee shall be responsible to reimburse Grantor for such actual expense.

11. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

12. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

13. Grantee has the right to trim and/or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successor and assigns, as may be necessary to prevent possible interference with the rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

14. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

15. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

16. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

17. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees. Grantee shall indemnify, defend and hold harmless Grantor from any and all claims, demands, cause of action, or liability for damages, loss or injuries that may arise out of the negligent acts or omissions of Grantee in carrying out its operations on the land. Grantor shall not be responsible, nor be held liable in any way, for the environmental problems or damages created by, or resulting from the negligent acts or omissions of Grantee in carrying out its operations upon said lands. Grantee agrees to comply with all federal, state and local regulations. Grantee agrees to indemnify and hold harmless the Grantor from any and all environmental liability, claims, and/or damages caused by the negligent acts or omissions of Grantee in carrying out its maintenance, construction or operations. Grantee shall pay any and all costs of environmental remediation to remediate those environmental damages so caused by Grantee.

18. Should Grantee fail to lay a Pipeline within five (5) years from the date that Grantee has acquired all permits necessary to construct the Pipeline, the Easement is considered abandoned, and said Easement is terminated. If a Pipeline is constructed on said Easement, but no permissible substance, as specified within this Agreement, has flowed through said Pipeline at any time for a period of two (2) years, said Pipeline is considered abandoned, the Easement is terminated, and the Grantee must remove any and all pipeline structures and appurtenant facilities erected upon said Easement premises, and the reclamation provisions of the North Dakota Reclamation regulations established for Grantee's pipeline and time lines therein shall govern.

19. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in force for a period of 99 years, and provisions of this Agreement, including all benefits and burdens, shall run with the land for that term, unless terminated pursuant to the terms set forth herein. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

20. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

21. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws. The parties agree that any legal dispute shall be venued in the Southwest Judicial District of North Dakota State District Court, County of Dunn.

22. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

23. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

24. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

MEMORANDUM OF EASEMENT AGREEMENT

THIS MEMORANDUM OF EASEMENT AGREEMENT is to provide notice of that certain EASEMENT AGREEMENT ("Easement") dated 3-3, 2016, by and between George S. Tuhy and Gertrude Tuhy, husband and wife, Sellers, Thomas L. Tuhy, Buyer, whose mailing address is 9949 1st Street, Dunn Center, ND 58626, (hereinafter referred to as "Grantor," whether one or more), and Dakota Access, LLC, whose address is 1300 Main Street, Houston, Texas 77002 (hereinafter referred to as "Grantee").

PLEASE TAKE NOTICE AS FOLLOWS:

1. Capitalized terms contained herein and not otherwise defined herein shall have the meanings given to such terms in the Easement Agreement.

2. The Easement Agreement grants to Grantee a Right-of-Way for the purposes constructing, maintaining, repairing, and removing at will one steel crude oil transmission pipeline not to exceed thirty inches (30") in diameter together with all fittings, cathodic protection equipment, pipeline markers, and all other equipment, facilities, and appurtenances used or useful in connection with the foregoing pipeline (collectively "Pipeline Facilities"), along routes convenient for Grantee's operations, on, over, under, across and/or through certain land in the following tracts ("the Premises") located in Dunn County, State of North Dakota:

Township 146 North, Range 94 West
Section 28: SW¼

("Subject Lands") and more specifically described or depicted on the plat or survey attached as Exhibit A to this Memorandum of Easement Agreement.

3. The Easement Agreement grants to Grantee a 99-year easement for the Right-of-Way described and depicted in Exhibit A, as well as the right to use, on a temporary basis, workspace adjacent to the Right-of-Way so as to allow Grantee to exercise any of the rights granted to Grantee in the Easement Agreement.

4. This Memorandum of Easement Agreement is placed of record in the county in which the Subject Lands are located for the purpose of placing all persons on notice of the existence of the Easement Agreement.

5. An executed copy of the Easement Agreement with all exhibits attached is on file in the office of the Grantee at the above-referenced address.

6. The terms and conditions of the Easement Agreement are incorporated by reference into this Memorandum of Easement Agreement as if fully set forth herein.

7. This Memorandum of Easement Agreement is executed by Grantee as of the date of the acknowledgment of the signature below, but is effective for all purposes as of the date of the Easement Agreement.

Prepared by and Return to:

Micah Rorie, Dakota Access, LLC, 2403 East Thayer Avenue, Bismarck, ND 58501, (701) 660-3835

PROJECT: DAPL/Dakota Access Pipeline 30"

TRACT NUMBER: ND-DU-041.000

PARCEL ID: 01-1093-000

COUNTY: Dunn

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated AUGUST 13, 2015, is between Corrine M. Olson, as Trustee of the Corrine M. Olson Family Surface Trust, whose mailing address is 10033 2nd Street Northwest, Dunn Center, ND 58626 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 158.73 acres of land, more or less, situated in the W½E½, less 1.27 acres, of Section 28, Township 146 North, Range 94 West, Dunn County, North Dakota, more particularly described in that Quit Claim Deed dated May 17, 2013 from Corrine M. Olson, a single person, to Corrine M. Olson, as Trustee of the Corrine M. Olson Family Surface Trust, recorded as Document Number 3065716 in the Office of the Recorder, Dunn County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

PIPELINE EASEMENT

\$28.00

3077859

Page: 2 of 7

Lisa Guenther, Dunn County Recorder

10/12/2015 9:00 AM

By _____

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

By _____

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in

fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-I and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

COUNTY: Dunn

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 23 march, 2015, is between **Benjamin A. Reckard and Pamela Reckard, husband and wife**, whose mailing address is **149 99TH Avenue Northwest, Dunn Center, ND 58626**, (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty inches (30")** in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 793.56 acres of land, more or less, situated in the E1/2E1/2 of Section 28; and All of Section 27, Township 146 North, Range 94 West, Dunn County, North Dakota, more particularly described in Quit Claim Deed dated July 18, 2006 from Dorothy Reckard Light, a widow to Ben A. Reckard and Pamela Reckard, husband and wife, as joint tenants, recorded under Document #3019936, Office of the Recorder, Dunn County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor

By _____

(or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

19. Grantee agrees that it will make a reasonable effort to remove any and all rocks greater than four inches (4") in diameter uncovered or encountered during the digging process from the surface of the excavated easement. These shall, upon completion of the construction process, either be (i) removed from the premises, or (ii) buried underground to a depth of at least two feet (2').

20. During construction of the pipeline, Grantee shall haul off of the Easements on a regular basis all litter and debris caused by Grantee that are not an integral part of the pipeline. Grantee shall not permit such debris to encroach and remain upon Grantor's adjacent lands.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 20 March, 2015, is between James R. Connolly and Janet L. Connolly and James M. Connolly, Trustees, or their successors in trust, under the Janet L. Connolly Living Trust, dated March 2, 2004, whose mailing address is 1771 County Rd 5, South Golden Valley, ND 58541 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 240 acres more or less, being situated in the West half of the Southwest Quarter of Section 25, and South half of the South half of Section 26, both in Township 146 North, Range 94 West, Dunn County, North Dakota, and as more particularly described in Quit Claim Deed dated November 27, 2004 from James Michael Connolly and Janet Connolly, husband and wife to Janet L. Connolly and James M. Connolly, Trustees, or their successors in trust, under the Janet L. Connolly Living Trust, dated March 2, 2004, grantee, recorded on December 14, 2004 in Recorder's File No. 3011385; Book 138, page 56 in Dunn County Recorder's Office, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

 5/6/2015 1:47 PM

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and adjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the

Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantor agrees that the consideration paid by Grantee in this agreement includes the cost of any necessary weed control measures (should such exist) that may arise as a result of Grantee's initial construction of its pipeline. Grantor agrees to be responsible for such weed control at Grantor's discretion.

12. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

13. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

16. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

17. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

18. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

19. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 31 July, 2015, is between William R. Connolly and Connie C. Connolly, husband and wife, Life Estate, William Patrick Connolly, Robert Allan Connolly and Wendy Marie Devier, Remaindermen, whose mailing address is 298 19th Avenue West, Dickinson, ND 58601, (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 80 acres of land, more or less, situated in the East half of the Southwest quarter (E1/2SW1/4) in Section 25 in Township 146 North, Range 94 West, Dunn County, North Dakota, and as more particular described in Quit Claim Deed dated, April 17, 2007 from William R. Connolly and Connie C. Connolly, husband and wife, to William Patrick Connolly, Robert Allan Connolly and Wendy Marie Devier recorded on June 13, 2007 in Recorder's File No. 3022410; Book 135, page 237 in Dunn County Recorder's Office, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

c. Grantee will bury the pipelines laid hereunder with a cover of at least forty-eight inches (48") from the top of the pipe to the surface of the ground; except it shall be buried not less than twenty-four inches (24") through rock;

d. Grantee agrees that it will make a reasonable effort to remove any and all rocks greater than three inches (3") in diameter uncovered or encountered during the digging process from the surface of the excavated easement. These shall, upon completion of the construction process, either be (i) removed from the premises, or (ii) buried underground to a depth of at least two feet (2').

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional

 CEC

By _____

drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. If the pipeline ceases to be used or useful for a continuous period of two years, such that all pipelines are abandoned, the Easement granted herein will terminate and merge into fee estate. Abandonment will be deemed effective when the governing body having jurisdiction at the time has accepted and approved of the abandonment of the facilities described herein. At the option of Grantee, Grantee shall have the right to abandon the subsurface pipeline facilities in place or the right and privilege to remove the pipeline facilities. In the event Grantee elects to remove the subsurface pipeline facilities, Grantee shall restore the surface of the Easement as near as is reasonably practicable to its condition prior to such removal.

14. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be ninety nine years (99) and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

15. In accordance with the provisions of Section 47-05-02.1 of the North Dakota Century Code, the duration of the easement granted herein is limited to ninety nine (99) years.

16. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

17. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

18. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

19. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

20. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this

COUNTY: Dunn

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 10-26, 2015, is between David Bice and Gale D. Bice, whose mailing address is 28 Highway 22, Killdeer, ND 58640 (hereinafter referred to as "Grantor", whether one or more), and Dakota Access, LLC whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed thirty inches (30") in nominal diameter, and any appurtenant facilities described as facilities directly necessary and related to operation and maintenance of the Pipeline, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 320 acres of land, more or less, situated in the E½ of Section 25, Township 146 North, Range 94 West of the 5th P.M., County of Dunn, State of North Dakota, more particularly described in Quit Claim Deed dated March 12, 2010, from David Bice, a/k/a Duane David Bice and Gale D. Bice, husband and wife, to David Bice and Gale D. Bice, as tenants in common, recorded under Document Number 3042140, Office of the Recorder, Dunn County, North Dakota, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new **Exhibit A-1** that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. Appurtenant facilities shall be defined for the purposes of this Easement Agreement as any facilities directly necessary for the construction, operation and maintenance of the Pipeline and specifically excludes any hazardous waste storage and residential housing of any kind. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Construction shall commence within three (3) years after receipt of all permits necessary to construct the pipeline. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Grantee agrees to bury and locate the above referenced thirty (30) inch pipeline not less than four (4) feet below the surface of the land.

3. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project. However, Grantee shall make reasonable effort to mitigate damages to and restore any water sources on the land including, but not limited to, lakes, ponds, streams, rivers, springs, or wells.

4. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to the construction, operation and maintenance of the Pipeline, to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely

located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance. Any Access Easements will be, where possible, located on existing roads, paths or trails and the Pipeline Easement and may not otherwise be located across cultivated land. Grantee shall be responsible for all improvements and maintenance on said Access Easements at their sole expense for so long as they should use said Access Easements. Once Grantee has stopped using these Access Easements, said Access Easements shall be left for the use of the Grantor. After the pipeline has been fully constructed, Grantor, their tenants, agents, successors and assigns and anyone with their permission may use and travel upon these Access Easements; provided, however, the entity causing any damages to the Access Easement shall be solely responsible for the immediate repair of such damages.

5. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline. Grantor reserves the right to seek reimbursement for any post construction damages, surface or otherwise, to property located outside of the boundaries of the easements at any time thereafter. Grantee shall additionally compensate Grantor for any damages outside of the designated Easement Areas which are a direct result of Grantee's actions during construction, or at any other time. The said additional compensation, such as but not limited to crop damage, crop loss, or pasture loss will be at fair market value.

6. During construction of the pipeline and Access Easements, Grantee shall separate the topsoil and subsoil affected by such construction and restore the land so affected back to its original condition. Grantee shall be required to keep the property at all times free and clear of any debris, garbage, and trash. Any rocks 4" or greater in diameter dug up or removed on cultivated or non-cultivated land must be stock piled adjacent to the boundaries of the Pipeline Easement in a separate area on non-cultivated land designated by the Grantor.

7. Grantee shall use standard engineering practices for regularly monitoring pipeline integrity. In case of an emergency, Grantee shall notify Grantor of the emergency and appropriate response plan.

8. Grantee shall adhere to all applicable state, federal, administrative, and local statutes and regulations, including environmental statutes and regulations, in the building, operating, and maintenance of this Pipeline and any appurtenant facilities related thereto.

9. Grantee, its agents, successors, assigns, employees, etc. shall be expressly prohibited from hunting, fishing, camping, or participating in any type of recreation on the land and Easement Areas.

10. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement. Grantee shall reclaim and maintain the Easement Areas after construction, seeding grass, filling in any cave-ins, restoring any wind and/or water erosion, and shall spray and control noxious weeds as may be provided in the North Dakota Reclamation regulations established for Grantee's Pipeline. Said reclamation needs to be completed within a reasonable period after completion of construction of said Pipeline as provided in said reclamation regulations. Should Grantee fail to reclaim or maintain the Easement Areas after receipt of not less than sixty (60) days prior notice unless a force majeure event requires a longer period, Grantor may arrange and pay for such reclamation or maintenance and Grantee shall be responsible to reimburse Grantor for such actual expense.

11. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacings, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

12. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

13. Grantee has the right to trim and/or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successor and assigns, as may be necessary to prevent possible interference with the rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

14. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

15. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

16. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

17. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees. Grantee shall indemnify, defend and hold harmless Grantor from any and all claims, demands, cause of action, or liability for damages, loss or injuries that may arise out of the negligent acts or omissions of Grantee in carrying out its operations on the land. Grantor shall not be responsible, nor be held liable in any way, for the environmental problems or damages created by, or resulting from the negligent acts or omissions of Grantee in carrying out its operations upon said lands. Grantee agrees to comply with all federal, state and local regulations. Grantee agrees to indemnify and hold harmless the Grantor from any and all environmental liability, claims, and/or damages caused by the negligent acts or omissions of Grantee in carrying out its maintenance, construction or operations. Grantee shall pay any and all costs of environmental remediation to remediate those environmental damages so caused by Grantee.

18. Should Grantee fail to lay a Pipeline within five (5) years from the date that Grantee has acquired all permits necessary to construct the Pipeline, the Easement is considered abandoned, and said Easement is terminated. If a Pipeline is constructed on said Easement, but no permissible substance, as specified within this Agreement, has flowed through said Pipeline at any time for a period of two (2) years, said Pipeline is considered abandoned, the Easement is terminated, and the Grantee must remove any and all pipeline structures and appurtenant facilities erected upon said Easement premises, and the reclamation provisions of the North Dakota Reclamation regulations established for Grantee's pipeline and time lines therein shall govern.

19. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in force for a period of 99 years, and provisions of this Agreement, including all benefits and burdens, shall run with the land for that term, unless terminated pursuant to the terms set forth herein. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

20. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

21. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws. The parties agree that any legal dispute shall be venued in the Southwest Judicial District of North Dakota State District Court, County of Dunn.

22. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

23. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

24. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.

EXECUTED this 26 day of October, 2015.

Prepared by and Return to:

Micah Rorie, Dakota Access, LLC, 2403 East Thayer Avenue, Bismarck, ND 58501, (701) 660-3835

PROJECT: DAPL/Dakota Access Pipeline 30"

TRACT NUMBER: ND-DU-049.000

PARCEL ID: 010791000, 010792000

COUNTY: Dunn

EASEMENT AGREEMENT

This easement agreement ("Agreement"), dated 27 March, 2015, is between **Ralph Howard and Patricia Howard, as joint tenants and not as tenants in common**, whose mailing address is **9479 Main Street Northwest, Dunn Center, ND 58626** (hereinafter referred to as "Grantor", whether one or more), and **Dakota Access, LLC** whose mailing address is 1300 Main Street, Houston, Texas 77002, and its successors and assigns (such entity and its successors and assigns are collectively referred to as the "Grantee"). For the consideration of TEN AND No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby grants, sells and conveys unto Grantee (i) a fifty foot (50') wide free and unobstructed permanent pipeline easement ("Pipeline Easement"), as more particularly described below, (ii) a temporary construction easement one hundred feet (100') in width and any such additional areas indicated on the Exhibit A more particularly described below ("Temporary Construction Easement"), and (iii) an easement not to exceed twenty five feet (25') in width for access to and from the Pipeline Easement and the Temporary Construction Easement ("Access Easement"). The Pipeline Easement, the Temporary Construction Easement, and the Access Easement (collectively, the "Easements") are being granted, sold, and conveyed from Grantor to Grantee for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will one pipeline not to exceed **thirty inches (30")** in nominal diameter, and any appurtenant facilities, in, over, through, across, under, and along land owned by the Grantor (hereafter the "Grantor's Property"), which is more particularly described as follows:

All that certain lot, tract or parcel of land, containing 154.600 acres more or less, being Lot 3 and Lot 4 and the East half of the Southwest Quarter (E1/2SW1/4), and the Southeast Quarter (SE1/4) in Section 30, Township 146 North, Range 93 West, Dunn County, North Dakota, and as more particularly described in Warranty Dccd- Individual to Joint Tenants dated, October 14, 1981 from Harold L. Howard and E. Verne Howard, husband and wife, to Ralph J. Howard and Patricia Howard, as joint tenants and not as tenants in common, recorded on October 23, 1981 in Recorder's File No. 147650; Book 86, page 733 in Dunn County Recorder's Office, less and except any conveyances heretofore made.

Exhibit A attached hereto is a sketch drawn on a sketch or image of all or part of the Grantor's Property showing the approximate location of the Pipeline Easement, Temporary Construction Easement, and Access Easement. The precise location of the Temporary Construction Easement or "workspace" will be in an area immediately adjacent to the planned or actual Pipeline Easement and shall not exceed one hundred feet in width exclusive of the Pipeline Easement, and any such additional areas indicated on Exhibit A, if any.

Within one hundred eighty (180) days following the completion of construction of the pipeline, Grantee shall supplement Exhibit A with a new Exhibit A-1 that will (a) show the definite location of the installed pipeline as determined by an as-built survey, and (b) provide the legal description of the definite location of the Pipeline Easement and the Access Easement. Unless otherwise indicated on Exhibit A-1 or in the event Grantee does not provide Exhibit A-1, the parties hereto agree that the Pipeline Easement Premises shall extend 25' outward in each direction at a 90 degree angle from the centerline of the pipeline as originally constructed. Grantor hereby agrees that Grantee shall have the right to and is hereby authorized, with or without the joinder of Grantor, to file Exhibit A-1 by affidavit, to amend this Agreement to include such new Exhibit A-1 or to attach such new Exhibit A-1 to this Agreement, and to record or re-record such affidavit, amendment or Agreement with the new Exhibit A-1. Grantee shall provide Grantor with a copy of the recorded affidavit, amendment or re-recorded Agreement.

It is further agreed as follows:

1. The right to use the Temporary Construction Easement and Pipeline Easement shall belong to the Grantee and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the purposes of accessing, establishing, laying, constructing, reconstructing, installing, realigning, modifying, replacing, improving, altering, substituting, operating, maintaining, accessing, inspecting, patrolling, protecting, repairing, changing the size of, relocating and changing the route or routes of, abandoning in place and removing at will, in whole or in part, a pipeline, for the transportation of oil, natural gas, natural gas liquids, hydrocarbon liquids, and the products thereof, together with below-ground appurtenances (and also for pipeline markers and cathodic protection test leads which Grantee is specifically allowed to install upon the surface of the Pipeline Easement) as may be necessary or desirable for the operation of the pipeline, over, across, under and upon the Grantor's Property.

a. Grantee shall have the right to select the exact location of the Pipeline Easement and the location of the pipeline within the Pipeline Easement, such that the centerline of the pipeline may not, in all instances, lie in the middle of the Pipeline Easement as it is approximately shown in Exhibit A; but regardless of the location of the pipeline, the Pipeline Easement shall not exceed fifty feet in width.

b. The Temporary Construction Easement or workspace will be used to construct one pipeline and any appurtenant facilities in, over, through, across, under, and along the Pipeline Easement area. The term of this Temporary Construction Easement shall be for a period to extend eighteen (18) months from the date of construction commencement. However, if Grantee has completed its use of this Temporary Construction Easement prior to the eighteen (18) month period and so states in writing, then the Temporary Construction Easement shall immediately terminate. Grantee shall have the right of ingress and egress over and across the Pipeline Easement (and the Temporary Construction Easement while in effect) to survey, conduct reasonable and necessary construction activities, to remove structures and objects located within the Pipeline Easement and the Temporary Construction Easement.

2. Further, Grantee shall have the right to construct, maintain and change slopes of cuts and fills within the Pipeline Easement Area to ensure proper lateral and subjacent support for and drainage for the pipeline and appurtenant facilities related to this pipeline project.

3. Grantee shall also have the non-exclusive right of unimpeded entry and access (hereafter "Access Easement") in, to, through, on, over, under, and across the Grantor's Property for all purposes necessary and at all times convenient and necessary to exercise the rights granted to it by this Agreement. The approximate location of the Access Easement, if it involves property other than the Pipeline Easement and any existing roads on Grantor's Property, may be shown on Exhibit A and definitely located and described on the subsequent as-built survey and Exhibit A-1. If Grantor erects any fences across the Access Easement or Pipeline Easement (if permitted in accordance with other terms and conditions of this Agreement), Grantor must install a gate, and if any gate across the Access Easement is locked, Grantor must supply Grantee with a key. Grantor shall allow Grantee to install its own lock if Grantee so chooses, provided that the method of locking the gates allows both Grantor and Grantee to use its/his/her own key or lock to open the gate without further assistance.

4. The consideration paid by Grantee in this agreement includes the market value of the Easements, both permanent and temporary, conveyed by Grantor and any and all damages to the Grantor's Property, excluding the Easements. Grantor has been paid (or, if leased, Grantor's tenant has been paid) for all damages caused to growing crops on the Pipeline Easement, Temporary Construction Easement, and Access Easement. However, Grantee will pay Grantor (or if leased to Grantor's tenant) for any damages caused to livestock due to Grantee's construction activities during the periods of the original construction of the pipeline.

5. Grantee will, insofar as practicable, restore the ground disturbed by the Grantee's use of the Pipeline Easement and will construct and maintain soil conservation devices on the Pipeline Easement as may be reasonably required to prevent damage to the property of Grantor from soil erosion resulting from operations of Grantee hereunder. Grantee shall leave the surface of the Temporary Construction Easement, Pipeline Easement, or Access Easement as nearly as reasonably possible as it was prior to the use of same and will restore all fences as nearly as possible to as good, or better, condition as they were prior to the use of said Easements and completion of the work for which said use was made, except for that part of the property within the Easements that is permanently altered in accordance with rights given under this Agreement.

6. Grantor may use the Easements for any and all purposes not inconsistent with the purposes set forth in this Agreement. Grantor's uses may include but shall not be limited to using those easement areas for agricultural, open space, set-back, density, street and roadway purposes, provided that any such use is not otherwise prohibited by applicable law and provided that such use does not cause a safety hazard or unreasonably interfere with Grantee's rights under this Agreement. Grantor is permitted, after review and approval by Grantee, to construct any and all streets and roadways, at any angle of not less than forty five (45) degrees to Grantee's pipeline, across the Pipeline Easement which do not damage, destroy or alter the operation of the pipeline and its appurtenant facilities. Grantor may also construct and/or install, upon Grantee's review and approval, water, sewer, gas, electric, cable TV, telephone or other utility lines across the Pipeline Easement at any angle of not less than forty five (45) degrees to Grantee's pipeline, provided that all of Grantee's required and applicable spacing, including depth separation limits and other protective requirements are met by Grantor. The use of the Pipeline Easement by Grantor shall be regulated by all appropriate ordinances, regulations, resolutions or laws of the governmental entity with authority over the Pipeline Easement. Grantor must notify Grantee in writing before streets, roadways, utilities or other encroachments are installed.

7. Grantor may not use any part of the Easements in a way that may damage, destroy, injure, and/or interfere with the Grantee's right to use said Easements for the purposes set forth in this Agreement. Grantor is not permitted to conduct any of the following activities on the Easements without the written permission of Grantee: (1) construct or permit the construction or installation of any temporary or permanent building or site improvements, other than streets and roads; (2) drill or operate any well; (3) remove soil or change the grade or slope; (4) impound surface water; or (5) plant trees or landscaping. Grantor further agrees that no above or below ground obstruction that may interfere with the purposes for which the Easements under this Agreement are being acquired may be placed, erected, installed or permitted to exist without the written permission of Grantee. In the event the terms of this paragraph are violated, such violation shall immediately be eliminated upon receipt of written notice from Grantee or Grantee shall have the immediate right to correct or eliminate such violation at the sole expense of Grantor. Grantor shall promptly reimburse Grantee for any expense related thereto. Grantor further agrees that it will not interfere in any manner with the purposes for which the easements under this Agreement are conveyed. Any improvements, whether above or below ground, installed by Grantor subsequent to the date that Grantee acquires possession of the Easements, may be removed by Grantee without liability to Grantor for damages.

8. Grantee has the right to trim or cut down or eliminate trees or shrubbery to the extent, in the sole judgment of Grantee, its successors and assigns, as may be necessary to prevent possible interference with its rights under this Agreement, including the operation of the pipeline and to remove possible hazards thereto, and the right to remove or prevent the construction of, any and all buildings, structures, reservoirs or other obstructions on the Easements which, in the sole judgment of the Grantee, may endanger or interfere with the efficiency, safety, or convenient operation of the pipeline and appurtenant facilities or use of the Easements.

9. Grantor shall retain all the rights to oil, gas, and other minerals in, on and under the Easements; provided, however, that Grantor shall not be permitted to drill or operate equipment for the production or development of minerals on the Easements, but it will be permitted to extract the oil and other minerals from and under the

RH pln

Easements by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Grantee's use of the Easements for the purposes for which the Easements are being sought by Grantee.

10. Upon completion of the project construction, permanent fencing destroyed or disturbed by project construction activities shall be installed by Grantee, at its sole expense, along the same alignment and approximate location of the Grantor's existing fences. Grantee and its designated contractors, employees and invitees agree to keep all gates in fences closed at all times so that cattle, horses and/or other livestock located on the remainder portion of Grantor's Property cannot stray from the fenced pastures.

11. Grantee agrees that after it has exercised its rights to use the Easements in any manner that disturbs the surface of the Easements, it will restore the surface to the condition in which it was in prior to the immediately preceding use of the Easement, except as the surface may be permanently modified in accordance with the rights granted under this Agreement.

12. Grantee hereby agrees to indemnify and hold Grantor harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use of the Easements by Grantee, its servants, agents or invitees, excepting, however, such claims, liabilities or damages as may be due to or caused by the acts of Grantor, or its servants, agents or invitees.

13. Grantee shall have the right to assign this Agreement, as amended from time to time, and the Easements granted under it, in whole or in part, to one or more assignees. The Pipeline Easement and Access Easement shall be in perpetuity, and provisions of this Agreement, including all benefits and burdens, shall run with the land. The undersigned Grantor(s) warrant(s) that it/he/she/they is/are the owner(s) of Grantor's Property and has/have authority to execute this Agreement on behalf of Grantor. Grantor hereby binds himself/herself/themselves/itself, his/her/their/its heirs, assigns, devisees, successors, and legal representatives to warrant and forever defend all and singular the above described Easements and rights, unto the said Grantee, and Grantee's successors and assigns, against every person whomsoever lawfully claiming or to claim the same, or any part thereof.

14. Notwithstanding any rule of law or equity, unless otherwise sold, bartered or conveyed to another party, the pipeline and all related infrastructure and facilities shall at all times remain the property of the Grantee notwithstanding that the pipeline or those facilities may be annexed or affixed to the freehold or abandoned in place by Grantee.

15. This Agreement and the Easements granted under it shall be interpreted in accordance with the laws of North Dakota and all applicable federal laws.

16. This Agreement may be signed in counterparts and all such counterparts shall be deemed as originals and binding upon each party executing any counterpart and upon his/her/their/its respective heirs, devisees, representatives, successors and assigns. This Agreement, Exhibit A, and subsequent Exhibit A-1 and the as-built survey, may be recorded in the real estate records of the county or counties where Grantor's Property lies.

17. This Agreement contains the entire agreement between the parties and there are not any other representations or statements, verbal or written, that have been made modifying, adding to, or changing the terms of this Agreement.

18. If any provision of this Agreement is invalid under any applicable statute or is declared invalid by a court of competent jurisdiction, then that provision shall be deemed to be severed herefrom and the remainder of this Agreement shall continue in full force and effect and shall be construed to the furthest extent legally possible so as to accomplish the purposes set forth in this Agreement.
